Chapter 1. Welcome 33

About ActionOI® ........................................................................................................................ 33
Proprietary Information .............................................................................................................. 34
Your User ID and Password ...................................................................................................... 34
System Requirements ............................................................................................................... 34
Browser Requirements ............................................................................................................. 34
Set Up Browser Security .......................................................................................................... 35
Browser Recommendations and Troubleshooting ................................................................. 36
Set Up Automatic Page Refresh ............................................................................................. 37

Chapter 2. About ActionOI Department Reference Manual (DRM) 38

ActionOI DRM Formats .......................................................................................................... 38
Who Should Read the DRM? ................................................................................................... 38
How the DRM is Organized ...................................................................................................... 39
Printing Individual Departments ............................................................................................. 39
Related Documentation ........................................................................................................... 39
Documentation Conventions .................................................................................................... 40

Working with the Acrobat (PDF) version of DRM ................................................................ 41
Finding Words in a PDF Document ......................................................................................... 41
Navigating to a Specific Page in a PDF Document ................................................................. 41
Printing the Entire Manual .................................................................................................... 42
Navigating with bookmarks .................................................................................................... 42
Downloading the Manual ....................................................................................................... 43

Additional Support Resources .............................................................................................. 43
Contacting Product Support ................................................................................................. 43
Providing Feedback to ActionOI ........................................................................................... 43
IBM Communities .................................................................................................................. 44
Customer Education & Training ............................................................................................ 44

Chapter 3. Prior Releases 45

2nd Quarter 2019 .................................................................................................................... 46
Content Updates ....................................................................................................................... 46
Product Updates ....................................................................................................................... 49

1st Quarter 2019 ..................................................................................................................... 51
Content Updates ....................................................................................................................... 51
Product Updates ....................................................................................................................... 57
Other Enhancements ............................................................................................................... 61

4th Quarter 2018 .................................................................................................................... 62
Content Updates ....................................................................................................................... 62
Request for Enhancements ....................................................................................................... 62
Product Updates ....................................................................................................................... 63

3rd Quarter 2018 .................................................................................................................... 65
Content Updates ....................................................................................................................... 65
Request for Enhancements ....................................................................................................... 66
Product Updates ....................................................................................................................... 68

Chapter 1. Welcome

Remaining competitive in today’s market requires that health care organizations identify ways to reduce costs and increase efficiency. The ActionOI® operational benchmarking database service provides the operational intelligence required to identify, examine, and improve organizational performance.

This chapter includes the following sections:

- About ActionOI® 33
- About ActionOI Department Reference Manual (DRM) 38
- Working with the Acrobat (PDF) version of DRM 40
- Additional Support Resources 43

About ActionOI®

Remaining competitive in today’s market requires health care organizations to identify ways to reduce costs and increase efficiency. The ActionOI® operational benchmarking database service provides the operational intelligence required to identify, examine, and improve organizational performance.

With detailed data from hundreds of health care organizations across the country, ActionOI establishes the foundation for sound performance improvement strategies by providing the information you need to make critical business decisions.

Your User ID and Password

To use ActionOI, you must have a customer ID, user ID, and password.

We assign a user ID to the ActionOI program coordinator. The program coordinator can begin using ActionOI or instead access the Data Collection application to assign user IDs and passwords.

Note: If you ever forget your password, it's easy to retrieve it. For steps, see If You Forget Your Password.

**Browser Requirements**

After you have checked the System Requirements, you are ready to configure your browser so you can begin using ActionOI. By configuring your browser correctly, you ensure that ActionOI performs as it should. Problems may result if your browser is not properly configured (for example, if your browser is set up with the wrong security level, you cannot use the browser to access ActionOI Data Collection).

ActionOI is compatible with Microsoft Internet Explorer versions 6 through 11.

Before using ActionOI, read and complete the steps in the following:
• **Set Up Automatic Page Refresh** (on page 37)

• Set Up Browser Security

• **Browser Recommendations and Troubleshooting** (on page 36)

## Set Up Browser Security

You must set up your browser’s security level to the right level for ActionOI.

If you are using Microsoft Internet Explorer versions 6 - 11, you must also set up your browser to accept third-party cookies from Web sites. Cookies are text-only files that identify users and allow Web sites such as ActionOI to prepare customized Web pages.

### To set up security

1. Open Internet Explorer.

2. Select **Tools > Internet Options**. The Internet Options window appears.

3. Click the Security tab, and then under Security content zone to specify its security settings, click Internet.

4. Click **Custom Level**.

5. Under Reset custom settings, click **Medium**. Click **OK**.

6. If the browser displays a dialog box that indicates you don’t have permission to change this setting, you can change the necessary settings individually. In the Settings box, configure the following in the appropriate sections:
   - ActiveX controls and plug-ins: Set Run ActiveX controls and plug-ins to **Enable**.
   - Script ActiveX controls marked safe for scripting: Set to **Enable**.
   - Downloads: Set File download to **Enable**.
   - Scripting: Set Active scripting to **Enable**.

7. Click **OK**. The Security Settings dialog closes.

8. Continue and read **Browser Recommendations and Troubleshooting** (on page 36).

## Browser Recommendations and Troubleshooting

In addition to the **Browser Requirements** (on page 35), note the following to avoid problems using ActionOI with your browser.

• **Do not use pop-up-blocking or ad-blocking software.**
Pop-up blocking software can prevent the correct display of ActionOI information, which can appear in a separate browser window. The software is popular since it can speed up Web site use. If you have pop-up blocking software installed with your browser, disable it while you use ActionOI to avoid problems. When you’re done using ActionOI, you can re-enable your pop-up blocking software.

- **Do not have more than one instance of an application window open at one time.**

  Often, ActionOI Data Collection clients want to use two or more separate sessions of the application simultaneously. We discourage this practice however as it can, and often does, lead to data corruption if the second window is not opened properly.

  If you need to work multiple windows, please open an entirely new instance of Internet Explorer and log in again.

  Logging in the second time is important because it ensures that the windows are completely independent sessions. If you open the second window using *Ctrl N*, or by *Window New*, the two windows will share information, such as the current department. If data is entered in the second window, it might be applied to the department that is shown in the first window which will increase the probability of data corruption.

**Set Up Automatic Page Refresh**

You must set up your browser so it will automatically check for new versions of ActionOI pages.

**To set up automatic page refresh**

1. Open Internet Explorer.
2. Select **Tools > Internet Options**. The Internet Options window appears.
3. Click the **General** tab, and then click **Settings**.
4. Under **Check for newer versions of stored pages**, select **Automatically**.
5. Click **OK**.
Chapter 2. About ActionOI Department Reference Manual (DRM)

The ActionOI Department Reference Manual (DRM) provides department definitions, normalization rules, and data elements used for data mapping.

ActionOI DRM Formats

This manual is provided in two types of formats, which are described in the following table.

<table>
<thead>
<tr>
<th>Format</th>
<th>Why Use this Format?</th>
</tr>
</thead>
<tbody>
<tr>
<td>HTML</td>
<td>• It provides all the advantages of an online system.</td>
</tr>
<tr>
<td></td>
<td>• It downloads more quickly than the PDF version.</td>
</tr>
<tr>
<td></td>
<td>• You can easily print entire departments, as described in Printing Individual Departments.</td>
</tr>
<tr>
<td>PDF</td>
<td>You can download the entire manual and use it even when you are not online, as described in Downloading the Entire Manual.</td>
</tr>
</tbody>
</table>

Who Should Read the DRM?

This manual provides information pertinent to the job of anyone who maps organizational cost centers to ActionOI departments or reads ActionOI reports. Typically, these users include:

- **Program Coordinator**—serves as the client staff member who is the primary administrator of the ActionOI application. Program coordinators are typically responsible for all phases of data collection, including uploading, data entry, normalizing, and mapping data.

  Program coordinators use DRM as a reference guide when mapping data. Program coordinators should also refer to ActionOI Data Collection User Guide for information about how to map data. This document is available on the ActionOI Support and Training page. To access this page, click Support at the top of the ActionOI page.

- **Department Manager**—oversees the operations of a department. Department managers typically read reports generated by ActionOI, and use the DRM as a reference guide when interpreting data in the reports.
How the DRM is Organized

The department series are listed alphabetically within the manual. Each department series contains multiple departments; these departments are listed by department ID number.

For more information about the department series, refer to What is a Department Series?

Printing Individual Departments

When mapping data or interpreting reports, you might find it helpful to print the contents of a single department to review offline. The HTML version of DRM is structured in a way that makes it easy for you to print the entire contents of an individual department.

To print a department
1. Access the HTML version of the manual.
   The manual launches in a browser.
2. In the Contents pane (the left pane), expand the appropriate department series and click the department name.
   The department information displays in the right pane.
3. Do one of the following:
   - In the upper right-hand corner of the browser frame, click the Print button; or
   - From the File menu, select Print.
   The department prints to the specified printer.

Related Documentation

The ActionOI documentation suite comprises the following documents:

- This document, the ActionOI Department Reference Manual (DRM)—provides department definitions, normalization rules, data elements, and worksheets for data mapping.

- ActionOI Security Users Guide—provides step-by-step instructions to assign roles to users, add and update users, add facility groups and add department groups. This guide is used by the facility's program coordinator.

- ActionOI Data Collection Users Guide—provides step-by-step instructions for all tasks needed to fulfill the data collection process.

These documents are available on the ActionOI Support and Training page. To access this page, click Support at the top of the ActionOI page.

Note: If you download or print ActionOI reference material (for example, the user's guides, or PDF version of the DRM), please bear in mind that new versions are published regularly which may render your printed material obsolete. Please check product Release Notes and the What's New in this Release section of the DRM to see if there are changes which affect your department so that you can print updated versions when needed.

Documentation Conventions

The following conventions are used:

<table>
<thead>
<tr>
<th>Convention</th>
<th>Meaning</th>
</tr>
</thead>
<tbody>
<tr>
<td>&gt;</td>
<td>This symbol connects items in a menu sequence.</td>
</tr>
<tr>
<td><strong>Bold</strong></td>
<td>Highlights items that can be selected in the ActionOI Data Collection interface, including buttons, menu items, or other information.</td>
</tr>
<tr>
<td><em>Italics</em></td>
<td>Highlights new or important terms, keywords and titles of books.</td>
</tr>
<tr>
<td>📝 <strong>Note</strong>:</td>
<td>This icon provides additional information about a subject.</td>
</tr>
<tr>
<td>📋 <strong>Tip</strong>:</td>
<td>This icon provides information that may improve product performance or make procedures easier to follow.</td>
</tr>
<tr>
<td>📖 <strong>Example</strong>:</td>
<td>This icon provides information to further clarify concepts.</td>
</tr>
<tr>
<td>🔴 <strong>Caution</strong>:</td>
<td>This icon provides information to alert you to a situation that can cause problems.</td>
</tr>
<tr>
<td>🤔 <strong>Shortcut</strong>:</td>
<td>This icon provides you with short cut keys to the certain function.</td>
</tr>
</tbody>
</table>
Working with the Acrobat (PDF) version of DRM

The portable document format (PDF) version of the DRM is ideal for users who want to download the entire manual. Like the HTML format, the PDF format provides a search tool and an index.

Finding Words in a PDF Document

You can use the Find command to find a complete word, part of a word, or a phrase in the current PDF document. Acrobat Reader looks for the word by reading every word on every page in the file, including text in form fields.

To find a word using the Find command

1. From the Acrobat Reader Edit menu, select Find.
   The Find dialog opens.
2. In the Find What field, enter the text to find.
3. (Optional) Select any of the find options:
   - Match Whole Word Only—Finds only occurrences of the complete word you enter in the text box. For example, if you search for the word tick, the words stick and tickle will not be highlighted.
   - Match Case—Finds only words that contain exactly the same capitalization you enter.
   - Find Backwards—Starts the search from the current page and goes backward through the document.
4. Click Find.
   Acrobat Reader finds the first occurrence of the word.

   Tip: To find the next occurrence of the word, click Find Again in the Find dialog. If the Find dialog is closed, select Find Again from the Edit menu, or press Ctrl+G

Navigating to a Specific Page in a PDF Document

You can navigate to a specific page using a variety of methods.

To jump to a page by its number

1. Do one of the following:
   - From the Document menu, choose Go To Page, enter the page number, and click OK.
   - Drag the vertical scroll bar until the number of the page you want to jump to is displayed.
• Select the current page number in the status bar, enter the page number to jump to, and press Return.

Printing the Entire Manual

You can print the entire document, specify a range of pages, non-consecutive pages, or a particular page area to print before opening the dialog box.

To print a PDF document
1. Do one of the following:
   • From the File menu, select Print; or
   • Click the Print button.
   The Print dialog opens.
2. From the Printer drop-down list, select the appropriate printer.
3. In the Print Range group box, do one of the following:
   • To print the entire PDF, select All.
   • To print only the page that is currently displayed, select Current Page.
   • To print a specific range of pages, select Pages from and enter the range.
4. Click OK. The PDF prints to the selected printer.

Navigating with bookmarks

Bookmarks provide a visual table of contents and usually represent the chapters and sections in a document. Bookmarks appear in the navigation pane on the left side of the Acrobat Reader window.

To browse using a bookmark
1. Show the Bookmarks pane.
   If bookmarks are not displayed, do one of the following:
   • Press F5, or
   • Click the Bookmarks tab to bring the palette to the front.
2. Click the appropriate bookmark to jump to a topic.
   Tip: You can make the Bookmark pane remain open after you click a bookmark. Click the Options menu at the top of the Bookmark pane, and make sure Hide After Use is not selected.
**Downloading the Manual**

The entire Department Reference Manual is provided in Acrobat PDF format, which you can download for offline viewing or display within the online Help.

**To download the PDF**

2. In the Acrobat tools menu as shown below, click the Save button. The Save As dialog opens.
3. Select or enter the appropriate location and name for the PDF.
4. Click Save. The PDF is downloaded to your computer.

**Additional Support Resources**

**Contacting Product Support**

Visit the Product Support Web site to submit issues, review the status of previously submitted issues or access product information through the Knowledge Base.

**Providing Feedback to ActionOI**

Use this page to submit suggestions and requests for enhancements to ActionOI. Please include your email address and contact information if you haven't entered it in your personal profile.

**To send feedback to ActionOI**

Select Feedback from the ActionOI main menu. ActionOI displays the Feedback page.

1. Enter your name, phone, and email address.
2. Enter information regarding the Web browser version you're using, your operating system, the ActionOI module concerned, and other information regarding the issue.
3. Enter your preferences around being contacted by IBM.

Click Submit. Or, click Cancel to cancel the operation.
IBM Communities

Visit the IBM Communities to communicate with your peers from hospitals across the country, trade best practices about IBM products and access industry experts. This premium resource is free for our customers.

Customer Education & Training

The Customer Education & Training team provides online training for a wide variety of IBM products. You can learn additional information about classes that are available for this product by clicking the Product Training link on the Support page of the IBM Web site.
Chapter 3. Prior Releases

The Department Reference Manual (DRM) is a dynamic document; it keeps pace with changes to ActionOI which in turn is responsive to the industry and to ActionOI clients. This Prior Releases section of the DRM will help you track these changes, providing you with information on new, deleted, and updated sections for recent releases. For changes in the current release, please see the Release Notes on the ActionOI portal page.
2nd Quarter 2019

This chapter includes the following sections:

- Content Updates 46
- Product Updates 49

Content Updates

The following updates were made to ActionOI this quarter.

Content Enhancements

Quality Management and Patient Safety Services

A comprehensive content review of the Quality Management and Patient Safety Services Series, specifically Infection Prevention and Control and Healthcare Epidemiology, was conducted and content changes have been implemented with this release.

Key highlights of the content updates can be found within the content information packet which has been posted to the ActionOI Documentation forum of the Advantage Community.

Offering Management will lead a training event to discuss these changes in detail. Be sure to register and attend this event scheduled for June 27th, 2019 to learn more and ask questions. We hope you will join us and encourage Infection Prevention and Control leaders to attend this session to hear about the upcoming changes to the content within the tool.

Request for Enhancements

The following updates to the ActionOI content set were made this release based on requests from users like you that utilized tools including but not limited to: Feedback, NPS surveys, and/or Product Support Portal.

Cardiovascular Services

04250, Electrophysiology – The formula for Procedures per Room per Day of Operation has been corrected. Originally the formula was: Total Procedures/Procedure Rooms/Days of Operation per Week. It has been corrected to be: Total Procedures/Procedure Rooms/Days of Operation per Week/# Weeks in Period. This correction has been applied to all applicable previous time periods.

Fiscal Services
05420, **Financial Decision Support and Planning** — the following indicators have been added to the following Stoplight Reports:

- Hours Worked per Cost Centers Maintained – Labor Productivity Stoplight report
- Labor Expense per Cost Centers Maintained – Labor Expense Stoplight Report
- Total Expense per Cost Centers Maintained – Total Expense Stoplight Report

**Imaging Services**

03470, **Outpatient Imaging** — the following characteristic survey questions have been added to the department:

- Does the department: Perform Diagnostic Radiology procedures
- Does the department: Perform Mammography procedures
- Does the department: Perform Interventional Radiology procedures
- Does the department: Perform CT procedures
- Does the department: Perform MRI procedures
- Does the department: Perform Ultrasound procedures
- Does the department: Perform Nuclear Medicine procedures
- Does the department: Perform Emergency procedures

**Nursing Services Series**

01710, **Observation Unit** — the following indicators have been added to the following Stoplight Reports:

- Hours worked per Equivalent Patient Day – added to Labor Productivity Stoplight Report
- Labor Expense per Equivalent Patient Day – added to Labor Expense Stoplight Report
- Medical Supply Expense per Equivalent Patient Day – added to the Medical Supply Stoplight Report
- Total Expense per Equivalent Patient Day – added to the Total Expense Stoplight Reports.

**Other Clinical Support Service**

04630, **Endoscopy (GI) Laboratory**:
The Characteristic Survey questions “Are 20% of Total Cases from pediatric (under 18) patients” was updated in the reporting module to read “Less than 20% of Total Cases from pediatric patients”.

The formula for Procedures per Room per Day of Operation has been corrected. Originally the formula was: Total Procedures/Procedure Rooms/Days of Operation per Week. It has been corrected to be: Total Procedures/Procedure Rooms/Days of Operation per Week/# Weeks in Period. This correction has been applied to all applicable previous time periods.

**Respiratory and Pulmonary Care Services**

The indicator “In House Transport Paid FTEs” has been obsoleted from the following departments:

- 04110, Respiratory Care
- 04130, Respiratory Care and Pulmonary Diagnostics Combined
- F4100, Respiratory and Pulmonary Care Functional Rollup

**Surgical Services**

The Characteristic Survey questions “Are 20% of Total Cases from orthopedic patients” was updated in the reporting module to read “Less than 20% of Total Cases from orthopedic patients” for the following departments:

- 03001, Surgical Services Combined Without Anesthesia
- 03011, Operating Room
- 03020, Post Anesthesia Care Unit (PACU)
- 03030, Surgery Pre Op and Post Recovery Only
- 03035, Pre Op/PACU/Post-Op Combined
- 03040, Ambulatory Surgery Center
- F3000, Surgical Services Functional Rollup

The Characteristic Survey questions “Are 20% of Total Cases from open heart patients” was updated in the reporting module to read “Less than 20% of Total Cases from open heart patients” for the following departments:

- 03001 Surgical Services Combined Without Anesthesia
- 03011 Operating Room
- 03012 Cardiac Operating Room
The Characteristic Survey questions “Are 20% of Total Cases from pediatric (under 18) patients” was updated in the reporting module to read “Less than 20% of Total Cases from pediatric patients” for the following departments:

- 03001, Surgical Services Combined without Anesthesia
- 03011, Operating Room
- 03012, Cardiac Operating Room
- 03020, Post Anesthesia Care Unit (PACU)
- 03030, Surgery Pre Op and Post Recovery Only
- 03035, Pre Op/PACU/Post-Op Combined
- 03040, Ambulatory Surgery Center
- 03060, Anesthesia
- 04630, Endoscopy (GI) Laboratory
- F3000, Surgical Services Functional Rollup

**Product Updates**

**Character Response Report**

The Character Response Batch Report and Multi Facility Batch Report has been updated to include two new columns:

- Department Instance ID
- Data Element ID

A CSV export option is now available for the Character Response Batch Report for both the single-file and multi-file report formats.

**New Password Requirements**

The new password requirements will be enforced for all users.

The requirements for new passwords include following criteria:

- Minimum of 15 characters
• Contain at least one uppercase alphabetic
• Contain at least one lowercase alphabetic
• Contain at least one numeric
• Contain at least one special character
• It must not contain your ActionOI user ID

PLEASE NOTE:

Existing users will be required to use these requirements upon the next password reset.
1st Quarter 2019

This chapter includes the following sections:

- Content Updates 51
- Product Updates 57
- Other Enhancements 61

Content Updates

The following updates were made to ActionOI this quarter.

Content Enhancements

Dialysis

The definition extension for Conventional Treatments, High Efficiency or High Flux Treatments and Peritoneal Treatments has been changed from “This is a subset of Treatments” to “This is a component of Treatments”. This is a change only to the definition extension. No other functionality has been impacted.

Emergency Services

The data element "Walkouts" has been changed from being a sub-set of Patient Registration to being a stand-alone element in the following departments:

- 02010, Emergency Department
- 02020, Urgent Care Center Hospital Based
- 02021, Urgent Care Center Non Hospital Based

This is a change only to the definition extension. No other functionality has been impacted.

Nursing Services Series

We have modified the element definition for “Total Reported Pressure Ulcers” to reflect the intended count of reported pressure ulcers rather than patients. The modified element definition is:

“Total number of pressure ulcers Stage II or greater identified and recorded during the reporting period. Include pressure ulcers initially acquired in the hospital, in the community, or from an unknown origin.”
This change impacts the following departments:

- 00300, Quality Indicators
- All nursing units where this data element exists.

05810, Social Work

The indicator Skill Mix: Social Work Aides and Technicians % was added to department 05810, Social Work.

Content Reporting Enhancements

We have corrected the volume measure for Adjusted Discharges in the Total Expense Stoplight Report & the Labor Expense Stoplight in the following departments (there is no additional work required by the user). This correction was applied to all previous periods where applicable.

Labor Expense AWI Adjusted per Adjusted Discharge

05510  Enterprise Information Services
05520  Voice and Data Network
05530  Call Center / Switchboard
05540  Telecom Switchboard Combined
05550  Informatics
05560  Help Desk and Desktop Support
F5500  Information Technology and Telecommunications Functional Rollup
03350  Laboratory Services: Clinical Operations and Blood Bank Combined
03370  Laboratory Services: Clinical Operations Combined
03371  Laboratory Services: Clinical Operations Core Lab Only
03372  Laboratory Services: Clinical Operations - Specialty Labs Only
03380  Laboratory Services: Anatomic Pathology
03390  Laboratory Services: Blood Bank
F3300  Laboratory Services Functional Rollup
05110  Patient Food Services
05111  Clinical Nutrition Services
05112  Patient and Nonpatient Food Services
F5100  Food and Nutrition Services Functional Rollup
05210  Environmental Services and Linen Distribution
05211  Environmental Services
05220  Laundry and Linen In-house Reprocessing
05640  Health Information Management with Medical Transcription
05641  Health Information Management without Transcription
05642  Medical Transcription
05645  Disease Registries
05810  Social Work
05820  Utilization Management
05825  Quality Management
05830  Case Management / Utilization Management
05840  Case Management
05850  Clinical Resource Management
05860  Case Management / Social Work
05910  Security
06110  Combined Marketing, Communications, Strategic Planning and Public/Comm Relations
06120  Marketing
06130  Internal Communications
06140  Public Relations
06150  Community Relations

06160  Strategic Planning and Business Development

F6100  Marketing, Communications, Strat Plan, Public/Comm Relations Functional Rollup

06210  Clinical Staff Education

06215  Medical Staff Education

06220  Non-clinical Staff Education

06230  Staff Education Combined

06235  Organizational Development

06240  Learning Technologies

06250  Patient and Family Education

06260  Community Education and Outreach Services

F6200  Educational Services Functional Rollup

**Total Expense AWI Adjusted per Adjusted Discharge**

05810  Social Work

05820  Utilization Management

05825  Quality Management

05830  Case Management / Utilization Management

05840  Case Management

05850  Clinical Resource Management

05860  Case Management / Social Work

06210  Clinical Staff Education

06215  Medical Staff Education

06220  Non-clinical Staff Education
06230  Staff Education Combined
06235  Organizational Development
06240  Learning Technologies
06250  Patient and Family Education
06260  Community Education and Outreach Services
F6200  Educational Services Functional Rollup
05210  Environmental Services and Linen Distribution
05211  Environmental Services
05220  Laundry and Linen In-house Reprocessing
05110  Patient Food Services
05111  Clinical Nutrition Services
05112  Patient and Nonpatient Food Services
F5100  Food and Nutrition Services Functional Rollup
F6000  Human Resource Services Functional Rollup
05530  Call Center / Switchboard
05540  Telecom Switchboard Combined
05550  Informatics
05560  Help Desk and Desktop Support
F5500  Information Technology and Telecommunications Functional Rollup
03350  Laboratory Services: Clinical Operations and Blood Bank Combined
03370  Laboratory Services: Clinical Operations Combined
03371  Laboratory Services: Clinical Operations Core Lab Only
03372  Laboratory Services: Clinical Operations - Specialty Labs Only
The previous calculation was utilizing “Adjusted Discharges Supported” as the volume measure.

Requests for Enhancements

The following updates to the ActionOI content set were made this release based on requests from users like you that utilized tools including but not limited to: Feedback, NPS surveys, and or product support portal.

Labor and Delivery Departments

The data element “Visits” has been made mandatory in the following departments:

- 01270, Labor/Delivery/Recovery/Postpartum/Nursery
- 01271, Labor/Delivery/Recovery/Postpartum Unit
Prior Releases

• 01285 Labor/Delivery with Recovery

A characteristic survey question was added to these departments to assist in identifying Labor and Delivery departments that support or operate as an Obstetrical Emergency Department (OBED):

• Does the department: Support the function of or operate as an Obstetrical Emergency Department (OBED)?

Annual Worksheet Updates

We have completed the 2019 annual updates to the following worksheets and they are now available on the Support Tab:

• APC and Work RVU Worksheet
• Cardiology and Vascular Procedure Subset
• Imaging Services Procedure Subset
• Infusion Therapy Procedure Subset
• Laboratory Services Billed Test Subset Worksheet
• Radiation Therapy Procedure Subset

The ActionOI Intensity Score Workbook for Supply and Pharmacy was made available with the December 2018 release. Please be sure to download this latest version to accurately report the intensity scores for your organization which reflect updated weights for discharges on or after October 1st, 2018.

Product Updates

Key Volume Element Subset Population

We have automated the population for specific data elements that were previously manually entered once the external subset worksheets were completed.

This feature uses the data loaded in the key volume element population file to populate specific data elements based on: department mapping, cost center, and CPT code relationships for the below department series.

Cardiology and Vascular Services Series

04220, Combined Noninvasive Cardiology and Vascular Services

• Echocardiography Procedures
• Stress Test Procedures
• Electrocardiogram Procedures
• Holter Monitoring Procedures
• Nuclear Cardiology Imaging Procedures
• Vascular Procedures

04222, Electrocardiography

• Stress Test Procedures
• Holter Monitoring Procedures

04224, Echocardiography

• Stress Test Procedures
• Nuclear Cardiology Imaging Procedures
• Vascular Procedures

04230, Combined Invasive Cardiology and Vascular Services

• Percutaneous Coronary Intervention (PCI) Procedures
• Electrophysiology Procedures
• Ablation Procedures
• Electrophysiology Studies
• Permanent Pacemaker Procedures
• ICD Implant Procedures
• Biventricular Device Procedures
• Peripheral Vascular Procedures including Carotid Work
• Revascularization Procedures
• Interventional Radiology Procedures

04232, Invasive Cardiology and Vascular Laboratory with Electrophysiology

• Percutaneous Coronary Intervention (PCI) Procedures
• Peripheral Vascular Procedures including Carotid Work
• Revascularization Procedures
• Interventional Radiology Procedures

04250, Electrophysiology Laboratory

• Ablation Procedures
• Electrophysiology Studies
• Permanent Pacemaker Procedures
• ICD Implant Procedures
• Biventricular Device Procedures

Imaging Services Series

03410, Diagnostic Radiology Including Interventional Procedures

• Mammography Procedures
• Contrast Procedures

03411, Diagnostic Radiology Without Interventional Procedures

• Mammography Procedures
• Contrast Procedures

03412, Interventional Radiology

• Surgical Procedures

03420, Computerized Tomography

• Contrast Procedures
• Guided Procedures
• Surgical Procedures

03430, Magnetic Resonance Imaging

• Contrast Procedures
• Guided Procedures
  03450, Ultrasound

• Echocardiography Procedures
  03460, Nuclear Medicine

• Cardiovascular Procedures
• PET Procedures
• SPECT Procedures
  03470, Outpatient Imaging

• Mammography Procedures

Other Clinical Support Services Series
  04640, Hematology Oncology Infusion Therapy
  04642, Pediatric Hematology Oncology Infusion
  04640, Hematology Oncology Infusion Therapy
  04644, Hematology Infusion Therapy

• Infusions

Radiation Therapy Services Series
  04010, Radiation Therapy (Oncology)

• Treatments
• Inpatient Treatments
• Brachytherapy Treatments
• Medical Radiation Physics Plans & Simulations
  04020, Radiation Therapy (Gamma)

• Treatments
• Inpatient Treatments
• Medical Radiation Physics Plans

04030, Radiation Therapy (Proton)

• Treatments

• Inpatient Treatments

• Medical Radiation Physics Plans

**Key Volume Element Subset Report**

This report will provide a list of Standard Departments with values populated for specific data elements within the selected department and will provide details of the data contributing to these values. The data element totals are listed at the top of each standard department's report.

These totals reflect the information provided in the Key Volume Element Population upload file based on the cost center and CPT codes combination.

**Other Enhancements**

**Department Reference Manual**

• Removed obsoleted department 02217, Autism Clinic and 02250, Hand and Upper Extremity Clinics.

• Removed references to Worksheet Updates – these updates will be communicated via Release Notes and PC Communique.
4th Quarter 2018

This chapter includes the following sections:

• Content Updates  62
• Request for Enhancements  62
• Product Updates  63

Content Updates

Content Enhancements

Respiratory and Pulmonary Care Services Series

A comprehensive content review of the Respiratory and Pulmonary Care Services Series was conducted, and content changes have been implemented with this release.

Key highlights of the content updates can be found within the content information packet which has been posted to the ActionOI Documentation forum of the Advantage Community.

Offering Management will lead a training event to discuss these changes in detail. Be sure to register and attend this event scheduled for January 10th, 2019 to learn more and ask questions. We hope you will join us and encourage Respiratory and Pulmonary Care leaders to attend this session to hear about the upcoming changes to the content within the tool.

Registration for this event is available here. The session will be recorded and posted to the Advantage Community.

Request for Enhancements

The following updates to the ActionOI content set were made this release based on requests from users like you that utilized tools including but not limited to: Feedback, NPS surveys, and or product support portal.

Ambulatory Care Series

02298, Wound Care

We added two characteristic survey questions to this department.
Does the department:

- Operate a Multiplace Hyperbaric Chamber?
- Operate a Monoplace Hyperbaric Chamber?

**Nursing Services Series**

Updated these mandatory data elements to be available for upload within the department:

**01911, Nurse Staffing Office**

- Paid Hours: Nursing Division Non Payroll
- Paid Hours: Nursing Division Payroll

**Information Technology**

We have corrected the volume measure for the Total Expense Stoplight Report for the following indicator within the tool for these departments, there is no additional work required by the user.

- **05510 - Enterprise Information Services**
- **05520 - Voice and Data Network**
- **05540 - Telecom Switchboard Combined**
- **05550 - Informatics**
- **05560 - Help Desk and Desktop Support**
- **F5500 - Information Technology and Telecommunications Functional Rollup**

Indicators:

- Total Expense AWI Adj per Adjusted Discharge

**Product Updates**

**Multi Facility Batch Reports**

**Administration – Multi Facility Batch Reports**

Multi Facility Batch Reports within the data collection module can be generated for all facilities, or individual selection of facilities within a customer.

Multi file and single file output options of csv and pdf are available.
Multi Facility Batch Reports:

- Department Mapping
- Element Mapping
- Numeric Entry Report
- Normalization Definition Report
- Key Volume Element Population

Other Enhancements

Department Reference Manual

- Removed the reference to the obsoleted department 02245 – Gynecology Clinic.
- Updated the Cases Managed for Physician Practice and Clinics element definition to match the definition on the numeric entry screen of the tool for department 05830, Case Management / Utilization Management.
3rd Quarter 2018

The following updates to ActionOI content were made this quarter.

This chapter includes the following sections:

- Content Updates  65
- Request for Enhancements  66
- Product Updates  68

Content Updates

The following updates to ActionOI content were made this quarter.

Content Enhancements

We added characteristic survey questions to support benchmarking departments within organizations that do not have traditional worked hours, paid hours or labor expense captured via payroll; Hence, the departments incur all expenses as direct expenses.

All ActionOI standard departments will include these characteristic questions: How does the department report labor expense?

- Is 100% of the labor expense for this department reported in Other Direct Operating Expense (no payroll hours reported)?
- Is more than 75% of the labor expense for this department reported in Other Direct Operating Expense?
- Is 50-75% of the labor expense for this department reported in Other Direct Operating Expense?
- Is 25-49% of the labor expense for this department reported in Other Direct Operating Expense?
- Is less than 25% of the labor expense for this department reported in Other Direct Operating Expense?
- Is the management labor expense for this department reported in Other Direct Operating Expense (no payroll hours reported)?
All ActionOI functional and intermediate rollup departments will include this characteristic question: How does the series report labor expense?

- Is 100% of the labor expense for any of the departments utilized within the series reported in Other Direct Operating Expense (no payroll hours reported)?

**Request for Enhancements**

The following updates to the ActionOI content set were made this release based on requests from users like you that utilized tools including but not limited to: Feedback, NPS surveys, and or product support portal.

**Education Services Series**

The following departments have had these element definitions updated (noted in bold text).

06210 Clinical Staff Education  
06215 Medical Staff Education  
06220 Non-clinical Staff Education  
06230 Staff Education Combined  
06235 Organizational Development  
06240 Learning Technologies  
06250 Patient and Family Education  
F6200 Educational Services Functional Rollup  
G6200 Other Educational Services

**Total Course Offerings**

Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

**Computer-based Training Offerings**
Enter the total number of training segments/sessions offered or requiring interaction via computer. A segment/session is defined as at least 15-minutes in length. If 2 or more sessions are required to disseminate and complete the course information, you would count each session. This is a component of Total Course Offerings.

Please Note: the change to “component” indicates that these elements are no longer “children” of the primary element. Please be sure to address this as necessary when mapping volumes.

**Total Course Completions**

Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

**Computer-based Training Completions**

Enter the total number of segments/sessions completed which required interaction via computer during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks). This is a component of Total Course Completions.

Please Note: the change to “component” indicates that these elements are no longer “children” of the primary element. Please be sure to address this as necessary when mapping volumes.

**Pharmacy Services Series**

The following departments have had this indicator corrected and recalculated within the tool, there is no additional work required by the user.

04410, Pharmacy Services: Inpatient & Outpatient

04430, Pharmacy Services: Inpatient Only

04440, Pharmacy Services: Outpatient Only

I4400, Pharmacy Patient Services Rollup

Indicators:

- Labor Expense AWI Adjusted per Order Processed

**Nursing Services Series**

Updated this mandatory data element to be available for upload within the department:

01910, Nursing Administration
Hours Paid: Nursing Division:

Total hours paid to staff (both payroll and non-payroll/registry) working within the nursing division for the reporting period. This value should only include staff in cost centers that are mapped to the Nursing Services Series (nursing units and G1000), including Physicians/Providers as long as they are employed by the facility. If Nursing Administration supports departments outside of the inpatient nursing series (i.e. Operating Room or Emergency Room), do not count those hours paid in this element.

General Facility

We have corrected and recalculated the following indicators within the tool, there is no additional work required by the user.

00100, General Facility Level

Indicators:

- Drug Expense per SIS Adjusted Discharge
- Medical Supply (Excl Drug) per SIS Adjusted Discharge
- Medical Supply per SIS Adjusted Discharge
- Non Medical Supply per SIS Adjusted Discharge
- Organ Procurement per SIS Adjusted Discharges
- Total Supply (Excl Drug) per SIS Adjusted Discharge
- Total Supply per SIS Adjusted Discharge
- Drug Expense per SIS Adjusted Patient Day
- Medical Supply (Excl Drug) per SIS Adjusted Patient Day
- Medical Supply per SIS Adjusted Patient Day
- Non Medical Supply per SIS Adjusted Patient Day
- Organ Procurement per SIS Adjusted Patient Day
- Total Supply (Excl Drug) per SIS Adjusted Patient Day
- Total Supply per SIS Adjusted Patient Day

Product Updates
Export GL/PR Linking

Normalization - Link PR-GL Accounts

The ability to export the detail of the GL/PR Linking is available on the GL/PR Linking screen as well as a batch format.

Multi Facility Batch Reports

Administration – Batch Reports

Data Collection Batch Reports can be generated for all facilities, or individual selection of facilities within a customer.

Multi file and single file output options of csv and pdf are available.

Multi Facility Batch Reports:

- Numeric Response
- Numeric Indicator
- Character Response
- Normalized Response
- Normalized Indicator

Other Enhancements

Reporting Users Guide

The Index in the reporting users guide within ActionOI has been updated to reference the correct page numbers.
Chapter 4. Guiding Principles

The Guiding Principles section of the DRM provides global definitions and clarifications for ActionOI data submission and reporting, including information on a variety of tasks and program-wide methodologies.

This chapter includes the following sections:

- Accounting Standards 71
- Characteristic Surveys 73
- Charge Backs and the Impact on Supply Expense 73
- Customary Departments 73
- Department Instance Rules 74
- Depreciation Expense, Interest Expense, and Provision for Bad Debts Expense 75
- Functional Rollup Departments 75
- Gap and Opportunity Calculations Frequently Asked Questions 75
- GFAC: Total Gross Inpatient and Total Gross Outpatient Revenue Reporting Methodology 84
- Hospital-Specific Intensity Scores for Supplies, Pharmaceuticals and Blood 84
- Key Definitions 85
- Management Skill Mix Guidelines 85
- Normalizations 86
- Procedure Counting 95
- System Reporting -- The S Entity Type 96
- Adjusted Discharges Supported 97
- The Matching Principle 98
- Using the All Indicator and All Element Lists 99
Accounting Standards

There are two main accounting standards boards that define the accounting standards that are followed by hospitals. The standards boards are:

- Financial Accounting Standards Board (FASB)
  - Not-for-profit hospitals are subject to FASB Statement # 117, Financial Statements of Not-for-profit (NFP) Organizations; NFP hospitals report a Statement of Operations rather than a Statement of Revenue and Expense.
  - For-profit entities are not subject to this statement

- Government Accounting Standards Board (GASB)

Generally Accepted Accounting Principles (GAAP) have been defined by both of these entities, and in some cases the standards differ for certain types of revenues and expenses.

A critical tenet of ActionOI is consistent reporting. The standard to be used when reporting data to ActionOI is FASB Statement # 117. As most hospitals are non-profit entities and are subject to FASB Statement # 117, use of this standard in ActionOI most closely conforms to the standards already in use for the majority of participating facilities. Data that is reported in ActionOI must follow FASB Statement #117 standards regardless of the methodology in place at your individual organization.

Following is additional information on the main differences between the different accounting standards, as well as specific identification of the correct methodology to use when reporting data in ActionOI.

- **Provision for Bad Debts**
  - FASB — (Non Profit and For Profit Entities) Report the provision for bad debts related to patient service revenue as a deduction from revenue, and bad debt unrelated to patient service revenue as an operating expense.
  - GASB — Provision for bad debt is reported a deduction from revenue.
  - ActionOI — follow FASB rules and report the provision for bad debts related to patient service revenue as a deduction from revenue, and bad debt unrelated to patient service revenue as an operating expense.

Note: While charity care can be difficult to distinguish from bad debt, it's an important distinction. Charity care for both FASB and GASB are to be reported as a deduction from patient revenue.
• **Interest Expense**
  - FASB (Non Profit entities) — Interest expense is reported as an operating expense on a Statement of Operations
  - FASB (For Profit entities) — Interest expense is reported as a non-operating expense on an Statement of Revenue and Expense
  - GASB — Interest expense is reported as a non-operating expense
  - ActionOI — follow FASB for non profit entities and report interest expense as an operating expense.

• **Taxes**
  - FASB (Non Profit entities) — Taxes are reported as an operating expense
  - FASB (For Profit entities) — Taxes are reported as a non-operating expense
  - GASB — Government entities are not subject to taxes and as a result there is no treatment required.
  - ActionOI — follow FASB for non profit entities and report taxes as an operating expense.

**Note:** As government entities are not subject to taxes, there is nothing to be entered as an expense. Report tax revenues to match expenses, e.g. appropriations for patient care as operating income, but tax revenue allocated to capital expenses (e.g. general obligation bond) as non-operating revenue.

As you can see from these differences, the different accounting treatments will produce different operating statistics, i.e. Operating Margin, Net Days in Patient Accounts Receivable, Total Expense indicators. As a result, we want to reiterate that when data is reported to ActionOI, it is to be reported based on the FASB rules for non-profit entities, specifically Statement # 117.

If you report your financial statements subject to another standard and wish to see ActionOI data in accordance with that standard, we recommend that you use the Client Defined Indicator feature in the Reporting Module to build the formula.
**Characteristic Surveys**

A characteristic survey is a series of questions that focus on how facilities and departments operate, such as teaching status, census division, and geographic location. Characteristics are used to group your department with similarly organized departments from other facilities and to help identify operational differences.

When completing a characteristic survey, you must enter a **Yes** or **No** response to each question. The answers you provide define how the department operates and are the basis for creating groups of facilities used for comparison. These groups are called compare groups. Compare groups are used during the analysis phase to evaluate organizational performance compared to other similar organizations. "Not Applicable" is not an option as an answer to a characteristic survey question. If you feel the question is not applicable, please answer **No**.

You can download all of the available Sample Characteristic Survey Question Definition Documents from the ActionOI Support page.

**Charge Backs and the Impact on Supply Expense**

Charge backs typically occur when a supply item is ordered by a department and is later returned. At the time of the original order, the department is charged for the supply item, and at the time of the return that charge is reversed and the supply expense for the department reduced. The reduction in supply expense related to the charge back must follow the original supply expense in ActionOI. This is to occur in both the actual and normalized views of the data.

**Example**: The Med/Surg unit orders a drug to be held as floor stock. The Med/Surg department is charged for the expense, and their supply expense increases. At some point, the unit determines they do not need the drug in floor stock and returns it to the Pharmacy. The return results in a reduction to Supply Expense.

In the actual view of ActionOI data, the original supply expense and following reduction would be reflected in the Med/Surg unit. In the normalized view, the supply expense and related reduction would be reflected in the Pharmacy.

**Customary Departments**

Customary departments are ActionOI departments that should be present in every facility's normalized data view. Customary departments include:

- 02099, Emergency Services Administration
Guiding Principles

- 02299, Ambulatory Services Administration
- 03099, Surgical Services Administration
- 03399, Laboratory Services Administration
- 03499, Imaging Services Administration
- 04199, Respiratory and Pulmonary Care Administration and Support
- 04299, Cardiology and Vascular Administration and Support Services
- 04490, Pharmacy Administration and Support
- 04899, Rehabilitation Services Administration
- 05099, Facilities Administration
- 05399, Supply Chain Administration and Support
- 05608, Centralized Scheduling
- 05925, Patient Escort (Transport) Service

If the cost center structure at your facility does not enable you to map one or more cost centers to these departments, create a Normalized Only department, and then normalize the relevant expenses and labor hours associated with these functions from their home cost center/department to the Normalized Only department. Please see the Data Collection User's Guide for steps to create a Normalized Only department.

Participants reporting at the system level are exempt from this guideline.

Department Instance Rules

There are over 260 ActionOI standard departments, and for mapping purposes, facilities can create multiple instances of an ActionOI standard department. That is, if your facility has more than one cost center that could be mapped to the same ActionOI standard department, ER East and ER West for example, it is possible to create separate instances of the ActionOI standard department, and map each cost center separately as primary departments.

In the interest of data integrity however, some ActionOI standard departments should not have multiple primary instances. These departments have indicator measures which use volume data from the General Facility department. If multiple primary instances of these departments are created, the values of the indicator measures would calculate incorrectly and the aggregate benchmarks would be misleading.
The general "rule of thumb" is that multiple primary instances of ActionOI standard departments are not allowed, except where explicitly stated as allowed. Inpatient Nursing, Ambulatory Care Clinics, and Physician Practices are examples of ActionOI standard departments that are exceptions to the rule and multiple primary instances are allowed.

The rule regarding a single primary instance is also waived for cases where a facility has a second ancillary department that is solely serving outpatients. A second primary instance of the ancillary is allowed when the patient population is entirely outpatient.

A secondary department mapping provides an internal-only view of the department and enables facilities to produce reports for departments that had to be aggregated together in the primary department instance in order to meet the data integrity requirements. Take advantage of secondary department mapping in order to benchmark departments separately. Multiple department instance rules do not apply to secondary-mapped departments.

For a complete list of the ActionOI standard departments that should have only one primary instance, please see the ActionOI Department List Excel file available in the Content Documentation Hospital Zip folder under Content Documentation on the Support Page in ActionOI.

Depreciation Expense, Interest Expense, and Provision for Bad Debts Expense

If these expenses are included in the general ledger at the part of a department-level cost center, map these expense accounts to Not Mappable in ActionOI.

Functional Rollup Departments

A functional rollup department is a combination of multiple departments performing similar tasks, such as the Fiscal Services Functional Rollup department. The functional rollup is automatically generated when a department instance is created within the series.

Gap and Opportunity Calculations Frequently Asked Questions

ActionOI clients often have questions about gap and opportunity calculations; these questions typically fall into the following general areas. Although these questions are related, we will address them separately here.

- What are gap and opportunity gap and how are they different?
• How are gap and opportunity calculated?

• How is area wage index applied in the opportunity calculation?

• How does trimming impact gap and opportunity calculations?

• Is gap and opportunity calculated on all indicators in ActionOI?

What are gap and opportunity gap and how are they different?

Gap

Gap (or Gap Percent %) is the difference between your facility and the benchmark; more specifically, it is the percent difference between the host value for a reported indicator and the selected compare group percentile.

Gap Percent (%) is shown on most ActionOI reports, and clients typically refer to this value.

Opportunity Gap

Opportunity Gap (or Opportunity Gap %) is the difference between the host value for the indicator used in an opportunity calculation and the selected compare group percentile. Opportunity Gap Percent appears only on the Opportunity Batch report and calculates the opportunity in either dollars or hours. The calculation for Opportunity is based on the Opportunity Gap Percent and translates the difference into the dollars or hours that could be "saved" should the facility bring their indicator value in line with the performance of the compare group.

Values calculated for Opportunity Gap Percent are not necessarily the same as the Gap Percent column shown on reports like the Custom Comparison Report. Calculations for area wage index adjusted indicators with trimming applied, typically results in differences in values calculated for Gap Percent and Opportunity Gap Percent. This is due to the potential of different facilities being trimmed based upon the adjusted and unadjusted indicators.

For more information, please refer to the section below on how trimming is applied to the calculation.

How are gap and opportunity calculated?

Specific calculation steps are detailed below.

1. The calculation for Opportunity Gap % is based on the host value used and the compare group percentile selected. For example, using the 50th percentile of the compare group, Opportunity Gap is calculated by taking the difference between host value used and the 50th percentile divided by host value used. The specific formula is shown below.

2. Opportunity is calculated by multiplying Opportunity Gap % by the expense amount for the indicator in question. For example, if you're looking at the Supply Expense per Patient Day, the calculation is the Opportunity Base (Supply Expense) x Opportunity Gap %.
To further understand the details of these calculations, see the Opportunity Batch Report, figure 1, below. The columns of the report provide all information needed to walk through the calculation. Table 1 below explains each column on the Opportunity Batch report.

<table>
<thead>
<tr>
<th>Calculation Variable</th>
<th>Variable Name used in Opportunity Batch Report</th>
<th>Description of Variable</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>Host Value</td>
<td>This is the host's indicator value.</td>
</tr>
<tr>
<td>B</td>
<td>Host Value Used</td>
<td>Where applicable, the host value used is the host's indicator with area wage index factors applied. Currently, this adjustment is applied to Labor Expense and Total Expense indicators. For all other indicators, the host value and the host value used will be identical.</td>
</tr>
<tr>
<td>C</td>
<td>Inpatient Volume</td>
<td>This is the department's inpatient volume. The value is used in conjunction with total volume (see column D) to adjust the calculated opportunity for service utilization indicators where the indicator relates only to inpatients in a department when both inpatients and outpatients exist. The opportunity is adjusted by the ratio of inpatient volume to total volume.</td>
</tr>
</tbody>
</table>
### Calculation Variable | Variable Name used in Opportunity Batch Report | Description of Variable
---|---|---
D | Total Volume | This is the department’s total volume. The value is used in conjunction with inpatient volume (see column C) to adjust the calculated opportunity for certain service utilization indicators where the indicator relates only to inpatients in a department when both inpatients and outpatients exist. The opportunity is adjusted by the ratio of inpatient volume to total volume.
E | Opportunity Base | This is the major expense factor within the indicator that is identified in content as the base of the opportunity calculation. For example, the opportunity base for Supply Expense per Patient Day is Supply Expense. The Opportunity Base can also be thought of as the concrete expense or measure in the department that would improve as a result of closing the gap between the department’s value of an indicator and the compare group’s.
F | Percentile | This is the compare group’s indicator value at the appropriate percentile. ActionOI evaluates each compare group member at its adjusted value to calculate the percentile value. \([X]th \text{ / } [Y]th\) identifies the percentile better than the median. ActionOI uses the value (Z) as follows:
\[
X = (\text{Median} - Z) \\
Y = (\text{Median} + Z)
\]
G | Opportunity Gap % | This value shows the difference between the facility and the rest of the compare group, as a percentage. Remember that Opportunity Gap % is not the same as Gap % shown on reports such as the Custom Comparison Report.
H | Opportunity Dollars (or Opportunity Hours) | This is the main opportunity calculation value for this version of the report.  
**Note:** For a report on hours opportunity, this column heading is Opportunity Hours.

Using the column references above, the opportunity calculations are as follows:

a.) Calculate opportunity gap %

\[
G = \frac{(B - F)}{B}
\]
b.) Apply opportunity gap % to the expense amount or opportunity base

\[ H = G \times E \]

How is area wage index applied in the opportunity calculation?

For area wage index adjusted indicators, Opportunity Gap % is calculated on the adjusted indicator. The resulting Opportunity Gap % is then applied to the unadjusted expense base for opportunity calculations. This is done to "level the playing field" when comparing a facility's performance against compare group performance.

By using the area wage index adjusted indicator, the calculation takes into account all wage rate differences due to regional salary levels. Note that this adjustment accounts for the differences between Host Value (column A) and Host Value Used (column B) on the Opportunity Batch report.

Applying the Opportunity Gap % calculated on the adjusted indicator to the unadjusted indicator results in the opportunity amount being shown in dollars that are "real", or unadjusted. The unadjusted expense value is reflected in the Opportunity Base (column E).

How does trimming impact gap and opportunity calculations?

For non-wage index adjusted indicators, trimming does not change the underlying process of the opportunity calculation as the host value is always the same as the host value used, specifically indicators with area wage index applied. Trimming simply changes the value of the compare group percentile by removing outlier facilities from the group prior to any calculations.

Trimming, however, does change the underlying calculation for indicators that have a different value for host value and host value used. The difference is this; trimming is first applied to the unadjusted indicator and then applied to the AWI adjusted indicator, which is used during the gap calculation.

The following steps walk you through how opportunity is calculated when trimming is applied to an area wage index adjusted indicator:

1. Determine who should be trimmed based on the unadjusted indicator.
2. For the opportunity gap % calculation, trimming is evaluated against the unadjusted indicator and then applied to the adjusted indicator. Specifically, the facilities trimmed based upon the unadjusted indicator are pulled out of the adjusted indicator compare group which is where the opportunity gap percent calculation occurs.
3. Calculate opportunity gap % based upon adjusted indicator with trimming applied.
4. Calculate opportunity by multiplying the opportunity gap percent by the opportunity base.

The following detailed use case walks through an example.

John Smith, Program Coordinator at TR Medical Center, is reviewing the opportunity showing for the CT Department with Sally Johnson, the department manager. Sally takes the ActionOI benchmarking data very seriously and uses it as a tool in making her department more efficient. As a result, she is invested in the results and wants to better understand the source of her department's labor opportunity.
While reviewing her Custom Comparison Report (see Figure 2 below) from the 1st Quarter of 2006, she noticed that the number she calculates as the opportunity is different than what is being shown on the comparison report. Her calculation takes the Gap % shown on the report and multiplies it by the labor expense shown on the report. This calculation results in an opportunity of $32,144 (12.5 % x 257,155.09) however the opportunity shown on the report is $27,564. To better understand the calculation, Sally sets up time with John, her program coordinator.

The relevant section of a Custom Comparison report is shown below. The example report was run using trimming at 2 STD (Standard Deviations); ActionOI currently defaults to 3 IQR for trimming but trim points of 1, 2, and 3 STDs are available in the application.

Using the steps detailed above, John walks through the calculation with Sally.

**Step One**

Determine who should be trimmed based on the unadjusted indicator (Exp/100 Procedures: Labor).

Using the data generated in the Facility Trend report (Note that any facility specific report such as the Side by Side, Position in Compare Group report can be used), John uses Microsoft Excel to identify which facility was excluded from the calculations based upon 2 STD trimming.

John calculates the 25th percentile values for both the adjusted and unadjusted indicators so Sally can trace the values shown on the Custom Comparison Report, see figure 3 below.
The Gap % shown on the Custom Comparison Report (Figure 2 above) applies trimming directly to the adjusted indicator and therefore Facility 9 is trimmed out of the compare group.

It's important to note that when trimming is independently evaluated for each of the measures, different facilities may be identified as outliers. In this case, Facility 9 is trimmed from the adjusted indicator set (and therefore the Gap % calculation), whereas the unadjusted indicator value for the same facility would not be trimmed from the compare group.

**Step Two**

For the Opportunity Gap % calculation, trimming is evaluated against the unadjusted indicator and then applied to the adjusted indicator. Specifically, facilities that are trimmed based upon the unadjusted indicator are pulled out of the adjusted indicator population, which is where the opportunity gap percent calculation occurs.

For John’s example, this means there are no facilities trimmed from the compare group when calculating the opportunity gap percent, and specifically, Facility 9 remains in the opportunity gap percent calculation.
Using the 25% percentile value calculated above, John continues on and calculates Opportunity Gap %.

John points out to Sally that the Opportunity Gap % is not the same value as the Gap % and that Opportunity Gap % is used in the remaining steps of the opportunity calculation. The difference is due to how trimming is applied based upon the adjusted indicator. It is, however, the same Opportunity Gap % that is reflected on the Opportunity Batch report, which John explains is the source of the calculated opportunity dollars.
Step Three

Calculate opportunity by multiplying the Opportunity Gap Percent by the opportunity base, see Figure 7 below. **Note:** As shown on the Opportunity Batch report (see Figure 6 above), the opportunity base is the unadjusted labor expense.

With John walking her through the calculation, Sally now understands the details of how the labor opportunity is calculated. With her new understanding, she’s ready to go back to her department and begin brainstorming process improvement ideas with her team so that they can realize the opportunity dollars shown on the report.

Are gap and opportunity calculated on all indicators in ActionOI?

No, the applications of gap and opportunity calculations to indicators in ActionOI are defined by IBM. The business rules applied indicate that all indicators where gap and opportunity are mathematically possible and logical, should have these calculations applied (except as noted with area wage index adjusted indicators).

It's important to note that currently there exists a shortcoming in the application of this business rule, in that there will be a number of indicators where it is possible and logical to calculate gap and opportunity but the calculation is not applied. As department series are enhanced, opportunity calculations are part of the process — the broader application of the business rule shall be rolled out as these general enhancements are made.
GFAC: Total Gross Inpatient and Total Gross Outpatient Revenue Reporting Methodology

The proper methodology for reporting revenues on the General Facility Department, specifically classification methods to be used in reporting revenues as either Total Gross Inpatient or Total Gross Outpatient, is based upon the reporting requirements for the Medicare cost report. Specifically, the classification of revenue based upon how the patient originates in the hospital setting between inpatient and outpatient revenue categories must follow the requirements of the Medicare cost report.

Example: If a patient was first seen in an observation unit and then was admitted and became an inpatient, revenue would be reported entirely as inpatient revenue. Although the patient originates as an outpatient, once the patient is admitted the revenue related to the entire episode of care is classified as Inpatient Revenue.

Hospital-Specific Intensity Scores for Supplies, Pharmaceuticals and Blood

A white paper on IBM Hospital-Specific Intensity Scores for Supplies, Pharmaceuticals and Blood is available on the ActionOI Support Page. Here is the Overview section from that paper.

The important rationale for the methodology described here is the fact that extreme variability is known to exist across hospitals in the use of many clinical services, including pharmacy and supply, based on cost estimates at the revenue center level. While some hospitals are quite aggressive in service intensity for certain clinical services, such as pharmaceutical services, other hospitals are more conservative in prescribing drugs to patients – even though the types of patients they are treating may be similar on case-mix and severity as indicated by the CMS Medicare Severity Diagnosis-Related Group (MS-DRG).

By measuring the variation in the intensity of use of pharmaceutical services and supplies for a large representative sample of acute-care hospitals in the U.S., we are able to assign each hospital a quantitative case-mix and severity-adjusted Intensity Score (IS). This score can be used to make valid comparisons across hospitals on the selected clinical services, such as pharmacy, organ procurement costs, and other supplies. Since these scores are derived for each hospital at the MS-DRG level, the measure can reflect hospital-specific expected intensity based on relatively homogeneous patient populations in terms of case-mix and patient acuity or severity. The intensity score is similar to the CMS Case-Mix Index (CMI) in the sense that the CMI looks at patient distribution across MS-DRG to produce an estimate of how a given hospital compares with other hospitals in terms of costs based on the case-mix of a patient population. The IS can also be used by hospitals to compare their average cost per case for pharmacy or supplies with a stable national norm or selected benchmarks.
Key Definitions

**Workload Volumes** ActionOI uses Workload Volumes to classify the type of work and estimate the amount of work your department performs. These are used in the calculation of workload/service intensity, labor productivity indicators, and in almost all of the indicator calculations including supply and other cost indicators.

**Department Hour Elements** Department Hour Elements are the hours worked and paid to personnel who work in or for your department. Some Department Hour Elements are standard—shared by most departments, and some are unique to your department. These include the skill mix and are used in the calculation of worked hours indicators.

**Expense Elements** These are the standard expenses incurred by your department. Some Expense Elements are standard—shared by most departments, and some are unique to your department. These are used in the calculation of cost ratio indicators.

**Mandatory Elements** These are the elements whether department hours, expenses, or workload that are considered as the mandatory data that must be submitted to ActionOI in order for your department’s workload and costs to be accurately represented in the ActionOI database. If these elements are not present, the key indicators will not calculate and the system will report an audit error.

Management Skill Mix Guidelines

One of the challenges associated with mapping management staff in ActionOI is the wide variety of titles used to identify the same function. This section provides guidance for correctly mapping these functions to the management skill mix element within the General Ledger/Payroll mapping feature of the tool, regardless of one’s title within the organization.

To utilize this skill mix mapping feature, the following job functions should represent the majority (greater than 50 percent) of the functions performed by the job code:

- Overall operations of multiple divisions within the organization
- Overall operations of business interests for the organization
- Ensuring all employees stay on task
- Give direction of the services provided by the departments within the series
- Directing the growth and profitability of a department(s) through innovation
- Creating the annual budgets
- Holding employees responsible for meeting productivity
• Hiring, firing, rewarding, and counseling
• Perform annual performance reviews
• Ensuring processes are executed in accordance with established policies
• Support a team of workers within the department
• Ensure department case load is achieved
• Ensure scheduled staff are on time
• Resolve issues with internal employees
• Resolve issues with patient, family members, and other third parties

Every organization has a different organizational structure and therefore differing levels of management. Within ActionOI, the focus is not necessarily looking at delineating these levels but understanding that every department needs to be managed in some capacity. Therefore, it is important to understand this guidance and select the skill mix that best represents the functions of the job code.

**Normalizations**

Departmental structures vary across facilities. ActionOI provides users with two views of their data:

• **Actual**—provides a view of department data as it operates within the parameters of the ActionOI departmental definition.

• **Normalized**—standardizes the department data based on normalizations of specific functional comparisons. Normalizations are applied after the data is mapped through the inclusion and exclusion of hours and costs associated with the functions listed for each department.

Normalizations are the basis of the functional comparisons in ActionOI. They are the allocations applied to your organization’s data in order to follow reporting guidelines. Normalizations enable apples-to-apples comparisons among dissimilar facilities.

In order to report data according to ActionOI guidelines, expense accounts, payroll data, and statistics may need to be allocated from your organization’s cost centers into departments. The normalization task tables in the following section provide information about the tasks to include when reporting data for each area. As these normalizations are made consistently across all ActionOI hospitals, departmental data that would not otherwise be comparable is now ready for effective comparisons.
Administration and Support Departments

Within many department series of ActionOI there are standard departments that have been created to capture the Administration and Support level functions for the series. These departments contain hours, expenses, and volumes that support the departments within the series.

There are many tasks identified on the normalization surveys that should be part of the Administration and Support departments. However, to provide additional guidance, we have called out the management function to ensure that the functions are present within the appropriate standard department within the normalized view.

Management functions within the Administrative and Support Departments are based on two tasks from the normalizations survey:

- Personnel performing the functions of the department’s day-to-day managerial operations
  (This function IS NOT included in the Administration and Support Departments)

- Personnel performing the functions of administration and managerial oversight operations
  (This function IS included in the Administration and Support)

These two tasks are intending to find those management functions that are similar throughout all organizations. Functions may be structured differently throughout organizations; therefore it may require a normalization to move such functions to the ActionOI specified destination location.

Functions

**Day-to-day managerial operations** – represents the focus on the departments’ direct operations, making sure employees understand their roles and responsibilities for the days’ work, establishing shift assignment, prioritizing workflow, and mentoring staff to be successful, while ensuring the decisions that correspond to the department processes are executed in accordance with current established policies. (Internally-driven focus)

**Administration and managerial oversight operations** – creating annual budgets, employee performance meetings, attending leadership meetings, and providing direction of the services for future growth and profitability. (Externally-driven focus)

For those ActionOI department series that do not have a separate Administration and Support area listed, the administration hours and dollars should be normalized to the specific standard departments they support within the series.

Examples of Normalizations

One person in the 03410, Diagnostic Radiology Including Interventional Procedures has responsibility of the day-to-day operations for multiple departments within the series. Therefore, normalizations will need to be created to account for such time.

- 50% stays in 03410, Diagnostic Radiology Including Interventional Procedures
• 30% moves to the 03420, Computerized Tomography
• 10% moves to the 03450, Ultrasound
• 10% moves to the 03499, Imaging Services Administration

Two people in the 03411, Diagnostic Radiology Without Interventional Procedures have day-to-day managerial responsibility for other departments within the Imaging series. However, there are 4 people within that job code that perform the day-to-day managerial operations. One of these people is over 03412, Interventional Radiology and 03420, Computerized Tomography; the other is over 03430, Magnetic Resonance Imaging and 03450, Ultrasound; and the other two are responsible for 03411, Diagnostic Radiology Without Interventional Procedures

• 12.5% of job code will be normalized to 03412, Interventional Radiology
• 12.5% of job code will be normalized to 03420, Computerized Tomography
• 12.5% of job code will be normalized to 03430, Magnetic Resonance
• 12.5% of job code will be normalized to 03450, Ultrasound
• 50% of time will remain in 03411, Diagnostic Radiology without Interventional Procedures

One person is paid from the 05110, Patient Food Services, also has responsibility for 05111, Clinical Nutrition Services and the 05120, Nonpatient Food Services and provides day-to-day managerial and administration and managerial oversight operations. This series doesn’t have an Administration and Support department, so all time should be distributed to the standard departments.

• 2% of job code will be normalized to 05111, Clinical Nutrition Services
• 25% of job code will be normalized to 05120, Nonpatient Food Services
• 73% of job code will remain in 5110, Patient Food Services

One person is paid from the 04811, Physical Therapy: Inpatient, also has responsibility for 04821, Occupational Therapy: Inpatient and 04861, Speech Language Pathology: Inpatient and Outpatient. In addition to overseeing the day-to-day managerial responsibilities for these three departments, they also create the annual budgets, attend leadership meetings and provide direction for future growth and profitability for Rehabilitation Services for the organization.

A percentage of time should be allocated through a normalization to each of the departments for which the individual has day-to-day managerial responsibility and to the Administration and Support department for the administration and managerial oversight operations.
An organization has one person who is responsible for creating the monthly shift assignments, mentoring staff and assuring that staff adhere to current policies and procedures for the daily running of the department. This individual also creates the annual budget for the department and attends leadership meetings.

Based on this individual’s job duties, a percentage of time should be allocated through a normalization to the Administration and Support department.

- 50% of job code should remain in the department
- 50% of job code should be normalized to an Administration and Support department if one is present within the series.

**Things to consider**

Materiality is an important component when deciding if a normalization is needed. Generally, a difference of 10 percent or more may be material. However, each organization should determine their threshold for materiality of a normalization.

When determining the amount to allocate, use a methodology that reflects the amount of time spent on the task identified for each department.

Recommendations include: ratio of workload units in each department or based on employees managed. Other methodologies are also acceptable, and you should be comfortable using whatever cost accounting process you use internally to allocate this individual.

**Global Expense Normalizations**

Global expense normalization rules refer to certain functional expenses that are to be consolidated to create a standard normalized view. When the following expenses are charged out to cost centers throughout your facility, they are included in the actual view of department performance, however, in the normalized view, these expenses are consolidated into the relevant normalized functional area.

The table below lists required normalizations from various departments to their primary destination departments. If your organization has not mapped to the primary destination department, then normalize the expenses to the secondary destination department listed in the table below.
With the June 2014 release, a Global Normalization Feature was added to the Data Collection Module that allows you to create some Global Expense Normalizations without needing to create Free Form normalizations for every department. You can create these in the Data Collection module for the expenses listed below and in green in the rules table. All other normalizations listed here need to be created via Free Form normalization. See the Data Collection help file for more information.

- Anesthetic materials
- Cost of oxygen and other non-anesthetic medical gases, including nitric oxide. This includes cylinder, bulk and liquid oxygen
- Floor Stock (Food)
- Food expense, specifically catering to departments (including outside catering)
- Laundry and linen
- Cleaning supplies
- Collection fees
- Legal Fees

The following table lists the Global Normalization Rules which state which departments are allowable primary and secondary destinations for the expense.

Green rows are Global Normalizations that can be made using the Global Normalization feature in Data Collection provided the destination departments are the same as those listed here. If you are not using the destinations listed here, then the Global Normalization will need to be created using a Free Form Normalization.

</table>
We also want to provide guidance on how these normalizations can be accomplished.

- Normalization definitions are straightforward when these departmental expenses are uniquely identified with a specific GL account code. In these cases create the free form normalization definition by selecting the relevant GL account code and allocating 100 percent of the expense to the appropriate destination department.

</tbody>
</table>
• When there is not a separate GL account code, determine the appropriate percentage of the GL account that includes the expense. In some cases, it may be more accurate to define a specific dollar amount for the allocation rather than rely on a rolling percentage allocation.

Keep in mind the materiality guidelines your organization has established when determining the normalization definitions required to comply with these guidelines. Your materiality threshold should be evaluated in both the source departments as well as the total that would be allocated to the destination department. For example, Catering Expense needs to be allocated from each department back to your Food Services area. The average quarterly value of catering expense is $300 per department. $300 would appear to be an immaterial amount to one department, however, you must also look at the total of all departments. With 95 departments, an average of $300 per department would total $28,500 which is a material value to the Food Services department.

**Normalization Terminology**

The following terms are frequently used when describing the process of normalizing data:

<table>
<thead>
<tr>
<th>Term</th>
<th>Definition</th>
</tr>
</thead>
<tbody>
<tr>
<td>Actual</td>
<td>Data representing your facility.</td>
</tr>
<tr>
<td>Allocations</td>
<td>Aggregating your data to match nationally specified sets of functions.</td>
</tr>
<tr>
<td>Destination</td>
<td>Department where the allocations from the Source will be included.</td>
</tr>
<tr>
<td>Elements / Data Entry</td>
<td>Raw data submitted.</td>
</tr>
<tr>
<td>Indicators / Ratios</td>
<td>These are the formulas using the elements.</td>

**Normalization Tasks**

Normalizations are the inclusion and/or exclusion of hours and costs associated with specific functions required to normalize the departmental data. These normalizations should be made to ensure that your data meets the requirements for the normalized view in the comparative database.
Tip: To ensure that all tasks have been assigned to both a source and destination department, view the Unused Tasks Report provided in the ActionOI Data Collection Data Normalization module. If a task appears on this report, you must assign it to either a source or destination department. For more information, refer to ActionOI Data Collection User's Guide. ActionOI Data Collection User’s Guide.

If a normalization task is not assigned to both a source and destination department, the normalization process will be unsuccessful. All tasks must be assigned to a source and a destination department.

For a complete list of tasks and the associated source and destination departments, see ActionOI Normalization: Task to Department Cross-reference accessible from the ActionOI Support and Training page. To access this page, click Support at the top of the ActionOI page. If you are not sure which department is responsible for the unused task, locate the task in the cross-reference table to verify the department(s) to which it belongs.

The focus is on materiality and the amount of time that is spent on the task and functions identified within the normalization survey.

These allocations that are applied could be based on three areas within the department: hours, expenses, and volumes. These don’t necessarily mean that every normalization will require the definition to contain all three or mean that it has to move everything at 100 percent.

Procedure Counting

Many departments within ActionOI contain data elements for procedure volumes (i.e. Total Procedures, Inpatient Procedures, etc). When counting procedure volumes for purposes in ActionOI, clients should include all associated CPT/HCPCS codes published by the American Medical Association (AMA) in conjunction with the Center for Medicare and Medicaid Services (CMS) performed by the department. IBM has developed a worksheet to assist in accurately reporting these data elements: APC and Work RVU Workbook which is found on the ActionOI Support Page.

Note: not all CPT/HCPCS are billable under CMS rules; however, if they are performed by department staff, they will be counted within ActionOI for benchmarking purposes. Level II HCPCS codes, including G Codes that are not listed on the APC and Work RVU worksheet, should not be included in the count.

As a means of data integrity and to prevent duplication in counting, some codes listed on the worksheet have been identified as "to be excluded from the total count" and therefore are excluded from the Total Procedure Count calculation/formula. They are as follows:

- Add-On codes
- Image Guided
- Injection codes
- Lab
• Non Procedure
• Packaged
• Prof Component

Additional guidance for counting procedures for the following departments:

• **Imaging Services, Neurodiagnostic, Radiation Therapy.** For the Total Procedures and Inpatient Procedures elements, count all procedures performed by the these department staff that have an associated CPT/HCPCS code as listed on the APC and Work RVU worksheet, excluding adjunct interventional injection codes. Special consideration has been applied to the worksheet for Image Guidance procedures, and while they may not be 'billable' under CMS rules, they can be counted for ActionOI purposes.

  *Note: Subset worksheets can be found on the Support Page to assist with elements that are not populated with the APC and WorkRVU worksheet which is used for Key Volume upload.*

• **Cardiovascular Services.** For the Total Procedures and Inpatient Procedures elements, count all procedures performed by Cardiovascular Services department staff that have an associated CPT/HCPCS code as listed on the APC and Work RVU worksheet, excluding adjunct interventional injection codes. Note: subset worksheets can be found on the Support Page to assist with elements that are not populated with the APC and Work RVU worksheet which is used for Key Volume upload.

• **Respiratory Services and Pulmonary Diagnostic Services.** For the Total Procedures and Inpatient Procedures elements, count only 'billable' procedures performed by the department staff.

• **Rehabilitation Services.** For the Total Procedures and Inpatient Procedures elements, count only 'billable' procedures performed by the department staff.

  *Note: CMS breaks down Rehabilitation CPI codes into timed and untimed codes and is very specific about what can be billed and how often (i.e once per day). IBM incorporated a Department Specific and Baseline Billed Time Units (BTU's) as a separate workload volumes for reporting metrics. Refer to the department-specific workbook for more information.*

• **All Other Ancillary Departments.** For the Total Procedures and Inpatient Procedures elements, count all procedures performed by department staff that have an associated CPT / HCPCS code as listed on the APC and Work RVU worksheet, excluding adjunct interventional injection codes.

---

**System Reporting -- The S Entity Type**

**Overview**

ActionOI System reporting allows for benchmarking between health systems (system to system comparisons) and between different entity types (system to facility comparisons). System level data is submitted to a System entity type in ActionOI, and is identified within the reporting module with an "(S)" notation. A separate license must be purchased in order to participate as a System entity. In order to ensure comparisons are applicable, it is very important to adhere to the methodologies outlined below as we recognize that organizations have many ways of reporting data.
In general, system supported activities should be reported at the system entity level. We realize that it is very common for certain activities to be supported at both the system and facility levels. In these cases, our guidance to System entity reporters is to report these as a consolidation within the System entity. This may require the use of the System Cost Transfer (SCT) function in Data Collection to move certain portions of the data from your Facility entities to your System entity. The following section will aid in making the correct choices in order to submit the data in a format that meets ActionOI definitions.

**Note:** System Entities are also known as System Office, Corporate Office, Regional Office, Shared Services Organization, and Healthcare System.

**System Entity - General Content Rule: 00100, General Facility**

The 00100, General Facility information is used to benchmark health systems at the highest level of financial operations based on the consolidated financials. This should include all activities of the health system. For example, Gross Revenue reported should equal the Gross Revenue of the entire health system, not just the sum of the revenue reported for the facilities submitting data within ActionOI. The source of the information captured within the 00100, General Facility (S) is the statement of revenue and expense and the statement of financial position. The data can be uploaded or manually entered, but for GFAC cannot be modified via Normalizations or System Cost Transfers.

**General Content Rule: Shared Services (ActionOI Standard Departments)**

The shared services level information is used to benchmark at an individual, standard department level which focuses on specific tasks and functions. The information reported within any ActionOI standard department should represent the functions of the system entity which meets the ActionOI department definition. For example, Human Resources Department: Personnel Services for a health system reporter should represent the hours, expenses, and volumes of Personnel Services function for the entire system entity.

**Note:** The data can be uploaded or manually entered and can be modified via Normalizations and/or System Cost Transfers.

**Adjusted Discharges Supported**

The ActionOI element Adjusted Discharges Supported, is defined as the:

"Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility Department."

1. If Adjusted Discharges Supported is the same value as what has been calculated from the 00100, General Facility, it is not necessary to report this data element. Adjusted Discharges will automatically calculate from the data that has been provided on the 00100, General Facility.
2. Only Patient Generated Revenues are used in the Inpatient-Outpatient Adjustment Factor (IP/OP Adjustment Factor).
3. The IP/OP Adjustment Factor is derived by taking Total Gross Patient Revenue divided by Total Gross Inpatient Revenue for all the business units supported,

4. Adjusted Discharges Supported is derived by taking the sum of the Total Facility Discharges multiplied by the IP/OP Adjustment Factor.

**The Matching Principle**

**Background**

The Federal Accounting Standards Advisory Board (FASAB) and the American Institute of Certified Public Accountants (AICPA) established the accounting principles known as the Generally Accepted Accounting Principles (GAAP). ActionOI relies upon the concept of matching to provide guidance on how to report data.

**The Matching Principle**

The Matching Principle requires companies to use the Accrual basis of accounting; it requires that expenses be matched with revenues.
Sales commissions expense should be reported in the period when the sales were made—and not reported in the period when the commissions were paid. Wages to employees are reported as an expense in the week when the employees worked and not in the week when the employees are paid. For example, if a company agrees to give its employees one percent of its 2003 revenues as a bonus on January 15, 2004, the company should report the bonus as an expense in 2003 and the amount unpaid at December 31, 2003 as a liability. (The expense is occurring as the sales are occurring.)

**Accrual Basis of Accounting**

The Accrual Basis of Accounting is the accounting method under which revenues are recognized on the Statement of Revenue and Expense when they are earned (rather than when the cash is received). The Statement of Financial Position is also affected at the time of the revenues by either an increase in Cash (if the service or sale was for cash), an increase in Accounts Receivable (if the service was performed on credit), or a decrease in Unearned Revenues (if the service was performed after the customer had paid in advance for the service).

Under the accrual basis of accounting, expenses are matched with revenues on the Statement of Revenue and Expense when the expenses expire or title has transferred to the buyer, rather than at the time when expenses are paid.

The Statement of Financial Position is also affected at the time of the expense by a decrease in Cash (if the expense was paid when it was incurred), an increase in Accounts Payable (if the expense will be paid in the future), or a decrease in Prepaid Expenses (if the expense was paid in advance).

**Matching of Salary Dollars and Hours**

In conjunction with the implementation of the Matching Principle, ActionOI also requires that clients report Hours Associated with Salary Dollars for all departments. If the salary of a particular staff person or team is capitalized (the salary is NOT charged to a department), then the related hours must also not be reported in that department. The reasoning behind enforcement of this rule is that if there is no tie-in of hours to salary dollars, the measure Average Wage Rate computed for a facility department in ActionOI will be misrepresented and as a result, the benchmarks based on this measure will be suspect.

**Using the All Indicator and All Element Lists**

The All Indicator List is a Microsoft Excel® file that lists every possible indicator and indicator formula, organized by department. Indicators are the calculated ratios, metrics, and other performance measures. Indicators are automatically calculated when the required data elements have been populated.

Use this list as a reference when mapping departments. The list is available via the Support link on every page of the ActionOI application. Look under Reference and click **Indicator List**.

The All Element List is a Microsoft Excel file that lists every possible data element in ActionOI by department. This file includes information about mandatory data elements, elements that are uploadable or manual entry only, as well as elements that are part of the "better performer" criteria as seen in the Reporting module.
Use this list as a reference when mapping departments. The list is available via the Support link on every page of the ActionOI application. Look under Reference and click Element List.

Both files can be found on the Support and Training page.

### What is a Department Series?

A department series is a collection of departments, normalizations, characteristics, elements (department hours or standard expenses), and indicators. The elements provided for departments produce indicators, such as Worked Hours per Unit of Service, per Discharge, or per Patient Day. By combining these indicators with the responses to the characteristics questions, you can understand how your department compares to similar departments at other facilities.

Before submitting statistical data, keep in mind the following universal guidelines:

- Data elements should be internally consistent. For example, productivity statistics should relate to the hours and dollars reported for the department.
- If a statistic applies to your operation but is not available or reliable, leave the field blank.
- If a statistic does not apply to your operation, enter “0.”
- Normalizations are applied AFTER the data is mapped.

Financial reports can provide statistics, such as patient days or discharges. Productivity statistics provide a measure of the workload volume specific to each department.

For a complete list of the ActionOI standard departments that should have only one primary instance, please see the Department Worksheets Excel file available under Data Collection on the ActionOI Support tab.
Worksheets

ActionOI worksheets are Microsoft Excel workbooks you can use during the data collection process to help calculate the values you enter on Characteristic Surveys and Numeric Entry pages. Each workbook includes an introductory page that details how you can use the worksheet.

Worksheets are available on the Support tab of ActionOI.

APC and RVU Worksheet: Departmental Workload Volumes and Intensity by APC

APC Relative Weights and the Hospital Outpatient Prospective Payment System

CMS reimburses most hospital outpatient procedures through the Hospital Outpatient Prospective Payment System (HOPPS). The HOPPS determines the prospective payment for a HCPCS/CPT procedure from the Relative Weight of the Ambulatory Payment Classification (APC) to which the HCPCS/CPT code belongs. An APC is comprised of HCPCS/CPT codes in the same clinical service line that have similar costs for a hospital to provide. Unlike an RVU value, a Relative Weight does not indicate the specific costliness of a single HCPCS/CPT code by itself, but encompasses the entire bundle of services required to perform the procedure. Procedures that are always "packaged with" or performed as part of other procedures are not classed into an APC and have a Relative Weight of zero. Their cost to a hospital is included in the Relative Weight(s) of the procedure(s) with which they are performed. For each HCPCS/CPT procedure, the national payment amount is the product of the Relative Weight times the HOPPS Conversion Factor for the year (Dollars/Relative Weight unit).

To calculate Relative Weights, each year CMS estimates the median hospital cost to provide the services represented by each HCPCS/CPT code and from these calculates the median cost for each APC. CMS then converts the median estimated hospital costs to Relative Weights only for those procedure codes covered by the HOPPS. However CMS does estimate and publish the median estimated hospital costs for all procedures in submitted hospital outpatient claims (see Appendix: CMS Relative Weight Methodology).

Most HCPCS/CPT codes performed in profiled ActionOI departments belong to an APC and have an APC Relative Weight. The worksheet identifies these codes by a value of "A" (APC) for "S" (Source of APC Weight). However, some HCPCS/CPT codes are exceptions.

HCPCS/CPT Procedure Codes without an APC Relative Weight

Some HCPCS/CPT codes do not have a Relative Weight even though these procedures may be performed by hospital departments. There are several different situations in which CMS does not assign a Relative Weight to a HCPCS/CPT code.
1. Packaged Procedures
2. Procedures that Require a More Detailed HCPCS/CPT Code
3. Procedures Reimbursed by a Payment Rate Rather than by Relative Weight
4. Procedures Reimbursed to Hospitals via the Physician Fee Schedule
5. Other Hospital/Physician Office Procedures on Physician Fee Schedule with RVUs
6. Procedures Reimbursed Only on an Inpatient Basis
7. Procedure Codes CMS pays via Other Fee Schedules
8. Procedures Never Performed in a Hospital Setting
9. Procedures Not Generally Applicable to Medicare Beneficiaries
10. Procedures with Insufficient Volume to Estimate a Relative Weight
11. Procedures that Are Experimental or Investigational

Packaged Procedures

CMS assigns Relative Weights of zero to procedures that are always "packaged with" or performed as part of a more significant procedure. These include most anesthesia procedures, injections, insertions/placements of needles and catheters, etc. that are performed in the context of another procedure. The costliness of a packaged procedure is included in the APC Relative Weight of the more significant procedure(s) with which it is performed. The worksheet identifies these codes with a value of "Packaged" for "APC Payment Status Indicator ". ActionOI excludes packaged procedure codes from procedure counts. The worksheet identifies this with values of "* Packaged" or "* Inject" or "* Non Proc" for "Exclude from Procedure / Treatment Counts."

There are a small number of HCPCS/CPT codes that are usually performed as part of a more significant procedure. In those cases where the procedure is performed by itself, it is reimbursed using a CMS-assigned APC Relative Weight. However, since they are usually performed only as part of a larger procedure, ActionOI also excludes these codes from procedure counts with a value of "* Packaged." These codes are identified by an "APC Payment Status Indicator" value of "Packaged w wgts" (Q).

Procedures that Require a More Detailed HCPCS/CPT Code

Some HCPCS/CPT codes do not have an APC Relative Weight because CMS requires a more specific code. For example, CMS does not cover HCPCS/CPT code

33249 Insertion or repositioning of electrode lead(s) for single or dual chamber pacing cardioverter-defibrillator and insertion of pulse generator

Instead, CMS requires hospitals to code either

G0299 Insertion or repositioning of electrode lead(s) for single chamber pacing cardioverter-defibrillator and insertion of pulse generator

or
G0300 Insertion or repositioning of electrode lead(s) for dual chamber pacing cardioverter-defibrillator and insertion of pulse generator

Both G0299 and G0300 have a Relative Weight of 442.3292. Therefore ActionOI assigns a Relative Weight of 442.3292 to code 33249 as well. This is the same Relative Weight the hospital procedure would receive if the hospital had used a more specific procedure code.

The worksheet identifies these by a value of "E" (Equivalent) in column "S."

Procedures Reimbursed by a Payment Rate rather than by Relative Weight

CMS reimburses 13 hospital procedures by a fixed HOPPS Payment Rate instead of by an APC Relative Weight. For these procedures, we convert the HOPPS Payment Rate to an equivalent APC Relative Weight. This is the Relative Weight that would result in the same HOPPS payment

Relative Weight = (2013 HOPPS Payment Rate)/(2013 HOPPS Conversion Factor)

where the 2013 HOPPS Conversion Factor is $71.313 / APC

The worksheet identifies codes with a APC Relative Weight derived from a Payment Rate by an "R" (Rate) in column "S" (Source of APC Weight).

Procedures Reimbursed to Hospitals via the Physician Fee Schedule

CMS reimburses many hospital procedures via the Physician Fee Schedule (PFS). Hospitals receive the same payment as would a physician's office or other non-hospital setting. One can perform these procedures in either a hospital or office setting, with cost and resource use assumed to be the same. Examples include:

- Mammography services
- Physical Therapy services

For these codes, IBM converts the technical component RVUs from the Physician Fee Schedule to a value equivalent to the APC Relative Weight, that is, to the number of APC units that results in the same payment amount. The technical component RVU is the sum of the Non-Facility PE and the Malpractice RVU.

The conversion factors allow one to convert an RVU to a Relative Weight.

where the 2013 HOPPS Conversion Factor is $71.313 / APC

and the 2013 Physician Conversion Factor is $34.023 / RVU

For example, procedure 77055 Mammography; unilateral has an RVU value of 1.63 for the technical component

AOI Relative Weight = (1.63 RVUs) * ($34.023 / RVU ) / $71.313/APC) = 0.7777APCs

The worksheet identifies procedures with Relative Weights derived from RVUs by an "F" (Fee Schedule) in column "S" (Source of APC Weight).
Other Hospital/Physician Office Procedures on Physician Fee Schedule with RVUs

Several other procedures can be performed in either a hospital or a physician office setting, but CMS does not reimburse them via the Physician Fee Schedule because they have an APC Payment Status Indicator of "Non-Medicare" or "Non-HOPPS." CMS provides RVU values for many of the codes not covered by Medicare. ActionOI determines whether a procedure can be done in an office setting using the "Transitioned Non-Facility Not-Applicable Indicator" on the Physician Fee Schedule.

Examples of HCPCS/CPT hospital/office codes with RVUs include:

- 11975 Insertion, implantable contraceptive capsules
- 11977 Removal with reinsertion, implantable contraceptive capsules
- 59425 Antepartum care only; 4-6 visits
- 59426 Antepartum care only; 7 or more visits
- 59430 Postpartum care only (separate procedure)
- 78350 Bone density (bone mineral content) study, one or more sites; single photon absorptiometry
- 90465 Immunization administration younger than 8 years of age (includes percutaneous, intradermal, subcutaneous, or intramuscular injections) when the physician counsels the patient/family; first injection (single or combination vaccine/toxoid), per day

IBMs uses the same methodology (as "F" above) to produce APC-equivalent weights for additional procedures not covered by the HOPPS for which CMS publishes RVU values, and for which costs in hospitals and in other settings should be similar. This includes only "Non-Facility" procedures. The worksheet identifies these codes by a "P" (Physician Fee Schedule) in column "S" (Source of APC Weight).

Procedures Reimbursed Only on an Inpatient Basis

The departments whose workload intensity ActionOI currently profiles rarely perform procedures that can only be performed on an inpatient basis. However, some hospitals do perform some procedures in profiled departments (e.g. Invasive Cardiology, Endoscopy/G.I. Lab) that CMS does not currently reimburse on an outpatient basis, and excludes from the HOPPS. CMS therefore does not provide APC Relative Weights for these procedures.

CMS calculates and published Median Estimated Costs for all the procedures observed in its claims stream. CMS then converts these median estimated costs to APC relative weight values for all the procedures covered by the HOPPS. CMS does not convert these median costs to APC relative weights for procedures that are not paid by the HOPPS, are not covered by Medicare, are paid via a fee schedule, or have too low a volume to reliably estimate cost from one year's data. CMS asks carriers to price most new (e.g. temporary "T-code") and low-volume procedures. IBM selects the CMS estimated median costs in the 2013 APC median cost dataset and converts these cost estimates to 2013 APC weights. By using CMS own cost estimates used to assign APC relative weights, we ensure that these are the same weights CMS would have assigned if it categorized a procedure in an APC class.
The worksheet identifies these codes by a "C" (CMS Median Estimated Cost) in column "S" (Source of APC Weight).

**Procedures CMS Pays via Other Fee Schedules**

CMS reimburses a number of HCPCS/CPT codes using other fee schedules. CMS does not publish an APC Relative Weight nor an RVU value for these codes. These codes represent durable laboratory procedures, medical equipment, ambulance services, supplies or drugs rather than direct services to patients. ActionOI excludes these codes from procedure counts with the designation "** Non Proc" and with a Relative Weight of zero.

The remaining codes are test procedures on the Laboratory Fee Schedule. ActionOI excludes these codes from procedure counts with the designation "** Lab" with Relative Weights of zero.

**Procedures Not Generally Applicable to Medicare Beneficiaries**

This also includes procedures specifically excluded from Medicare coverage. ActionOI provides equivalent Relative Weights if there is either (1) a sufficient number of cases in the CMS median cost estimates for the procedure or (2) the procedure equally can be performed in a physician office setting and CMS provides Non-Facility RVU values. In these cases ActionOI uses the methods described above to obtain Relative Weights.

**Procedures with Insufficient Volume to Estimate a Relative Weight**

CMS does not publish an APC Relative Weight for these procedures. Many of these are represented by "Temporary" CPT codes with a "T" as the fifth digit, or by HCPCS Level II codes. For these procedures there is inadequate data to estimate a Relative Weight. In some cases the Medicare asks carriers to price the code.

**Procedures that are Experimental or Investigational**

CMS does not publish an APC Relative Weight for these procedures. Many of these are represented by "Temporary" CPT codes with a "T" as the fifth digit, or by HCPCS Level II codes. For these procedures there is inadequate data to estimate a Relative Weight.

**HCPCS/CPT Codes Included on APC and Work RVU Worksheet**

The APC and Work RVU worksheet includes

- CPT (HCPCS Level I) codes
  - All procedure codes
  - Including Temporary Codes ("T" in 5th digit)
  - But excluding Measurement Only Codes ("F" in 5th digit)
- HCPCS Level II (Alpha) codes
  - That represent actual procedures
Guiding Principles

• But omitting codes that represent supplies, DME, drugs, ambulance services, etc.
• That provide data with which to provide a Relative Weight

• An APC Relative Weight

• Professional Work RVU values

**HCPCS/CPT Codes Excluded from Procedure Counts**

The APC and Work RVU worksheet counts only unique procedures. Procedure counts exclude:

• *HCPCS/CPT* codes secondary to a more significant procedure
  • Add-on procedures (but RVU value and Relative Weight included in totals)
  • Packaged procedures, always performed in conjunction with or as part of a more significant procedure
  • Injections

• *HCPCS/CPT* codes that represent only the professional (physician/provider) component of a procedure (but RVU value and Relative Weight included in totals)

• *HCPCS/CPT* non-procedure codes
  • Drugs
  • Vaccines
  • DME
  • Supplies

• *HCPCS/CPT* clinical laboratory payment schedule codes

**Appendix: CMS Relative Weight Methodology**

Each year CMS estimates the median cost for each *HCPCS/CPT* code and converts these estimated costs to APC Relative Weights for all the procedures covered by the *HOPPS*. When obtaining these estimates, CMS uses all claims submitted to it, including those with procedures not covered by the *HOPPS*. CMS estimates and publishes the weights in several steps:

• Separate out outpatient claims with a single significant procedure

• Separate out claims that have no significant procedure, and determine the most significant of the *HCPCS/CPT* codes that do appear on the claim

• Split remaining claims that have multiple significant procedures into pseudo-claims each having one significant procedure and its associated "packaged" services (e.g. anesthesia, radiological monitoring, routine supplies)
• Combine the original single-procedure claims with the generated pseudo-claims each identified by a single significant procedure

• Estimate the cost of each claim/pseudo-claim by applying Ratios-of-Costs-to-Charges from the hospital's Medicare Cost Report to the detailed submitted charges on each claim

• Calculate the median estimated cost for each procedure bundle from the estimated costs for individual claims identified by the procedure

• Group procedures in same service line with similar estimated costs into the same APC

• Convert median cost for APC to APC Relative Weight
  ▪ Ratio (median cost for APC) / (median cost all procedures)
  ▪ With adjustments to meet CMS reimbursement budget targets

• Publish APC assignments, Relative Weights, and the estimated median hospital costs for HCPCS/CPT procedures that appear in Medicare claims.

CMS provides the details for each year's estimates in the annual published Final Rule for the Outpatient Prospective Payment System.
Chapter 5. Administration

This chapter includes the following sections:

- 06610, Administration 108
- G6600, Other Administration Services 112

06610, Administration

This department includes all C-Level (i.e. CEO, CFO, CIO, COO, CMO, CNO), V-Level (i.e. Senior Vice President, Vice President, Assistant Vice President) and respective support staff (i.e. Administrative Assistant, Executive Secretary) for service lines within the organization.

Administration Mapping Guidelines

If the organization has multiple executive administrative cost centers for service lines combine them for reporting purposes.

Administration Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Administration Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Other Line Management**

Total hours worked by non senior level executives with predominately line management responsibilities.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Senior Management**

Total hours worked by senior level executives (CEO, vice presidents, etc.) with predominately line management responsibilities.

This is a subset of Worked Hours: Staff.

**Worked Hours: Specialty Staff**

Total hours worked by specialty professional staff (planning, PR, human resources, etc.) with predominately staff responsibilities.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Administration Expense Elements

Contract Service Expense
Total expense for services (e.g. collections, transcription, release of information, coding, etc.) provided by outside contractors.

This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Supply Expense
Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Total Related Party Allocation Expense
Total expense allocated from a corporate or other related party for services provided.

This is a subset of Other Direct Operating Expense.

Administration Mandatory Elements
The following data elements are mandatory for this department:
Administration Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- CIO (Chief Information Officer), Vice Presidents, Assistant Administrators and their support staff
- CMIO (Chief Medical Information Officer)
- Corporate Compliance Officer - activities related to overseeing and managing regulatory compliance issues within the organization
- Privacy Officer - activities related to the development, implementation, maintenance of, and adherence to policies and procedures covering the privacy of, and access to, patient health information in compliance with federal and state laws
- Senior Management, Executive Staff and clerical support staff, e.g., CEO, CFO, VPs, Assistant Administrators

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administration of Compensation and Benefits, e.g., job description preparation, analysis, and evaluation, conducting salary surveys, performing employee benefits management, employee enrollment, plan administration, and record keeping
- Clerical support for Nursing Administration Managers or Directors
- Employee Assistance (management and administration of the program)
- Fund raising activities
- Human Resources/Personnel
- Legal Affairs (In-House Counsel) and Legal Fees
- Mail Room
• Medical care evaluation via peer review, e.g., evaluation of an individual practitioner’s professional performance and includes the identification of opportunities to improve care

• Medical Plan Contracting - The contracting, tracking of contracts, and financial support for negotiations

• Medical staff office, Medical Affairs, CME, and associated secretarial staff

• Outplacement Counseling

• Patient Relations

• Patient Satisfaction, including the survey process and analysis of the results

• Physician Referral

• Public Relations

• Rate-Setting, e.g., develop and implement rates for the organization

• Recruitment Costs, e.g., costs associated with the relocation of new employees (excluding physicians)

• Reimbursement Management, e.g., preparation of the annual Medicare and Medicaid cost reports, regular reimbursement related filings, preparation of monthly statistical summaries and special reimbursement projects

• Union Negotiations

G6600, Other Administration Services

If you have a cost center in this series that does not appropriately map to any of the individual departments, map to this department.

Other Administration Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
Other Administration Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Other Line Management

Total hours worked by non senior level executives with predominately line management responsibilities.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Senior Management

Total hours worked by senior level executives (CEO, vice presidents, etc.) with predominately line management responsibilities.

This is a subset of Worked Hours: Staff.

Worked Hours: Senior Management

Total hours worked by senior level executives (CEO, vice presidents, etc.) with predominately line management responsibilities.
This is a subset of Worked Hours: Staff.

**Worked Hours: Specialty Staff**
Total hours worked by specialty professional staff (planning, PR, human resources, etc.) with predominately staff responsibilities.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Other Administration Services Expense Elements**

**Labor Expense**
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Other Administration Services Mandatory Elements**
The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Other Administration Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- CIO (Chief Information Officer), Vice Presidents, Assistant Administrators and their support staff
- CMIO (Chief Medical Information Officer)
- Corporate Compliance Officer - activities related to overseeing and managing regulatory compliance issues within the organization
- Privacy Officer - activities related to the development, implementation, maintenance of, and adherence to policies and procedures covering the privacy of, and access to, patient health information in compliance with federal and state laws
- Senior Management, Executive Staff and clerical support staff, e.g., CEO, CFO, VPs, Assistant Administrators

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administration of Compensation and Benefits, e.g., job description preparation, analysis, and evaluation, conducting salary surveys, performing employee benefits management, employee enrollment, plan administration, and record keeping
- Clerical support for Nursing Administration Managers or Directors
- Employee Assistance (management and administration of the program)
- Fund raising activities
- Human Resources/Personnel
- Legal Affairs (In-House Counsel) and Legal Fees
- Mail Room
- Medical care evaluation via peer review, e.g., evaluation of an individual practitioner’s professional performance and includes the identification of opportunities to improve care
- Medical Plan Contracting - The contracting, tracking of contracts, and financial support for negotiations
- Medical staff office, Medical Affairs, CME, and associated secretarial staff
• Outplacement Counseling

• Patient Relations

• Patient Satisfaction, including the survey process and analysis of the results

• Physician Referral

• Public Relations

• Rate-Setting, e.g., develop and implement rates for the organization

• Recruitment Costs, e.g., costs associated with the relocation of new employees (excluding physicians)

• Reimbursement Management, e.g., preparation of the annual Medicare and Medicaid cost reports, regular reimbursement related filings, preparation of monthly statistical summaries and special reimbursement projects

• Union Negotiations
Chapter 6. Ambulatory Care Clinics

The Ambulatory Care Clinics series includes all scheduled patient visits for diagnostic or therapeutic care under the direction or supervision of a physician. Educational, rehabilitative, or preventive care clinics may be included if a charge is generated for the visit. Clinics may function in one or more locations and may be staffed by hospital medical staff or by visiting physicians from another facility.

General Notes

- The Ambulatory Services Administration department should capture all the administrative functions of the Ambulatory Care Clinics program including patient registration, patient reception, general management, and clerical support. These functions are defined in the Normalizations: Task-to-Department Cross Reference document available via the Support link in ActionOI.

- The registration function needs to be captured in the normalized view of the Ambulatory Services Administration department. If your actual data view has registration in a department other than Ambulatory Care Clinics series, or, if registration is captured in various ambulatory clinic departments, use free-form normalization in ActionOI to allocate registration hours/costs to the Ambulatory Services Administration department.

- Patient Scheduling should be normalized the standard department 05608, Centralized Scheduling using the available task based definition or by creating a free form normalization.

- If you do not map a cost center to the Ambulatory Care Clinics Administration department, create a normalized-only instance of the department to make the allocations described above.

- Difference between an Adult Medicine Clinic and a Family Practice Clinic: The Adult Medicine clinic is intended for the treatment of a primarily adult population, whereas the Family Practice clinic may treat patients of all ages.

This chapter includes the following sections:

- Ambulatory Care Clinic Departments 118
- Ambulatory Care Clinic Department Hours Elements 236
- Ambulatory Care Clinic Expense Elements 238
- Ambulatory Care Clinic Operational Metrics 240
- Ambulatory Care Clinic Normalizations 241
Ambulatory Care Clinic Departments

02210, Multi-Discipline Combined Clinic

This department provides comprehensive coordinated care for ambulatory patients with complex diseases or disorders. This department uses a team approach providing patients access to multiple physicians and care givers at one visit as opposed to having the patient go to multiple visits or locations to receive their treatment. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Multi-Discipline Combined Clinic Workload Volumes

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).
This is a component of Patient Visits.

**Multi-Discipline Combined Clinic Mandatory Elements**

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

**Multi-Discipline Combined Clinic Mapping Guidelines**

Use this department if your patient population is diverse (that is, if your patient population does not contain an 80% proportion of any one type of specialty patient).

**Note:** Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

**Multi-Discipline Combined Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)

• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)

• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series

• Repair and Maintenance of Clinical Equipment/Rooms

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02215, Allergy Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients experiencing allergies, asthma and/or immune deficiencies. Examples of conditions diagnosed and treated include, but are not limited to: asthma, environmental allergies, food allergies, pet allergies, drug allergies, pollen allergies, and chronic cough. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Allergy Clinic Workload Volumes

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.
Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Allergy Clinic Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory allergy patients, this department may not be an appropriate choice. Other options may include the 02241, Adult Medicine Clinic department or the G2200, Other General Clinics department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Allergy Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
• Physician Provider Professional Fee Expense

• Worked Hours: Physician Provider

• Worked Hours: Staff

**Allergy Clinic Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)

• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)

• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series

• Repair and Maintenance of Clinical Equipment/Rooms

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

**02216, Anticoagulant Clinic**

This department provides safe and effective management of short-term and long-term warfarin (Coumadin) therapy for the prevention and treatment of thrombosis (clotting). The department provides patients with rapid and efficient monitoring and management of medications to achieve the best possible outcome while minimizing the risk of any adverse events. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.
Anticoagulant Clinic Workload Volume

Education and Orientation Hours
Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Nurse Direct Care Hours Worked
The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). Telehealth Visits
The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Anticoagulant Clinic Mapping Guidelines
If less than 80% of your cost center's patients are ambulatory anticoagulation patients, this department may not be an appropriate choice. Other options may include the 02241, Adult Medicine Clinic department or the G2200, Other General Clinics department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Anticoagulant Clinic Mandatory Elements
The following data elements are mandatory for this department:
• APC Relative Weight
• Labor Expense
• Labor Expense: Physician Provider
• Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Patient Examination Spaces
• Patient Visits
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Anticoagulant Clinic Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
- Repair and Maintenance of Clinical Equipment/Ro les
- Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

**02218, Bone Marrow Transplant Clinic**

This department provides comprehensive consultative, diagnostic, and therapeutic services for bone marrow transplant patients before and after transplantation. Examples of treatments provided include, but are not limited to: apheresis, chemotherapy, and daily supportive care. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

**Bone Marrow Transplant Clinic Workload Volume**

**Education and Orientation Hours**

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

**Nurse Direct Care Hours Worked**

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. **Nurse Visits**

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.
Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Bone Marrow Transplant Clinic Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory adult and / or pediatric bone marrow transplant patients (pre- and post-transplant), this department may not be an appropriate choice. Other options may include the 02267, Oncology / Hematology Clinic department, or the 02290, Transplant Center department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Bone Marrow Transplant Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff
Bone Marrow Transplant Clinic Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
- Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications

• Repair and Maintenance of Clinical Equipment/Rooms

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02225, Dental Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients experiencing dental disorders and oral diseases. Services provided include, but are not limited to: general dental care, care under general anesthesia, oral and maxillofacial surgery, reconstructive services, and management of TMJ dysfunction. Specialty areas include endodontics, orthodontics, periodontics, and prosthodontics. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Dental Clinic Workload Volumes

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.
Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Dental Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff
Dental Clinic Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory dental clinic patients, this department may not be an appropriate choice. Other options may include the 02241, Adult Medicine Clinic department or the G2200, Other General Clinics department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Dental Clinic Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
- Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
- Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
- Repair and Maintenance of Clinical Equipment/Rooms
- Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02226, Dermatology Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients diagnosed with cutaneous (skin-related) disorders including the following conditions: acne, autoimmune and connective tissue disease, HIV-related skin disorders, mole, atypical nevus, melanoma surveillance, disorders of cornification, pigmented disorders, environmental dermatitis, rosacea, hair and nail disorders, wound and ulcer care, human papillomavirus (HPV). Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

• Maintaining Medical records (the systematic documentation of a single patient’s medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
• Repair and Maintenance of Clinical Equipment/Roms
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02243, Gerontology Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients experiencing problems associated with aging. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.
Gerontology Clinic Workload Volume

Education and Orientation Hours
Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Nurse Direct Care Hours Worked
The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

Nurse Visits
Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits
The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Gerontology Clinic Mapping Guidelines
If less than 80% of your cost center's patients are ambulatory gerontology patients, this department may not be an appropriate choice. Another option may be the 02210, Multi-discipline Combined Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Gerontology Clinic Mandatory Elements
The following data elements are mandatory for this department:
• APC Relative Weight
• Labor Expense
• Labor Expense: Physician Provider
• Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Patient Examination Spaces
• Patient Visits
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Gerontology Clinic Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

This is a component of Patient Visits.
Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Oncology/Hematology Clinic Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory oncology or hematology (adult and / or pediatric) patients, this department may not be an appropriate choice. Other options may include the 02218, Bone Marrow Transplant Clinic department or the 02210, Multi-discipline Combined Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Oncology/Hematology Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff
Oncology/Hematology Clinic Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
- Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
- Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
- Repair and Maintenance of Clinical Equipment/Rooms
- Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02268, Ophthalmology / Optometry Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients experiencing eye-related disorders. Services provided include, but are not limited to: routine eye exams, an optical shop, contact lens fitting, cataract extraction (with lens implant), laser refractive surgery, retinal surgery, low-vision rehabilitation, and treatment of ocular injuries. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Ophthalmology / Optometry Clinic Workload Volume

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.
Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Ophthalmology Clinic Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory ophthalmology patients, this department may not be an appropriate choice. Other options may include the 02242, General Surgery Clinic department or the 02210, Multi-discipline Combined Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Ophthalmology Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
• Paid Hours: Contract Labor

• Paid Hours: Physician Provider

• Paid Hours: Staff

• Patient Examination Spaces

• Patient Visits

• Physician Provider Professional Fee Expense

• Worked Hours: Physician Provider

• Worked Hours: Staff

**Ophthalmology Clinic Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)

• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)

• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series

• Repair and Maintenance of Clinical Equipment/Rooms

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
**02269, Orthopedic Clinic**

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients experiencing musculoskeletal system disorders. If you operate a separate and distinct Hand Clinic, Podiatry Clinic and or Spine Center, we suggest you map your cost center(s) to those departments. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

**Orthopedic Clinic Mapping Guidelines**

If less than 80% of your cost center's patients are ambulatory orthopedic patients, this department may not be an appropriate choice. Another option may be the 02210, Multi-discipline Combined Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

**Orthopedic Clinic Workload Volumes**

**Education and Orientation Hours**

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

**Nurse Direct Care Hours Worked**

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

**Nurse Visits**

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.
Sports Medicine Visits

Total separate patient encounters supported by department staff when the patient is seen for sports medicine related concern. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Orthopedic Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff
Orthopedic Clinic Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
- Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
- Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
- Repair and Maintenance of Clinical Equipment/Rooms
- Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02270, Pain Management

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients with complicated and chronic medical, surgical and neurological pain. This department provides advanced therapies, including drug treatment, pain rehabilitation and management, injection therapies, and implants to address complex and multidimensional pain. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Pain Management Workload Volume

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.
Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs) . Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Pain Management Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory pain management patients, this department may not be an appropriate choice. Other options may include the 02241, Adult Medicine Clinic department or the 02210, Multi-discipline Combined Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Pain Management Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Patient Examination Spaces
• Patient Visits
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

Pain Management Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
• Repair and Maintenance of Clinical Equipment/Romms
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
02271, Hematology Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients experiencing blood-related disorders. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Hematology Clinic Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare & Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Wait Time For Initial Visit

Average wait time in calendar days for initial visit. Initial visits are visits by patients who have never been seen by the department (new patients), who have not been seen in the past three years, or a returning patient being treated for a new diagnosis/new site. This is measured by calculating the average difference between the initial appointment request and the initial in-office visit.

Chemo Stations

Total number of Chemo Stations available for use in the clinic.

Days of Operation per Week

Total number of days the department is open for operation during the week.

The maximum number that can be reported is 7.

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.
Infusion Beds

Total infusion beds available for Infusion Therapy.

Infusion Chairs

Total chairs available for infusion therapy. These are typically medical recliner chairs dedicated to infusion therapy administration.

Missed Appointments

The number of missed patient appointments which occurred as a result of a patient, staff member(s) including a physician, provider, and/or specialist, equipment, room, and/or other resource that is unavailable, for any reason, at the scheduled time for a specific patient service.

This is a subset of Patient Appointments Scheduled.

New Patient Average Wait Time for Initial Visit

Average wait time in calendar days for the initial visit for a new patient. This is measured by calculating the average difference between the initial appointment request and the initial scheduled office visit. This measure is a separate and distinct measurement than Average Wait Time for Initial Visit.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Patient Appointments Scheduled

Total number of patient appointments scheduled for the reporting period. An appointment is defined as a distinct block of scheduled time for a specific patient service, which includes visits, procedures, treatments, consultations, education, and/or tests.
Patient Examination Spaces

The total discrete spaces designed and equipped for patient examination. This element refers to each space designed and equipped to accommodate patient examinations and treatments. These spaces may be individual treatment rooms or partitioned areas in an open bay concept. Do not include waiting areas, office space, etc.

Patient Initial Visits

The total number of patients initially seen within the department. Initial visits are visits by patients who have never been seen by the department, who have not been seen in the past three years, or a returning patient being treated for a new diagnosis/new site.

This is a subset of Patient Visits.

Patient No Shows

The total number of patients who did not appear, for any reason, for a scheduled appointment including cancellation, non appearance or reschedule less than 24 hours prior to the appointment during the reporting period.

This is a subset of Missed Appointments.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Patient Visits with Physician Provider

Total separate patient encounters supported by department staff when the patient is seen by one or more Physician providers. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. If the patient sees additional Physician providers or also sees other types of providers (e.g., dietitian, social worker) during the same visit, the count should be recorded as one visit.

This is a subset of Patient Visits.

Procedure Visits

Enter the total number of procedure visits. A procedure visit is a patient encounter where a procedure has been performed and is billable by a CPT code. If a patient encounter on a single date of service includes multiple CPT codes for this clinic, only one procedure visit is counted. Procedure visits should not include E & M codes. A procedure visit may include an exam as well, however only count it as a single visit.

This is a component of Patient Visits.
Ambulatory Care Clinics
Professional Work RVUs (wRVUs)

Professional Work RVUs (wRVUs) is based on weights published by Medicare for CPT Codes representing the time it takes a physician / provider to perform a service, the related technical skill and physical effort, the required mental effort and judgment, and the stress due to the potential risk to the patient. Report weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Third Next Available Appointment

Average length of time in calendar days between the day a patient makes a request for an appointment with a physician or advanced practice provider (e.g., nurse practitioner) and the third available appointment for a new patient physical, routine exam, or consultation. This follows the recommendations of the Institute for Healthcare Improvement.

Total Abandoned Calls

Total number of calls where the caller hangs up after being placed on hold while waiting to speak to a representative during the reporting period.

This is a subset of Total Inbound Calls.

Total Bumped Appointments

The total appointments moved or changed as a result of a physician during a reporting period.

This is a subset of Patient Appointments Scheduled.

Total Inbound Calls

Total number of inbound calls to the clinic during the reporting period.

Treatment Visits

Total patient treatment visits supported by department staff.

This is a subset of Patient Visits.
Hematologic Clinic Department Expense Elements

Hematology Clinic

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Total expense for stocked and non stocked medical supplies. Include all non capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for departmental non medical operating supplies, e.g., office supplies and small non capitalized equipment.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense that includes professional fees, department supplies, equipment rental fees, operating leases for equipment, dues, travel and small (non-capitalized) equipment. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Pharmaceuticals Expense

Total expense for all pharmaceutical supplies.

This is a subset of Medical Supply Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners, and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

Purchased Blood and Blood Products Expense

Report the sum of purchased blood and blood products, including apheresis and autologous transfusions. Do not include hemophilia factor expense.

This is a subset of Medical Supply Expense.

Hematologic Clinic Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN

Total hours worked by LPN/LVNs (Licensed Practical Nurses or Licensed Vocational Nurses) providing patient care services in the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff
Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g., nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs. Also report overtime hours worked in the appropriate skill mix categories.

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RNs (Registered Nurses) including, but not limited to, time spent providing patient care services.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Hematologic Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Paid Hours: Staff
- Patient Examination Spaces
- Worked Hours: Staff
- Worked Hours: Physician Provider
- Labor Expense
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Patient Visits
- Labor Expense: Physician Provider
- Paid Hours: Physician Provider
- Physician Provider Worked Hours
- Physician Provider Professional Fee Expense

Hematologic Clinic Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory hematology (adult and/or pediatric) patients, this department may not be an appropriate choice. Other options may include the 02218, Bone Marrow Transplant Clinic department, the 02210, Multi-discipline Combined Clinic department or the 02267, Oncology / Hematology Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Hematologic Clinic Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
• Repair and Maintenance of Clinical Equipment/Rooms
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02272, Oncology Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients experiencing cancer related disorders. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Oncology Clinic Workload Volume

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare & Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Wait Time For Initial Visit

Average wait time in calendar days for initial visit. Initial visits are visits by patients who have never been seen by the department (new patients), who have not been seen in the past three years, or a returning patient being treated for a new diagnosis/new site. This is measured by calculating the average difference between the initial appointment request and the initial in-office visit.

Chemo Stations

Total number of Chemo Stations available for use in the clinic.
**Days of Operation per Week**

Total number of days the department is open for operation during the week.

The maximum number that can be reported is 7.

---

**Education and Orientation Hours**

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

---

**Hours of Operation per Week**

Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

---

**Infusion Beds**

Total infusion beds available for Infusion Therapy.

---

**Infusion Chairs**

Total chairs available for infusion therapy. These are typically medical recliner chairs dedicated to infusion therapy administration.

---

**Missed Appointments**

The number of missed patient appointments which occurred as a result of a patient, staff member(s) including a physician, provider, and/or specialist, equipment, room, and/or other resource that is unavailable, for any reason, at the scheduled time for a specific patient service.

This is a subset of Patient Appointments Scheduled.

---

**New Patient Average Wait Time for Initial Visit**

Average wait time in calendar days for the initial visit for a new patient. This is measured by calculating the average difference between the initial appointment request and the initial scheduled office visit. This measure is a separate and distinct measurement than Average Wait Time for Initial Visit.
Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Patient Appointments Scheduled

Total number of patient appointments scheduled for the reporting period. An appointment is defined as a distinct block of scheduled time for a specific patient service, which includes visits, procedures, treatments, consultations, education, and/or tests.

Patient Examination Spaces

The total discrete spaces designed and equipped for patient examination. This element refers to each space designed and equipped to accommodate patient examinations and treatments. These spaces may be individual treatment rooms or partitioned areas in an open bay concept. Do not include waiting areas, office space, etc.

Patient Initial Visits

The total number of patients initially seen within the department. Initial visits are visits by patients who have never been seen by the department, who have not been seen in the past three years, or a returning patient being treated for a new diagnosis/new site.

This is a subset of Patient Visits.

Patient No Shows

The total number of patients who did not appear, for any reason, for a scheduled appointment including cancellation, non appearance or reschedule less than 24 hours prior to the appointment during the reporting period.

This is a subset of Missed Appointments.
Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Patient Visits with Physician Provider

Total separate patient encounters supported by department staff when the patient is seen by one or more Physician providers. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. If the patient sees additional Physician providers or also sees other types of providers (e.g., dietitian, social worker) during the same visit, the count should be recorded as one visit.

This is a subset of Patient Visits.

Procedure Visits

Enter the total number of procedure visits. A procedure visit is a patient encounter where a procedure has been performed and is billable by a CPT code. If a patient encounter on a single date of service includes multiple CPT codes for this clinic, only one procedure visit is counted. Procedure visits should not include E & M codes. A procedure visit may include an exam as well, however only count it as a single visit.

This is a component of Patient Visits.

Professional Work RVUs (wRVUs)

Professional Work RVUs (wRVUs) is based on weights published by Medicare for CPT Codes representing the time it takes a physician / provider to perform a service, the related technical skill and physical effort, the required mental effort and judgment, and the stress due to the potential risk to the patient. Report weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.
Third Next Available Appointment

Average length of time in calendar days between the day a patient makes a request for an appointment with a physician or advanced practice provider (e.g., nurse practitioner) and the third available appointment for a new patient physical, routine exam, or consultation. This follows the recommendations of the Institute for Healthcare Improvement.

Total Abandoned Calls

Total number of calls where the caller hangs up after being placed on hold while waiting to speak to a representative during the reporting period.

This is a subset of Total Inbound Calls.

Total Bumped Appointments

The total appointments moved or changed as a result of a physician during a reporting period.

This is a subset of Patient Appointments Scheduled.

Total Inbound Calls

Total number of inbound calls to the clinic during the reporting period.

Treatment Visits

Total patient treatment visits supported by department staff.

This is a subset of Patient Visits.

Oncology Clinic Department Hour Element

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
**Paid Hours: Physician Provider**

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Worked Hours: Staff.

**Worked Hours: LPN, LVN**

Total hours worked by LPN/LVN (Licensed Practical Nurses or Licensed Vocational Nurses) providing patient care services in the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.
Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs. Also report overtime hours worked in the appropriate skill mix categories.

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RNs (Registered Nurses) including, but not limited to, time spent providing patient care services.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Oncology Clinic Expense Element

Pharmaceuticals Expense
Total expense for all pharmaceutical supplies.
This is a subset of Medical Supply Expense.

Non Medical Supply Expense
Total expense for departmental non medical operating supplies, e.g., office supplies and small non
capitalized equipment.
This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor.
Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense
Total other direct operating expense that includes professional fees, department supplies, equipment
rental fees, operating leases for equipment, dues, travel and small (non-capitalized) equipment. Exclude
depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for
non exempt employees paid at a premium rate. Include expense for incidental overtime and call back
time; exclude expense for on call time.
This is a subset of Labor Expense.

Purchased Blood and Blood Products Expense
Report the sum of purchased blood and blood products, including aphaeresis and autologous
transfusions. Do not include hemophilia factor expense.
This is a subset of Medical Supply Expense.

Medical Supply Expense
Total expense for stocked and non stocked medical supplies. Include all non capitalized medical, surgical
supplies and pharmaceuticals.
This is a subset of Other Direct Operating Expense.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

**Oncology Clinic Mandatory Elements**

The following data elements are mandatory for this department:

- APC Relative Weight
- Paid Hours: Staff
- Worked Hours: Staff
- Worked Hours: Physician Provider
- Labor Expense
- Non Medical Supply Expense
- Other Direct Operating Expense
• Paid Hours: Contract Labor
• Patient Visits
• Patient Examination Spaces
• Labor Expense: Physician Provider
• Paid Hours: Physician Provider
• Physician Provider Worked Hours
• Physician Provider Professional Fee Expense

**Oncology Clinic Mapping Guidelines**

If less than 80% of your cost center's patients are ambulatory oncology patients, this department may not be an appropriate choice. Other options may include the 02218, Bone Marrow Transplant Clinic department, the 02210, Multi-discipline Combined Clinic department or the 02267, Oncology / Hematology Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

**Oncology Clinic Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
• Repair and Maintenance of Clinical Equipment/Rooms
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
02275, Pediatric Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory pediatric patients. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Pediatric Clinic Workload Volume

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs) . Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.
Pediatric Clinic Mapping Guidelines

If less than 80% of your cost center’s patients are ambulatory pediatric patients, this department may not be an appropriate choice. Other options may include the 02235, Family Practice Clinic department or the 02210, Multi-discipline Combined Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Pediatric Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

Pediatric Clinic Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)

• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series

• Repair and Maintenance of Clinical Equipment/Rooms

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02276, Plastic Surgery Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients before and after plastic surgery. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Plastic Surgery Clinic Workload Volume

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.
Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Plastic Surgery Clinic Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory plastic surgery patients, this department may not be an appropriate choice. Other options may include the 02242, General Surgery Clinic department or the 02210, Multi-discipline Combined Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Plastic Surgery Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

Plastic Surgery Clinic Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
• Repair and Maintenance of Clinical Equipment/Rooms
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02277, Psychiatry/Psychology Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients diagnosed with mental disorders and behavioral disturbances. Examples of diagnoses include, but are not limited to: depression, anxiety and psychosis. Treatment includes an initial assessment, an individualized treatment plan (via individual or group psychotherapy), and on-going disease management. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.
Psychiatry / Psychology Clinic Workload Volume

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Group Therapy Sessions

Total group therapy sessions conducted during the reporting period. Patient group therapy sessions are any session where more than one patient is treated concurrently. This is a count of the sessions, not the number of patients being seen, the number of patients in each session does not affect the count.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.
Psychiatry/Psychology Clinic Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory psychiatry/psychology patients, this department may not be an appropriate choice. Another option may be the 02210, Multi-discipline Combined Clinic department. This department is not a partial hospitalization program. For partial hospitalization program, please map to the 04710, Partial Hospitalization department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Psychiatry/Psychology Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

Psychiatric/Psychology Clinic Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)

• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)

• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series

• Repair and Maintenance of Clinical Equipment/Rooms

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02278, Podiatry Clinic

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients with conditions and disorders of the foot and related structures (i.e. ankle, lower leg) including but not limited to: Foot and ankle deformities, Fractures and dislocations, Sprains and ligament tears, Plantar fasciitis, Foot conditions that require orthotics, Flat foot, Hammer toe, Bunions, Heel pain and spurs, Ingrown toenail and fungal nails, Diabetic foot and ankle-related problems, and Neuroma and nerve problems. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Podiatry Clinic Workload Volume

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract-agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.
Rheumatology Clinic Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory rheumatology patients, this department may not be an appropriate choice. Other options may include the 02241, Adult Medicine Clinic department or the 02210, Multi-discipline Combined Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Rheumatology Clinic Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

Rheumatology Clinic Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)

• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series

• Repair and Maintenance of Clinical Equipment/Rooms

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02287, Spine Center

This department provides comprehensive consultative, diagnostic, and therapeutic services for ambulatory patients experiencing back pain and spinal conditions including, but not limited to: Degenerative disc disease, herniated and ruptured discs, lower back pain, spinal stenosis, spinal cord tumors, and spine trauma. This department offers surgical management of back pain and injuries including spinal diseases and disorders of the cervical, thoracic, and lumbar spine, including non-operative and operative treatments for spinal deformities, fractures, infections, tumors, and arthritis. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.

Spine Center Workload Volume

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.
Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Spine Center Mapping Guidelines

If less than 80% of your cost center's patients are ambulatory patients diagnosed with spinal conditions, this department may not be an appropriate choice. Other options may include the 02241, Adult Medicine Clinic department or the 02210, Multi-discipline Combined Clinic department. Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

• Repair and Maintenance of Clinical Equipment/Rooms

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

**02298, Wound Care**

This department provides comprehensive consultative, diagnostic, and therapeutic treatment for chronic or non-healing wounds, which are defined as sores or wounds that have not significantly improved from conventional treatments. Typically, a wound that does not respond to normal medical care within 30 days is considered a problem or chronic wound. Treatment options include, but are not limited to: bio-engineered skin replacement tissues, surgical intervention, wound closure devices and Hyperbaric Oxygen Therapy. Services are provided in a hospital-based outpatient department or outpatient center located within 35 miles of the hospital campus.
Wound Care Workload Volume

Education and Orientation Hours
Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Hyperbaric Oxygen Therapy Visits
Total separate patient encounters for patients receiving Hyperbaric Oxygen Therapy treatment visits supported by department staff.

This is a component of Patient Visits.

Nurse Direct Care Hours Worked
The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). - Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

Wound Care Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)

• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)

• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series

• Repair and Maintenance of Clinical Equipment/Rooms

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

02299, Ambulatory Services Administration

This department performs administrative and general support tasks for Ambulatory Care Clinics. These tasks and functions include, but are not limited to administrative and clerical support for the clinics, as well as all business support, and non-clinical support and the associated management of these support activities.

Ambulatory Services Administration Mapping Guidelines

If this department performs procedures or other patient care activities, another option might be the G2000, Other General Care Clinics department.

Ambulatory Services Administration Mandatory Elements

The following data elements are mandatory for this department:

• Labor Expense

• Labor Expense: Physician Provider

• Medical Supply Expense

• Non Medical Supply Expense

• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Patient Visits Supported
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Ambulatory Services Administration Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

**F2200, Ambulatory Services Functional Rollup**

This rollup department includes all clinics, administrative, clerical, and business function cost centers, regardless of reporting relationship.
Ambulatory Services Functional Rollup Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Clinic Entities

Total distinct clinic sites or entities in ambulatory services that provide direct patient care. This number can be derived by counting the number of cost centers that provide direct patient care.

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Missed Appointments

The number of missed patient appointments which occurred as a result of a patient, staff member(s) including a physician, provider, and/or specialist, equipment, room, and/or other resource that is unavailable, for any reason, at the scheduled time for a specific patient service.

This is a subset of Patient Appointments Scheduled.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.
Patient Appointments Scheduled

Total number of patient appointments scheduled for the reporting period. An appointment is defined as a distinct block of scheduled time for a specific patient service, which includes visits, procedures, treatments, consultations, education, and/or tests.

Patient Initial Visits

The total number of patients initially seen within the department. Initial visits are visits by patients who have never been seen by the department, who have not been seen in the past three years, or a returning patient being treated for a new diagnosis/new site.

This is a subset of Patient Visits.

Patient No Shows

The total number of patients who did not appear, for any reason, for a scheduled appointment including cancellation, non appearance or reschedule less than 24 hours prior to the appointment during the reporting period.

This is a subset of Missed Appointments.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Patient Visits with Physician Provider

Total separate patient encounters supported by department staff when the patient is seen by one or more Physician providers. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. If the patient sees additional Physician providers or also sees other types of providers (e.g., dietitian, social worker) during the same visit, the count should be recorded as one visit.

This is a subset of Patient Visits.

Procedure Visits

Enter the total number of procedure visits. A procedure visit is a patient encounter where a procedure has been performed and is billable by a CPT code. If a patient encounter on a single date of service includes multiple CPT codes for this clinic, only one procedure visit is counted. Procedure visits should not include E & M codes. A procedure visit may include an exam as well, however only count it as a single visit.

This is a component of Patient Visits.
Professional Work RVUs

Professional Work RVUs (wRVUs) is based on weights published by Medicare for CPT Codes representing the time it takes a physician / provider to perform a service, the related technical skill and physical effort, the required mental effort and judgment, and the stress due to the potential risk to the patient. Report relative weights for procedures where the majority of the cost is provided by the departments included in the functional rollup. This value should automatically populate after the rollup and calc process has been completed and the standard departments within the series utilize the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value for each of the departments within the series, refer to the APC and Work RVU Workbook available on the Support Page and utilize the volumes for all departments within the series.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Third Next Available Appointment

Average length of time in calendar days between the day a patient makes a request for an appointment with a physician or advanced practice provider (e.g., nurse practitioner) and the third available appointment for a new patient physical, routine exam, or consultation. This follows the recommendations of the Institute for Healthcare Improvement.

Total Abandoned Calls

Total number of calls where the caller hangs up after being placed on hold while waiting to speak to a representative during the reporting period.

This is a subset of Total Inbound Calls.

Total Bumped Appointments

The total appointments moved or changed as a result of a physician during a reporting period.

This is a subset of Patient Appointments Scheduled.

Total Inbound Calls

Total number of inbound calls to the clinic during the reporting period.

Ambulatory Services Functional Rollup Mandatory Elements

The following data elements are mandatory for this department:
• APC Relative Weight
• Labor Expense
• Labor Expense: Physician Provider
• Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Patient Visits
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

G2200, Other General Clinics

This generic department includes any general ambulatory care cost centers belonging to Ambulatory Care Services that cannot be mapped to an individual Ambulatory Care Clinic department.

Other General Clinics Workload Volumes

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVNs/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported
Nurse Visits

Total separate patient encounters supported by department staff when the patient is seen by Licensed Nursing staff (RNs, LPNs, LVNs). Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same complaint. Do not count the visit if the patient sees a physician during the same encounter, the count should represent visits where a patient is seen by Licensed Nursing Staff in place of a physician.

This is a component of Patient Visits.

Telehealth Visits

The number of telephone or online encounters for the care and treatment of a patient by a physician or other healthcare provider that occurred during the reporting period. (e.g. telephone or online evaluation and management services).

This is a component of Patient Visits.

Other General Clinics Mapping Guidelines

Do not map free-standing, physician office-based (non-facility) clinics, physician practices or medical groups to this department.

Other General Clinics Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Examination Spaces
- Patient Visits
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

Other General Clinics Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Maintaining Medical records (the systematic documentation of a single patient's medical history and care across time) for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
• Patient billing - the processing of patient claims for reimbursement, submission of claims to payer. This does not include charge capture.
• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
• Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
• Repair and Maintenance of Clinical Equipment/Roads
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
Ambulatory Care Clinic Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Dental Hygienist

Hours worked by Dental Hygienist providing patient care services in the department.

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurse, licensed vocational nurses providing patient care services in the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or standby hours.

This is a subset of Worked Hours: Staff.
**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Ambulatory Care Clinic Expense Elements

Dental Lab Expense
Dental Lab expense represents the cost of services provided to the clinic by a dental laboratory, whether in-house at the facility or contracted / outsourced to another vendor.

This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense
Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense
Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.
**Other Direct Operating Expense**
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Outside Service Expense**
Outside Service expense represents non-medical services provided by independent contractors. These include such items as hazardous waste disposal, equipment rental, transcription and construction.

This is a subset of Other Direct Operating Expense.

**Overtime Salary Expense**
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and callback time; exclude expense for on call time.

This is a subset of Labor Expense.

**Pharmaceuticals Expense**
Total expense for all pharmaceutical supplies.

This is a subset of Medical Supply Expense.

**Physician Provider Professional Fee Expense**
Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

**Purchased Blood and Blood Products Expense**
Report the sum of purchased blood and blood products, including aphaeresis and autologous transfusions. Do not include hemophilia factor expense.

This is a subset of Medical Supply Expense.
Ambulatory Care Clinic Operational Metrics

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Days of Operation per Week

The total number of days per week that the department is open for routine business.

The maximum number that can be reported is 7.

Hours of Operation per Week

The average number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

Missed Appointments

The number of missed patient appointments which occurred as a result of a patient, staff member(s) including a physician, provider, and/or specialist, equipment, room, and/or other resource that is unavailable, for any reason, at the scheduled time for a specific patient service.

This is a subset of Patient Appointments Scheduled.

Patient Initial Visits

The total number of initial visits that are supported by the department. Initial visits are visits by patients who have never been seen by the department, who have not been seen in the past three years, or a returning patient being treated for a new diagnosis/new site.

This is a subset of Patient Visits.

Patient No Shows

The total number of patients who did not appear, for any reason, for a scheduled appointment including cancellation, non appearance or reschedule less than 24 hours prior to the appointment during the reporting period.

This is a subset of Missed Appointments.
Ambulatory Care Clinic Normalizations

Normalizations are the inclusion and/or exclusion of hours and costs associated with specific functions required to normalize the departmental data. These normalizations should be made to ensure that your data meets the requirements for the normalized view in the comparative database.

Ambulatory Care Clinic Normalizations For All Clinics

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Medical records for Ambulatory Care Clinics (if onsite patient records)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
- Patient Procedure Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
- Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series
- Repair and Maintenance of Clinical Equipment/Rooms
- Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

Ambulatory Services Administration Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Ambulatory Clinics)
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Ambulatory Clinics)
- Registration services for Ambulatory Care Clinics, e.g., departments mapped to the 022XX series

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications

• Patient Procedure Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Patient billing - the processing of patient claims for reimbursement, submission of claims to payer. This does not include charge capture.
Chapter 7. Cardiovascular Services

For an annotated list of Characteristic Questions for this series, please see the ActionOI support page.

This chapter includes the following sections:

- 04220, Combined Noninvasive Cardiology and Vascular Services 243
- 04222, Electrocardiography 252
- 04224, Echocardiography 259
- 04230, Combined Invasive Cardiology and Vascular Services 267
- 04232, Invasive Cardiology and Vascular Laboratory without Electrophysiology 276
- 04241, Cardiac Rehabilitation Services 285
- 04250, Electrophysiology Laboratory 292
- 04260, Peripheral Vascular Lab 300
- 04299, Cardiology and Vascular Administration and Support Services 307
- F4200, Cardiovascular Functional Rollup 312
- G4200, Other Cardiology and Vascular Services 324
- I4220, Noninvasive Cardiology and Vascular Services Intermediate Rollup 337
- I4230, Invasive Cardiology and Vascular Services Intermediate Rollup 344
- Cardiology and Vascular Services Series Worksheets 353

04220, Combined Noninvasive Cardiology and Vascular Services

This department performs activities related to recording and interpreting the hearts electrical activity, activities to test the action of the heart using ultrasound waves to produce a visual display, used for the diagnosis or monitoring of heart disease, performs cardiac nuclear imaging studies, studies of peripheral vessels in the body to evaluate the status of peripheral arterial disease, cerebrovascular disease, and to provide diagnostic information for referrals for further invasive diagnostic and therapeutic interventions.
Combined Noninvasive Cardiology and Vascular Services Mapping Guidelines

If you use this combined department do not create an instance of the 04222, Electrocardiography; 04224, Echocardiography; or 04260, Vascular Laboratory.

Combined Noninvasive Cardiology and Vascular Services Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Days of Operation per Week

Total number of days the department is open for operation during the week.

ECHO Machines

Number of ECHO machines in use by the department.

Echocardiography Procedures

Total number of Echocardiography procedures performed in this department. Echocardiography is a test that uses sound waves to create images of your heart, which provide information on the size, shape of the heart and how the heart’s chambers and valves are working.

This is a component of Total Procedures.

Electrocardiogram Procedures

Total number of electrocardiogram (EKG) procedures performed in this department.

This is a component of Total Procedures.

Holter Monitoring Procedures

Total number of holter monitoring procedures performed in this department.

This is a component of Total Procedures.
**Hours of Operation per Week**

Total number of hours the department is open for operation during the week.

**Inpatient Procedures**

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

**Nuclear Cardiology Imaging Procedures**

Total number of nuclear cardiology imaging procedures performed in this department.

This is a component of Total Procedures.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**Pediatric and Neonate Procedures**

Total pediatric/neonate procedures performed on patients under the age of 18.

This is a component of Total Procedures.

**Procedure Rooms**

The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.

**Revascularization Procedures**

Total number of revascularization procedures performed in the reporting period. This may include but is not limited to femoral, iliac, and popliteal artery(s).

This is a component of Total Procedures.
RVUs

Stress Test Procedures
Total number of stress test procedures performed in this department.

This is a component of Total Procedures.

Total Procedures
Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Vascular Procedures
Total number of vascular procedures performed in this department.

This is a component of Total Procedures.

Combined Noninvasive Cardiology and Vascular Services Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider
Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.
Worked Hours: Cardiac Sonographer

Total hours worked by a cardiac sonographer who specialize in the use of ultrasonic imaging devices to examine the heart chambers, valves, and vessels.

This is a subset of Worked Hours: Staff.

Worked Hours: Electrocardiograph (EKG) Technician

Total hours worked by and electrocardiograph (EKG) technician with special training and experience in operating and maintaining electrocardiographic equipment and providing recorded data for diagnostic review.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
**Worked Hours: Physician Provider**

Total hours worked by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: Respiratory Therapist**

Total hours worked by registered respiratory therapists.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technician**

Total hours worked by technicians in the department. A technician generally holds a two year associates degree, and may have completed a certified training program.

This is a subset of Worked Hours: Staff.

**Worked Hours: Technologist**

Total hours worked by registered technologists. Technologists hold a four year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.

**Worked Hours: Vascular Technologist**

Total hours worked by a vascular technologist specialize in the diagnosis of disorders affecting the circulation. i.e. vascular technologists, vascular specialists or vascular sonographers.
This is a subset of Worked Hours: Staff.

**Combined Noninvasive Cardiology and Vascular Services Expense Elements**

**Labor Expense**
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**
Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**
Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**
Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**
Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.
This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Combined Noninvasive Cardiology and Vascular Services Mandatory Elements**

The following data elements are mandatory for this department:

- APC Relative Weight
- Echocardiography Procedures
- Electrocardiogram Procedures
- Holter Monitoring Procedures
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Nuclear Cardiology Imaging Procedures
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Pediatric and Neonate Procedures
• Physician Provider Professional Fee Expense
• Procedure Rooms
• Stress Test Procedures
• Total Procedures
• Vascular Procedures
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Combined Noninvasive Cardiology and Vascular Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens
• Contrast Media Expense
• Personnel performing the functions of the department’s day to day managerial operations (Cardiology and Vascular)
• Post-procedure recovery for Cardiovascular studies and related procedures
• Pre-procedure assessment and patient preparation for Cardiovascular studies and related procedures
• Pre-Op Holding and Post-Procedure Recovery

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach service to attract new business, residency program (Cardiology)

• Daily or terminal cleaning and wall washing for ancillary patient procedure areas

• Maintenance and monitoring of patient implanted devices after discharged, e.g., clinical follow-up, remote monitoring, programming assessments for these types of devices: ICDs, Pacemakers, Loop Recorders, VADs

• Marketing, e.g., promoting and advertising of Physician Practice services

• Medical records transcription (e.g., lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments)

• Outpatient Registrations for any ancillary services (e.g., cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Cardiology and Vascular)

• Repair and Maintenance of Clinical Equipment/Rooms

04222, Electrocardiography

This department performs activities related to recording and interpreting the heart's electrical activity.

Electrocardiography Mapping Guidelines

Only use this department if you have a separate and distinct cost center. If you use this department do not create an instance of the 04220, Combined Noninvasive Cardiac and Vascular Services.

Electrocardiography Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.
Days of Operation per Week

Total number of days the department is open for operation during the week.

Holter Monitoring Procedures

Total number of holter monitoring procedures performed in this department.

This is a component of Total Procedures.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Pediatric and Neonate Procedures

Total pediatric/neonate procedures performed on patients under the age of 18.

This is a component of Total Procedures.

Procedure Rooms

The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.

Stress Test Procedures

Total number of stress test procedures performed in this department.
This is a component of Total Procedures.

**Total Procedures**

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

**Electrocardiography Department Hour Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Physician Provider**

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

**Worked Hours: Electrocardiograph (EKG) Technician**

Total hours worked by and electrocardiograph (EKG) technician with special training and experience in operating and maintaining electrocardiographic equipment and providing recorded data for diagnostic review.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.
This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Total hours worked by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: Respiratory Therapist**

Total hours worked by registered respiratory therapists.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.
This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Total hours worked by registered technologists. Technologists hold a four year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.

**Electrocardiography Expense Elements**

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.
Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Electrocardiography Mandatory Elements

The following elements are mandatory for this department.

- APC Relative Weight
- Holter Monitoring Procedures
- Inpatient Procedures
- Labor Expense
• Labor Expense: Physician Provider
• Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Pediatric and Neonate Procedures
• Physician Provider Professional Fee Expense
• Procedure Rooms
• Stress Test Procedures
• Total Procedures
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Electrocardiography Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens

• Contrast Media Expense

• Personnel performing the functions of the department’s day to day managerial operations (Cardiology and Vascular)

• Post-procedure recovery for Cardiovascular studies and related procedures

• Pre-Op Holding and Post-Procedure Recovery

• Pre-procedure assessment and patient preparation for Cardiovascular studies and related procedures

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach service to attract new business, residency program (Cardiology)

• Daily or terminal cleaning and wall washing for ancillary patient procedure areas

• Maintenance and monitoring of patient implanted devices after discharged, e.g., clinical follow-up, remote monitoring, programming assessments for these types of devices: ICDs, Pacemakers, Loop Recorders, VADs

• Marketing, e.g., promoting and advertising of Physician Practice services

• Medical records transcription (e.g., lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments)

• Outpatient Registrations for any ancillary services (e.g., cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Cardiology and Vascular)

• Repair and Maintenance of Clinical Equipment/Rooms

04224, Echocardiography

This department performs activities to test the action of the heart using ultrasound waves to produce a visual display, used for the diagnosis or monitoring of heart disease, performs cardiac nuclear imaging studies and vascular studies.

Echocardiography Mapping Guidelines

Only use this department if you have a separate and distinct cost center. If you use this department do not create an instance of the 04220, Combined Noninvasive Cardiac and Vascular Services.

Echocardiography Workload Volumes
APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Days of Operation per Week

Total number of days the department is open for operation during the week.

ECHO Machines

Number of ECHO machines in use by the department.

Holter Monitoring Procedures

Total number of holter monitoring procedures performed in this department.

This is a component of Total Procedures.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

Nuclear Cardiology Imaging Procedures

Total number of nuclear cardiology imaging procedures performed in this department.

This is a component of Total Procedures.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.
**Pediatric and Neonate Procedures**

Total pediatric/neonate procedures performed on patients under the age of 18.

This is a component of Total Procedures.

**Procedure Rooms**

The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.

**Stress Test Procedures**

Total number of stress test procedures performed in this department.

This is a component of Total Procedures.

**Total Procedures**

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

**Vascular Procedures**

Total number of vascular procedures performed in this department.

This is a component of Total Procedures.

**Echocardiography Department Hour Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

Worked Hours: Cardiac Sonographer

Total hours worked by a cardiac sonographer who specialize in the use of ultrasonic imaging devices to examine the heart chambers, valves, and vessels.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Total hours worked by physicians/providers on the department’s payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Total hours worked by registered technologists. Technologists hold a four year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.

**Worked Hours: Vascular Technologist**

Total hours worked by a vascular technologist specialize in the diagnosis of disorders affecting the circulation. i.e. vascular technologists, vascular specialists or vascular sonographers.

This is a subset of Worked Hours: Staff.
Echocardiography Expense Elements

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advanced practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.
**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Echocardiography Mandatory Elements**

The following elements are mandatory for this department.

- APC Relative Weight
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Nuclear Cardiology Imaging Procedures
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Pediatric and Neonate Procedures
- Physician Provider Professional Fee Expense
- Procedure Rooms
- Stress Test Procedures
- Total Procedures
- Vascular Procedures
- Worked Hours: Physician Provider
- Worked Hours: Staff

**Echocardiography Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens
- Contrast Media Expense
- Personnel performing the functions of the department’s day to day managerial operations (Cardiology and Vascular)
- Post-procedure recovery for Cardiovascular studies and related procedures
- Pre-Op Holding and Post-Procedure Recovery
- Pre-procedure assessment and patient preparation for Cardiovascular studies and related procedures

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach service to attract new business, residency program (Cardiology)
- Daily or terminal cleaning and wall washing for ancillary patient procedure areas
- Maintenance and monitoring of patient implanted devices after discharged, e.g., clinical follow-up, remote monitoring, programming assessments for these types of devices: ICDs, Pacemakers, Loop Recorders, VADs
- Marketing, e.g., promoting and advertising of Physician Practice services
• Medical records transcription, e.g., lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments into this department

• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial oversight operations (Cardiology and Vascular)

• Repair and Maintenance of Clinical Equipment/Rooms

04230, Combined Invasive Cardiology and Vascular Services

This department performs before, during and after care of invasive, interventional, and therapeutic procedures/studies to treat cardiac and vascular arterial venous and structure heart disorders, cardiac rhythm abnormalities, implant and removal of devices and leads, and therapeutic cathartic ablations.

Combined Invasive Cardiology and Vascular Services Mapping Guidelines

If you use this department do not create an instance of the 04232, Invasive Cardiology and Vascular Laboratory without Electrophysiology, or 04250, Electrophysiology Laboratory.

Combined Invasive Cardiology and Vascular Services Workload Volumes

Ablation Procedures

Total number of ablation procedures performed in the reporting period. This may include but is not limited to atrial, node and supra ventricular ablations.

This is a component of Total Procedures.

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.
Biventricular Device Procedures

Total number of biventricular device procedures performed. A biventricular device is a mechanical pump surgically implanted under the skin that takes over the function of the damaged ventricle of the heart when needed to restore normal blood flow.

This is a component of Total Procedures.

Electrophysiology Procedures

Total EP Procedures performed by the department. Electrophysiology (EP) procedures are procedures dedicated to the treatment of heart rhythm disorders. This includes procedures that evaluate diagnosis or provide therapy for the electrical conduction system of the heart.

This is a component of Total Procedures.

Electrophysiology Studies

Total number of electrophysiology studies performed in the reporting period. This may include but is not limited to comprehensive electrophysiologic evaluations and follow ups.

This is a component of Total Procedures.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

ICD Implant Procedures

Count the total number of implantable cardioverter defibrillators (ICD) implants procedures performed. ICDs are electronic devices that constantly monitor heart rate and rhythm. When an abnormal heart rate or rhythm is detected, the ICD delivers energy to the heart muscle causing the heart to regain its normal beat and rhythm.

This is a component of Total Procedures.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.
Interventional Radiology Procedures

Interventional Radiology procedures are minimally invasive, targeted treatments performed using imaging for guidance. These cases have less risk, less pain and less recovery time compared to open surgery. Interventional radiology includes both vascular intervention and non-vascular intervention.

This is a component of Total Procedures.

Patient Observation Minutes

The total minutes patients are under the care of department staff for procedural preparations.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Pediatric and Neonate Procedures

Total pediatric/neonate procedures performed on patients under the age of 18.

This is a component of Total Procedures.

Percutaneous Coronary Intervention (PCI) Procedures

Count all percutaneous coronary intervention (PCI) Procedures with and without balloon angioplasty. PCI procedures treat the stenotic, narrowed coronary arteries of the heart found in coronary heart disease.

This is a component of Total Procedures.

Peripheral Vascular Procedures including Carotid Work

Count the total number of peripheral vascular procedures including carotid work. Peripheral vascular procedures treat diseases of the blood vessels that cause narrowing or occlusion of arteries outside of the heart.

This is a component of Total Procedures.
Permanent Pacemaker Procedures
Count insertions or replacements of permanent pacemaker with transvenous electrode(s); include revision of pocket, lead revision, removal and insertion of pacemaker performed. A permanent pacemaker consists of a generator and leads which are usually implanted into the upper chest. The generator contains the power source and timer that regulates how often the pacemaker sends out electrical signals. The leads allow the pacemaker to monitor your heart rhythm and sends out electrical signals to make your heart beat when needed.

This is a component of Total Procedures.

Procedure Minutes
The total number of minutes from when the patient enters the procedure room to when the patient leaves the procedure room. Count the entire time that a patient spends in the procedure room for each procedure.

Procedure Rooms
The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.

Recovery Minutes
The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

Total Procedures
Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Combined Invasive Cardiology and Vascular Services Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
**Worked Hours: Physician Provider**

Total hours worked by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Total hours worked by registered technologists. Technologists hold a four year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.

**Combined Invasive Cardiology and Vascular Services Expense Elements**

**Internal Cardiac Defibrillator (ICD) Expense**

Total ICD Expense, include expenses related to the device, leads and primary accessories required to placing the device.

This is a subset of Medical Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Pacemaker Expense

Total Pacemaker Expense.

This is a subset of Medical Supply Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Stent Expense

Total expenses for supplies related specifically to stent procedures.

This is a subset of Medical Supply Expense.

Combined Invasive Cardiology and Vascular Services Mandatory Elements

The following data elements are mandatory for this department:

- Ablation Procedures
- APC Relative Weight
- Biventricular Device Procedures
- Electrophysiology Procedures
- Electrophysiology studies
- ICD Implant Procedures
- Inpatient Procedures
- Interventional Radiology Cases
• Labor Expense
• Labor Expense: Physician Provider
• Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Patient Observation Minutes
• Pediatric and Neonate Procedures
• Percutaneous Coronary Intervention (PCI) Procedures
• Peripheral Vascular Procedures including Carotid Work
• Permanent Pacemaker Procedures
• Physician Provider Professional Fee Expense
• Procedure Rooms
• Recovery Time
• Revascularization Procedures
• Total Procedures
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Combined Invasive Cardiology and Vascular Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens
• Contrast Media Expense
• Personnel performing the functions of the department’s day to day managerial operations (Cardiology and Vascular)

• Post-procedure recovery for Cardiovascular studies and related procedures

• Pre-Op Holding and Post-Procedure Recovery

• Pre-procedure assessment and patient preparation for Cardiovascular studies and related procedures

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach service to attract new business, residency program (Cardiology)

• Daily or terminal cleaning and wall washing for ancillary patient procedure areas

• Maintenance and monitoring of patient implanted devices after discharged, e.g., clinical follow-up, remote monitoring, programming assessments for these types of devices: ICDs, Pacemakers, Loop Recorders, VADs

• Marketing, e.g., promoting and advertising of Physician Practice services

• Medical records transcription (e.g., lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments)

• Outpatient Registrations for any ancillary services (e.g., cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Cardiology and Vascular)

• Repair and Maintenance of Clinical Equipment/Rooms

04232, Invasive Cardiology and Vascular Laboratory without Electrophysiology

This department performs before, during and after care of invasive, interventional, and therapeutic procedures/studies to treat cardiac and vascular arterial venous and structure heart disorders for adult and pediatric patients.
Invasive Cardiology and Vascular Laboratory without Electrophysiology Mapping Guidelines

Only use this department if you have a separate and distinct cost center. This department may perform electrophysiology procedures but should be less than 10% of the total procedures. If you use this department do not create an instance of the 04230, Combined Invasive Cardiology and Vascular Services.

Invasive Cardiology and Vascular Laboratory without Electrophysiology Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Days of Operation per Week

Total number of days the department is open for operation during the week.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

Interventional Radiology Procedures

Interventional Radiology procedures are minimally invasive, targeted treatments performed using imaging for guidance. These cases have less risk, less pain and less recovery time compared to open surgery. Interventional radiology includes both vascular intervention and non-vascular intervention.

This is a component of Total Procedures.
Patient Observation Minutes

The total minutes patients are under the care of department staff for procedural preparations.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Pediatric and Neonate Procedures

Total pediatric/neonate procedures performed on patients under the age of 18.

This is a component of Total Procedures.

Percutaneous Coronary Intervention (PCI) Procedures

Count all percutaneous coronary intervention (PCI) Procedures with and without balloon angioplasty. PCI procedures treat the stenotic, narrowed coronary arteries of the heart found in coronary heart disease.

This is a component of Total Procedures.

Peripheral Vascular Procedures including Carotid Work

Count the total number of peripheral vascular procedures including carotid work. Peripheral vascular procedures treat diseases of the blood vessels that cause narrowing or occlusion of arteries outside of the heart.

This is a component of Total Procedures.

Procedure Minutes

The total number of minutes from when the patient enters the procedure room to when the patient leaves the procedure room. Count the entire time that a patient spends in the procedure room for each procedure.

Procedure Rooms

The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.
Recovery Minutes
The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

Revascularization Procedures
Total number of revascularization procedures performed in the reporting period. This may include but is not limited to femoral, iliac, and popliteal artery(s).

This is a component of Total Procedures.

Total Procedures
Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Invasive Cardiology and Vascular Laboratory without Electrophysiology

Department Hour Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider
Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.
**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Total hours worked by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.
**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technician**

Total hours worked by technicians in the department. A technician generally holds a two year associates degree, and may have completed a certified training program.

This is a subset of Worked Hours: Staff.

**Worked Hours: Technologist**

Total hours worked by registered technologists. Technologists hold a four year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.

**Invasive Cardiology and Vascular Laboratory without Electrophysiology Expense Elements**

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.
This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Stent Expense**

Total expenses for supplies related specifically to stent procedures.

This is a subset of Medical Supply Expense.

---

**Invasive Cardiology and Vascular Laboratory without Electrophysiology**

**Mandatory Elements**
The following elements are mandatory for this department.

- APC Relative Weight
- Inpatient Procedures
- Interventional Radiology Cases
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Observation Minutes
- Pediatric and Neonate Procedures
- Percutaneous Coronary Intervention (PCI) Procedures
- Peripheral Vascular Procedures including Carotid Work
- Physician Provider Professional Fee Expense
- Procedure Rooms
- Recovery Time
- Revascularization Procedures
- Total Procedures
- Worked Hours: Physician Provider
- Worked Hours: Staff

Invasive Cardiology and Vascular Laboratory without Electrophysiology Normalizations
Include the hours, costs and volumes (where applicable) associated with the following functions:

- Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens
- Contrast Media Expense
- Personnel performing the functions of the department’s day to day managerial operations (Cardiology and Vascular)
- Post-procedure recovery for Cardiovascular studies and related procedures
- Pre-Op Holding and Post-Procedure Recovery
- Pre-procedure assessment and patient preparation for Cardiovascular studies and related procedures

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach service to attract new business, residency program (Cardiology)
- Daily or terminal cleaning and wall washing for ancillary patient procedure areas
- Maintenance and monitoring of patient implanted devices after discharged, e.g., clinical follow-up, remote monitoring, programming assessments for these types of devices: ICDs, Pacemakers, Loop Recorders, VADs
- Marketing, e.g., promoting and advertising of Physician Practice services
- Medical records transcription (e.g. lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments)
- Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)
- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Cardiology and Vascular)
- Repair and Maintenance of Clinical Equipment/Rooms
04241, Cardiac Rehabilitation Services

This department performs cardiac rehabilitation services which may include but is not limited to education programs and exercise activities to inpatients and or outpatients with cardiac diseases. This department includes all phases of rehabilitation.

Cardiac Rehabilitation Services Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Cardiac Rehabilitation Individual Patient Sessions

Total discrete encounters with an individual patient (as opposed to groups), usually during Phases 1 and 2 of rehabilitation.

This is a subset of Rehabilitation Patient Sessions.

Days of Operation per Week

Total number of days the department is open for operation during the week.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

Patient Initial Visits

Total initial visits by patients (intake visit) beginning the cardiac rehabilitation regimen. This is a count of patients entering the department program during the Report Period.
This is a subset of Patient Visits.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**Phase 1 Visits**

Total encounters between staff and each patient during phase 1 of a cardiac rehabilitation program. Visits are conducted one-on-one in an inpatient setting, and require monitoring during exercise activity.

This is a subset of Patient Visits.

**Phase 2 Visits**

Total encounters between staff and each patient during phase 2 of a cardiac rehabilitation program. Visits are conducted one-on-one or in a group in an outpatient setting, and require monitoring during exercise activity. For group sessions, count each group member served as a separate visit.

This is a subset of Patient Visits.

**Phase 3 Visits**

Total encounters between staff and each patient during phase 3 only of a cardiac rehabilitation program. Visits are usually conducted in groups in an outpatient setting. Include educational and exercise sessions, and sessions that require monitoring during exercise activity. For group sessions, count each group member that attends as a separate visit.

This is a subset of Patient Visits.

**Rehabilitation Patient Sessions**

Total discrete encounters with a patient, either in individual or group settings, for cardiac rehabilitation evaluation, education, or exercise. Sessions may be associated with any or all of the various phases of cardiac rehabilitation.

**Stress Test Procedures**

Total number of stress test procedures performed in this department.

This is a component of Total Procedures.
Total Procedures

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Cardiac Rehabilitation Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

Worked Hours: Exercise Physiologist

Total hours worked by an exercise physiologist who specialize in the study the effects of exercise on pathology, and the mechanisms by which exercise can reduce or reverse disease progression.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.
**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Total hours worked by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: Respiratory Therapist**

Total hours worked by registered respiratory therapists.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.
Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Worked Hours: Therapist

Total hours worked by licensed or registered therapists.

This is a subset of Worked Hours: Staff.

Cardiac Rehabilitation Services Expense Elements

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.
Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Cardiac Rehabilitation Services Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
Non Medical Supply Expense

Other Direct Operating Expense

Paid Hours: Contract Labor

Paid Hours: Physician Provider

Paid Hours: Staff

Patient Visits

Phase 1 Visits

Phase 2 Visits

Phase 3 Visits

Physician Provider Professional Fee Expense

Stress Test Procedures

Total Procedures

Worked Hours: Physician Provider

Worked Hours: Staff

**Cardiac Rehabilitation Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Personnel performing the functions of the department’s day to day managerial operations (Cardiology and Vascular)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach service to attract new business, residency program (Cardiology)

- Medical records transcription (e.g., lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments)

- Outpatient Registrations for any ancillary services (e.g., cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)
• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Cardiology and Vascular)

• Repair and Maintenance of Clinical Equipment/Rooms

04250, Electrophysiology Laboratory

This department performs before, during and after care of invasive, interventional and therapeutic procedures/studies to treat cardiac rhythm abnormalities, implant, and removal of devices, and leads, and therapeutic cathartic ablations.

Electrophysiology Laboratory Mapping Guidelines

Only use this department if you have a separate and distinct cost center. If you use this department do not create an instance of the 04230, Combined Invasive Cardiology and Vascular Services.

Electrophysiology Laboratory Workload Volumes

Ablation Procedures

Total number of ablation procedures performed in the reporting period. This may include but is not limited to atrial, node and supra ventricular ablations.

This is a component of Total Procedures.

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Biventricular Device Procedures

Total number of biventricular device procedures performed. A biventricular device is a mechanical pump surgically implanted under the skin that takes over the function of the damaged ventricle of the heart when needed to restore normal blood flow.
This is a component of Total Procedures.

**Days of Operation per Week**
Total number of days the department is open for operation during the week.

**Electrophysiology Studies**
Total number of electrophysiology studies performed in the reporting period. This may include but is not limited to comprehensive electrophysiologic evaluations and follow ups.

This is a component of Total Procedures.

**Hours of Operation per Week**
Total number of hours the department is open for operation during the week.

**ICD Implant Procedures**
Count the total number of implantable cardioverter defibrillators (ICD) implants procedures performed. ICDs are electronic devices that constantly monitor heart rate and rhythm. When an abnormal heart rate or rhythm is detected, the ICD delivers energy to the heart muscle causing the heart to regain its normal beat and rhythm.

This is a component of Total Procedures.

**Inpatient Procedures**
Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

**Patient Observation Minutes**
The total minutes patients are under the care of department staff for procedural preparations.

**Patient Visits**
Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.
**Pediatric and Neonate Procedures**

Total pediatric/neonate procedures performed on patients under the age of 18.

This is a component of Total Procedures.

**Permanent Pacemaker Procedures**

Count insertions or replacements of permanent pacemaker with transvenous electrode(s); include revision of pocket, lead revision, removal and insertion of pacemaker performed. A permanent pacemaker consists of a generator and leads which are usually implanted into the upper chest. The generator contains the power source and timer that regulates how often the pacemaker sends out electrical signals. The leads allow the pacemaker to monitor your heart rhythm and sends out electrical signals to make your heart beat when needed.

This is a component of Total Procedures.

**Procedure Minutes**

The total number of minutes from when the patient enters the procedure room to when the patient leaves the procedure room. Count the entire time that a patient spends in the procedure room for each procedure.

**Procedure Rooms**

The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.

**Recovery Minutes**

The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

**Total Procedures**

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.
Electrophysiology Laboratory Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners, and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
Worked Hours: Overtime

Represents the sum of non-physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Total hours worked by physicians/providers on the department’s payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Worked Hours: Technician

Total hours worked by technicians in the department. A technician generally holds a two-year associates degree, and may have completed a certified training program.

This is a subset of Worked Hours: Staff.

Worked Hours: Technologist

Total hours worked by registered technologists. Technologists hold a four-year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.
Electrophysiology Laboratory Expense Elements

Internal Cardiac Defibrillator (ICD) Expense

Total ICD Expense, include expenses related to the device, leads and primary accessories required to placing the device.

This is a subset of Medical Supply Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Medical Supply Expense

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Pacemaker Expense**

Total Pacemaker Expense.

This is a subset of Medical Supply Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Electrophysiology Laboratory Mandatory Elements**

The following data elements are mandatory for this department:

- Worked Hours: Therapist
- APC Relative Weight
- Biventricular Device Procedures
- Electrophysiology studies
- ICD Implant Procedures
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Patient Observation Minutes
• Pediatric and Neonate Procedures
• Permanent Pacemaker Procedures
• Physician Provider Professional Fee Expense
• Procedure Rooms
• Recovery Time
• Total Procedures
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Electrophysiology Laboratory Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens
• Contrast Media Expense
• Personnel performing the functions of the department’s day to day managerial operations (Cardiology and Vascular)
• Post-procedure recovery for Cardiovascular studies and related procedures
• Pre-Op Holding and Post-Procedure Recovery
• Pre-procedure assessment and patient preparation for Cardiovascular studies and related procedures

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach service to attract new business, residency program (Cardiology)
• Daily or terminal cleaning and wall washing for ancillary patient procedure areas

• Maintenance and monitoring of patient implanted devices after discharged, e.g., clinical follow-up, remote monitoring, programming assessments for these types of devices: ICDs, Pacemakers, Loop Recorders, VADs

• Marketing, e.g., promoting and advertising of Physician Practice services

• Medical records transcription (e.g. lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments)

• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Cardiology and Vascular)

• Repair and Maintenance of Clinical Equipment/Rooms

04260, Peripheral Vascular Lab

This department performs studies of vessels in the body to evaluate the status of peripheral arterial disease, cerebrovascular disease, and to provide diagnostic information for referrals for further invasive diagnostic and therapeutic interventions.

Vascular Laboratory Mapping Guidelines

Only use this department if you have a separate and distinct cost center. If you use this department do not create an instance of the 04220, Combined Noninvasive Cardiac and Vascular Services.

Vascular Laboratory Workload Volumes
**APC Relative Weight**

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

**Days of Operation per Week**

Total number of days the department is open for operation during the week.

**Hours of Operation per Week**

Total number of hours the department is open for operation during the week.

**Inpatient Procedures**

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**Pediatric and Neonate Procedures**

Total pediatric/neonate procedures performed on patients under the age of 18.

This is a component of Total Procedures.

**Procedure Rooms**

The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.
Total Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Total Procedures

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Vascular Laboratory Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

Worked Hours: Cardiac Sonographer

Total hours worked by a cardiac sonographer who specialize in the use of ultrasonic imaging devices to examine the heart chambers, valves, and vessels.

This is a subset of Worked Hours: Staff.
Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Total hours worked by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.
Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Worked Hours: Technologist

Total hours worked by registered technologists. Technologists hold a four year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.

Worked Hours: Vascular Technologist

Total hours worked by a vascular technologist specialize in the diagnosis of disorders affecting the circulation. i.e. vascular technologists, vascular specialists or vascular sonographers.

This is a subset of Worked Hours: Staff.

Vascular Laboratory Expense Elements

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.
This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Vascular Laboratory Mandatory Elements**

The following data elements are mandatory for this department:

- APC Relative Weight
- Inpatient Procedures
• Labor Expense
• Labor Expense: Physician Provider
• Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Pediatric and Neonate Procedures
• Physician Provider Professional Fee Expense
• Procedure Rooms
• Total Procedures
• Worked Hours: Physician Provider
• Worked Hours: Staff

Vascular Laboratory Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens
• Contrast Media Expense
• Personnel performing the functions of the department’s day to day managerial operations (Cardiology and Vascular)
• Post-procedure recovery for Cardiovascular studies and related procedures
• Pre-Op Holding and Post-Procedure Recovery
• Pre-procedure assessment and patient preparation for Cardiovascular studies and related procedures

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach service to attract new business, residency program (Cardiology)

• Daily or terminal cleaning and wall washing for ancillary patient procedure areas

• Maintenance and monitoring of patient implanted devices after discharged, e.g., clinical follow-up, remote monitoring, programming assessments for these types of devices: ICDs, Pacemakers, Loop Recorders, VADs

• Marketing, e.g., promoting and advertising of Physician Practice services

• Medical records transcription (e.g. lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments)

• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Cardiology and Vascular)

• Repair and Maintenance of Clinical Equipment/Rooms

04299, Cardiology and Vascular Administration and Support Services

This department performs the overall administrative and general support tasks for the entire Cardiology and Vascular Services series. These tasks and functions include, but are not limited to, administrative management, inclusive of secretarial and clerical staff, inventory management functions, outreach, residency programs, research programs, and the associated management of these support activities.

Cardiology and Vascular Administration and Support Services Workload Volumes

APC Relative Weight Supported

The APC Relative Weight Supported is based on the weights published by The Centers for Medicare & Medicaid Services (CMS). Report relative weights for procedures supported by the department. This value is unable to be populated using the Key Volume Element Population data file. Therefore, use the sum of the APC weights for the departments utilized within this series. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.
Patient Visits Supported

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Total Procedures Supported

Count all procedures that are supported by the department for the reporting period. This value is unable to be populated using the Key Volume Element Population data file. Therefore, use the sum of the total procedures for the departments utilized within this series. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

Cardiology and Vascular Administration and Support Services Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.
Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Total hours worked by physicians/providers on the department’s payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Cardiology and Vascular Administration and Support Services Expense Elements

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non-stocked patient medical supplies. Include all non-capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Cardiology and Vascular Administration and Support Services Mandatory Elements

The following elements are mandatory for this department.

- APC Relative Weight Supported
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Total Procedures Supported
- Worked Hours: Physician Provider
- Worked Hours: Staff
Cardiology and Vascular Administration and Support Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach service to attract new business, residency program (Cardiology)

- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Cardiology and Vascular)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Maintenance and monitoring of patient implanted devices after discharged, e.g., clinical follow-up, remote monitoring, programming assessments for these types of devices: ICDs, Pacemakers, Loop Recorders, VADs

- Marketing, e.g., promoting and advertising of Physician Practice services

- Outpatient Registrations for any ancillary services (e.g., cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

- Personnel performing the functions of the department’s day to day managerial operations (Cardiology and Vascular)

F4200, Cardiovascular Functional Rollup

This rollup department includes all Cardiology and Vascular Services Series functions: administrative and support, noninvasive, invasive, and cardiac rehabilitation functions regardless of facilities internal reporting relationships.

Cardiology and Vascular Services Functional Rollup Mapping Guidelines

This functional rollup department will automatically be created based on the standard department mapping with the series.

Cardiology and Vascular Services Functional Rollup Workload Volumes
Ablation Procedures

Total number of ablation procedures performed in the reporting period. This may include but is not limited to atrial, node and supra ventricular ablations.

This is a component of Total Procedures.

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Biventricular Device Procedures

Total number of biventricular device procedures performed. A biventricular device is a mechanical pump surgically implanted under the skin that takes over the function of the damaged ventricle of the heart when needed to restore normal blood flow.

This is a component of Total Procedures.

Cardiac Rehabilitation Individual Patient Sessions

Total discrete encounters with an individual patient (as opposed to groups), usually during Phases 1 and 2 of rehabilitation.

This is a subset of Rehabilitation Patient Sessions.

Days of Operation per Week

Total number of days the department is open for operation during the week.

ECHO Machines

Number of ECHO machines in use by the department.

Echocardiography Procedures

Total number of Echocardiography procedures performed in this department. Echocardiography is a test that uses sound waves to create images of your heart, which provide information on the size, shape of the heart and how the heart’s chambers and valves are working.

This is a component of Total Procedures.
Electrocardiogram Procedures
Total number of electrocardiogram (EKG) procedures performed in this department.
This is a component of Total Procedures.

Electrophysiology Procedures
Total EP Procedures performed by the department. Electrophysiology (EP) procedures are procedures dedicated to the treatment of heart rhythm disorders. This includes procedures that evaluate diagnosis or provide therapy for the electrical conduction system of the heart.
This is a component of Total Procedures.

Electrophysiology Studies
Total number of electrophysiology studies performed in the reporting period. This may include but is not limited to comprehensive electrophysiologic evaluations and follow ups.
This is a component of Total Procedures.

Holter Monitoring Procedures
Total number of holter monitoring procedures performed in this department.
This is a component of Total Procedures.

Hours of Operation per Week
Total number of hours the department is open for operation during the week.

ICD Implant Procedures
Count the total number of implantable cardioverter defibrillators (ICD) implants procedures performed. ICDs are electronic devices that constantly monitor heart rate and rhythm. When an abnormal heart rate or rhythm is detected, the ICD delivers energy to the heart muscle causing the heart to regain its normal beat and rhythm.
This is a component of Total Procedures.
**Inpatient Procedures**

Count all procedures performed on inpatients by the department for the reporting period. This value should automatically populate after the rollup and calc process has been completed and the standard departments within the series utilize the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value for each of the departments within the series, refer to the APC and Work RVU Workbook available on the Support Page and utilize the volumes for all departments within the series.

This is a subset of Total Procedures.

**Interventional Radiology Procedures**

Interventional Radiology procedures are minimally invasive, targeted treatments performed using imaging for guidance. These cases have less risk, less pain and less recovery time compared to open surgery. Interventional radiology includes both vascular intervention and non-vascular intervention.

This is a component of Total Procedures.

**Nuclear Cardiology Imaging Procedures**

Total number of nuclear cardiology imaging procedures performed in this department.

This is a component of Total Procedures.

**Patient Initial Visits**

Total initial visits by patients (intake visit) beginning the cardiac rehabilitation regimen. This is a count of patients entering the department program during the report period.

This is a component of Total Patient Visits.

**Patient Observation Minutes**

The total minutes patients are under the care of department staff for procedural preparations.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**Pediatric and Neonate Procedures**

Total pediatric/neonate procedures performed on patients under the age of 18.
This is a component of Total Procedures.

**Percutaneous Coronary Intervention (PCI) Procedures**

Count all percutaneous coronary intervention (PCI) Procedures with and without balloon angioplasty. PCI procedures treat the stenotic, narrowed coronary arteries of the heart found in coronary heart disease.

This is a component of Total Procedures.

**Peripheral Vascular Procedures including Carotid Work**

Count the total number of peripheral vascular procedures including carotid work. Peripheral vascular procedures treat diseases of the blood vessels that cause narrowing or occlusion of arteries outside of the heart.

This is a component of Total Procedures.

**Permanent Pacemaker Procedures**

Count insertions or replacements of permanent pacemaker with transvenous electrode(s); include revision of pocket, lead revision, removal and insertion of pacemaker performed. A permanent pacemaker consists of a generator and leads which are usually implanted into the upper chest. The generator contains the power source and timer that regulates how often the pacemaker sends out electrical signals. The leads allow the pacemaker to monitor your heart rhythm and sends out electrical signals to make your heart beat when needed.

This is a component of Total Procedures.

**Phase 1 Visits**

Total encounters between staff and each patient during phase 1 of a cardiac rehabilitation program. Visits are conducted one-on-one in an inpatient setting, and require monitoring during exercise activity.

This is a subset of Patient Visits.

**Phase 2 Visits**

Total encounters between staff and each patient during phase 2 of a cardiac rehabilitation program. Visits are conducted one-on-one or in a group in an outpatient setting, and require monitoring during exercise activity. For group sessions, count each group member served as a separate visit.

This is a subset of Patient Visits.
Phase 3 Visits
Total encounters between staff and each patient during phase 3 only of a cardiac rehabilitation program. Visits are usually conducted in groups in an outpatient setting. Include educational and exercise sessions, and sessions that require monitoring during exercise activity. For group sessions, count each group member that attends as a separate visit.

This is a subset of Patient Visits.

Procedure Minutes
The total number of minutes from when the patient enters the procedure room to when the patient leaves the procedure room. Count the entire time that a patient spends in the procedure room for each procedure.

Procedure Rooms
The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.

Recovery Minutes
The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

Rehabilitation Patient Sessions
Total discrete encounters with a patient, either in individual or group settings, for cardiac rehabilitation evaluation, education, or exercise. Sessions may be associated with any or all of the various phases of cardiac rehabilitation.

Revascularization Procedures
Total number of revascularization procedures performed in the reporting period. This may include but is not limited to femoral, iliac, and popliteal artery(s).

This is a component of Total Procedures.

Stress Test Procedures
Total number of stress test procedures performed in this department.

This is a component of Total Procedures.
Vascular Procedures
Total number of vascular procedures performed in this department.
This is a component of Total Procedures.

Cardiology and Vascular Services Functional Rollup Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider
Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

Worked Hours: Cardiac Sonographer
Total hours worked by a cardiac sonographer who specialize in the use of ultrasonic imaging devices to examine the heart chambers, valves, and vessels.

This is a subset of Worked Hours: Staff.

Worked Hours: Electrocardiograph (EKG) Technician
Total hours worked by and electrocardiograph (EKG) technician with special training and experience in operating and maintaining electrocardiographic equipment and providing recorded data for diagnostic review.

This is a subset of Worked Hours: Staff.
**Worked Hours: Exercise Physiologist**

Total hours worked by an exercise physiologist who specialize in the study the effects of exercise on pathology, and the mechanisms by which exercise can reduce or reverse disease progression.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Total hours worked by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.
Worked Hours: Respiratory Therapist

Total hours worked by registered respiratory therapists.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Worked Hours: Technician

Total hours worked by technicians in the department. A technician generally holds a two year associates degree, and may have completed a certified training program.

This is a subset of Worked Hours: Staff.

Worked Hours: Technologist

Total hours worked by registered technologists. Technologists hold a four year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.

Worked Hours: Therapist

Total hours worked by licensed or registered therapists.

This is a subset of Worked Hours: Staff.

Worked Hours: Vascular Technologist

Total hours worked by a vascular technologist specialize in the diagnosis of disorders affecting the circulation. i.e. vascular technologists, vascular specialists or vascular sonographers.

This is a subset of Worked Hours: Staff.

Cardiology and Vascular Services Functional Rollup Expense Elements
Internal Cardiac Defibrillator (ICD) Expense

Total ICD Expense, include expenses related to the device, leads and primary accessories required to placing the device.

This is a subset of Medical Supply Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.
This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Pacemaker Expense**

Total Pacemaker Expense.

This is a subset of Medical Supply Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Stent Expense**

Total expenses for supplies related specifically to stent procedures.

This is a subset of Medical Supply Expense.

**Cardiology and Vascular Services Functional Rollup Mandatory Elements**

The following data elements are mandatory for this department:

- Ablation Procedures
- APC Relative Weight
- Biventricular Device Procedures
• Echocardiography Procedures
• Electrocardiogram Procedures
• Electrophysiology Procedures
• Electrophysiology studies
• Holter Monitoring Procedures
• ICD Implant Procedures
• Inpatient Procedures
• Interventional Radiology Cases
• Labor Expense
• Labor Expense: Physician Provider
• Non Medical Supply Expense
• Nuclear Cardiology Imaging Procedures
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Patient Observation Minutes
• Patient Visits
• Pediatric and Neonate Procedures
• Percutaneous Coronary Intervention (PCI) Procedures
• Peripheral Vascular Procedures including Carotid Work
• Permanent Pacemaker Procedures
• Phase 1 Visits
• Phase 2 Visits
• Phase 3 Visits
• Physician Provider Professional Fee Expense
• Procedure Rooms
• Recovery Time
• Revascularization Procedures
• Stress Test Procedures
• Total Procedures
• Vascular Procedures
• Worked Hours: Physician Provider
• Worked Hours: Staff

G4200, Other Cardiology and Vascular Services

This generic department includes all cost centers belonging to cardiology and vascular services series that cannot be mapped to an individual cardiology and vascular services department.

Other Cardiology and Vascular Services Mapping Guidelines

Departments utilizing this standard generic department will not be represented on a report but will be included in the Cardiology and Vascular Services Functional Rollup.

Other Cardiology and Vascular Services Workload Volumes

Ablation Procedures

Total number of ablation procedures performed in the reporting period. This may include but is not limited to atrial, node and supra ventricular ablations.

This is a component of Total Procedures.
APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Biventricular Device Procedures

Total number of biventricular device procedures performed. A biventricular device is a mechanical pump surgically implanted under the skin that takes over the function of the damaged ventricle of the heart when needed to restore normal blood flow.

This is a component of Total Procedures.

Cardiac Rehabilitation Individual Patient Sessions

Total discrete encounters with an individual patient (as opposed to groups), usually during Phases 1 and 2 of rehabilitation.

This is a subset of Rehabilitation Patient Sessions.

Days of Operation per Week

Total number of days the department is open for operation during the week.

ECHO Machines

Number of ECHO machines in use by the department.

Echocardiography Procedures

Total number of Echocardiography procedures performed in this department. Echocardiography is a test that uses sound waves to create images of your heart, which provide information on the size, shape of the heart and how the heart’s chambers and valves are working.

This is a component of Total Procedures.

Electrocardiogram Procedures

Total number of electrocardiogram (EKG) procedures performed in this department.

This is a component of Total Procedures.
Electrophysiology Procedures

Total EP Procedures performed by the department. Electrophysiology (EP) procedures are procedures dedicated to the treatment of heart rhythm disorders. This includes procedures that evaluate diagnosis or provide therapy for the electrical conduction system of the heart.

This is a component of Total Procedures.

Electrophysiology Studies

Total number of electrophysiology studies performed in the reporting period. This may include but is not limited to comprehensive electrophysiologic evaluations and follow ups.

This is a component of Total Procedures.

Holter Monitoring Procedures

Total number of holter monitoring procedures performed in this department.

This is a component of Total Procedures.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

ICD Implant Procedures

Count the total number of implantable cardioverter defibrillators (ICD) implants procedures performed. ICDs are electronic devices that constantly monitor heart rate and rhythm. When an abnormal heart rate or rhythm is detected, the ICD delivers energy to the heart muscle causing the heart to regain its normal beat and rhythm.

This is a component of Total Procedures.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.
Interventional Radiology Procedures
Interventional Radiology procedures are minimally invasive, targeted treatments performed using imaging for guidance. These cases have less risk, less pain and less recovery time compared to open surgery. Interventional radiology includes both vascular intervention and non-vascular intervention.

This is a component of Total Procedures.

Nuclear Cardiology Imaging Procedures
Total number of nuclear cardiology imaging procedures performed in this department.

This is a component of Total Procedures.

Patient Initial Visits
Total initial visits by patients (intake visit) beginning the cardiac rehabilitation regimen. This is a count of patients entering the department program during the report period.

This is a component of Total Patient Visits.

Patient Observation Minutes
The total minutes patients are under the care of department staff for procedural preparations.

Patient Visits
Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Pediatric and Neonate Procedures
Total pediatric/neonate procedures performed on patients under the age of 18.

This is a component of Total Procedures.

Percutaneous Coronary Intervention (PCI) Procedures
Count all percutaneous coronary intervention (PCI) Procedures with and without balloon angioplasty. PCI procedures treat the stenotic, narrowed coronary arteries of the heart found in coronary heart disease.

This is a component of Total Procedures.
Peripheral Vascular Procedures including Carotid Work

Count the total number of peripheral vascular procedures including carotid work. Peripheral vascular procedures treat diseases of the blood vessels that cause narrowing or occlusion of arteries outside of the heart.

This is a component of Total Procedures.

Permanent Pacemaker Procedures

Count insertions or replacements of permanent pacemaker with transvenous electrode(s); include revision of pocket, lead revision, removal and insertion of pacemaker performed. A permanent pacemaker consists of a generator and leads which are usually implanted into the upper chest. The generator contains the power source and timer that regulates how often the pacemaker sends out electrical signals. The leads allow the pacemaker to monitor your heart rhythm and sends out electrical signals to make your heart beat when needed.

This is a component of Total Procedures.

Phase 1 Visits

Total encounters between staff and each patient during phase 1 of a cardiac rehabilitation program. Visits are conducted one-on-one in an inpatient setting, and require monitoring during exercise activity.

This is a component of Total Patient Visits.

Phase 2 Visits

Total encounters between staff and each patient during phase 2 of a cardiac rehabilitation program. Visits are conducted one-on-one or in a group in an outpatient setting, and require monitoring during exercise activity. For group sessions, count each group member served as a separate visit.

This is a component of Total Patient Visits.

Phase 3 Visits

Total encounters between staff and each patient during phase 3 only of a cardiac rehabilitation program. Visits are usually conducted in groups in an outpatient setting. Include educational and exercise sessions, and sessions that require monitoring during exercise activity. For group sessions, count each group member that attends as a separate visit.

This is a subset of Patient Visits.

Procedure Minutes

The total number of minutes from when the patient enters the procedure room to when the patient leaves the procedure room. Count the entire time that a patient spends in the procedure room for each procedure.
**Procedure Rooms**

The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.

**Recovery Minutes**

The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

**Rehabilitation Patient Sessions**

Total discrete encounters with a patient, either in individual or group settings, for cardiac rehabilitation evaluation, education, or exercise. Sessions may be associated with any or all of the various phases of cardiac rehabilitation.

**Revascularization Procedures**

Total number of revascularization procedures performed in the reporting period. This may include but is not limited to femoral, iliac, and popliteal artery(s).

This is a component of Total Procedures.

**Stress Test Procedures**

Total number of stress test procedures performed in this department.

This is a component of Total Procedures.

**Total Procedures**

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

**Vascular Procedures**

Total number of vascular procedures performed in this department.

This is a component of Total Procedures.

**Other Cardiology and Vascular Services Department Hours Elements**
Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider
Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

Worked Hours: Cardiac Sonographer
Total hours worked by a cardiac sonographer who specialize in the use of ultrasonic imaging devices to examine the heart chambers, valves, and vessels.

This is a subset of Worked Hours: Staff.

Worked Hours: Electrocardiograph (EKG) Technician
Total hours worked by and electrocardiograph (EKG) technician with special training and experience in operating and maintaining electrocardiographic equipment and providing recorded data for diagnostic review.

This is a subset of Worked Hours: Staff.

Worked Hours: Exercise Physiologist
Total hours worked by an exercise physiologist who specialize in the study the effects of exercise on pathology, and the mechanisms by which exercise can reduce or reverse disease progression.

This is a subset of Worked Hours: Staff.
Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider
Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime
Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider
Total hours worked by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: Respiratory Therapist
Total hours worked by registered respiratory therapists.

This is a subset of Worked Hours: Staff.
**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technician**

Total hours worked by technicians in the department. A technician generally holds a two year associates degree, and may have completed a certified training program.

This is a subset of Worked Hours: Staff.

**Worked Hours: Technologist**

Total hours worked by registered technologists. Technologists hold a four year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.

**Worked Hours: Therapist**

Total hours worked by licensed or registered therapists.

This is a subset of Worked Hours: Staff.

**Worked Hours: Vascular Technologist**

Total hours worked by a vascular technologist specialize in the diagnosis of disorders affecting the circulation. i.e. vascular technologists, vascular specialists or vascular sonographers.

This is a subset of Worked Hours: Staff.

**Other Cardiology and Vascular Services Expense Elements**

**Internal Cardiac Defibrillator (ICD) Expense**

Total ICD Expense, include expenses related to the device, leads and primary accessories required to placing the device.
This is a subset of Medical Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.
Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Pacemaker Expense

Total Pacemaker Expense.

This is a subset of Medical Supply Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Stent Expense

Total expenses for supplies related specifically to stent procedures.

This is a subset of Medical Supply Expense.

Other Cardiology and Vascular Services Mandatory Elements

The following data elements are mandatory for this department:

- Ablation Procedures
- APC Relative Weight
- Biventricular Device Procedures
- Echocardiography Procedures
- Electrocardiogram Procedures
• Electrophysiology Procedures
• Electrophysiology studies
• Holter Monitoring Procedures
• ICD Implant Procedures
• Inpatient Procedures
• Interventional Radiology Cases
• Labor Expense
• Labor Expense: Physician Provider
• Non Medical Supply Expense
• Nuclear Cardiology Imaging Procedures
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Patient Observation Minutes
• Patient Visits
• Pediatric and Neonate Procedures
• Percutaneous Coronary Intervention (PCI) Procedures
• Peripheral Vascular Procedures including Carotid Work
• Permanent Pacemaker Procedures
• Phase 1 Visits
• Phase 2 Visits
• Phase 3 Visits
• Physician Provider Professional Fee Expense
• Procedure Rooms
• Recovery Time
• Revascularization Procedures
• Stress Test Procedures
• Total Procedures
• Vascular Procedures
• Worked Hours: Physician Provider
• Worked Hours: Staff

Other Cardiology and Vascular Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions: the hours and costs associated with the following function:

• Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens
• Contrast Media Expense
• Personnel performing the functions of the department's day to day managerial operations (Cardiology and Vascular)
• Post-procedure recovery for Cardiovascular studies and related procedures
• Pre-Op Holding and Post-Procedure Recovery
• Pre-procedure assessment and patient preparation for Cardiovascular studies and related procedures

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach service to attract new business, residency program (Cardiology)
• Daily or terminal cleaning and wall washing for ancillary patient procedure areas
• Maintenance and monitoring of patient implanted devices after discharged, e.g., clinical follow-up, remote monitoring, programming assessments for these types of devices: ICDs, Pacemakers, Loop Recorders, VADs
• Marketing, e.g., promoting and advertising of Physician Practice services

• Medical records transcription (e.g. lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments)

• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Cardiology and Vascular)

• Repair and Maintenance of Clinical Equipment/Rooms

**I4220, Noninvasive Cardiology and Vascular Services Intermediate Rollup**

This department is a rollup of the Noninvasive Cardiology and Vascular Services which includes: 04220, Combined Noninvasive Cardiology and Vascular Services, 04222, Electrocardiography; 04224, Echocardiography; and 04260, Vascular Laboratory to provide appropriate sample sizes for comparative analysis based on the these services regardless of mapping structure.

**Noninvasive Cardiology and Vascular Services Intermediate Rollup Mapping Guidelines**

This intermediate rollup department will automatically be created based on the standard department mapping within the series.

**Noninvasive Cardiology and Vascular Services Intermediate Rollup Workload Volumes**

**APC Relative Weight**

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.
Days of Operation per Week

Total number of days the department is open for operation during the week.

ECHO Machines

Number of ECHO machines in use by the department.

Echocardiography Procedures

Total number of Echocardiography procedures performed in this department. Echocardiography is a test that uses sound waves to create images of your heart, which provide information on the size, shape of the heart and how the heart’s chambers and valves are working.

This is a component of Total Procedures.

Electrocardiogram Procedures

Total number of electrocardiogram (EKG) procedures performed in this department.

This is a component of Total Procedures.

Holter Monitoring Procedures

Total number of holter monitoring procedures performed in this department.

This is a component of Total Procedures.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

Nuclear Cardiology Imaging Procedures

Total number of nuclear cardiology imaging procedures performed in this department.

This is a component of Total Procedures.
Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Pediatric and Neonate Procedures

Total pediatric/neonate procedures performed on patients under the age of 18.

This is a component of Total Procedures.

Procedure Rooms

The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.

Stress Test Procedures

Total number of stress test procedures performed in this department.

This is a component of Total Procedures.

Total Procedures

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Vascular Procedures

Total number of vascular procedures performed in this department.

This is a component of Total Procedures.

Noninvasive Cardiology and Vascular Services Intermediate Rollup

Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
**Paid Hours: Physician Provider**

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

**Worked Hours: Cardiac Sonographer**

Total hours worked by a cardiac sonographer who specialize in the use of ultrasonic imaging devices to examine the heart chambers, valves, and vessels.

This is a subset of Worked Hours: Staff.

**Worked Hours: Electrocardiograph (EKG) Technician**

Total hours worked by and electrocardiograph (EKG) technician with special training and experience in operating and maintaining electrocardiographic equipment and providing recorded data for diagnostic review.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.
**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Total hours worked by physicians/providers on the department’s payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: Respiratory Therapist**

Total hours worked by registered respiratory therapists.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
**Worked Hours: Technologist**

Total hours worked by registered technologists. Technologists hold a four year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.

**Worked Hours: Vascular Technologist**

Total hours worked by a vascular technologist specialize in the diagnosis of disorders affecting the circulation. i.e. vascular technologists, vascular specialists or vascular sonographers.

This is a subset of Worked Hours: Staff.

**Noninvasive Cardiology and Vascular Services Intermediate Rollup Expense Elements**

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.
Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Noninvasive Cardiology and Vascular Services Intermediate Rollup Mandatory Elements

The following elements are mandatory for this department.

- APC Relative Weight
- Echocardiography Procedures
- Electrocardiogram Procedures
- Holter Monitoring Procedures
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Nuclear Cardiology Imaging Procedures
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Pediatric and Neonate Procedures
- Physician Provider Professional Fee Expense
- Procedure Rooms
- Stress Test Procedures
- Total Procedures
- Vascular Procedures
- Worked Hours: Physician Provider
- Worked Hours: Staff

I4230, Invasive Cardiology and Vascular Services Intermediate Rollup

This department is a rollup of the Invasive Cardiology and Vascular Services which includes: 04230, Combined Invasive Cardiology and Vascular Services; 04232, Invasive Cardiology and Vascular Laboratory without Electrophysiology; 04250, Electrophysiology Laboratory to provide appropriate sample sizes for comparative analysis based on the these services regardless of mapping structure.
Invasive Cardiology and Vascular Services Intermediate Rollup Mapping Guidelines

This intermediate rollup department will automatically be created based on the standard department mapping within the series.

Invasive Cardiology and Vascular Services Intermediate Rollup Workload Volumes

Ablation Procedures

Total number of ablation procedures performed in the reporting period. This may include but is not limited to atrial, node and supra ventricular ablations.

This is a component of Total Procedures.

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Biventricular Device Procedures

Total number of biventricular device procedures performed. A biventricular device is a mechanical pump surgically implanted under the skin that takes over the function of the damaged ventricle of the heart when needed to restore normal blood flow.

This is a component of Total Procedures.

Days of Operation per Week

Total number of days the department is open for operation during the week.

Electrophysiology Procedures

Total EP Procedures performed by the department. Electrophysiology (EP) procedures are procedures dedicated to the treatment of heart rhythm disorders. This includes procedures that evaluate diagnosis or provide therapy for the electrical conduction system of the heart.

This is a component of Total Procedures.
Electrophysiology Studies

Total number of electrophysiology studies performed in the reporting period. This may include but is not limited to comprehensive electrophysiologic evaluations and follow ups.

This is a component of Total Procedures.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

ICD Implant Procedures

Count the total number of implantable cardioverter defibrillators (ICD) implants procedures performed. ICDs are electronic devices that constantly monitor heart rate and rhythm. When an abnormal heart rate or rhythm is detected, the ICD delivers energy to the heart muscle causing the heart to regain its normal beat and rhythm.

This is a component of Total Procedures.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

Interventional Radiology Procedures

Interventional Radiology procedures are minimally invasive, targeted treatments performed using imaging for guidance. These cases have less risk, less pain and less recovery time compared to open surgery. Interventional radiology includes both vascular intervention and non-vascular intervention.

This is a component of Total Procedures.

Patient Observation Minutes

The total minutes patients are under the care of department staff for procedural preparations.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.
Pediatric and Neonate Procedures
Total pediatric/neonate procedures performed on patients under the age of 18.

This is a component of Total Procedures.

Percutaneous Coronary Intervention (PCI) Procedures
Count all percutaneous coronary intervention (PCI) Procedures with and without balloon angioplasty. PCI procedures treat the stenotic, narrowed coronary arteries of the heart found in coronary heart disease.

This is a component of Total Procedures.

Peripheral Vascular Procedures including Carotid Work
Count the total number of peripheral vascular procedures including carotid work. Peripheral vascular procedures treat diseases of the blood vessels that cause narrowing or occlusion of arteries outside of the heart.

This is a component of Total Procedures.

Permanent Pacemaker Procedures
Count insertions or replacements of permanent pacemaker with transvenous electrode(s); include revision of pocket, lead revision, removal and insertion of pacemaker performed. A permanent pacemaker consists of a generator and leads which are usually implanted into the upper chest. The generator contains the power source and timer that regulates how often the pacemaker sends out electrical signals. The leads allow the pacemaker to monitor your heart rhythm and sends out electrical signals to make your heart beat when needed.

This is a component of Total Procedures.

Procedure Minutes
The total number of minutes from when the patient enters the procedure room to when the patient leaves the procedure room. Count the entire time that a patient spends in the procedure room for each procedure.

Procedure Rooms
The total discrete procedure rooms designed and equipped for invasive and noninvasive testing used by department staff. Exclude patient holding rooms. Procedure rooms are usually distinct from examination rooms. This can be expressed as a fractional number if shared with another modality.
Recovery Minutes

The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

Revascularization Procedures

Total number of revascularization procedures performed in the reporting period. This may include but is not limited to femoral, iliac, and popliteal artery(s).

This is a component of Total Procedures.

Total Procedures

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Invasive Cardiology and Vascular Services Intermediate Rollup Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.
Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Total hours worked by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.
**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technician**

Total hours worked by technicians in the department. A technician generally holds a two year associates degree, and may have completed a certified training program.

This is a subset of Worked Hours: Staff.

**Worked Hours: Technologist**

Total hours worked by registered technologists. Technologists hold a four year university degree and have been certified by a national credentialing agency.

This is a subset of Worked Hours: Staff.

**Invasive Cardiology and Vascular Services  Intermediate Rollup Expense Elements**

**Internal Cardiac Defibrillator (ICD) Expense**

Total ICD Expense, include expenses related to the device, leads and primary accessories required to placing the device.

This is a subset of Medical Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).
This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Pacemaker Expense**

Total Pacemaker Expense.

This is a subset of Medical Supply Expense.
Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Stent Expense

Total expenses for supplies related specifically to stent procedures.

This is a subset of Medical Supply Expense.

Invasive Cardiology and Vascular Services Intermediate Rollup Mandatory Elements

The following elements are mandatory for this department:

- Ablation Procedures
- APC Relative Weight
- Biventricular Device Procedures
- Electrophysiology Procedures
- Electrophysiology studies
- ICD Implant Procedures
- Inpatient Procedures
- Interventional Radiology Cases
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
Cardiology and Vascular Services Series Worksheets

Use the following worksheets for this department. These worksheets can be found on the Support tab of ActionOI.

- APC and Work RVU Worksheet
- Cardiovascular Procedure Subset Worksheet
Chapter 8. Clinical Resource Management Services

For an annotated list of Characteristic Questions for this series, please see the ActionOI support page.

This chapter includes the following sections:

- 05810, Social Work 354
- 05820, Utilization Management 362
- 05825, Quality Management 368
- 05830, Case Management / Utilization Management 374
- 05840, Case Management 383
- 05850, Clinical Resource Management 391
- 05860, Case Management/Social Work 403
- G5800, Other Clinical Resource Management Services 413

05810, Social Work

This department provides screening and case finding for at-risk patients, psychosocial assessments, patient or family counseling, financial arrangement assistance, community information services, referrals to other resources, therapeutic services planning and discharge planning.

Social Work Mapping Guidelines

If your cost center(s) performs case management, utilization management, or quality management functions, this department might not be an appropriate choice. Other options might include the 05840, Case Management department or the 05850, Clinical Resource Management department.
Social Work Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non-hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Community Outreach Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individuals who are not patients but members of the community or an outreach program. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Home Health Referrals

The total referrals of social work patients to home health agencies. Home health refers to the arrangement of home visits by nurses, home health aides, or other caregivers. Durable medical equipment referrals should not be included in this subset but should be included in the overall category of Referrals.

This is a subset of Referrals.

Inpatient Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individual inpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

Outpatient Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individual outpatients. Count all face-to-face interactions as well as phone encounters.
Psychiatric Cases

Total number of psychiatric patients (including inpatient, outpatient, and partial hospitalization) classified as social work cases according to the definitions above.

This is a component of Social Work Cases.

Referrals

The total individual patient referrals that social work made to the following services: home health, durable medical equipment (DME), dialysis, skilled nursing facility (SNF), rehab services, and medical transport. One case may have more than one referral. For example, a patient receiving both home health visit referrals and medical transport to the home would count as two referrals but only one case. Referrals of outpatients also qualify. To qualify, referrals must involve direct contact between the department and the agency or organization to which the patient is being referred.

Rehabilitation Cases

The total number of acute rehabilitation patients classified as social work cases according to the definitions above. Rehabilitation cases refer to patients receiving care in an inpatient rehabilitation facility or inpatient rehabilitation unit. Patients include those having experienced stroke, head or spinal cord trauma, muscular skeletal injury, or other forms of physical disability.

This is a component of Social Work Cases.

Skilled Nursing Facility Referrals

The total referrals of social work patients to skilled nursing facilities (SNF). Skilled nursing refers to convalescent care or restorative services of post-acute or post-sub-acute patients.

This is a subset of Referrals.

Social Work Cases

The total patients receiving social work services and meeting one of the definitions below for inpatient, non-emergency outpatient (including partial hospitalization), or emergency cases. Include screening cases or assessment cases only if they involve direct patient contact. This refers to all patients who have had at least one contact with Social Work Services during the reporting period. The contact may be in person, by mail, via telephone, or through another person on behalf of the patient. For minimum contact time requirements refer to the detailed subset definitions in this section. This count is the total of the following subsets: Social Work Inpatient Cases (including Sub-Acute Cases and Partial Hospitalization Cases), Social Work (Non-Emergent) Outpatient Cases, and Social Work Emergency Cases.
Social Work Emergency Cases

The total Emergency department patient visits receiving one or more social service encounter. This count consists of all patients who receive social work services in the Emergency department. If the patient is subsequently admitted, the patient may also generate a count under the category of Social Work Inpatient Cases if criteria for that count (as described above) is met. Exclude normal newborns from case count.

This is a subset of Social Work Cases.

Social Work Inpatient Cases

The total inpatients receiving social work services. Each relevant admission should generate only one case count unless length of stay is greater than one month. This count is the total number of inpatients receiving social work services directly or via contact with family, significant other, or an agency on behalf of the patient. Discussion of a patient during rounds and paper screens do not constitute a case and should not be included in the count. Patients transferred between acute inpatient units are only counted once per reporting period unless they are discharged and readmitted. Cases in which more than one social worker is involved are counted only as one case. Supporting documentation is required, and there is a 10-minute minimum contact time limit. The reporting period is one month. Some patients may be counted more than once during an admission if they remain in the hospital longer than a month or if they are admitted one month and discharged the next. A patient is counted one time during a calendar month if they are receiving active and ongoing social work involvement.

Example  A patient is admitted to the ICU on January 15th after an automobile accident. Social Work intervention is requested, and Social Work staff begin working with the patient's family on January 16th. The Social Work staff work with the patient or family every day. The patient remains in the ICU until February 3, at which time he or she is transferred to 4 North - Med/Surg. The patient is ultimately discharged from this unit on February 18th. The patient provides a case count of two. One case is counted for the month of January and one for the month of February. The fact that the patient was on two different units during the month of February does not affect the count.

This is a subset of Social Work Cases.

Social Work Non Emergent Outpatient Cases

The total face-to-face encounters with outpatients as well as services provided to outpatients by telephone. For telephone services, count each month of service as one case. This count consists of the following components: patients receiving face-to-face services, patients receiving care management services, and partial hospitalization cases.

This is a subset of Social Work Cases.

Social Work Sub Acute Cases

The total patients receiving sub-acute care or post-acute restorative services as well as social work services. This count consists of all patients who receive social work services in a skilled nursing facility or separate sub-acute unit. These patients usually require a higher intensity of social work services due to their discharge planning needs.

This is a subset of Social Work Inpatient Cases.
Substance Abuse Cases
Total number of patients whose primary concern is substance abuse (including inpatient, outpatient and partial hospitalization) and who are classified as social work cases according to the definition above. A patient admitted for a total hip replacement and discovered to be suffering from alcoholism would not qualify.

This is a component of Social Work Cases.

Total Assessment Hours
Total number of hours conducting patient assessments by department staff in the reporting period.

Total Encounters
Total number of encounters or interactions between department staff members (i.e. case managers) and individual patients. Count all face-to-face interactions as well as phone encounters.

Social Work Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Care Coordinator Technician
Total hours worked by care coordinator technicians who place phone calls to payers and arrange discharge services, etc.

This is a subset of Worked Hours: Staff.

Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.
Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

Worked Hours: Social Work Aides And Technicians

Total hours worked by social work aides and technicians.

This is a subset of Worked Hours: Staff.

Worked Hours: Social Worker

Total hours worked by masters and bachelor degreed social workers or individuals performing in this capacity. Do not include social workers acting as case managers; rather include them in the category Worked Hours: Case Manager.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Social Work Expense Elements

Contract Service Expense

Total expense for services provided by outside contractors (e.g. auditors).
This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Professional Fee Expense**

Total expense for professional fees.

This is a subset of Other Direct Operating Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Social Work Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
• Social Work Cases

• Social Work Inpatient Cases

• Worked Hours: Staff

**Social Work Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Discharge Planning, e.g., activities to facilitate patient's movement from one health care setting to another, or home

• Hospital Discharge Planning Nurse

• Social Workers

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Case Management (manages patient care while the patient is undergoing treatment)

• Clinical Documentation Improvement (CDI), e.g., activities that facilitate the accurate representation of a patient's clinical status which is translated into coded data

• Grant or research funded services

• Hospital Quality Assurance, e.g., activities surrounding the collecting and disseminating of data to monitor and improve patient care at the facility (hospital level quality management)

• Infection Control (e.g. functions specific to the collection, analysis, and interpretation of health data in order to track infection trends, plan appropriate interventions, measure outcomes, and report relevant data both internally and externally).

• Patient Safety, e.g., utilize safety science methods to ensure the quality of the health care delivered, researches incidents, creates plans to minimizes future incidents

• Performance Improvement, e.g., time spent on creating, planning, implementing, researching and driving organizational operational changes

• Physician Accreditation, e.g., activities involved in the verification of physician qualifications, granting of specific clinical privileges based on evaluation of competence

• Utilization Review services
05820, Utilization Management

This department performs prospective, concurrent, and retrospective reviews of patient admissions and emergency patients to determine appropriate service utilization with payers. This department also performs appeal response concerning clinical denials with payers. Discharge planning is not included.

Utilization Management Mapping Guidelines

If your cost center(s) performs discharge planning or quality management functions, this department might not be an appropriate choice. Other options might include the 05840, Case Management department or the 05850, Clinical Resource Management department.

Utilization Management Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Ambulatory Surgery Cases Tracked By Utilization Review

The total ambulatory surgery cases tracked for utilization review intervention by Utilization Management staff. A patient who experiences more than one ambulatory surgery episode during the reporting period would count as more than one case. With regard to ambulatory cases, count ongoing cases under care management, each month of care management counts as one case.

This is a subset of Cases Tracked by Utilization Review.

Cases Tracked by Utilization Review

The total cases tracked for utilization review intervention by Utilization Management staff. Count each patient episode as one case even if utilization reviews are performed in different settings such as pre-admission, inpatient, or a skilled nursing facility. A patient who experiences more than one admission during the reporting period would count as more than one case. Count skilled nursing cases separately only if they represent admission to a separate skilled nursing facility.

Days Reimbursed At A Skilled Rate

Total inpatient days where care was provided at an acute level but payment was received at only a skilled level.
Emergency Department Cases Tracked By Utilization Review

The total emergency department cases tracked for utilization review intervention by Utilization Management staff. A patient who experiences more than one ER episode during the reporting period would count as more than one case. A patient that comes into the ER and is admitted would be excluded (that patient would be counted in Inpatient Cases Tracked by Utilization Review).

This is a subset of Cases Tracked by Utilization Review.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Inpatient Admissions

The total facility inpatient admissions. Exclude normal newborns.

This is a subset of Total Admissions And Registrations.

Inpatient Cases Tracked By Utilization Review

The total inpatient cases tracked for utilization review intervention by Utilization Management staff. Inpatients are patients who occupied or are expected to occupy a bed overnight. Exclude normal newborns from the count.

This is a subset of Cases Tracked by Utilization Review.

Inpatient Days Denied Reimbursement

The total inpatient days denied reimbursement after all appeals have been submitted. Count all patient days finally denied by third-party payers during the reporting period. The patient days may be from a prior period or the current reporting period. If the payer is not based on some form of daily reimbursement and the admission is denied, count all patient days as denied.

Inpatient Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individual inpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

Number of Medicare Recovery Audit Program Appeals

Total number of appeals submitted during the reporting period. This includes all levels of appeals; first level (redetermination) through fifth level (Judicial review in U.S. District Court).
**Number of Medicare Recovery Audit Program Denials**

Total number of Medicare Recovery Audit Program denials for the reporting period. Typically, this would equal the number of overpayment/underpayment notification letters received from the Recovery Auditors during the reporting period.

**Number of Medicare Recovery Audit Program Reviews**

Total number of Medicare Recovery Audit Program reviews initiated and/or conducted in the reporting period. Recovery Auditors review past Medicare FFS claims for potential overpayments or underpayments, reviewing medical records when necessary to make appropriate determinations.

**Outpatient Encounters**

Total number of encounters or interactions between department staff members (i.e. case managers) and individual outpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

**Outpatient Observation Cases Tracked By Utilization Review**

The total outpatient or observation cases tracked for utilization review intervention by Utilization Management staff. A patient who experiences more than one outpatient episode during the reporting period would count as more than one case. Emergency Department cases are excluded from this count and should be reported under the Emergency Department Cases Tracked element.

This is a subset of Cases Tracked by Utilization Review.

**Outpatient Registrations**

The total outpatient registrations resulting in a separate patient account number. This includes all outpatient registrations (emergency, clinic, referred, etc.) created during the reporting period.

This is a subset of Total Admissions and Registrations.

**Total Admissions And Registrations**

Total number of inpatient admissions and outpatient registrations recorded during the reporting period.

**Total Assessment Hours**

Total number of hours conducting patient assessments by department staff in the reporting period.

**Total Encounters**

Total number of encounters or interactions between department staff members (i.e. case managers) and individual patients. Count all face-to-face interactions as well as phone encounters.
**Utilization Reviews Performed**

The total utilization reviews (including pre-admission, initial, continued stay, retrospective) performed by department staff. Count each review for each care appropriateness question that arises for each case. Combine steps to resolve appropriateness issues as one review count. Each case tracked will likely have more than one review, such as admission appropriateness or extended day of stay approval.

**Utilization Management Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Clinical Documentation Improvement Specialist**

Total number of hours worked by all Clinical Documentation Improvement Specialists.

This is a subset of Worked Hours: Staff.

**Worked Hours: Data Analyst**

Total hours worked by data analyst technical staff responsible for extracting data from information systems and performing statistical analysis.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Utilization Management Expense Elements**

**Contract Service Expense**

Total expense for services provided by outside contractors (e.g. auditors).

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.
This is a subset of Labor Expense.

**Professional Fee Expense**

Total expense for professional fees.

This is a subset of Other Direct Operating Expense.

**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

Total expense for department operating supplies.

**Utilization Management Mandatory Elements**

The following data elements are mandatory for this department:

- Cases Tracked by Utilization Review
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Utilization Management Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Insurance verification (concurrent review phase)—time spent obtaining certification for continued services while patient is in-house such as obtaining authorization for another day of stay or additional procedures
- Pre-admission Certification (follow-up) while patient is in-house or retrospective review, e.g., to assist with managing providers to ensure they are not treating patients with too many services
- Utilization Review services
Exclude the hours, costs and volumes (where applicable) associated with the following functions

- Case Management (manages patient care while the patient is undergoing treatment)
- Clinical Documentation Improvement (CDI), e.g., activities that facilitate the accurate representation of a patient's clinical status which is translated into coded data
- Discharge Planning, e.g., activities to facilitate patient's movement from one health care setting to another, or home
- Grant or research funded services
- Hospital Quality Assurance, e.g., activities surrounding the collecting and disseminating of data to monitor and improve patient care at the facility (hospital level quality management)
- Infection Control (e.g. functions specific to the collection, analysis, and interpretation of health data in order to track infection trends, plan appropriate interventions, measure outcomes, and report relevant data both internally and externally).
- Medical care evaluation via peer review, e.g., evaluation of an individual practitioner’s professional performance and includes the identification of opportunities to improve care
- Patient Safety, e.g., utilize safety science methods to ensure the quality of the health care delivered, researches incidents, creates plans to minimize future incidents
- Performance Improvement, e.g., time spent on creating, planning, implementing, researching and driving organizational operational changes
- Physician Accreditation, e.g., activities involved in the verification of physician qualifications, granting of specific clinical privileges based on evaluation of competence
- Pre-admission certification, e.g., communicating with insurance companies to gain approval for a person to be admitted to the hospital, granted prior to admission
- Risk Management e.g., time spent on activities focused on organizational identification and improvement of clinical circumstances that put patients at risk
- Social Workers

05825, Quality Management

This department collects and disseminates data to monitor and improve patient care, and provides consultation and technical assistance to staff. Risk management functions would be included here.
Quality Management Mapping Guidelines

If your cost center(s) performs discharge planning, case management or utilization management functions, this department might not be an appropriate choice. Other options might include the 05840, Case Management department or the 05850, Clinical Resource Management department.

Quality Management Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Days Reimbursed At A Skilled Rate

Total inpatient days where care was provided at an acute level but payment was received at only a skilled level.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Inpatient Admissions

The total facility inpatient admissions. Exclude normal newborns.

This is a subset of Total Admissions And Registrations.

Inpatient Days Denied Reimbursement

The total inpatient days denied reimbursement after all appeals have been submitted. Count all patient days finally denied by third-party payers during the reporting period. The patient days may be from a prior period or the current reporting period. If the payer is not based on some form of daily reimbursement and the admission is denied, count all patient days as denied.
MD And Allied Health Reviews Processed

The total reviews processed for medical staff (physicians and allied health professionals) appointments and/or reappointments. Include medical staff application reviews for initial appointments of medical staff as well as reviews for reappointments. If the department is involved with just reappointment reviews, report those in this category. Include reviews for physicians, mid-level providers (e.g., physician assistants, nurse practitioners), and allied health professionals in the count.

Outpatient Registrations

The total outpatient registrations resulting in a separate patient account number. This includes all outpatient registrations (emergency, clinic, referred, etc.) created during the reporting period.

This is a subset of Total Admissions and Registrations.

Risk Management Incident Reports

Total risk management occurrence reports processed by the department.

Size of Medical Staff Supported

Total number of individual physicians and allied health professionals supported by the department for quality management and or medical staff office functions.

Total Admissions And Registrations

Total number of inpatient admissions and outpatient registrations recorded during the reporting period.

Quality Management Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Clinical Documentation Improvement Specialist

Total number of hours worked by all Clinical Documentation Improvement Specialists.

This is a subset of Worked Hours: Staff.
Worked Hours: Data Analyst
  Total hours worked by data analyst technical staff responsible for extracting data from information systems and performing statistical analysis.

  This is a subset of Worked Hours: Staff.

Worked Hours: Management
  Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

  This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
  Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

  This is a subset of Worked Hours: Staff.

Worked Hours: Overtime
  Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

  This is a subset of Worked Hours: Staff.

Worked Hours: RN
  Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

  This is a subset of Worked Hours: Staff.

Worked Hours: Staff
  Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Quality Management Expense Elements
**Contract Service Expense**

Total expense for services provided by outside contractors (e.g. auditors).

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Liability Insurance Expense**

Total expense for liability insurance (if performing risk management functions).

This expense is not included in Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Professional Fee Expense**

Total expense for professional fees.

This is a subset of Other Direct Operating Expense.

**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

Total expense for department operating supplies.
Quality Management Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Total Admissions And Registrations
- Worked Hours: Staff

Quality Management Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Hospital Quality Assurance, e.g., activities surrounding the collecting and disseminating of data to monitor and improve patient care at the facility (hospital level quality management)
- Risk Management e.g., time spent on activities focused on organizational identification and improvement of clinical circumstances that put patients at risk

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Case Management (manages patient care while the patient is undergoing treatment)
- Clinical Documentation Improvement (CDI), e.g., activities that facilitate the accurate representation of a patient's clinical status which is translated into coded data
- Corporate Compliance Officer - activities related to overseeing and managing regulatory compliance issues within the organization
- Discharge Planning, e.g., activities to facilitate patient's movement from one health care setting to another, or home
- Grant or research funded services
- Infection Control (e.g. functions specific to the collection, analysis, and interpretation of health data in order to track infection trends, plan appropriate interventions, measure outcomes, and report relevant data both internally and externally).
- Medical care evaluation via peer review, e.g., evaluation of an individual practitioner's professional performance and includes the identification of opportunities to improve care
• Patient Safety, e.g., utilize safety science methods to ensure the quality of the health care delivered, researches incidents, creates plans to minimizes future incidents

• Patient Satisfaction, including the survey process and analysis of the results

• Performance Improvement, e.g., time spent on creating, planning, implementing, researching and driving organizational operational changes

• Physician Accreditation, e.g., activities involved in the verification of physician qualifications, granting of specific clinical privileges based on evaluation of competence

• Social Workers

• Utilization Review services

05830, Case Management / Utilization Management

This department includes all utilization management (prospective, concurrent, and retrospective reviews of patient admissions and emergency patients to determine appropriate service utilization) and case management (manages patient care while the patient is undergoing treatment). Quality Management and Social Work functions are excluded.

Case Management / Utilization Management Mapping Guidelines

If your cost center(s) does not combine the Case management and Utilization management functions, this department might not be an appropriate choice. Other options might include the 05840, Case Management department or the 05820, Utilization Management department as separate instances.

Case Management / Utilization Management Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
**Ambulatory Surgery Cases Tracked By Utilization Review**

The total ambulatory surgery cases tracked for utilization review intervention by Utilization Management staff. A patient who experiences more than one ambulatory surgery episode during the reporting period would count as more than one case. With regard to ambulatory cases, count ongoing cases under care management, each month of care management counts as one case.

This is a subset of Cases Tracked by Utilization Review.

**Cases Managed**

The total cases managed by department staff. This includes both inpatient, outpatient and observation cases. An inpatient case must include at least one of the following: telephonic review, pre admission planning, care plan coordination with physicians, patient and family education, coordination with hospital staff to avoid delays, and discharge planning. Multiple Encounters may occur within one Case Managed. Count each patient admission as one case even if case management activities are performed in different settings such as pre admission, inpatient, and transitional care units.

This is a subset of Total Cases.

**Cases Managed for Physician Practice and Clinics**

The total cases managed by department staff for physician practices and non-hospital clinics. A case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays.

This is a component of Cases Managed.

**Cases Tracked by Utilization Review**

The total cases tracked for utilization review intervention by Utilization Management staff. Count each patient episode as one case even if utilization reviews are performed in different settings such as pre-admission, inpatient, or a skilled nursing facility. A patient who experiences more than one admission during the reporting period would count as more than one case. Count skilled nursing cases separately only if they represent admission to a separate skilled nursing facility.

This is a subset of Total Cases.

**Days Reimbursed at a Skilled Rate**

Total inpatient days where care was provided at an acute level but payment was received at only a skilled level.
Discharge Referrals

The total referrals of patients case-managed to the following services: home health, long-term care, skilled nursing facility (SNF), durable medical equipment (DME), dialysis, rehab services, and medical transport. One case may have more than one referral. For example, a patient receiving both home health visit referrals and medical transport to the home would count as two referrals but only one case. Referrals of outpatients and observation patients also qualify.

Emergency Department Cases Managed by Case Management

The total emergency department cases managed by Case Management staff. An emergency case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. A patient that comes into the ER and is admitted would be excluded (that patient would be counted in Inpatient Cases Managed by Case Management).

This is a subset of Cases Managed.

Emergency Department Cases Tracked By Utilization Review

The total emergency department cases tracked for utilization review intervention by Utilization Management staff. A patient who experiences more than one ER episode during the reporting period would count as more than one case. A patient that comes into the ER and is admitted would be excluded (that patient would be counted in Inpatient Cases Tracked by Utilization Review).

This is a subset of Cases Tracked by Utilization Review.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Inpatient Admissions

The total facility inpatient admissions. Exclude normal newborns.

This is a subset of Total Admissions And Registrations.

Inpatient Cases Managed by Case Management

The total inpatient cases managed by Case Management staff. An inpatient case must include at least one of the following: telephonic review, pre-admission planning, care plan coordination with physicians, patient/family education, coordination with hospital staff to avoid delays, and discharge planning. Count each patient admission as one case even if case management activities are performed in different settings such as pre-admission, inpatient, and transitional care units.

This is a subset of Cases Managed.
**Inpatient Cases Tracked By Utilization Review**

The total inpatient cases tracked for utilization review intervention by Utilization Management staff. Inpatients are patients who occupied or are expected to occupy a bed overnight. Exclude normal newborns from the count.

This is a subset of Cases Tracked by Utilization Review.

**Inpatient Days Denied Reimbursement**

The total inpatient days denied reimbursement after all appeals have been submitted. Count all patient days finally denied by third-party payers during the reporting period. The patient days may be from a prior period or the current reporting period. If the payer is not based on some form of daily reimbursement and the admission is denied, count all patient days as denied.

**Inpatient Encounters**

Total number of encounters or interactions between department staff members (i.e. case managers) and individual inpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

**Number of Medicare Recovery Audit Program Appeals**

Total number of appeals submitted during the reporting period. This includes all levels of appeals; first level (redetermination) through fifth level (Judicial review in U.S. District Court).

**Number of Medicare Recovery Audit Program Denials**

Total number of Medicare Recovery Audit Program denials for the reporting period. Typically, this would equal the number of overpayment/underpayment notification letters received from the Recovery Auditors during the reporting period.

**Number of Medicare Recovery Audit Program Reviews**

Total number of Medicare Recovery Audit Program reviews initiated and/or conducted in the reporting period. Recovery Auditors review past Medicare FFS claims for potential overpayments or underpayments, reviewing medical records when necessary to make appropriate determinations.

**Observation Cases Managed by Case Management**

The total observation cases managed by Case Management staff. An observation case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. Do not include outpatients in this case count.

This is a subset of Cases Managed.
Outpatient Cases Managed by Case Management

The total outpatient cases managed by Case Management staff. An outpatient case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. Do not include observation patients in this case count.

This is a subset of Cases Managed.

Outpatient Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individual outpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

Outpatient Observation Cases Tracked By Utilization Review

The total outpatient or observation cases tracked for utilization review intervention by Utilization Management staff. A patient who experiences more than one outpatient episode during the reporting period would count as more than one case. Emergency Department cases are excluded from this count and should be reported under the Emergency Department Cases Tracked element.

This is a subset of Cases Tracked by Utilization Review.

Outpatient Registrations

The total outpatient registrations resulting in a separate patient account number. This includes all outpatient registrations (emergency, clinic, referred, etc.) created during the reporting period.

This is a subset of Total Admissions and Registrations.

Telehealth Cases Managed

The total cases managed by telephone or online for the care and treatment of a patient by department staff. A case must include at least one of the following: telephonic review, pre admission planning, care plan coordination with physicians, patient and family education, coordination with hospital staff to avoid delays, and discharge planning.

This is a component of Cases Managed.

Total Admissions And Registrations

Total number of inpatient admissions and outpatient registrations recorded during the reporting period.

Total Assessment Hours

Total number of hours conducting patient assessments by department staff in the reporting period.
Total Cases

The total cases managed through the case management function and tracked for utilization review intervention by the staff in this department.

Total Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individual patients. Count all face-to-face interactions as well as phone encounters.

Utilization Reviews Performed

The total utilization reviews (including pre-admission, initial, continued stay, retrospective) performed by department staff. Count each review for each care appropriateness question that arises for each case. Combine steps to resolve appropriateness issues as one review count. Each case tracked will likely have more than one review, such as admission appropriateness or extended day of stay approval.

Case Management / Utilization Management Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Care Coordinator Technician

Total hours worked by care coordinator technicians who place phone calls to payers and arrange discharge services, etc.

This is a subset of Worked Hours: Staff.

Worked Hours - Case Manager

Total hours worked by case managers. Typically case managers are RNs or social workers.

This is a subset of Worked Hours: Staff.

Worked Hours: Clinical Documentation Improvement Specialist

Total number of hours worked by all Clinical Documentation Improvement Specialists.
This is a subset of Worked Hours: Staff.

**Worked Hours: Data Analyst**

Total hours worked by data analyst technical staff responsible for extracting data from information systems and performing statistical analysis.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Case Management / Utilization Management Expense Elements**
**Contract Service Expense**

Total expense for services provided by outside contractors (e.g. auditors).

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Professional Fee Expense**

Total expense for professional fees.

This is a subset of Other Direct Operating Expense.

**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

Total expense for department operating supplies.

**Case Management /Utilization Management Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Staff
• Worked Hours: Staff
• Total Cases

Case Management / Utilization Management Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Case Management (manages patient care while the patient is undergoing treatment)
• Insurance verification (concurrent review phase)—time spent obtaining certification for continued services while patient is in-house such as obtaining authorization for another day of stay or additional procedures
• Pre-admission Certification (follow-up) while patient is in-house or retrospective review, e.g., to assist with managing providers to ensure they are not treating patients with too many services
• Utilization Review services

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Clinical Documentation Improvement (CDI), e.g., activities that facilitate the accurate representation of a patient's clinical status which is translated into coded data
• Corporate Compliance Officer - activities related to overseeing and managing regulatory compliance issues within the organization
• Grant or research funded services
• Hospital Quality Assurance, e.g., activities surrounding the collecting and disseminating of data to monitor and improve patient care at the facility (hospital level quality management)
• Infection Control (e.g. functions specific to the collection, analysis, and interpretation of health data in order to track infection trends, plan appropriate interventions, measure outcomes, and report relevant data both internally and externally).
• Medical care evaluation via peer review, e.g., evaluation of an individual practitioner’s professional performance and includes the identification of opportunities to improve care
• Patient Safety, e.g., utilize safety science methods to ensure the quality of the health care delivered, researches incidents, creates plans to minimizes future incidents
• Performance Improvement, e.g., time spent on creating, planning, implementing, researching and driving organizational operational changes
• Physician Accreditation, e.g., activities involved in the verification of physician qualifications, granting of specific clinical privileges based on evaluation of competence

• Risk Management e.g., time spent on activities focused on organizational identification and improvement of clinical circumstances that put patients at risk

• Social Workers

05840, Case Management

This department manages inpatient, emergency, outpatient and observation patient care while the patient is undergoing treatment, assuring appropriate transitions of care as necessary. This department coordinates the collaboration of patient care with patients, families, physicians, other caregivers, and payers. It includes assessing patient needs; monitoring patient status, patient progress, and variations; evaluating care options; and developing discharge plans, including discharge placement.

Case Management Mapping Guidelines

If your cost center(s) performs utilization review, quality management or social work functions, this department might not be an appropriate choice. Other options might include the 05825, Quality Management department; 05280, Utilization Management department, or 05850, Clinical Resource Management department.

Case Management Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Cases Managed

The total cases managed by department staff. This includes both inpatient, outpatient and observation cases. An inpatient case must include at least one of the following: telephonic review, pre admission planning, care plan coordination with physicians, patient and family education, coordination with hospital staff to avoid delays, and discharge planning. Multiple Encounters may occur within one Case Managed. Count each patient admission as one case even if case management activities are performed in different settings such as pre admission, inpatient, and transitional care units.
**Cases Managed for Physician Practices and Clinics**

The total cases managed by department staff for physician practices and non-hospital clinics. A case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays.

This is a component of Cases Managed.

**Days Reimbursed at a Skilled Rate**

Total inpatient days where care was provided at an acute level but payment was received at only a skilled level.

**Discharge Referrals**

The total referrals of patients case-managed to the following services: home health, long-term care, skilled nursing facility (SNF), durable medical equipment (DME), dialysis, rehab services, and medical transport. One case may have more than one referral. For example, a patient receiving both home health visit referrals and medical transport to the home would count as two referrals but only one case. Referrals of outpatients and observation patients also qualify.

**Emergency Department Cases Managed by Case Management**

The total emergency department cases managed by Case Management staff. An emergency case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. A patient that comes into the ER and is admitted would be excluded (that patient would be counted in Inpatient Cases Managed by Case Management).

This is a subset of Cases Managed.

**Facilities Supported by Department**

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

**Inpatient Admissions**

The total facility inpatient admissions. Exclude normal newborns.

This is a subset of Total Admissions And Registrations.
Inpatient Cases Managed by Case Management

The total inpatient cases managed by Case Management staff. An inpatient case must include at least one of the following: telephonic review, pre-admission planning, care plan coordination with physicians, patient/family education, coordination with hospital staff to avoid delays, and discharge planning. Count each patient admission as one case even if case management activities are performed in different settings such as pre-admission, inpatient, and transitional care units.

This is a subset of Cases Managed.

Inpatient Days Denied Reimbursement

The total inpatient days denied reimbursement after all appeals have been submitted. Count all patient days finally denied by third-party payers during the reporting period. The patient days may be from a prior period or the current reporting period. If the payer is not based on some form of daily reimbursement and the admission is denied, count all patient days as denied.

Inpatient Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individual inpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

Inpatient Visits

Total patient encounters performed in support of facility inpatients.

This is a subset of Patient Visits.

Number of Medicare Recovery Audit Program Appeals

Total number of appeals submitted during the reporting period. This includes all levels of appeals; first level (redetermination) through fifth level (Judicial review in U.S. District Court).

Number of Medicare Recovery Audit Program Denials

Total number of Medicare Recovery Audit Program denials for the reporting period. Typically, this would equal the number of overpayment/underpayment notification letters received from the Recovery Auditors during the reporting period.

Number of Medicare Recovery Audit Program Reviews

Total number of Medicare Recovery Audit Program reviews initiated and/or conducted in the reporting period. Recovery Auditors review past Medicare FFS claims for potential overpayments or underpayments, reviewing medical records when necessary to make appropriate determinations.
Observation Cases Managed by Case Management
The total observation cases managed by Case Management staff. An observation case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. Do not include outpatients in this case count.

This is a subset of Cases Managed.

Outpatient Cases Managed by Case Management
The total outpatient cases managed by Case Management staff. An outpatient case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. Do not include observation patients in this case count.

This is a subset of Cases Managed.

Outpatient Encounters
Total number of encounters or interactions between department staff members (i.e. case managers) and individual outpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

Outpatient Registrations
The total outpatient registrations resulting in a separate patient account number. This includes all outpatient registrations (emergency, clinic, referred, etc.) created during the reporting period.

This is a subset of Total Admissions and Registrations.

Telehealth Cases Managed
The total cases managed by telephone or online for the care and treatment of a patient by department staff. A case must include at least one of the following: telephonic review, pre admission planning, care plan coordination with physicians, patient and family education, coordination with hospital staff to avoid delays, and discharge planning.

This is a component of Cases Managed.

Total Admissions And Registrations
Total number of inpatient admissions and outpatient registrations recorded during the reporting period.

Total Assessment Hours
Total number of hours conducting patient assessments by department staff in the reporting period.
Total Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individual patients. Count all face-to-face interactions as well as phone encounters.

Case Management Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Care Coordinator Technician

Total hours worked by care coordinator technicians who place phone calls to payers and arrange discharge services, etc.

This is a subset of Worked Hours: Staff.

Worked Hours - Case Manager

Total hours worked by case managers. Typically case managers are RNs or social workers.

This is a subset of Worked Hours: Staff.

Worked Hours: Clinical Documentation Improvement Specialist

Total number of hours worked by all Clinical Documentation Improvement Specialists.

This is a subset of Worked Hours: Staff.

Worked Hours: Data Analyst

Total hours worked by data analyst technical staff responsible for extracting data from information systems and performing statistical analysis.

This is a subset of Worked Hours: Staff.
**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Social Worker**

Total hours worked by masters and bachelor degreed social workers or individuals performing in this capacity. Do not include social workers acting as case managers; rather include them in the category Worked Hours: Case Manager.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Case Management Expense Elements

Contract Service Expense
Total expense for services provided by outside contractors (e.g. auditors).
This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.
This is a subset of Labor Expense.

Professional Fee Expense
Total expense for professional fees.
This is a subset of Other Direct Operating Expense.

Supply Expense
Total expense for department operating supplies.
This is a subset of Other Direct Operating Expense.

Case Management Mandatory Elements
The following data elements are mandatory for this department:
• Labor Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Staff
• Worked Hours: Staff
• Cases Managed

**Case Management Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Case Management (manages patient care while the patient is undergoing treatment)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Clinical Documentation Improvement (CDI), e.g., activities that facilitate the accurate representation of a patient's clinical status which is translated into coded data
• Corporate Compliance Officer - activities related to overseeing and managing regulatory compliance issues within the organization
• Grant or research funded services
• Hospital Quality Assurance, e.g., activities surrounding the collecting and disseminating of data to monitor and improve patient care at the facility (hospital level quality management)
• Infection Control (e.g. functions specific to the collection, analysis, and interpretation of health data in order to track infection trends, plan appropriate interventions, measure outcomes, and report relevant data both internally and externally).
• Medical care evaluation via peer review, e.g., evaluation of an individual practitioner's professional performance and includes the identification of opportunities to improve care
• Patient Safety, e.g., utilize safety science methods to ensure the quality of the health care delivered, researches incidents, creates plans to minimizes future incidents
• Performance Improvement, e.g., time spent on creating, planning, implementing, researching and driving organizational operational changes
• Physician Accreditation, e.g., activities involved in the verification of physician qualifications, granting of specific clinical privileges based on evaluation of competence
• Risk Management e.g., time spent on activities focused on organizational identification and improvement of clinical circumstances that put patients at risk

• Social Workers

• Utilization Review services

05850, Clinical Resource Management

This department includes all utilization management (prospective, concurrent, and retrospective reviews of patient admissions to determine appropriate service utilization), case management (manages patient care while the patient is undergoing treatment) and social work functions (discharge planning). Quality Management (collects and disseminates data to monitor and improve patient care, and provides consultation) is excluded.

Clinical Resource Management Mapping Guidelines

If your cost center(s) does not perform all primary functions described in the department definition, the department might not be an appropriate choice. Other options include 05840, Case Management department; 05820, Utilization Management department; 05810, Social Work department or the G5800, Other Clinical Resource Management Services department.

Clinical Resource Management Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Ambulatory Surgery Cases Tracked By Utilization Review

The total ambulatory surgery cases tracked for utilization review intervention by Utilization Management staff. A patient who experiences more than one ambulatory surgery episode during the reporting period would count as more than one case. With regard to ambulatory cases, count ongoing cases under care management, each month of care management counts as one case.

This is a subset of Cases Tracked by Utilization Review.
Cases Managed

The total cases managed by department staff. This includes both inpatient, outpatient and observation cases. An inpatient case must include at least one of the following: telephonic review, pre admission planning, care plan coordination with physicians, patient and family education, coordination with hospital staff to avoid delays, and discharge planning. Multiple Encounters may occur within one Case Managed. Count each patient admission as one case even if case management activities are performed in different settings such as pre admission, inpatient, and transitional care units.

This is a subset of Total Cases.

Cases Managed for Physician Practices and Clinics

The total cases managed by department staff for physician practices and non-hospital clinics. A case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays.

This is a component of Cases Managed.

Cases Tracked by Utilization Review

The total cases tracked for utilization review intervention by Utilization Management staff. Count each patient episode as one case even if utilization reviews are performed in different settings such as pre-admission, inpatient, or a skilled nursing facility. A patient who experiences more than one admission during the reporting period would count as more than one case. Count skilled nursing cases separately only if they represent admission to a separate skilled nursing facility.

This is a subset of Total Cases.

Community Outreach Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individuals who are not patients but members of the community or an outreach program. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

Days Reimbursed At A Skilled Rate

Total inpatient days where care was provided at an acute level but payment was received at only a skilled level.
Emergency Department Cases Managed by Case Management

The total emergency department cases managed by Case Management staff. An emergency case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. A patient that comes into the ER and is admitted would be excluded (that patient would be counted in Inpatient Cases Managed by Case Management).

This is a subset of Cases Managed.

Emergency Department Cases Tracked By Utilization Review

The total emergency department cases tracked for utilization review intervention by Utilization Management staff. A patient who experiences more than one ER episode during the reporting period would count as more than one case. A patient that comes into the ER and is admitted would be excluded (that patient would be counted in Inpatient Cases Tracked by Utilization Review).

This is a subset of Cases Tracked by Utilization Review.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Home Health Referrals

The total referrals of social work patients to home health agencies. Home health refers to the arrangement of home visits by nurses, home health aides, or other caregivers. Durable medical equipment referrals should not be included in this subset but should be included in the overall category of Referrals.

This is a subset of Referrals.

Inpatient Admissions

The total facility inpatient admissions. Exclude normal newborns.

This is a subset of Total Admissions And Registrations.

Inpatient Cases Managed by Case Management

The total inpatient cases managed by Case Management staff. An inpatient case must include at least one of the following: telephonic review, pre-admission planning, care plan coordination with physicians, patient/family education, coordination with hospital staff to avoid delays, and discharge planning. Count each patient admission as one case even if case management activities are performed in different settings such as pre-admission, inpatient, and transitional care units.
This is a subset of Cases Managed.

Inpatient Cases Tracked By Utilization Review
The total inpatient cases tracked for utilization review intervention by Utilization Management staff. Inpatients are patients who occupied or are expected to occupy a bed overnight. Exclude normal newborns from the count.

This is a subset of Cases Tracked by Utilization Review.

Inpatient Days Denied Reimbursement
The total inpatient days denied reimbursement after all appeals have been submitted. Count all patient days finally denied by third-party payers during the reporting period. The patient days may be from a prior period or the current reporting period. If the payer is not based on some form of daily reimbursement and the admission is denied, count all patient days as denied.

Inpatient Encounters
Total number of encounters or interactions between department staff members (i.e. case managers) and individual inpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

MD And Allied Health Reviews Processed
Total reviews processed for medical staff (physicians and allied health professionals) appointments and or reappointments.

Number of Medicare Recovery Audit Program Appeals
Total number of appeals submitted during the reporting period. This includes all levels of appeals; first level (redetermination) through fifth level (Judicial review in U.S. District Court).

Number of Medicare Recovery Audit Program Denials
Total number of Medicare Recovery Audit Program denials for the reporting period. Typically, this would equal the number of overpayment/underpayment notification letters received from the Recovery Auditors during the reporting period.

Number of Medicare Recovery Audit Program Reviews
Total number of Medicare Recovery Audit Program reviews initiated and/or conducted in the reporting period. Recovery Auditors review past Medicare FFS claims for potential overpayments or underpayments, reviewing medical records when necessary to make appropriate determinations.
**Observation Cases Managed by Case Management**

The total observation cases managed by Case Management staff. An observation case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. Do not include outpatients in this case count.

This is a subset of Cases Managed.

**Outpatient Cases Managed by Case Management**

The total outpatient cases managed by Case Management staff. An outpatient case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. Do not include observation patients in this case count.

This is a subset of Cases Managed.

**Outpatient Encounters**

Total number of encounters or interactions between department staff members (i.e. case managers) and individual outpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

**Outpatient Observation Cases Tracked By Utilization Review**

The total outpatient or observation cases tracked for utilization review intervention by Utilization Management staff. A patient who experiences more than one outpatient episode during the reporting period would count as more than one case. Emergency Department cases are excluded from this count and should be reported under the Emergency Department Cases Tracked element.

This is a subset of Cases Tracked by Utilization Review.

**Outpatient Registrations**

The total outpatient registrations resulting in a separate patient account number. This includes all outpatient registrations (emergency, clinic, referred, etc.) created during the reporting period.

This is a subset of Total Admissions and Registrations.

**Psychiatric Cases**

The total number of psychiatric patients (including inpatient, outpatient, and partial hospitalization) classified as cases according to the definitions above.

This is a component of Social Work Cases.
Referrals
The total individual patient referrals that social work made to the following services: home health, durable medical equipment (DME), dialysis, skilled nursing facility (SNF), rehab services, and medical transport. One case may have more than one referral. For example, a patient receiving both home health visit referrals and medical transport to the home would count as two referrals but only one case. Referrals of outpatients also qualify. To qualify, referrals must involve direct contact between the department and the agency or organization to which the patient is being referred.

Rehabilitation Cases
The total number of acute rehabilitation patients classified as cases according to the definitions above. Rehabilitation cases refer to patients receiving care in an inpatient rehabilitation unit or inpatient rehabilitation facility. Patients include those having experienced stroke, head or spinal cord trauma, muscular skeletal injury, or other forms of physical disability.

This is a component of Social Work Cases.

Risk Management Incident Reports
Total risk management occurrence reports processed by the department.

Size of Medical Staff Supported
Total number of individual physicians and allied health professionals supported by the department for quality management and or medical staff office functions.

Skilled Nursing Facility Referrals
The total referrals of social work patients to skilled nursing facilities (SNF). Skilled nursing refers to convalescent care or restorative services of post-acute or post-sub-acute patients.

This is a subset of Referrals.

Social Work Cases
The total patients receiving social work services and meeting one of the definitions below for inpatient, non-emergency outpatient (including partial hospitalization), or emergency cases. Include screening cases or assessment cases only if they involve direct patient contact. This refers to all patients who have had at least one contact with Social Work Services during the reporting period. The contact may be in person, by mail, via telephone, or through another person on behalf of the patient. For minimum contact time requirements refer to the detailed subset definitions in this section. This count is the total of the following subsets: Social Work Inpatient Cases (including Sub-Acute Cases and Partial Hospitalization Cases), Social Work (Non-Emergent) Outpatient Cases, and Social Work Emergency Cases.
This is a subset of Total Cases.

**Social Work Emergency Cases**

The total Emergency department patient visits receiving one or more social service encounter. This count consists of all patients who receive social work services in the Emergency department. If the patient is subsequently admitted, the patient may also generate a count under the category of Social Work Inpatient Cases if criteria for that count (as described above) is met. Exclude normal newborns from case count.

This is a subset of Social Work Cases.

**Social Work Inpatient Cases**

The total inpatients receiving social work services. Each relevant admission should generate only one case count unless length of stay is greater than one month. This count is the total number of inpatients receiving social work services directly or via contact with family, significant other, or an agency on behalf of the patient. Discussion of a patient during rounds and paper screens do not constitute a case and should not be included in the count. Patients transferred between acute inpatient units are only counted once per reporting period unless they are discharged and readmitted. Cases in which more than one social worker is involved are counted only as one case. Supporting documentation is required, and there is a 10-minute minimum contact time limit. The reporting period is one month. Some patients may be counted more than once during an admission if they remain in the hospital longer than a month or if they are admitted one month and discharged the next. A patient is counted one time during a calendar month if they are receiving active and ongoing social work involvement.

**Example**  A patient is admitted to the ICU on January 15th after an automobile accident. Social Work intervention is requested, and Social Work staff begin working with the patient's family on January 16th. The Social Work staff work with the patient or family every day. The patient remains in the ICU until February 3, at which time he or she is transferred to 4 North - Med/Surg. The patient is ultimately discharged from this unit on February 18th. The patient provides a case count of two. One case is counted for the month of January and one for the month of February. The fact that the patient was on two different units during the month of February does not affect the count.

This is a subset of Social Work Cases.

**Social Work Non Emergent Outpatient Cases**

The total face-to-face encounters with outpatients as well as services provided to outpatients by telephone. For telephone services, count each month of service as one case. This count consists of the following components: patients receiving face-to-face services, patients receiving care management services, and partial hospitalization cases.

This is a subset of Social Work Cases.
Social Work Sub-Acute Cases

The total patients receiving sub-acute care or post-acute restorative services as well as social work services. This count consists of all patients who receive social work services in a skilled nursing facility or separate sub-acute unit. These patients usually require a higher intensity of social work services due to their discharge planning needs.

This is a subset of Social Work Inpatient Cases.

Substance Abuse Cases

The total number of patients whose primary diagnosis is substance abuse (including inpatient, outpatient and partial hospitalization) and who are classified as cases according to the definition above. A patient admitted for a total hip replacement and discovered to be suffering from alcoholism would not qualify.

This is a component of Social Work Cases.

Telehealth Cases Managed

The total cases managed by telephone or online for the care and treatment of a patient by department staff. A case must include at least one of the following: telephonic review, pre admission planning, care plan coordination with physicians, patient and family education, coordination with hospital staff to avoid delays, and discharge planning.

This is a component of Cases Managed.

Total Admissions And Registrations

Total number of inpatient admissions and outpatient registrations recorded during the reporting period.

Total Assessment Hours

Total number of hours conducting patient assessments by department staff in the reporting period.

Total Cases

The total cases tracked for utilization review intervention, managed through the case management function and total cases managed by the social work function.

Total Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individual patients. Count all face-to-face interactions as well as phone encounters.
Utilization Reviews Performed

The total utilization reviews (including pre-admission, initial, continued stay, retrospective) performed by department staff. Count each review for each care appropriateness question that arises for each case. Combine steps to resolve appropriateness issues as one review count. Each case tracked will likely have more than one review, such as admission appropriateness or extended day of stay approval.

Clinical Resource Management Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Care Coordinator Technician

Total hours worked by care coordinator technicians who place phone calls to payers and arrange discharge services, etc.

This is a subset of Worked Hours: Staff.

Worked Hours - Case Manager

Total hours worked by case managers. Typically case managers are RNs or social workers.

This is a subset of Worked Hours: Staff.

Worked Hours: Clinical Documentation Improvement Specialist

Total number of hours worked by all Clinical Documentation Improvement Specialists.

This is a subset of Worked Hours: Staff.

Worked Hours: Data Analyst

Total hours worked by data analyst technical staff responsible for extracting data from information systems and performing statistical analysis.

This is a subset of Worked Hours: Staff.
**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Social Work Aides And Technicians**

Total hours worked by social work aides and technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: Social Worker**

Total hours worked by masters and bachelor degreed social workers or individuals performing in this capacity. Do not include social workers acting as case managers; rather include them in the category Worked Hours: Case Manager.

This is a subset of Worked Hours: Staff.
Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Clinical Resource Management Expense Elements

Contract Service Expense
Total expense for services provided by outside contractors (e.g. auditors).
This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.
This is a subset of Labor Expense.

Professional Fee Expense
Total expense for professional fees.
This is a subset of Other Direct Operating Expense.

Supply Expense
Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.
Total expense for department operating supplies.
Clinical Resource Management Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff
- Total Cases

Clinical Resource Management Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Case Management (manages patient care while the patient is undergoing treatment)
- Discharge Planning, e.g., activities to facilitate patient's movement from one health care setting to another, or home
- Hospital Discharge Planning Nurse
- Hospital Quality Assurance, e.g., activities surrounding the collecting and disseminating of data to monitor and improve patient care at the facility (hospital level quality management)
- Insurance verification (concurrent review phase)—time spent obtaining certification for continued services while patient is in-house such as obtaining authorization for another day of stay or additional procedures
- Pre-admission Certification (follow-up) while patient is in-house or retrospective review, e.g., to assist with managing providers to ensure they are not treating patients with too many services
- Risk Management e.g., time spent on activities focused on organizational identification and improvement of clinical circumstances that put patients at risk
- Social Workers
- Utilization Review services

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Clinical Documentation Improvement (CDI), e.g., activities that facilitate the accurate representation of a patient's clinical status which is translated into coded data

• Corporate Compliance Officer - activities related to overseeing and managing regulatory compliance issues within the organization

• Grant or research funded services

• Infection Control (e.g. functions specific to the collection, analysis, and interpretation of health data in order to track infection trends, plan appropriate interventions, measure outcomes, and report relevant data both internally and externally).

• Medical care evaluation via peer review, e.g., evaluation of an individual practitioner's professional performance and includes the identification of opportunities to improve care

• Patient Safety, e.g., utilize safety science methods to ensure the quality of the health care delivered, researches incidents, creates plans to minimizes future incidents

• Performance Improvement, e.g., time spent on creating, planning, implementing, researching and driving organizational operational changes

• Physician Accreditation, e.g., activities involved in the verification of physician qualifications, granting of specific clinical privileges based on evaluation of competence

• Pre-admission certification, e.g., communicating with insurance companies to gain approval for a person to be admitted to the hospital, granted prior to admission

05860, Case Management/Social Work

This department includes all case management (manages patient care while the patient is undergoing treatment) and social work functions (discharge planning). This consists of managing inpatient, emergency, outpatient and observation patient care while the patient is undergoing treatment as well as coordinating the collaboration of patient care with patients, families, physicians, other caregivers, and payers. Activities include assessing patient needs; monitoring patient status, patient progress, and variations; evaluating care options; and developing discharge plans, including discharge placement. This department also provides screening and case finding for at-risk patients, psychosocial assessments, patient or family counseling, financial arrangement assistance, community information services, referrals to other resources and therapeutic services planning.

Case Management/Social Work Mapping Guidelines

If your cost center(s) does not combine the Social Work and Case management functions, this department might not be an appropriate choice. Other options might include the 05840, Case Management department or the 05810, Social Work department as separate instances. If your cost center(s) performs utilization review or quality management, this department might not be an appropriate choice. Other options might include the 05825, Quality Management department; 05280, Utilization Management department, or 05850, Clinical Resource Management department.
Case Management/Social Work Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review the Guiding Principles section in the DRM for more information.

Cases Managed

The total cases managed by department staff. This includes both inpatient, outpatient and observation cases. An inpatient case must include at least one of the following: telephonic review, pre admission planning, care plan coordination with physicians, patient and family education, coordination with hospital staff to avoid delays, and discharge planning. Multiple Encounters may occur within one Case Managed. Count each patient admission as one case even if case management activities are performed in different settings such as pre admission, inpatient, and transitional care units.

This is a subset of Total Cases.

Cases Managed for Physician Practices and Clinics

The total cases managed by department staff for physician practices and non-hospital clinics. A case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays.

This is a component of Cases Managed.

Community Outreach Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individuals who are not patients but members of the community or an outreach program. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

Days Reimbursed At A Skilled Rate

Total inpatient days where care was provided at an acute level but payment was received at only a skilled level.
Emergency Department Cases Managed by Case Management

The total emergency department cases managed by Case Management staff. An emergency case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. A patient that comes into the ER and is admitted would be excluded (that patient would be counted in Inpatient Cases Managed by Case Management).

This is a subset of Cases Managed.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Home Health Referrals

The total referrals of social work patients to home health agencies. Home health refers to the arrangement of home visits by nurses, home health aides, or other caregivers. Durable medical equipment referrals should not be included in this subset but should be included in the overall category of Referrals.

This is a subset of Referrals.

Inpatient Admissions

The total facility inpatient admissions. Exclude normal newborns.

This is a subset of Total Admissions and Registrations.

Inpatient Cases Managed by Case Management

The total inpatient cases managed by Case Management staff. An inpatient case must include at least one of the following: telephonic review, pre-admission planning, care plan coordination with physicians, patient/family education, coordination with hospital staff to avoid delays, and discharge planning. Count each patient admission as one case even if case management activities are performed in different settings such as pre-admission, inpatient, and transitional care units.

This is a subset of Cases Managed.

Inpatient Days Denied Reimbursement

The total inpatient days denied reimbursement after all appeals have been submitted. Count all patient days finally denied by third-party payers during the reporting period. The patient days may be from a prior period or the current reporting period. If the payer is not based on some form of daily reimbursement and the admission is denied, count all patient days as denied.
Inpatient Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individual inpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.

Number of Medicare Recovery Audit Program Appeals

Total number of appeals submitted during the reporting period. This includes all levels of appeals; first level (redetermination) thru fifth level (Judicial review in U.S. District Court).

Number of Medicare Recovery Audit Program Denials

Total number of Medicare Recovery Audit Program denials for the reporting period. Typically, this would equal the number of overpayment/underpayment notification letters received from the Recovery Auditors during the reporting period.

Number of Medicare Recovery Audit Program Reviews

Total number of Medicare Recovery Audit Program reviews initiated and/or conducted in the reporting period. Recovery Auditors review past Medicare FFS claims for potential overpayments or underpayments, reviewing medical records when necessary to make appropriate determinations.

Observation Cases Managed by Case Management

The total observation cases managed by Case Management staff. An observation case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. Do not include outpatients in this case count.

This is a subset of Cases Managed.

Outpatient Cases Managed by Case Management

The total outpatient cases managed by Case Management staff. An outpatient case must include at least one of the following: telephonic review, care plan coordination with physicians, patient/family education, and coordination with hospital staff to avoid delays. Do not include observation patients in this case count.

This is a subset of Cases Managed.

Outpatient Encounters

Total number of encounters or interactions between department staff members (i.e. case managers) and individual outpatients. Count all face-to-face interactions as well as phone encounters.

This is a subset of Total Encounters.
Outpatient Registrations Supported

The total outpatient registrations resulting in a separate patient account number. This includes all outpatient registrations (emergency, clinic, referred, etc.) created during the reporting period. Do not include registrations for lab specimens (where only the specimens come to the hospital, and not the patient) in this count.

This is a subset of Total Admissions and Registrations.

Psychiatric Cases

The total number of psychiatric patients (including inpatient, outpatient, and partial hospitalization) classified as cases according to the definitions above.

This is a component of Social Work Cases.

Referrals

The total individual patient referrals that social work made to the following services: home health, durable medical equipment (DME), dialysis, skilled nursing facility (SNF), rehab services, and medical transport. One case may have more than one referral. For example, a patient receiving both home health visit referrals and medical transport to the home would count as two referrals but only one case. Referrals of outpatients also qualify. To qualify, referrals must involve direct contact between the department and the agency or organization to which the patient is being referred.

Rehabilitation Cases

The total number of acute rehabilitation patients classified as cases according to the definitions above. Rehabilitation cases refer to patients receiving care in an inpatient rehabilitation unit or inpatient rehabilitation facility. Patients include those having experienced stroke, head or spinal cord trauma, muscular skeletal injury, or other forms of physical disability.

This is a component of Social Work Cases.

Skilled Nursing Facility Referrals

The total referrals of social work patients to skilled nursing facilities (SNF). Skilled nursing refers to convalescent care or restorative services of post-acute or post-sub-acute patients.

This is a subset of Referrals.
Social Work Cases

The total patients receiving social work services and meeting one of the definitions below for inpatient, non-emergency outpatient (including partial hospitalization), or emergency cases. Include screening cases or assessment cases only if they involve direct patient contact. This refers to all patients who have had at least one contact with Social Work Services during the reporting period. The contact may be in person, by mail, via telephone, or through another person on behalf of the patient. For minimum contact time requirements refer to the detailed subset definitions in this section. This count is the total of the following subsets: Social Work Inpatient Cases (including Sub-Acute Cases and Partial Hospitalization Cases), Social Work (Non-Emergent) Outpatient Cases, and Social Work Emergency Cases.

This is a subset of Total Cases.

Social Work Emergency Cases

The total Emergency department patient visits receiving one or more social service encounter. This count consists of all patients who receive social work services in the Emergency department. If the patient is subsequently admitted, the patient may also generate a count under the category of Social Work Inpatient Cases if criteria for that count (as described above) is met. Exclude normal newborns from case count.

This is a subset of Social Work Cases.

Social Work Inpatient Cases

The total inpatients receiving social work services. Each relevant admission should generate only one case count unless length of stay is greater than one month. This count is the total number of inpatients receiving social work services directly or via contact with family, significant other, or an agency on behalf of the patient. Discussion of a patient during rounds and paper screens do not constitute a case and should not be included in the count. Patients transferred between acute inpatient units are only counted once per reporting period unless they are discharged and readmitted. Cases in which more than one social worker is involved are counted only as one case. Supporting documentation is required, and there is a 10-minute minimum contact time limit. The reporting period is one month. Some patients may be counted more than once during an admission if they remain in the hospital longer than a month or if they are admitted one month and discharged the next. A patient is counted one time during a calendar month if they are receiving active and ongoing social work involvement. Example A patient is admitted to the ICU on January 15th after an automobile accident. Social Work intervention is requested, and Social Work staff begin working with the patient's family on January 16th. The Social Work staff work with the patient or family every day. The patient remains in the ICU until February 3, at which time he or she is transferred to 4 North - Med/Surg. The patient is ultimately discharged from this unit on February 18th. The patient provides a case count of two. One case is counted for the month of January and one for the month of February. The fact that the patient was on two different units during the month of February does not affect the count.

This is a subset of Social Work Cases.

Social Work Non Emergent Outpatient Cases

The total encounters with outpatients as well as services provided to outpatients by telephone. For telephone services, count each month of service as one case. This count consists of the following components: patients receiving face-to-face services, patients receiving care management services, and partial hospitalization cases.
This is a subset of Social Work Cases.

**Social Work Sub Acute Cases**

The total patients receiving sub-acute care or post-acute restorative services as well as social work services. This count consists of all patients who receive social work services in a skilled nursing facility or separate sub-acute unit. These patients usually require a higher intensity of social work services due to their discharge planning needs.

This is a subset of Social Work Inpatient Cases.

**Substance Abuse Cases**

The total number of patients whose primary diagnosis is substance abuse (including inpatient, outpatient and partial hospitalization) and who are classified as cases according to the definition above. A patient admitted for a total hip replacement and discovered to be suffering from alcoholism would not qualify.

This is a component of Social Work Cases.

**Telehealth Cases Managed**

The total cases managed by telephone or online for the care and treatment of a patient by department staff. A case must include at least one of the following: telephonic review, pre admission planning, care plan coordination with physicians, patient and family education, coordination with hospital staff to avoid delays, and discharge planning.

This is a component of Cases Managed.

**Total Admissions And Registrations**

Total number of inpatient admissions and outpatient registrations recorded during the reporting period.

**Total Assessment Hours**

Total number of hours conducting patient assessments by department staff in the reporting period.

**Total Cases**

The total cases managed through the case management function and total cases managed by the social work function.

**Total Encounters**

Total number of encounters or interactions between department staff members (i.e. case managers) and individual patients. Count all face-to-face interactions as well as phone encounters.
Case Management/Social Work Department Hour Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Care Coordinator Technician
Total hours worked by care coordinator technicians who place phone calls to payers and arrange discharge services, etc.

This is a subset of Worked Hours: Staff.

Worked Hours: Case Manager
Total hours worked by case managers. Typically case managers are RNs or social workers.

This is a subset of Worked Hours: Staff.

Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime
Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.
This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) Including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Social Work Aides and Technicians**

Total hours worked by social work aides and technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: Social Worker**

Total hours worked by masters and bachelor degreed social workers or individuals performing in this capacity. Do not include social workers acting as case managers; rather include them in the category Worked Hours: Case Manager.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Case Management/Social Work Expense Elements**

**Contract Service Expense**

Total expense for services provided by outside contractors (e.g. auditors).

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense that includes professional fees, department supplies, equipment rental fees, operating leases for equipment, dues, travel and small (non-capitalized) equipment. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Professional Fee Expense

Total expense for professional fees.

This is a subset of Other Direct Operating Expense.

Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Case Management/Social Work Mandatory Elements

The following data elements are mandatory for this department:

- Paid Hours: Staff
- Worked Hours: Staff
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Total Cases

Case Management/Social Work Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Case Management (manages patient care while the patient is undergoing treatment)
- Discharge Planning, e.g., activities to facilitate patient's movement from one health care setting to another, or home
- Hospital Discharge Planning Nurse
- Social Workers

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Clinical Documentation Improvement (CDI), e.g., activities that facilitate the accurate representation of a patient's clinical status which is translated into coded data
- Corporate Compliance Officer - activities related to overseeing and managing regulatory compliance issues within the organization
- Grant or research funded services
- Hospital Quality Assurance, e.g., activities surrounding the collecting and disseminating of data to monitor and improve patient care at the facility (hospital level quality management)
- Infection Control (e.g. functions specific to the collection, analysis, and interpretation of health data in order to track infection trends, plan appropriate interventions, measure outcomes, and report relevant data both internally and externally).
- Medical care evaluation via peer review, e.g., evaluation of an individual practitioner's professional performance and includes the identification of opportunities to improve care
- Patient Safety, e.g., utilize safety science methods to ensure the quality of the health care delivered, researches incidents, creates plans to minimizes future incidents
- Performance Improvement, e.g., time spent on creating, planning, implementing, researching and driving organizational operational changes
- Physician Accreditation, e.g., activities involved in the verification of physician qualifications, granting of specific clinical privileges based on evaluation of competence
- Risk Management e.g., time spent on activities focused on organizational identification and improvement of clinical circumstances that put patients at risk
- Utilization Review services

**G5800, Other Clinical Resource Management Services**

This generic department includes any cost center(s) belonging to Clinical Resource Management Services that cannot be mapped to a specific department within this series.

**Other Clinical Resource Management Services Workload Volumes**
Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Cases Managed

The total cases managed by department staff. This includes both inpatient, outpatient and observation cases. An inpatient case must include at least one of the following: telephonic review, pre admission planning, care plan coordination with physicians, patient and family education, coordination with hospital staff to avoid delays, and discharge planning. Multiple Encounters may occur within one Case Managed. Count each patient admission as one case even if case management activities are performed in different settings such as pre admission, inpatient, and transitional care units.

This is a subset of Total Cases.

Cases Tracked by Utilization Review

The total cases tracked for utilization review intervention by Utilization Management staff. Count each patient episode as one case even if utilization reviews are performed in different settings such as pre-admission, inpatient, or a skilled nursing facility. A patient who experiences more than one admission during the reporting period would count as more than one case. Count skilled nursing cases separately only if they represent admission to a separate skilled nursing facility.

This is a subset of Total Cases.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Social Work Cases

The total patients receiving social work services and meeting one of the definitions below for inpatient, non-emergency outpatient (including partial hospitalization), or emergency cases. Include screening cases or assessment cases only if they involve direct patient contact. This refers to all patients who have had at least one contact with Social Work Services during the reporting period. The contact may be in person, by mail, via telephone, or through another person on behalf of the patient. For minimum contact time requirements refer to the detailed subset definitions in this section. This count is the total of the following subsets: Social Work Inpatient Cases (including Sub-Acute Cases and Partial Hospitalization Cases), Social Work (Non-Emergent) Outpatient Cases, and Social Work Emergency Cases.

This is a subset of Total Cases.
Total Cases
The total cases tracked for utilization review intervention, managed through the case management function and total cases managed by the social work function.

Total Encounters
Total number of encounters or interactions between department staff members (i.e. case managers) and individual patients. Count all face-to-face interactions as well as phone encounters.

Other Clinical Resource Management Services Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Care Coordinator Technician
Total hours worked by care coordinator technicians who place phone calls to payers and arrange discharge services, etc.

This is a subset of Worked Hours: Staff.

Worked Hours - Case Manager
Total hours worked by case managers. Typically case managers are RNs or social workers.

This is a subset of Worked Hours: Staff.

Worked Hours: Clinical Documentation Improvement Specialist
Total number of hours worked by all Clinical Documentation Improvement Specialists.

This is a subset of Worked Hours: Staff.

Worked Hours: Data Analyst
Total hours worked by data analyst technical staff responsible for extracting data from information systems and performing statistical analysis.
This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Social Work Aides And Technicians**

Total hours worked by social work aides and technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: Social Worker**

Total hours worked by masters and bachelor degreed social workers or individuals performing in this capacity. Do not include social workers acting as case managers; rather include them in the category Worked Hours: Case Manager.

This is a subset of Worked Hours: Staff.
**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Other Clinical Resource Management Services Expense Elements**

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Professional Fee Expense**

Total expense for professional fees.

This is a subset of Other Direct Operating Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Other Clinical Resource Management Services Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Staff
• Worked Hours: Staff

**Other Clinical Resource Management Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Case Management (manages patient care while the patient is undergoing treatment)
• Discharge Planning, e.g., activities to facilitate patient's movement from one health care setting to another, or home
• Hospital Discharge Planning Nurse
• Hospital Quality Assurance, e.g., activities surrounding the collecting and disseminating of data to monitor and improve patient care at the facility (hospital level quality management)
• Insurance verification (concurrent review phase)—time spent obtaining certification for continued services while patient is in-house such as obtaining authorization for another day of stay or additional procedures
• Pre-admission Certification (follow-up) while patient is in-house or retrospective review, e.g., to assist with managing providers to ensure they are not treating patients with too many services
• Risk Management e.g., time spent on activities focused on organizational identification and improvement of clinical circumstances that put patients at risk
• Social Workers
• Utilization Review services

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Clinical Documentation Improvement (CDI), e.g., activities that facilitate the accurate representation of a patient's clinical status which is translated into coded data
• Corporate Compliance Officer - activities related to overseeing and managing regulatory compliance issues within the organization
• Grant or research funded services
• Infection Control (e.g. functions specific to the collection, analysis, and interpretation of health data in order to track infection trends, plan appropriate interventions, measure outcomes, and report relevant data both internally and externally).
• Medical care evaluation via peer review, e.g., evaluation of an individual practitioner’s professional performance and includes the identification of opportunities to improve care

• Patient Safety, e.g., utilize safety science methods to ensure the quality of the health care delivered, researches incidents, creates plans to minimize future incidents

• Performance Improvement, e.g., time spent on creating, planning, implementing, researching and driving organizational operational changes

• Physician Accreditation, e.g., activities involved in the verification of physician qualifications, granting of specific clinical privileges based on evaluation of competence

• Pre-admission certification, e.g., communicating with insurance companies to gain approval for a person to be admitted to the hospital, granted prior to admission
Chapter 9. Community Outreach

This chapter includes the following sections:

- 06330, Foundation  420
- 06370, Volunteer Services  424
- G6300, Other Community Outreach  427

06330, Foundation

The Foundation department works with both internal and external publics to promote community involvement in, and charitable support for the facility. This department organizes and conducts fundraising events, identifies funding needs and sources, develops and coordinates the funding plan and drives, cultivates planned giving, and monitors fund development.

Foundation Workload Volumes

Active Donors - 2 to 5 years

Individual donors who have regularly contributed to the hospital for the past two to five years. This includes donors who contributed during the reporting period. This does not include individuals pledging but not contributing during the reporting period or donors who have been giving less than 2 years. Donors may be the result of annual giving campaigns, capital campaigns, planned giving pledges, or other forms of solicitation performed or coordinated by the department. They may donate non-cash items, such as real property and stocks. They may place restrictions on donation use or may donate unrestricted funds.

Active Donors - more than 5 years

Individual donors who have regularly contributed to the hospital for more than five years. This includes donors who contributed during the reporting period. This does not include individuals pledging but not contributing during the reporting period or donors who have been giving less than 5 years. Donors may be the result of annual giving campaigns, capital campaigns, planned giving pledges, or other forms of solicitation performed or coordinated by the department. They may donate non-cash items, such as real property and stocks. They may place restrictions on donation use or may donate unrestricted funds.
**Adjusted Discharges Supported**

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non-hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

**Donated Funds Received**

Total value of funds received from donors. This includes all funds received from donors during the reporting period. Donations may be the result of annual giving campaigns, capital campaigns, planned giving pledges, or other forms of solicitation performed or coordinated by the department. Use appraised values for non-cash donations, such as real property and stocks, if the donations have not been converted to cash. Donations may have donor restrictions on use or may be unrestricted.

**Educational Events Coordinated**

Total group or individual events coordinated to educate potential donors to the benefits of planned giving or other forms of financial support and/or outline specific needs of the hospital.

**New Commitment Funds Pledged**

Total value of funds pledged for future donation. This includes all funds pledged by donors as a result of department staff pledge drive efforts during the reporting period. Pledge donations may be received either during or subsequent to the reporting period. Pledges may be the result of annual giving campaigns, capital campaigns, planned giving pledges, or other forms of solicitation performed or coordinated by the department. Use appraised values for non-cash pledges, such as real property and stocks. Pledges may have donor restrictions on use or may be unrestricted.

**New Donors**

Total individual donors contributing to the hospital for the first time. This includes all new donors during the reporting period. This does not include individuals pledging but not contributing during the reporting period. New donors may be the result of annual giving campaigns, capital campaigns, planned giving pledges, or other forms of solicitation performed or coordinated by the department. They may donate non-cash items, such as real property and stocks. They may place restrictions on donation use or may donate unrestricted funds.

**Potential Donor Studies**

Total potential donor studies prepared. This includes formal studies prepared during the reporting period. The study usually includes focus groups, profiles, and generally available information to determine the financial strength, interests, and past giving patterns of potential donors to the hospital. These may include individuals, estates, corporations, philanthropic organizations, and others who have not previously donated to the hospital.
Program Age

Total years the foundation or fund development department has been actively cultivating and/or soliciting potential donors. This includes the age through the end of the reporting period. Use simple rounding for fractional years. For example, six years and six months equals six years. Six years and seven months equals seven years.

Special Events Coordinated

Total special fund raising events coordinated. This includes fund raising events that may be open to the general public or targeted to specific groups. They usually include some form of entertainment. These events typically would have high community visibility, such as a telethon or benefit performance of the arts (ice skating, concert, etc.). Count the event in the reporting period that the majority of planning and coordination occurs, not in the period that the event takes place.

Foundation Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.
This is a subset of Worked Hours: Staff.

**Worked Hours: Professional Staff**

Total hours worked by professional staff with a college degree in personnel management or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Foundation Expense Elements**

**Event Expenses**

Total expenses for special events.

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Professional Fee Expense**

Total expense for professional fees, such as consultants.
**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Foundation Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- New Commitment Funds Pledged
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Foundation Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Fund raising activities

**06370, Volunteer Services**

The Volunteer Services department assesses volunteer needs, recruits, places, and retains volunteers, and monitors volunteer utilization.

**Volunteer Services Workload Volumes**

**Volunteer Service Hours**

Total hours of service to the hospital by volunteer and/or youth program volunteer personnel. These represent the cumulative hours of service for the reporting period. Hours should be available on logs maintained or other appropriate tracking devices.
Volunteers Managed

Total volunteers maintained on the department roster. This includes all volunteers that provided active service to the hospital during the reporting period. Service can be as little as one hour. Do not include individuals on a volunteer list that did not provide any service during the reporting period.

Volunteers Recruited

Total volunteers recruited into the volunteer or youth program. This includes all volunteers who became active during the reporting period. Count members new to the program and those who were inactive for more than one year returning to the program.

This is a subset of Volunteers Managed.

Volunteer Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.
This is a subset of Worked Hours: Staff.

**Worked Hours: Professional Staff**

Total hours worked by professional staff with a college degree in personnel management or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Volunteer Services Expense Elements**

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Volunteer Services Mandatory Elements**

The following data elements are mandatory for this department:
• Labor Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Staff
• Volunteer Service Hours
• Worked Hours: Staff

G6300, Other Community Outreach

This generic department includes all cost centers belonging to the community outreach series that cannot be mapped to individual community outreach departments.

Other Community Outreach Workload Volumes

New Commitment Funds Pledged
Total value of funds pledged for future donation. This includes all funds pledged by donors as a result of department staff pledge drive efforts during the reporting period. Pledge donations may be received either during or subsequent to the reporting period. Pledges may be the result of annual giving campaigns, capital campaigns, planned giving pledges, or other forms of solicitation performed or coordinated by the department. Use appraised values for non-cash pledges, such as real property and stocks. Pledges may have donor restrictions on use or may be unrestricted.

New Donors
Total individual donors contributing to the hospital for the first time. This includes all new donors during the reporting period. This does not include individuals pledging but not contributing during the reporting period. New donors may be the result of annual giving campaigns, capital campaigns, planned giving pledges, or other forms of solicitation performed or coordinated by the department. They may donate non-cash items, such as real property and stocks. They may place restrictions on donation use or may donate unrestricted funds.

Volunteer Service Hours
Total hours of service to the hospital by volunteer and/or youth program volunteer personnel. These represent the cumulative hours of service for the reporting period. Hours should be available on logs maintained or other appropriate tracking devices.
Other Community Outreach Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or standby hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Professional Staff

Total hours worked by professional staff with a college degree in personnel management or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.
Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Other Community Outreach Expense Elements

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Other Community Outreach Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

Other Community Outreach Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Fund raising activities
Chapter 10. Dialysis Services

This chapter includes the following sections:

- 04510, Dialysis 430
- G4500, Other Dialysis Services 435

04510, Dialysis

This department provides dialysis treatment for acute and/or chronic dialysis patients. The department may treat predominantly acute patients, predominantly chronic patients, or both.

Dialysis Workload Volumes

Conventional Treatments

The total number of conventional hemodialysis treatments performed as defined by the Centers for Medicare & Medicaid Services (CMS). Conventional hemodialysis typically involves thrice a week, alternate-day hemodialysis. This form of treatment uses membranes that filter out smaller waste products and less fluid than high efficiency or high flux treatments.

This is a component of Treatments.

High Efficiency or High Flux Treatments

The total number of dialysis treatments performed by high efficiency or high flux hemodialysis as defined by the Centers for Medicare & Medicaid Services (CMS). High flux or high efficiency hemodialysis is a dialysis technique that requires specialized equipment. The essential element of high flux dialysis is the use of dialyzers (artificial kidneys) that have larger pores for the removal both of uremic toxins and of fluid.

This is a component of Treatments.

Inpatient Treatments

Total dialysis treatments performed on hospitalized inpatients.

This is a subset of Treatments.
Patient Visits

Total discrete patient visits to the department for examination. Multiple visits may be required for one procedure.

Patients Treated

Total number of different patients dialyzed by department staff during the study period.

Peritoneal Treatments

The total number of peritoneal dialysis treatments performed in this department. There are two main types of peritoneal dialysis: Continuous Ambulatory Peritoneal Dialysis (CAPD) and Continuous Cycling Peritoneal Dialysis (CCPD). Both can be performed at home. These treatments use the body’s peritoneum as the membrane to filter waste products and excess fluid.

This is a component of Treatments.

Treatment Stations

The total number of licensed dialysis stations.

Treatments

The total number of dialysis treatments performed by department staff. Including but not limited to hemodialysis, hemofiltration treatments, peritoneal dialysis and other continuous renal replacement therapies. Do not include training sessions or any other non-treatment procedures. Procedures that apply only to the physician component should be excluded.

Dialysis Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
This is a subset of Paid Hours: Staff.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: LPN, LVN**

Hours worked by licensed practical nurse, licensed vocational nurses providing patient care services in the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Dialysis Expense Elements

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.
Medical Supply Expense

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Dialysis Mandatory Elements

The following data elements are mandatory for this department:

- Inpatient Treatments
- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Treatments
- Worked Hours: Physician Provider
- Worked Hours: Staff

**Dialysis Normalizations**

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Medical records transcription (e.g. lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments)
- Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)
- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Repair and Maintenance of Clinical Equipment/Rooms

**G4500, Other Dialysis Services**

The generic Other Dialysis Services department includes all cost centers belonging to the Dialysis Services series that cannot be mapped to the Dialysis department.

**Other Dialysis Services Workload Volumes**

**Patient Visits**

Total discrete patient visits to the department for examination. Multiple visits may be required for one procedure.
Treatments

The total number of dialysis treatments performed by department staff. Including but not limited to hemodialysis, hemofiltration treatments, peritoneal dialysis and other continuous renal replacement therapies. Do not include training sessions or any other non-treatment procedures. Procedures that apply only to the physician component should be excluded.

Other Dialysis Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurse, licensed vocational nurses providing patient care services in the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.
**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Other Dialysis Services Expense Elements**
Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.
Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Other Dialysis Services Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

Other Dialysis Services Normalizations

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Medical records transcription (e.g. lines produced internally or outsources; do not include transcription services from Laboratory and Imaging Services Departments)
- Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)
- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Repair and Maintenance of Clinical Equipment/Rooms
Chapter 11. Educational Services

This chapter includes the following sections:

- 06210, Clinical Staff Education 440
- 06215, Medical Staff Education 449
- 06220, Non-clinical Staff Education 457
- 06230, Staff Education Combined 466
- 06235, Organizational Development 474
- 06240, Learning Technologies 482
- 06250, Patient and Family Education 486
- 06260, Community Education and Outreach Services 493
- F6200, Educational Services Functional Rollup 501
- G6200, Other Educational Services 511

06210, Clinical Staff Education

This department is responsible for clinical staff education including, but not limited to: orientation, specialty inservice, regulatory agency training, continuing education credit (i.e. provision of contact hours vs. professional development), formal classroom training, educational needs assessment, program development, and program execution functions. The educational offerings can be provided in a variety of ways including but not limited to: a classroom (on or off-site), computer-based training (CBT), video vignettes, on the unit or in the department. Clinical staff extends beyond nursing staff and includes clinical staff in ancillary departments (i.e. Rehab Services, Respiratory Care, Imaging services, etc.)

Decentralized education provided by unit staff to the unit staff (preceptors) should remain on the units.

Clinical Staff Education Mapping Guidelines

If your cost center performs non-clinical staff and or medical staff training functions, this department might not be an appropriate choice. Other options might include the Medical Staff Education department, the Non-clinical Staff Education department or the Staff Education Combined department.
Clinical Staff Education Workload Volumes

Adjusted Discharges Supported
Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Computer-based Training Completions
Enter the total number of segments/sessions completed which required interaction via computer during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks)

This is a component of Total Course Completions.

Computer-based Training Offerings
Enter the total number of training segments/sessions offered or requiring interaction via computer. A segment/session is defined as at least 15-minutes in length. If 2 or more sessions are required to disseminate and complete the course information, you would count each session.

This is a component of Total Course Offerings.

Course Development Hours
Enter the total hours spent by department staff in creating course material during the reporting period. This would include both on-line and live classroom courses either via video or in person. Include time spent on research, document creation and cross-training of department staff of the new material.

Course Segments Completed
Enter the total number of course segments completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count each of the sessions individually. The course segments may be taken online or in a classroom environment and each segment completed would be counted regardless of delivery method.

Inhouse Developed Courses
Total number of courses developed by staff in this department during the reporting period.

Instructional Hours: CME, CNE training

Total hours of training provided to physicians and licensed nursing professional (MSN, RN, and LPN) where each person-hour is counted as one unit. Include courses for physician and professional nursing staff education held within the facility, including all forms of continuing medical education. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: CME, CNE training. Count each ¼ hour and round to the nearest ¼ hour for all course lengths.

This is a subset of Instructional Hours: Staff.

Instructional Hours: Non-staff/Other

Total hours of general/special skills and continuing education instruction provided to anyone other than employed staff (i.e. agency staff, medical students not employed by the hospital) by the staff in this department during the reporting period. Count all instructional hours provided by department educators or by outside sources coordinated by department educators. This is a cumulative count of instructional hours provided (fractions included) and is not affected by the number of participants in the class. For example, an instructor conducts a one hour class to 20 individuals and a one hour class to 10 individuals. This would equal two hours of Instructional Hours: Non-staff/Other. Only actual time spent conducting educational sessions should be included. Do not include curriculum/course development time or other "prep" time.

Instructional Hours: Orientation

Total hours of general orientation provided by the department. For example, include discussions of time cards or time sheets, clocking in, employee benefits, or hospital wide work rules. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Orientation.

This is a subset of Instructional Hours: Staff.

Instructional Hours: Staff

Total hours of general orientation, general/special skills, and continuing medical education instruction provided by department staff. Count all instruction provided to employees by department educators or by outside sources coordinated by department educators. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Employee. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

Learner Hours: e-Learning/CBT

Total hours of educational time received via e-Learning or computer-based courses. This is the number of students times the number of estimated course completion hours for each eLearning course taken.
Learner Hours: Staff

Total hours of educational time provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

New Hires Supported

Total new employees hired by the facility and supported by the department.

New Hires Supported: Clinical

Total new nursing or other clinical employees hired by the facility and processed through the department. This is a subset of New Hires Supported.

Number of Staff Trained

Total number of individual employees which attended one or more hours of instruction provided by the department.

Online Course Development Hours

Enter the total hours spent by department staff in creating course material specifically for online and/or computer-based courses during the reporting period. This would include courses developed for delivery via video also. Include time spent on research, document/application creation and cross-training of department staff of the new material. This is a subset of Course Development Hours.

Purchased Developed Courses

Total number of courses purchased from an outside developer paid by the department and is reflected in Other Direct Operating Expenses.

Total Classroom Sessions Delivered

Enter the total number of sessions offered in a classroom setting with a live instructor. A session would need to be at least 15 minutes in length to be counted. If 2 or more sessions are required to disseminate the course information, you would count each session.
Total Course Completions

Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

This is a component of Total Course Completions.

Total Course Offerings

Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

Clinical Staff Education Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid by physicians/providers on the department's payroll who provide educational services.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Education Specialist and Trainer

Hours worked by staff with a college degree or credentials in education, organizational development or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurses and/or licensed vocational nurses charged to the department.

This is a subset of Worked Hours: Staff.
Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Total hours worked by physicians/providers on the department payroll who provide educational services.

This is a subset of Worked Hours: Staff.

Worked Hours: Professional Staff

Total hours worked by professional staff with a college degree or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Hours worked by registered nurses charged to the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Clinical Staff Education Expense Elements

Contract Service Expense

Total expense for services provided by external/outside contractors (e.g., speaker fees, instructor fees, graphic design work, printing costs, etc).

This is a subset of Other Direct Operating Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid for physicians and advanced practitioners who provide educational services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide educational services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as advance practitioners, and other advanced practitioners. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

Clinical Staff Education Mandatory Elements

The following data elements are mandatory for this department:

- Instructional Hours: Employee
- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

Clinical Staff Education Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Clinical Staff Educators formal classroom training time
• Conferences and/or Educational events (clinical or leadership)
• Continuing Medical Education (hours, expenses and workload of the educators/trainers)
• Costs for promotional materials for Educational Services Series department sponsored events
• Didactic Teaching for phlebotomy (Providing Collection Manager (PDA's and Printers and training) for nursing services doing arterial line draws)
• Employee formal facility wide training programs, e.g., fire safety, CPR, hand washing
• Software training for off-the-shelf products and applications, e.g., Microsoft Office
• Employee training programs (e.g. formal classroom training, lectures, textbooks, didactic training)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Clinical/nursing staff acting as educators who perform unit/department specific training
• Community Education and/or Outreach Events, e.g., coordinates and delivers health fairs and health screening programs, speakers bureaus and presentations
• Educational technology and media services to be included in the 06240, Learning Technologies
• Employee Assistance (management and administration of the program)
• Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)
• Lean Six Sigma program administration and support to be included in the 06235, Organization Development
• Medical Library functions, e.g., Librarian
• Organizational Development, e.g., coaching, culture development
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
• Software training for department-specific computer software applications and/or systems, e.g., RIS for Imaging, OR management system for the Operating Room
• Software training for enterprise-wide computer software and applications, e.g., EMR, financial/budgeting tool
• Staff who perform new employee/ new hire orientation specific to HR-related activities, e.g., institutional policies and procedures, W-2 forms, benefits
- Strategic Planning and Facilitation, e.g., business development, portfolio management, strategic partnerships and alliances, strategic performance, development of overall organizational strategies, researching industry trends and forecasts

- Student interns/trainees

- Talent management (the focus on an employee’s potential and future performance, if given the proper development of skills and increased responsibility, "career advancement", "attract and retain")

06215, Medical Staff Education

This department is responsible for physician/medical staff education including, but not limited to: orientation, inservice education, regulatory agency training, and all forms of continuing medical education. The educational offerings can be provided in a variety of ways including but not limited to: a classroom, computer-based training (CBT), video vignettes, on the unit or in the department.

Medical Staff Education Mapping Guidelines

If your cost center performs clinical or non-clinical staff training functions, this department might not be an appropriate choice. Other options might include the 06210, Clinical Staff Education department; the 06220, Non-clinical Staff Education department; or the 06230, Staff Education Combined department.

Medical Staff Education Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Computer-based Training Completions

Enter the total number of segments/sessions completed which required interaction via computer during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks)

This is a component of Total Course Completions.
Computer-based Training Offerings

Enter the total number of training segments/sessions offered or requiring interaction via computer. A segment/session is defined as at least 15-minutes in length. If 2 or more sessions are required to disseminate and complete the course information, you would count each session.

This is a component of Total Course Offerings.

Course Development Hours

Enter the total hours spent by department staff in creating course material during the reporting period. This would include both on-line and live classroom courses either via video or in person. Include time spent on research, document creation and cross-training of department staff of the new material.

Course Segments Completed

Enter the total number of course segments completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count each of the sessions individually. The course segments may be taken online or in a classroom environment and each segment completed would be counted regardless of delivery method.

Inhouse Developed Courses

Total number of courses developed by staff in this department during the reporting period.

Instructional Hours: CME, CNE training

Total hours of training provided to physicians and licensed nursing professional (MSN, RN, and LPN) where each person-hour is counted as one unit. Include courses for physician and professional nursing staff education held within the facility, including all forms of continuing medical education. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: CME, CNE training. Count each ¼ hour and round to the nearest ¼ hour for all course lengths.

This is a subset of Instructional Hours: Staff.

Instructional Hours: Non-staff/Other

Total hours of general/special skills and continuing education instruction provided to anyone other than employed staff (i.e. agency staff, medical students not employed by the hospital) by the staff in this department during the reporting period. Count all instructional hours provided by department educators or by outside sources coordinated by department educators. This is a cumulative count of instructional hours provided (fractions included) and is not affected by the number of participants in the class. For example, an instructor conducts a one hour class to 20 individuals and a one hour class to 10 individuals. This would equal two hours of Instructional Hours: Non-staff/Other. Only actual time spent conducting educational sessions should be included. Do not include curriculum/course development time or other “prep” time.
Instructional Hours: Staff

Total hours of general orientation, general/special skills, and continuing medical education instruction provided by department staff. Count all instruction provided to employees by department educators or by outside sources coordinated by department educators. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Employee. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

Learner Hours: e-Learning/CBT

Total hours of educational time received via e-Learning or computer-based courses. This is the number of students times the number of estimated course completion hours for each eLearning course taken.

Learner Hours: Non-staff/Other

Total hours of educational time provided to anyone not employed by the organization by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest ¼ hour if needed.

Learner Hours: Staff

Total hours of educational time provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

New Hires Supported

Total new employees hired by the facility and supported by the department.

Number of Staff Trained

Total number of individual employees which attended one or more hours of instruction provided by the department.

Online Course Development Hours

Enter the total hours spent by department staff in creating course material specifically for online and/or computer-based courses during the reporting period. This would include courses developed for delivery via video also. Include time spent on research, document/application creation and cross-training of department staff of the new material.

This is a subset of Course Development Hours.
Purchased Developed Courses

Total number of courses purchased from an outside developer paid by the department and is reflected in Other Direct Operating Expenses.

Total Classroom Sessions Delivered

Enter the total number of sessions offered in a classroom setting with a live instructor. A session would need to be at least 15 minutes in length to be counted. If 2 or more sessions are required to disseminate the course information, you would count each session.

Total Course Completions

Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

This is a component of Total Course Completions.

Total Course Offerings

Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

Medical Staff Education Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid by physicians/providers on the department's payroll who provide educational services.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.
Worked Hours: Education Specialist and Trainer
Hours worked by staff with a college degree or credentials in education, organizational development or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN
Hours worked by licensed practical nurses and/or licensed vocational nurses charged to the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime
Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider
Total hours worked by physicians/providers on the department payroll who provide educational services.

This is a subset of Worked Hours: Staff.

Worked Hours: Professional Staff
Total hours worked by professional staff with a college degree or credentials in education, organizational development, or related subjects.
This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Hours worked by registered nurses charged to the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

---

**Medical Staff Education Expense Elements**

**Contract Service Expense**

Total expense for services provided by external/outside contractors (e.g., speaker fees, instructor fees, graphic design work, printing costs, etc).

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid for physicians and advanced practitioners who provide educational services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.
**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide educational services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as advance practitioners, and other advanced practitioners. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

**Medical Staff Education Mandatory Elements**

The following data elements are mandatory for this department:

- Instructional Hours: Staff
- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
• Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

Medical Staff Education Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Clinical Staff Educators formal classroom training time
• Conferences and/or Educational events (clinical or leadership)
• Continuing Medical Education (hours, expenses and workload of the educators/trainers)
• Costs for promotional materials for Educational Services Series department sponsored events
• Didactic Teaching for phlebotomy (Providing Collection Manager (PDA's and Printers and training) for nursing services doing arterial line draws)
• Employee formal facility wide training programs, e.g., fire safety, CPR, hand washing
• Software training for off-the-shelf products and applications, e.g., Microsoft Office
• Employee training programs (e.g. formal classroom training, lectures, textbooks, didactic training)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Clinical/nursing staff acting as educators who perform unit/department specific training
• Community Education and/or Outreach Events, e.g., coordinates and delivers health fairs and health screening programs, speakers bureaus and presentations
• Educational technology and media services to be included in the 06240, Learning Technologies
• Employee Assistance (management and administration of the program)
• Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)
• Lean Six Sigma program administration and support to be included in the 06235, Organization Development
• Medical Library functions, e.g., Librarian
• Organizational Development, e.g., coaching, culture development

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

• Software training for department-specific computer software applications and/or systems, e.g., RIS for Imaging, OR management system for the Operating Room

• Software training for enterprise-wide computer software and applications, e.g., EMR, financial/budgeting tool

• Staff who perform new employee/new hire orientation specific to HR-related activities, e.g., institutional policies and procedures, W-2 forms, benefits

• Strategic Planning and Facilitation, e.g., business development, portfolio management, strategic partnerships and alliances, strategic performance, development of overall organizational strategies, researching industry trends and forecasts

• Student interns/trainees

• Talent management (the focus on an employee’s potential and future performance, if given the proper development of skills and increased responsibility, “career advancement”, “attract and retain”)

06220, Non-clinical Staff Education

This department is responsible for non-clinical staff education including, but not limited to: new employee orientation, regulatory training, agency training, and employee/management development. The educational offerings can be provided in a variety of ways including but not limited to: a classroom (on or off-site), computer-based training (CBT), video vignettes, on the unit or in the department. Clinical Staff Education and Medical Staff Education is excluded. (Formerly known as Training and Development).

Non-clinical Staff Education Mapping Guidelines

If your cost center performs clinical and/or physician/medical staff education and training functions more than 20% of the time, this department is not an appropriate choice. Other options might include 06210, Clinical Staff Education department; 06215, Medical Staff Education department or the 06230, Staff Education Combined department.
Non-clinical Staff Education Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Computer-based Training Completions

Enter the total number of segments/sessions completed which required interaction via computer during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks)

This is a component of Total Course Completions.

Computer-based Training Offerings

Enter the total number of training segments/sessions offered or requiring interaction via computer. A segment/session is defined as at least 15-minutes in length. If 2 or more sessions are required to disseminate and complete the course information, you would count each session.

This is a component of Total Course Offerings.

Course Development Hours

Enter the total hours spent by department staff in creating course material during the reporting period. This would include both on-line and live classroom courses either via video or in person. Include time spent on research, document creation and cross-training of department staff of the new material.

Course Segments Completed

Enter the total number of course segments completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count each of the sessions individually. The course segments may be taken online or in a classroom environment and each segment completed would be counted regardless of delivery method.
Inhouse Developed Courses

Total number of courses developed by staff in this department during the reporting period.

Instructional Hours: Non-staff/Other

Total hours of general/special skills and continuing education instruction provided to anyone other than employed staff (i.e. agency staff, medical students not employed by the hospital) by the staff in this department during the reporting period. Count all instructional hours provided by department educators or by outside sources coordinated by department educators. This is a cumulative count of instructional hours provided (fractions included) and is not affected by the number of participants in the class. For example, an instructor conducts a one hour class to 20 individuals and a one hour class to 10 individuals. This would equal two hours of Instructional Hours: Non-staff/Other. Only actual time spent conducting educational sessions should be included. Do not include curriculum/course development time or other "prep" time.

Instructional Hours: Orientation

Total hours of general orientation provided by the department. For example, include discussions of time cards or time sheets, clocking in, employee benefits, or hospital wide work rules. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Orientation.

This is a subset of Instructional Hours: Staff.

Learner Hours: e-Learning/CBT

Total hours of educational time received via e-Learning or computer-based courses. This is the number of students times the number of estimated course completion hours for each eLearning course taken.

Learner Hours: Non-staff/Other

Total hours of educational time provided to anyone not employed by the organization by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest ¼ hour if needed.

Learner Hours: Staff

Total hours of educational time provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

New Hires Supported

Total new employees hired by the facility and supported by the department.
Number of Staff Trained

Total number of individual employees which attended one or more hours of instruction provided by the department.

Online Course Development Hours

Enter the total hours spent by department staff in creating course material specifically for online and/or computer-based courses during the reporting period. This would include courses developed for delivery via video also. Include time spent on research, document/application creation and cross-training of department staff of the new material.

This is a subset of Course Development Hours.

Purchased Developed Courses

Total number of courses purchased from an outside developer paid by the department and is reflected in Other Direct Operating Expenses.

Total Classroom Sessions Delivered

Enter the total number of sessions offered in a classroom setting with a live instructor. A session would need to be at least 15 minutes in length to be counted. If 2 or more sessions are required to disseminate the course information, you would count each session.

Total Course Completions

Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

This is a component of Total Course Completions.

Total Course Offerings

Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.
Non-clinical Staff Education Department Hour Elements

Instructional Hours: Staff

Total hours of general orientation, general/special skills, and continuing medical education instruction provided by department staff. Count all instruction provided to employees by department educators or by outside sources coordinated by department educators. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Employee. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid by physicians/providers on the department's payroll who provide educational services.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Education Specialist and Trainer

Hours worked by staff with a college degree or credentials in education, organizational development or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurses and/or licensed vocational nurses charged to the department.

This is a subset of Worked Hours: Staff.
**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Total hours worked by physicians/providers on the department payroll who provide educational services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Professional Staff**

Total hours worked by professional staff with a college degree or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Hours worked by registered nurses charged to the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Non-clinical Staff Education Expense Elements

Contract Service Expense
Total expense for services provided by external/outside contractors (e.g., speaker fees, instructor fees, graphic design work, printing costs, etc).

This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid for physicians and advanced practitioners who provide educational services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense
Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense
Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide educational services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as advance practitioners, and other advanced practitioners. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

Non-clinical Staff Education Mandatory Elements

The following data elements are mandatory for this department:

- Instructional Hours: Employee
- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

Non-clinical Staff Education Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Costs for promotional materials for Educational Services Series department sponsored events
• Employee formal facility wide training programs, e.g., fire safety, CPR, hand washing

• Software training for off-the-shelf products and applications, e.g., Microsoft Office

• Employee training programs (e.g. formal classroom training, lectures, textbooks, didactic training)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Community Education and/or Outreach Events, e.g., coordinates and delivers health fairs and health screening programs, speakers bureaus and presentations

• Continuing Medical Education (hours, expenses and workload of the educators/trainers)

• Educational technology and media services to be included in the 06240, Learning Technologies

• Employee Assistance (management and administration of the program)

• Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)

• Lean Six Sigma program administration and support to be included in the 06235, Organization Development

• Medical Library functions, e.g., Librarian

• Organizational Development, e.g., coaching, culture development

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

• Software training for department-specific computer software applications and/or systems, e.g., RIS for Imaging, OR management system for the Operating Room

• Software training for enterprise-wide computer software and applications, e.g., EMR, financial/budgeting tool

• Staff who perform new employee/ new hire orientation specific to HR-related activities, e.g., institutional policies and procedures, W-2 forms, benefits

• Strategic Planning and Facilitation, e.g., business development, portfolio management, strategic partnerships and alliances, strategic performance, development of overall organizational strategies, researching industry trends and forecasts

• Student interns/trainees

• Talent management (the focus on an employee’s potential and future performance, if given the proper development of skills and increased responsibility, “career advancement”, “attract and retain”)
06230, Staff Education Combined

This department is responsible for all staff (medical, clinical and non-clinical) education including, but not limited to: orientation, inservice education, regulatory agency training and all forms of continuing medical education. The educational offerings can be provided in a variety of ways including but not limited to: a classroom (on or off-site), computer-based training (CBT), video vignettes, on the unit or in the department.

Staff Education Combined Mapping Guidelines

If you have separate cost centers for clinical staff education, physician/medical staff education, and non-clinical staff education, we suggest you map them individually to the specific department (06210, Clinical Staff Education department; 06215, Medical Staff Education department; 06220, Non-clinical Staff Education department). If you map your cost center(s) to this department, do not create instances of the 06210, Clinical Staff Education department; 06215, Medical Staff Education department; and/or 06220, Non-clinical Staff Education department(s) as well.

Staff Education Combined Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Computer-based Training Completions

Enter the total number of segments/sessions completed which required interaction via computer during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks)

This is a component of Total Course Completions.

Computer-based Training Offerings

Enter the total number of training segments/sessions offered or requiring interaction via computer. A segment/session is defined as at least 15-minutes in length. If 2 or more sessions are required to disseminate and complete the course information, you would count each session.

This is a component of Total Course Offerings.
**Course Development Hours**

Enter the total hours spent by department staff in creating course material during the reporting period. This would include both on-line and live classroom courses either via video or in person. Include time spent on research, document creation and cross-training of department staff of the new material.

**Course Segments Completed**

Enter the total number of course segments completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count each of the sessions individually. The course segments may be taken online or in a classroom environment and each segment completed would be counted regardless of delivery method.

**Inhouse Developed Courses**

Total number of courses developed by staff in this department during the reporting period.

**Instructional Hours: CME, CNE training**

Total hours of training provided to physicians and licensed nursing professional (MSN, RN, and LPN) where each person-hour is counted as one unit. Include courses for physician and professional nursing staff education held within the facility, including all forms of continuing medical education. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: CME, CNE training. Count each ¼ hour and round to the nearest ¼ hour for all course lengths.

This is a subset of Instructional Hours: Staff.

**Instructional Hours: Non-staff/Other**

Total hours of general/special skills and continuing education instruction provided to anyone other than employed staff (i.e. agency staff, medical students not employed by the hospital) by the staff in this department during the reporting period. Count all instructional hours provided by department educators or by outside sources coordinated by department educators. This is a cumulative count of instructional hours provided (fractions included) and is not affected by the number of participants in the class. For example, an instructor conducts a one hour class to 20 individuals and a one hour class to 10 individuals. This would equal two hours of Instructional Hours: Non-staff/Other. Only actual time spent conducting educational sessions should be included. Do not include curriculum/course development time or other "prep" time.

**Instructional Hours: Orientation**

Total hours of general orientation provided by the department. For example, include discussions of time cards or time sheets, clocking in, employee benefits, or hospital wide work rules. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Orientation.
This is a subset of Instructional Hours: Staff.

**Instructional Hours: Staff**

Total hours of general orientation, general/special skills, and continuing medical education instruction provided by department staff. Count all instruction provided to employees by department educators or by outside sources coordinated by department educators. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Employee. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

**Learner Hours: e-Learning/CBT**

Total hours of educational time received via e-Learning or computer-based courses. This is the number of students times the number of estimated course completion hours for each eLearning course taken.

**Learner Hours: Non-staff/Other**

Total hours of educational time provided to anyone not employed by the organization by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest ¼ hour if needed.

**Learner Hours: Staff**

Total hours of educational time provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

**New Hires Supported**

Total new employees hired by the facility and supported by the department.

**New Hires Supported: Clinical**

Total new nursing or other clinical employees hired by the facility and processed through the department.

This is a subset of New Hires Supported.

**Number of Staff Trained**

Total number of individual employees which attended one or more hours of instruction provided by the department.
Online Course Development Hours

Enter the total hours spent by department staff in creating course material specifically for online and/or computer-based courses during the reporting period. This would include courses developed for delivery via video also. Include time spent on research, document/application creation and cross-training of department staff of the new material.

This is a subset of Course Development Hours.

Purchased Developed Courses

Total number of courses purchased from an outside developer paid by the department and is reflected in Other Direct Operating Expenses.

Total Classroom Sessions Delivered

Enter the total number of sessions offered in a classroom setting with a live instructor. A session would need to be at least 15 minutes in length to be counted. If 2 or more sessions are required to disseminate the course information, you would count each session.

Total Course Completions

Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

This is a component of Total Course Completions.

Total Course Offerings

Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

Staff Education Combined Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid by physicians/providers on the department's payroll who provide educational services.
Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Education Specialist and Trainer

Hours worked by staff with a college degree or credentials in education, organizational development or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurses and/or licensed vocational nurses charged to the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Total hours worked by physicians/providers on the department payroll who provide educational services.
This is a subset of Worked Hours: Staff.

**Worked Hours: Professional Staff**

Total hours worked by professional staff with a college degree or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Hours worked by registered nurses charged to the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Staff Education Combined Expense Elements**

**Contract Service Expense**

Total expense for services provided by external/outside contractors (e.g., speaker fees, instructor fees, graphic design work, printing costs, etc).

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid for physicians and advanced practitioners who provide educational services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.
Medical Supply Expense

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide educational services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as advance practitioners, and other advanced practitioners. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

Staff Education Combined Mandatory Elements

The following data elements are mandatory for this department:

- Instructional Hours: Employee
- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

**Staff Education Combined Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Clinical Staff Educators formal classroom training time
- Conferences and/or Educational events (clinical or leadership)
- Continuing Medical Education (hours, expenses and workload of the educators/trainers)
- Costs for promotional materials for Educational Services Series department sponsored events
- Employee formal facility wide training programs, e.g., fire safety, CPR, hand washing
- Software training for off-the-shelf products and applications, e.g., Microsoft Office
- Employee training programs (e.g. formal classroom training, lectures, textbooks, didactic training)
- Didactic Teaching for phlebotomy (Providing Collection Manager (PDA's and Printers and training) for nursing services doing arterial line draws)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Clinical/nursing staff acting as educators who perform unit/department specific training
- Community Education and/or Outreach Events, e.g., coordinates and delivers health fairs and health screening programs, speakers bureaus and presentations
- Educational technology and media services to be included in the 06240, Learning Technologies
- Employee Assistance (management and administration of the program)
• Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)

• Lean Six Sigma program administration and support to be included in the 06235, Organization Development

• Medical Library functions, e.g., Librarian

• Organizational Development, e.g., coaching, culture development

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

• Software training for department-specific computer software applications and/or systems, e.g., RIS for Imaging, OR management system for the Operating Room

• Software training for enterprise-wide computer software and applications, e.g., EMR, financial/budgeting tool

• Staff who perform new employee/ new hire orientation specific to HR-related activities, e.g., institutional policies and procedures, W-2 forms, benefits

• Strategic Planning and Facilitation, e.g., business development, portfolio management, strategic partnerships and alliances, strategic performance, development of overall organizational strategies, researching industry trends and forecasts

• Student interns/trainees

• Talent management (the focus on an employee’s potential and future performance, if given the proper development of skills and increased responsibility, “career advancement”; “attract and retain”)

06235, Organizational Development

This department is responsible for the organization-wide effort to increase organization effectiveness and growth through planned interventions in the organization’s processes and development opportunities. Activities may include: Project Management, Coaching, Culture Development, and/or Talent Management.

Organizational Development Mapping Guidelines

If your cost center performs less than 80% Organizational Development activities, this department might not be an appropriate choice. Another option might include the 06230, Staff Education Combined department or the G6200, Other Educational Services department.

Organizational Development Workload Volumes
Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non-hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Computer-based Training Completions

Enter the total number of segments/sessions completed which required interaction via computer during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks)

This is a component of Total Course Completions.

Computer-based Training Offerings

Enter the total number of training segments/sessions offered or requiring interaction via computer. A segment/session is defined as at least 15-minutes in length. If 2 or more sessions are required to disseminate and complete the course information, you would count each session.

This is a component of Total Course Offerings.

Course Development Hours

Enter the total hours spent by department staff in creating course material during the reporting period. This would include both on-line and live classroom courses either via video or in person. Include time spent on research, document creation and cross-training of department staff of the new material.

Course Segments Completed

Enter the total number of course segments completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count each of the sessions individually. The course segments may be taken online or in a classroom environment and each segment completed would be counted regardless of delivery method.

Inhouse Developed Courses

Total number of courses developed by staff in this department during the reporting period.
**Instructional Hours: Non-staff/Other**

Total hours of general/special skills and continuing education instruction provided to anyone other than employed staff (i.e. agency staff, medical students not employed by the hospital) by the staff in this department during the reporting period. Count all instructional hours provided by department educators or by outside sources coordinated by department educators. This is a cumulative count of instructional hours provided (fractions included) and is not affected by the number of participants in the class. For example, an instructor conducts a one hour class to 20 individuals and a one hour class to 10 individuals. This would equal two hours of Instructional Hours: Non-staff/Other. Only actual time spent conducting educational sessions should be included. Do not include curriculum/course development time or other "prep" time.

**Instructional Hours: Staff**

Total hours of general orientation, general/special skills, and continuing medical education instruction provided by department staff. Count all instruction provided to employees by department educators or by outside sources coordinated by department educators. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Employee. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

**Learner Hours: e-Learning/CBT**

Total hours of educational time received via e-Learning or computer-based courses. This is the number of students times the number of estimated course completion hours for each eLearning course taken.

**Learner Hours: Non-staff/Other**

Total hours of educational time provided to anyone not employed by the organization by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest ¼ hour if needed.

**Learner Hours: Staff**

Total hours of educational time provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

**New Hires Supported**

Total new employees hired by the facility and supported by the department.

**Number of Staff Trained**

Total number of individual employees which attended one or more hours of instruction provided by the department.
Online Course Development Hours

Enter the total hours spent by department staff in creating course material specifically for online and/or computer-based courses during the reporting period. This would include courses developed for delivery via video also. Include time spent on research, document/application creation and cross-training of department staff of the new material.

This is a subset of Course Development Hours.

Purchased Developed Courses

Total number of courses purchased from an outside developer paid by the department and is reflected in Other Direct Operating Expenses.

Total Classroom Sessions Delivered

Enter the total number of sessions offered in a classroom setting with a live instructor. A session would need to be at least 15 minutes in length to be counted. If 2 or more sessions are required to disseminate the course information, you would count each session.

Total Course Completions

Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

This is a component of Total Course Completions.

Total Course Offerings

Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

Organizational Development Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid by physicians/providers on the department's payroll who provide educational services.
This is a subset of Paid Hours: Staff.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Education Specialist and Trainer**

Hours worked by staff with a college degree or credentials in education, organizational development or related subjects.

This is a subset of Worked Hours: Staff.

**Worked Hours: LPN, LVN**

Hours worked by licensed practical nurses and/or licensed vocational nurses charged to the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Total hours worked by physicians/providers on the department payroll who provide educational services.
This is a subset of Worked Hours: Staff.

**Worked Hours: Professional Staff**

Total hours worked by professional staff with a college degree or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Hours worked by registered nurses charged to the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Organizational Development Expense Elements**

**Contract Service Expense**

Total expense for services provided by external/outside contractors (e.g., speaker fees, instructor fees, graphic design work, printing costs, etc).

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid for physicians and advanced practitioners who provide educational services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.
**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide educational services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as advance practitioners, and other advanced practitioners. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

**Organizational Development Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

Organizational Development Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Conferences and/or Educational events (clinical or leadership)
• Costs for promotional materials for Educational Services Series department sponsored events
• Lean Six Sigma program administration and support to be included in the 06235, Organization Development
• Organizational Development, e.g., coaching, culture development
• Talent management (the focus on an employee’s potential and future performance, if given the proper development of skills and increased responsibility, “career advancement”, “attract and retain”)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Continuing Medical Education (hours, expenses and workload of the educators/trainers)
• Educational technology and media services to be included in the 06240, Learning Technologies
• Employee Assistance (management and administration of the program)
• Performance Management, e.g., evaluating current employee performance within a specific job, mid-year, or annual reviews
• Strategic Planning and Facilitation, e.g., business development, portfolio management, strategic partnerships and alliances, strategic performance, development of overall organizational strategies, researching industry trends and forecasts
06240, Learning Technologies

This department is responsible for the implementation and maintenance of a learning management system (LMS) and the maintenance and storage of computer-based training (CBT) programs or courses.

Learning Technologies Mapping Guidelines

If your cost center performs less than 80% learning technologies activities, this department might not be an appropriate choice. Another option might include the G6200, Other Educational Services department.

Learning Technologies Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Computer-based Training Completions Supported

Enter the total number of segments/sessions completed which required interaction via computer that were supported by this department during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks)

This is a component of Total Course Completions.

Computer-based Training Offerings Supported

Enter the total number of training segments/sessions offered or requiring interaction via computer supported by this department for the reporting period. A segment/session is defined as at least 15-minutes in length. If two or more sessions are required to disseminate and complete the course information, you would count each session.

This is a component of Total Course Offerings.
Course Segments Completed Supported
Enter the total number of course segments completed during the reporting period which were supported by this department. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count each of the sessions individually. The course segments may be taken online or in a classroom environment and each segment completed would be counted regardless of delivery method.

Number of LMS Users Supported
Enter the total number of learning management system users supported by the department for the reporting period.

Total Course Completions Supported
Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

Total Course Offerings Supported
Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

Learning Technologies Department Hour Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Professional Staff

Total hours worked by professional staff with a college degree or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Learning Technologies Expense Elements

Contract Service Expense

Total expense for services provided by external/outside contractors (e.g., speaker fees, instructor fees, graphic design work, printing costs, etc).

This is a subset of Other Direct Operating Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.
This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide educational services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as advance practitioners, and other advanced practitioners. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

**Learning Technologies Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Staff

**Learning Technologies Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:
• Educational technology and media services to be included in the 06240, Learning Technologies

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Medical Library functions, e.g., Librarian

06250, Patient and Family Education

This department is responsible for patient education, including but not limited to: formal classroom training, patient education channels, educational needs assessment, program development and execution functions. Examples include, but are not limited to: childbirth classes, parenting classes, lactation classes, joint replacement education, cardiac (healthy heart) classes, diabetes education, and bariatric classes. Individual instruction/education for inpatients provided at the bedside remains on the unit.

Patient and Family Education Mapping Guidelines

If your cost center performs educational events outside the organization, this department might not be an appropriate choice. Another option might include the 06260, Community Education and Outreach Services department.

Patient and Family Education Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Computer-based Training Completions

Enter the total number of segments/sessions completed which required interaction via computer during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks)

This is a component of Total Course Completions.
Computer-based Training Offerings

Enter the total number of training segments/sessions offered or requiring interaction via computer. A segment/session is defined as at least 15-minutes in length. If 2 or more sessions are required to disseminate and complete the course information, you would count each session.

This is a component of Total Course Offerings.

Course Development Hours

Enter the total hours spent by department staff in creating course material during the reporting period. This would include both on-line and live classroom courses either via video or in person. Include time spent on research, document creation and cross-training of department staff of the new material.

Course Segments Completed

Enter the total number of course segments completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count each of the sessions individually. The course segments may be taken online or in a classroom environment and each segment completed would be counted regardless of delivery method.

Inhouse Developed Courses

Total number of courses developed by staff in this department during the reporting period.

Instructional Hours: Patient and Family

Total hours of instructional time delivered by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. For example, an course/event lasting two hours attended by 50 individuals equals two Instructional Hours. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

Learner Hours: e-Learning/CBT

Total hours of educational time received via e-Learning or computer-based courses. This is the number of students times the number of estimated course completion hours for each eLearning course taken.

Learner Hours: Patient and Family

Total hours of patient education provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest ¼ hour if needed.
Online Course Development Hours
Enter the total hours spent by department staff in creating course material specifically for online and/or computer-based courses during the reporting period. This would include courses developed for delivery via video also. Include time spent on research, document/application creation and cross-training of department staff of the new material.

This is a subset of Course Development Hours.

Patient Education Events
Total number of patient education events coordinated and delivered during the reporting period by the department.

Purchased Developed Courses
Total number of courses purchased from an outside developer paid by the department and is reflected in Other Direct Operating Expenses.

Total Classroom Sessions Delivered
Enter the total number of sessions offered in a classroom setting with a live instructor. A session would need to be at least 15 minutes in length to be counted. If 2 or more sessions are required to disseminate the course information, you would count each session.

Total Course Completions
Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

This is a component of Total Course Completions.

Total Course Offerings
Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

Total Encounters
Total number of educational encounters between department staff members and individual patients (not groups of patients).
Total Encounters: Inpatient
Total number of educational encounters between department staff members and individual inpatients (not groups of inpatients).
This is a subset of Total Encounters.

Patient and Family Education Department Hour Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider
Total hours paid by physicians/providers on the department’s payroll who provide educational services.
This is a subset of Paid Hours: Staff.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Education Specialist and Trainer
Hours worked by staff with a college degree or credentials in education, organizational development or related subjects.
This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN
Hours worked by licensed practical nurses and/or licensed vocational nurses charged to the department.
This is a subset of Worked Hours: Staff.

Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.
This is a subset of Worked Hours: Staff.
**Educational Services**

**Worked Hours: Other Support Staff**
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**
Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**
Total hours worked by physicians/providers on the department payroll who provide educational services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Professional Staff**
Total hours worked by professional staff with a college degree or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**
Hours worked by registered nurses charged to the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Patient and Family Education Expense Elements**

**Contract Service Expense**
Total expense for services provided by external/outside contractors (e.g., speaker fees, instructor fees, graphic design work, printing costs, etc).
This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid for physicians and advanced practitioners who provide educational services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.
**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide educational services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as advance practitioners, and other advanced practitioners. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

**Patient and Family Education Mandatory Elements**

The following data elements are mandatory for this department:

- Instructional Hours: Patient Education
- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

**Patient and Family Education Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Costs for promotional materials for Educational Services Series department sponsored events
- Diabetes education in a formal classroom setting
- Patient Education (formal classes for Prenatal Education including Lamaze and Lactation)
- Patient Education (formal classes like Asthma, Smoking Cessation, COPD Education)
- Patient education in a classroom setting
Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Community Education and/or Outreach Events, e.g., coordinates and delivers health fairs and health screening programs, speakers bureaus and presentations
- Diabetes education performed at the bedside, on the unit or one-one-one (must be billable)
- Educational technology and media services to be included in the 06240, Learning Technologies
- Employee Assistance (management and administration of the program)
- Employee formal facility wide training programs, e.g., fire safety, CPR, hand washing
- Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)
- Medical Library functions, e.g., Librarian
- Nutritional education performed at the patient's bedside
- Public Relations

**06260, Community Education and Outreach Services**

This department is responsible for community and consumer education. This department coordinates and delivers health fairs and health screening programs, coordinates speakers bureaus and presentations, and coordinates and delivers community outreach/educational programs for all segments of the facility service population.

**Community Education and Outreach Services Mapping Guidelines**

If your cost center performs educational events targeted to existing patients, this department might not be an appropriate choice. Another option might include the 06250, Patient and Family Education department.
Community Education and Outreach Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non-hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Community Education Events

Total number of community education events coordinated by department staff during the reporting period. Concurrent classes are counted as one, so a seminar with three events/classes running concurrently would count as one workload unit. Events must be at least 15 minutes long to be counted, but there is no upper limit on the length of a single event. An all-day event, regardless of breaks in the schedule, counts as a single unit. In the case of health fairs, the entire health fair counts as a single workload unit, regardless of the number of individual events or services involved.

This is a subset of Total Community and Outreach Events

Computer-based Training Completions

Enter the total number of segments/sessions completed which required interaction via computer during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks)

This is a component of Total Course Completions.

Computer-based Training Offerings

Enter the total number of training segments/sessions offered or requiring interaction via computer. A segment/session is defined as at least 15-minutes in length. If 2 or more sessions are required to disseminate and complete the course information, you would count each session.

This is a component of Total Course Offerings.

Course Development Hours

Enter the total hours spent by department staff in creating course material during the reporting period. This would include both on-line and live classroom courses either via video or in person. Include time spent on research, document creation and cross-training of department staff of the new material.
Course Segments Completed

Enter the total number of course segments completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count each of the sessions individually. The course segments may be taken online or in a classroom environment and each segment completed would be counted regardless of delivery method.

Inhouse Developed Courses

Total number of courses developed by staff in this department during the reporting period.

Instructional Hours: Comm Ed and Outreach Services

Total hours of instructional time delivered by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. For example, an course/event lasting two hours attended by 50 individuals equals two Instructional Hours. Total hours of instructional time delivered by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. Include employee education, patient education, community education, and outreach services. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

Instructional Hours: Community Education

Total hours of instructional time delivered by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. For example, an course/event lasting two hours attended by 50 individuals equals two Instructional Hours.

This is a subset of Instructional Hours.

Instructional Hours: Outreach Services

Total hours of outreach education provided by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. For example, an course/event lasting two hours attended by 50 individuals equals two Instructional Hours.

This is a subset of Instructional Hours.

Learner Hours: Comm Ed and Outreach Services

Total hours of education provided by the department staff. Example: if a one hour class is given to a group of 25 people, it would result in 25 Education Hours provided. A three hour course taught to a group of 25 people would result in 75 Education Hours provided. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

September 2019

IBM ActionOI®

CPT is a registered trademark of the American Medical Association. All rights reserved.
Learner Hours: Community Education

Total hours of community education provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

This is a subset of Learner Hours: Comm Ed/Outreach Services

Learner Hours: Outreach Services

Total hours of outreach education provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

This is a subset of Learner Hours: Comm Ed/Outreach Services

Outreach Services Events

Total number of outreach services events coordinated by department staff during the reporting period.

This is a subset of Total Community and Outreach Events

Purchased Developed Courses

Total number of courses purchased from an outside developer paid by the department and is reflected in Other Direct Operating Expenses.

Speaker Bureau Events

Total number of speaker bureau events coordinated by department staff during the reporting period.

This is a subset of Total Community and Outreach Events

Total Classroom Sessions Delivered

Enter the total number of sessions offered in a classroom setting with a live instructor. A session would need to be at least 15 minutes in length to be counted. If 2 or more sessions are required to disseminate the course information, you would count each session.

Total Community and Outreach Events

Total number of community education and outreach services events coordinated and delivered during the reporting period by the department.
Total Course Completions

Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

This is a component of Total Course Completions.

Total Course Offerings

Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

Total Encounters

Total number of educational encounters between department staff members and individual patients (not groups of patients).

Community Education and Outreach Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid by physicians/providers on the department's payroll who provide educational services.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Education Specialist and Trainer

Hours worked by staff with a college degree or credentials in education, organizational development or related subjects.

This is a subset of Worked Hours: Staff.
Worked Hours: LPN, LVN

Hours worked by licensed practical nurses and/or licensed vocational nurses charged to the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Total hours worked by physicians/providers on the department payroll who provide educational services.

This is a subset of Worked Hours: Staff.

Worked Hours: Professional Staff

Total hours worked by professional staff with a college degree or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Hours worked by registered nurses charged to the department.
This is a subset of Worked Hours: Staff.

Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Community Education and Outreach Expense Elements

Contract Service Expense
Total expense for services provided by external/outside contractors (e.g., speaker fees, instructor fees, graphic design work, printing costs, etc).

This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid for physicians and advanced practitioners who provide educational services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense
Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense
Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.
Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide educational services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as advance practitioners, and other advanced practitioners. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

Community Education and Outreach Services Mandatory Elements

The following data elements are mandatory for this department:

- Instructional Hours: Comm Ed and Outreach Services
- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff
Community Education and Outreach Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Community Education and/or Outreach Events, e.g., coordinates and delivers health fairs and health screening programs, speakers bureaus and presentations
- Costs for promotional materials for Educational Services Series department sponsored events

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Educational technology and media services to be included in the 06240, Learning Technologies
- Employee Assistance (management and administration of the program)
- Employee formal facility wide training programs, e.g., fire safety, CPR, hand washing
- Medical Library functions, e.g., Librarian
- Nutritional education performed at the patient's bedside
- Patient education in a classroom setting
- Public Relations

F6200, Educational Services Functional Rollup

This department includes all staff (clinical, physician, and non-clinical) education, Organizational Development, Learning Technologies, Patient and Family education, and community education/outreach services functions regardless of reporting relationship.

Educational Services Functional Rollup Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
Community Education Events

Total number of community education events coordinated by department staff during the reporting period. Concurrent classes are counted as one, so a seminar with three events/classes running concurrently would count as one workload unit. Events must be at least 15 minutes long to be counted, but there is no upper limit on the length of a single event. An all-day event, regardless of breaks in the schedule, counts as a single unit. In the case of health fairs, the entire health fair counts as a single workload unit, regardless of the number of individual events or services involved.

This is a subset of Total Community and Outreach Events

Computer-based Training Completions

Enter the total number of segments/sessions completed which required interaction via computer during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks)

This is a component of Total Course Completions.

Computer-based Training Offerings

Enter the total number of training segments/sessions offered or requiring interaction via computer. A segment/session is defined as at least 15-minutes in length. If 2 or more sessions are required to disseminate and complete the course information, you would count each session.

This is a component of Total Course Offerings.

Course Development Hours

Enter the total hours spent by department staff in creating course material during the reporting period. This would include both on-line and live classroom courses either via video or in person. Include time spent on research, document creation and cross-training of department staff of the new material.

Course Segments Completed

Enter the total number of course segments completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count each of the sessions individually. The course segments may be taken online or in a classroom environment and each segment completed would be counted regardless of delivery method.

Inhouse Developed Courses

Total number of courses developed by staff in this department during the reporting period.
**Instructional Hours: CME, CNE training**

Total hours of training provided to physicians and licensed nursing professional (MSN, RN, and LPN) where each person-hour is counted as one unit. Include courses for physician and professional nursing staff education held within the facility, including all forms of continuing medical education. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: CME, CNE training. Count each ¼ hour and round to the nearest ¼ hour for all course lengths.

This is a subset of Instructional Hours: Staff.

**Instructional Hours: Comm Ed and Outreach Services**

Total hours of instructional time delivered by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. For example, an event lasting two hours attended by 50 individuals equals two Instructional Hours.

**Instructional Hours: Non-staff/Other**

Total hours of general/special skills and continuing education instruction provided to anyone other than employed staff (i.e. agency staff, medical students not employed by the hospital) by the staff in this department during the reporting period. Count all instructional hours provided by department educators or by outside sources coordinated by department educators. This is a cumulative count of instructional hours provided (fractions included) and is not affected by the number of participants in the class. For example, an instructor conducts a one hour class to 20 individuals and a one hour class to 10 individuals. This would equal two hours of Instructional Hours: Non-staff/Other. Only actual time spent conducting educational sessions should be included. Do not include curriculum/course development time or other "prep" time.

**Instructional Hours: Orientation**

Total hours of general orientation provided by the department. For example, include discussions of time cards or time sheets, clocking in, employee benefits, or hospital wide work rules. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Orientation.

This is a subset of Instructional Hours: Staff.

**Instructional Hours: Patient and Family**

Total hours of instructional time delivered by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. For example, an event lasting two hours attended by 50 individuals equals two Instructional Hours. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.
**Instructional Hours: Staff**

Total hours of general orientation, general/special skills, and continuing medical education instruction provided by department staff. Count all instruction provided to employees by department educators or by outside sources coordinated by department educators. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Employee. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

This is a subset of Total Instructional Hours.

**Learner Hours: Comm Ed and Outreach Services**

Total hours of education provided by the department staff. Example: if a one hour class is given to a group of 25 people, it would result in 25 Education Hours provided. A three hour course taught to a group of 25 people would result in 75 Education Hours provided. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

**Learner Hours: e-Learning/CBT**

Total hours of educational time received via e-Learning or computer-based courses. This is the number of students times the number of estimated course completion hours for each eLearning course taken.

**Learner Hours: Non-staff/Other**

Total hours of educational time provided to anyone not employed by the organization by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest ¼ hour if needed.

**Learner Hours: Patient and Family**

Total hours of patient education provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest ¼ hour if needed.

This is a subset of Total Learner Hours.

**Learner Hours: Staff**

Total hours of educational time provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.
New Hires Supported

Total new employees hired by the facility and supported by the department.

New Hires Supported: Clinical

Total new nursing or other clinical employees hired by the facility and processed through the department.

This is a subset of New Hires Supported.

Number of Staff Trained

Total number of individual employees which attended one or more hours of instruction provided by the department.

Online Course Development Hours

Enter the total hours spent by department staff in creating course material specifically for online and/or computer-based courses during the reporting period. This would include courses developed for delivery via video also. Include time spent on research, document/application creation and cross-training of department staff of the new material.

This is a subset of Course Development Hours.

Outreach Services Events

Total number of outreach services events coordinated by department staff during the reporting period.

This is a subset of Total Community and Outreach Events

Patient Education Events

Total number of patient education events coordinated and delivered during the reporting period by the department.

Purchased Developed Courses

Total number of courses purchased from an outside developer paid by the department and is reflected in Other Direct Operating Expenses.

Speaker Bureau Events

Total number of speaker bureau events coordinated by department staff during the reporting period.

This is a subset of Total Community and Outreach Events
Total Classroom Sessions Delivered
Enter the total number of sessions offered in a classroom setting with a live instructor. A session would need to be at least 15 minutes in length to be counted. If 2 or more sessions are required to disseminate the course information, you would count each session.

Total Community and Outreach Events
Total number of community education and outreach services events coordinated and delivered during the reporting period by the department.

Total Course Completions
Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

This is a component of Total Course Completions.

Total Course Offerings
Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

Total Encounters
Total number of educational encounters between department staff members and individual patients (not groups of patients).

Total Encounters: Inpatient
Total number of educational encounters between department staff members and individual inpatients (not groups of inpatients).

This is a subset of Total Encounters.

Total Instructional Hours
Total hours of instructional time delivered by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. Include employee education, patient education, community education, and outreach services. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.
Total Learner Hours

Total hours of educational time delivered by the department staff. Include employee education, patient education, community education, and outreach services. For example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours.

Total Patient and Community Education Events

Total number of patient, community, and outreach educational events coordinated by department staff during the reporting period. Events must be at least 15 minutes long to be counted, but there is no upper limit on the length of a single event. An all-day event, regardless of breaks in the schedule, counts as a single unit.

Educational Services Functional Rollup Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid by physicians/providers on the department's payroll who provide educational services. This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Education Specialist and Trainer

Hours worked by staff with a college degree or credentials in education, organizational development or related subjects. This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurses and/or licensed vocational nurses charged to the department. This is a subset of Worked Hours: Staff.
Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime
Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider
Total hours worked by physicians/providers on the department payroll who provide educational services.

This is a subset of Worked Hours: Staff.

Worked Hours: Professional Staff
Total hours worked by professional staff with a college degree or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: RN
Hours worked by registered nurses charged to the department.

This is a subset of Worked Hours: Staff.
Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Educational Services Functional Rollup Expense Elements

Contract Service Expense
Total expense for services provided by external/outside contractors (e.g., speaker fees, instructor fees, graphic design work, printing costs, etc).

This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid for physicians and advanced practitioners who provide educational services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense
Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense
Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.
Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide educational services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as advance practitioners, and other advanced practitioners. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Educational Services Functional Rollup Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Total Instructional Hours
• Worked Hours: Physician Provider
• Worked Hours: Staff

G6200, Other Educational Services

This generic department includes all cost centers belonging to Other Support Services that cannot be mapped to a specific other support services department.

Other Educational Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Community Education Events

Total number of community education events coordinated by department staff during the reporting period. Concurrent classes are counted as one, so a seminar with three events/classes running concurrently would count as one workload unit. Events must be at least 15 minutes long to be counted, but there is no upper limit on the length of a single event. An all-day event, regardless of breaks in the schedule, counts as a single unit. In the case of health fairs, the entire health fair counts as a single workload unit, regardless of the number of individual events or services involved.

This is a subset of Total Community and Outreach Events

Computer-based Training Completions

Enter the total number of segments/sessions completed which required interaction via computer during the reporting period. If you had 3 sessions per course and you had one of each session each week with 10 participants, you would count 1560. (3 sessions x 10 attendees x 52 wks)

This is a component of Total Course Completions.
Computer-based Training Offerings

Enter the total number of training segments/sessions offered or requiring interaction via computer. A segment/session is defined as at least 15-minutes in length. If 2 or more sessions are required to disseminate and complete the course information, you would count each session.

This is a component of Total Course Offerings.

Course Development Hours

Enter the total hours spent by department staff in creating course material during the reporting period. This would include both on-line and live classroom courses either via video or in person. Include time spent on research, document creation and cross-training of department staff of the new material.

Course Segments Completed

Enter the total number of course segments completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count each of the sessions individually. The course segments may be taken online or in a classroom environment and each segment completed would be counted regardless of delivery method.

Inhouse Developed Courses

Total number of courses developed by staff in this department during the reporting period.

Instructional Hours: CME, CNE training

Total hours of training provided to physicians and licensed nursing professional (MSN, RN, and LPN) where each person-hour is counted as one unit. Include courses for physician and professional nursing staff education held within the facility, including all forms of continuing medical education. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: CME, CNE training. Count each ¼ hour and round to the nearest ¼ hour for all course lengths.

This is a subset of Instructional Hours: Staff.

Instructional Hours: Comm Ed and Outreach Services

Total hours of instructional time delivered by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. For example, an course/event lasting two hours attended by 50 individuals equals two Instructional Hours.
Instructional Hours: Non-staff/Other

Total hours of general/special skills and continuing education instruction provided to anyone other than employed staff (i.e. agency staff, medical students not employed by the hospital) by the staff in this department during the reporting period. Count all instructional hours provided by department educators or by outside sources coordinated by department educators. This is a cumulative count of instructional hours provided (fractions included) and is not affected by the number of participants in the class. For example, an instructor conducts a one hour class to 20 individuals and a one hour class to 10 individuals. This would equal two hours of Instructional Hours: Non-staff/Other. Only actual time spent conducting educational sessions should be included. Do not include curriculum/course development time or other "prep" time.

Instructional Hours: Orientation

Total hours of general orientation provided by the department. For example, include discussions of time cards or time sheets, clocking in, employee benefits, or hospital wide work rules. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Orientation.

This is a subset of Instructional Hours: Staff.

Instructional Hours: Patient and Family

Total hours of instructional time delivered by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. For example, an course/event lasting two hours attended by 50 individuals equals two Instructional Hours. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

Learner Hours: Comm Ed and Outreach Services

Total hours of education provided by the department staff. Example: if a one hour class is given to a group of 25 people, it would result in 25 Education Hours provided. A three hour course taught to a group of 25 people would result in 75 Education Hours provided. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

Learner Hours: e-Learning/CBT

Total hours of educational time received via e-Learning or computer-based courses. This is the number of students times the number of estimated course completion hours for each eLearning course taken.

Learner Hours: Non-staff/Other

Total hours of educational time provided to anyone not employed by the organization by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest ¼ hour if needed.
Learner Hours: Patient and Family

Total hours of patient education provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest ¼ hour if needed.

This is a subset of Total Learner Hours.

Learner Hours: Staff

Total hours of educational time provided by the department staff. Example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours. Count only attendees that were present for the entire course. Round to the nearest quarter hour if needed.

New Hires Supported

Total new employees hired by the facility and supported by the department.

New Hires Supported: Clinical

Total new nursing or other clinical employees hired by the facility and processed through the department.

This is a subset of New Hires Supported.

Number of Staff Trained

Total number of individual employees which attended one or more hours of instruction provided by the department.

Online Course Development Hours

Enter the total hours spent by department staff in creating course material specifically for online and/or computer-based courses during the reporting period. This would include courses developed for delivery via video also. Include time spent on research, document/application creation and cross-training of department staff of the new material.

This is a subset of Course Development Hours.

Outreach Services Events

Total number of outreach services events coordinated by department staff during the reporting period.

This is a subset of Total Community and Outreach Events
Patient Education Events
Total number of patient education events coordinated and delivered during the reporting period by the department.

Purchased Developed Courses
Total number of courses purchased from an outside developer paid by the department and is reflected in Other Direct Operating Expenses.

Speaker Bureau Events
Total number of speaker bureau events coordinated by department staff during the reporting period.

This is a subset of Total Community and Outreach Events

Total Classroom Sessions Delivered
Enter the total number of sessions offered in a classroom setting with a live instructor. A session would need to be at least 15 minutes in length to be counted. If 2 or more sessions are required to disseminate the course information, you would count each session.

Total Community and Outreach Events
Total number of community education and outreach services events coordinated and delivered during the reporting period by the department.

Total Course Completions
Enter the total number of courses completed during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

This is a component of Total Course Completions.

Total Course Offerings
Enter the total number of courses offered during the reporting period. A course is geared toward a specific subject and if 2 or more sessions are required to disseminate the information outlined in the course description, count the group of sessions as one course. The course may be taken online or in a classroom environment but would still be counted as a single course regardless of delivery method.

Total Encounters
Total number of educational encounters between department staff members and individual patients (not groups of patients).
**Total Encounters: Inpatient**

Total number of educational encounters between department staff members and individual inpatients (not groups of inpatients).

This is a subset of Total Encounters.

**Total Instructional Hours**

Total hours of instructional time delivered by the department staff. This is a product of the number of classes/events multiplied by the length of the class/events in hours, regardless of the number of attendees. Include employee education, patient education, community education, and outreach services. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

**Total Learner Hours**

Total hours of educational time delivered by the department staff. Include employee education, patient education, community education, and outreach services. For example: A one hour course/event is given to a group of 25 people would result in 25 Learner Hours. A three hour course/event taught to a group of 25 people would result in 75 Learner Hours.

**Total Patient and Community Education Events**

Total number of patient, community, and outreach educational events coordinated by department staff during the reporting period. Events must be at least 15 minutes long to be counted, but there is no upper limit on the length of a single event. An all-day event, regardless of breaks in the schedule, counts as a single unit.

**Other Educational Services Department Hour Elements**

**Instructional Hours: Staff**

Total hours of general orientation, general/special skills, and continuing medical education instruction provided by department staff. Count all instruction provided to employees by department educators or by outside sources coordinated by department educators. This is a cumulative count of instruction hours provided (fractions included) and is not affected by the number of participants in the class. For example, a one hour class to 20 employees and a one hour class to 10 employees would equal two hours towards Instructional Hours: Employee. Only actual time spent conducting education sessions should be included. Do not include curriculum development or other "prep" time to Instructional Hours.

This is a subset of Total Instructional Hours.

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
Paid Hours: Physician Provider

Total hours paid by physicians/providers on the department's payroll who provide educational services.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Education Specialist and Trainer

Hours worked by staff with a college degree or credentials in education, organizational development or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurses and/or licensed vocational nurses charged to the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.
Worked Hours: Physician Provider
Total hours worked by physicians/providers on the department payroll who provide educational services.

This is a subset of Worked Hours: Staff.

Worked Hours: Professional Staff
Total hours worked by professional staff with a college degree or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: RN
Hours worked by registered nurses charged to the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Other Educational Services Expense Elements

Contract Service Expense
Total expense for services provided by external/outside contractors (e.g., speaker fees, instructor fees, graphic design work, printing costs, etc).

This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid for physicians and advanced practitioners who provide educational services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).
This is a subset of Labor Expense.

**Medical Supply Expense**
Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**
Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**
Total contract expense for physicians/providers and physician groups which provide educational services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as advance practitioners, and other advanced practitioners. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

**Other Educational Services Mandatory Elements**
The following data elements are mandatory for this department:

- Labor Expense
• Labor Expense: Physician Provider
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Total Instructional Hours
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Other Educational Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Clinical Staff Educators formal classroom training time
• Community Education and/or Outreach Events, e.g., coordinates and delivers health fairs and health screening programs, speakers bureaus and presentations
• Costs for promotional materials for Educational Services Series department sponsored events
• Employee formal facility wide training programs, e.g., fire safety, CPR, hand washing
• Didactic Teaching for phlebotomy (Providing Collection Manager (PDA's and Printers and training) for nursing services doing arterial line draws)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)
• Public Relations
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
• Staff who perform new employee/ new hire orientation specific to HR-related activities, e.g., institutional policies and procedures, W-2 forms, benefits
• Student interns/trainees
Chapter 12. Emergency Services

For an annotated list of Characteristic Questions for this series, please see the ActionOI support page.

This chapter includes the following sections:

- 02010, Emergency Department 521
- 02020, Urgent Care Center Hospital Based 535
- 02021, Urgent Care Center Non Hospital Based 543
- 02030, Air Transport Service - Helicopter and Fixed Wing Aircraft 551
- 02040, Ground Ambulance Service 559
- 02099, Emergency Services Administration 566
- G2000, Other Emergency Care and Emergency Transport Services 572

02010, Emergency Department

This department provides triage, treatment and support for trauma and emergency patients of all ages in an acute care setting. If the department is designated as a trauma site, the hours and expenses related to triage and treatment of trauma patients is included, however, the hours and expenses related to the administration and support of the Trauma program and its services (i.e. Trauma registry, trauma coordinators) would not be included here. Urgent care centers and fast track areas should not be reported as an Emergency Department if they occupy a distinct, separate space and staff from the Emergency Department.

Emergency Department Mapping Guidelines

If this department does not meet the criteria described in the department definition, this department may not be an appropriate choice. Another option might be the G2000, Other Emergency Care and Emergency Transport Services department. If this department is primarily responsible for the administration and support of the trauma program, 02099 Emergency Services Administration may be another option.
Emergency Department Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Length of Stay: Emergency Department to Admission

The average time (in hours) patients are present in the department and are receiving treatment and care from department staff until admission. Include in the average, the time the patient arrives in the Emergency Department (i.e., sign in) to the time the patient leaves the department for admission/transfer to another unit or department.

This is a subset of ED Average Length of Stay.

Average Length of Stay: Emergency Department to Discharged

The average time (in hours) patients are present in the department and are receiving treatment and care from department staff until discharge. Include in the average, the time the patient arrives in the Emergency Department (i.e., sign in) to the time the patient leaves the department. "Leaving" the department includes: discharges (including deaths), transfers to another facility, and walk outs/left without being seen.

This is a subset of ED Average Length of Stay.

Boarder Hours

The total time (in hours) for Emergency Room patients who have been identified for inpatient admission but still reside in the Emergency Department. The time starts with a status change to inpatient (admit decision time via Physician order) and ends with the time of departure from the emergency department. If an ER patient is hospitalized under Observation status but are waiting to move to another unit, count in Boarder Hours since the ED physician made the decision to admit to Observation.

Boarder Hours: Behavioral Health

The total time (in hours) for Behavioral Health Emergency Room patients who have been identified for inpatient admission but still reside in the Emergency Department. The time starts with a status change to inpatient (admit decision time via Physician order) and ends with the time of departure from the emergency department. If a Behavioral Health ER patient is "hospitalized under Observation status" but are waiting to move to another unit, count in Boarder Hours since the ED physician made the decision to "admit to Observation."

This is a subset of Boarder Hours.
Boarder Patients: Behavioral Health

The total number of Behavioral Health Emergency Room patients who have been identified for inpatient admission (medically cleared) but still reside in the Emergency Department (head count).

Critical Care Admissions

Total number of patients admitted to a critical care or intermediate (step-down) unit after emergency care has been provided by the department.

This is a subset of Patient Admissions.

Diversion Hours

The total time (in hours) the department was on diversion status during the reporting period. Diversion is when patients are sent or referred to another facility or location for treatment. Typically, diversion occurs when there are not enough beds or staff available in the emergency room or the hospital itself to adequately care for patients. Diversion may be a result of a high number of Emergency Department visits or due to the complexity of current Emergency Department cases. If you do not divert, please enter a zero.

ED Average Length of Stay

The average time (in hours) patients are present in the emergency department and are receiving treatment and care from department staff. Include the time from arrival to the Emergency Department (i.e., sign in) to the time the patient leaves (physical departure) the department. "Leaving" the department includes: transfers/admission to an inpatient or observation unit, discharges (including deaths), transfers to another facility, and walk outs/leave without being seen. Include boarder patient hours (patients who have been admitted but are housed in the department and are being cared for by department staff while waiting for a bed) when calculating the average length of stay. "Average" is the arithmetic mean obtained by adding several quantities together and dividing the sum by the number of quantities (or the sum of all the time spent in the department divided by the total number of patients).

ED Patient Registrations

The total patient registrations resulting in a separate patient account number. Exclude normal newborns. This includes all inpatient and outpatient registrations during the reporting period. Each registration creates a separate patient account number or equivalent identifier ultimately used by patient accounting to produce patient bills. Outpatient registrations may be either for one time use or long term use (i.e., serial). Outpatient serial registrations count as one registration, regardless of the number of times the patient returns for subsequent treatments/visits. The facility may have the patient stop by on subsequent visits to update financial information or just to review registration data for accuracy, but this does not affect the count if a new registration is not created. "Walkouts" or patients who left without being seen (after registration/triage but before being evaluated or treated by a physician or nurse practitioner/physician's assistant) are included in the registration count. Include only registrations done by ED staff; this specifically excludes registrations by personnel who report through a centralized admission/registration department. Do not include registrations for lab specimens (where only the specimens come to the hospital and not the patient) in this count. Each pre-registration or each "quick registration" that creates a patient encounter should be counted as an individual registration.
ED Visits: Emergency Severity Index - Level 1

Report the number of ED visits with an Emergency Severity Index Level 1 as defined by the Agency for Healthcare Research and Quality (AHRQ) version 4, 2012 edition. Patients assigned to ESI Level 1 are critically ill and require immediate physician evaluation and life saving intervention. Immediate physician involvement in the care of the patient is a key difference between ESI level-1 and ESI level-2 patients.

This is a component of Patient Visits.

ED Visits: Emergency Severity Index - Level 2

Report the number of ED visits with an Emergency Severity Index Level 2 as defined by the Agency for Healthcare Research and Quality (AHRQ) version 4, 2012 edition. Patients assigned to ESI Level 2 do not meet the criteria for ESI level 1 but are unstable and should not wait to be seen. When the patient is an ESI level 2, the triage nurse has determined that it would be unsafe for the patient to remain in the waiting room for any length of time. While ESI does not suggest specific time intervals, ESI level-2 patients remain a high priority, and generally placement and treatment should be initiated rapidly. ESI level-2 patients are very ill and at high risk. The need for care is immediate and an appropriate bed needs to be found.

This is a component of Patient Visits.

ED Visits: Emergency Severity Index - Level 3

ESI level-3 patients are determined not to be high risk or require immediate life saving measures but predicted to require two or more resources.

This is a component of Patient Visits.

ED Visits: Emergency Severity Index - Level 4

ESI level-4 patients are determined not to be high risk or require immediate life saving measures and are predicted to require one resource.

This is a component of Patient Visits.

ED Visits: Emergency Severity Index - Level 5

ESI level-5 patients are determined not to be high risk or require immediate life saving measures and are predicted to require no resources.

This is a component of Patient Visits.
Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Emergency Department Median Length of Stay

The median length of time (in hours) patients are present in the emergency department and are receiving treatment and care from department staff. Include the time from arrival to the Emergency Department (i.e., sign in) to the time the patient leaves the department. "Leaving" (physical departure from) the department includes: transfers/admission to an inpatient or observation unit, discharges (including deaths), transfers to another facility, and walk outs/leaf without being seen. Include boarder patient hours (patients who have been admitted but are housed in the department and are being cared for by department staff while waiting for a bed) when calculating the median length of stay. "Median" is the value that is in the middle of a series of values arranged from smallest to largest; denoting or relating to a value or quantity lying at the midpoint of a frequency distribution of observed values or quantities, such that there is an equal probability of falling above or below it.

Emergency Department Median Length of Stay: Present to Admission

The median length of time (in hours) patients are present in the department and are receiving treatment and care from department staff until admission. Include in the median the time the patient arrives in the Emergency Department (i.e., presents or sign in) to the time the patient leaves the department for admission/transfer to another unit or department.

Emergency Department Median Length of Stay: Present to Discharge

The median length of time (in hours) patients are present in the department and are receiving treatment and care from department staff until discharge. Include in the median the time the patient arrives in the Emergency Department (i.e., sign in) to the time the patient leaves the department. "Leaving" (physical departure from) the department includes: discharges (including deaths), transfers to another facility, and walk outs/left without being seen.

Emergency Department Visits: Behavioral Health

The number of behavioral health patients who visited the Emergency Department for treatment during the reporting period. This may include but is not limited to patients suffering from substance abuse and or mental health conditions. Behavioral Health must be the primary diagnosis to be counted. Examples include Drug and Alcohol withdrawal, dependence and psychoses as well as dementia, mood and personality disorders (tobacco dependency is excluded and patients receiving this diagnosis would not necessitate the psychiatric intensity of resources that the other mental health issues require).

This is a component of Patient Visits, therefore a patient may be counted here as well as in another category (i.e. Pediatric or Geriatric).
Emergency Department Visits: Geriatric

The number of geriatric patients who visited the Emergency Department for treatment during the reporting period. Geriatric patients are patients 65 years of age or greater.

This is a component of Patient Visits, therefore a patient may be counted here as well as in another category (i.e. Behavioral Health).

Emergency Department Visits: Major Trauma

The total visits for patients who required immediate treatment during the reporting period. Clinical signs and symptoms of major trauma patients may include, but are not limited to, unstable vital signs, multi-system injury caused by a blunt or penetrating trauma, and/or severe burns (greater than 15%). Major trauma is not synonymous with ‘emergent’ but is a count of trauma cases requiring immediate medical attention. May also be known as E-M Level 5 and Critical Care (Emergent) visits. Typically, these patient visits would result in admission to an inpatient setting and be coded to a diagnosis that maps to a MS-DRG within MDC 22 (Burns) or MDC 24 (Multiple Significant Trauma).

This is a subset of Emergency Department Visits: Urgent.

Emergency Department Visits: Non Urgent

The total visits for patients who did not require immediate attention or treatment within 30 minutes of presenting to the Emergency Department during the reporting period. Usually, the presenting problem(s) are self limited/minor or are of low to moderate severity. May also be known as E-M Levels 1 and 2 (non-urgent). Typically, these patient visits would be billed using CPT codes 99281 and 99282.

This is a subset of Patient Visits.

Emergency Department Visits: Pediatric

The number of pediatric patients who visited the Emergency Department for treatment during the reporting period. Pediatric patients are patients under the age of 18.

This is a component of Patient Visits, therefore a patient may be counted here as well as in another category (i.e. Behavioral Health).

Emergency Department Visits: Urgent

The total visits for patients who require immediate attention or treatment within 30 minutes of presenting to the Emergency Department. Typically, these patient visits would be billed using CPT codes 99283, 99284, 99285, and 99291.

This is a subset of Patient Visits.
Licensed Nursing Staff

Total number of full-time and part-time nurses (RNs, LPNs, LVNs) who provide patient care. Include per diem nurses who have regularly scheduled units and schedules. Do not include float pool nurses.

Licensed Nursing Staff Additions

The total number of new hires or employee transfers into the department for Licensed Nursing staff (RNs, LPNs, LVNs) who provide patient care during the reporting period. Additions are counted as of the first day worked. Include per diem nurses who have regularly scheduled units and schedules. Therefore, an employee addition is credited to the reporting period of the first day worked, even if the new hire, or employee transfer, was submitted and/or approved in the period prior.

Licensed Nursing Staff Separations

Total number of voluntary uncontrolled separations during the reporting period. This includes full-time and part-time RNs, LPNs, and LVNs who provide patient care during the reporting period. Separations are counted as of the last day worked. Therefore, an employee separation is credited to the reporting period of the last day worked, even if the resignation was submitted in the prior period.

Nurse Direct Care Hours Worked

The total number of hours worked by nursing staff (RNs, LVN/LPNs, and UAPs) that had direct patient care responsibilities for greater than 50% of their shift. Include nursing staff employed directly by the facility and contract/agency staff. UAPs are Unlicensed Assistive Personnel, also known as Nurse Assistants, Nurse Techs, or Nurse Aides. This value should be consistent with the value reported to NDNQI (National Database of Nursing Quality Indicators). The value reported does not include sick time, vacation, leave, orientation, education, and committee time.

Outpatient Observation Hours

The total time spent (in hours) in the department for observation patients cared for by department staff. Examples include patients presenting with kidney stone, acute diabetic symptoms, chest pain, or sickle cell event. Please use HCPCS code G0378 (Observation services, per hour) when determining what to include in this element. Do not include border patients (patients who are admitted but housed in the department and cared for by department staff while waiting for a bed on an inpatient unit) or observation hours once an observation patient is moved to a dedicated observation/CDU that is being reported separately.

Outpatient Observation Visits

The total number of observation patients cared for by department staff as outpatients for observation, reported as a head count, regardless of how long the patient stayed in the department. Do not include border patients (patients who are admitted but housed in the department and cared for by department staff while waiting for a bed on an inpatient unit). You may want to use the initial HCPCS code G0378 (Observation services, per hour) when determining what to include in this element.
Patient Admissions

Total patients initially seen in the department, who after being assessed, treated, and stabilized, were admitted as inpatients to the facility.

Patient Treatment Spaces

The total discrete spaces designed and equipped for patients in active treatment. These may be individual treatment rooms or partitioned areas in an open bay concept. Do not include waiting areas, hallways, and/or office space, even if patients are treated there in overflow situations.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or follow up visits for continuing treatment of the same malady or complaint, employee or occupational health, Workers’ Compensation, and referred outpatient visits. A patient visit is counted when the patient is treated and admitted to the hospital, transferred to another facility, or discharged from this area. A patient visit should be counted for patients who leave against medical advice after beginning treatment but not for those "Walkouts" who leave without being seen (after registration/triage but before being evaluated or treated by a physician or nurse practitioner). If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Sitter Hours

The total number of hours worked by staff functioning as patient sitters providing direct observation of patients for the purpose of providing a safer environment for the patient. Exclude security officers called in to department to assist with situations where safety of patients and staff are compromised.

Total LOS: Decision to Disposition

The total length of time (in minutes) from when a licensed independent practitioner (LIP) makes a decision to admit or discharge a patient to when the time that disposition occurs. The disposition can be admitting the patient, discharging the patient or moving the patient to an observation unit.

Total LOS: Physician to Decision

The total length of time (in minutes) from when a patient is seen by licensed independent practitioner (LIP) to the time a decision is made to admit or discharge.

Total LOS: Present to Seen by Physician

The total length of time (in minutes) patients are present in the department until they are seen by a licensed independent practitioner (LIP). This is also known as ER Wait Time.
Transfers to Observation

Total patients initially seen in the department who after being assessed, treated, and stabilized, were transferred out of the department for observation without being admitted to the area of transfer. These patients should not be counted in the Patient Admissions total.

Walkouts

The total number of patients who leave the Urgent Care Center without being seen by a physician, physician assistant or nurse practitioner. Typically these patients are triaged and registered but leave before treatment begins. Do not include patients who leave AMA (Against Medical Advice).

Emergency Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Behavioral Health Specialist

Total hours worked by behavioral health specialist (associates, therapists) that assist with the assessment, management and treatment of patients with mental, emotional or psychosocial disorders.

This is a subset of Worked Hours: Staff.
**Worked Hours: Emergency Department Technician**

Total hours worked by Emergency Department Technicians providing patient care services in this department. ED Technicians provide services that may be alternately provided by RN and/or LPN, LVN staff. An ED Technician may be certified as an Emergency Medical Technician, but the services provided are distinctly different than those provided by an EMT.

This is a subset of Worked Hours: Staff.

**Worked Hours: Emergency Medical Technician**

Total hours worked by certified Emergency Medical Technicians (EMTs) in the Emergency Department separate and distinct from services provided by ED Technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: LPN, LVN**

Hours worked by LPN and or LVNs (Licensed Practical Nurses or Licensed Vocational Nurses) providing patient care services in the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health and or psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

---

**Worked Hours: Paramedics**

Total hours worked by certified Paramedics in the Emergency Department.

This is a subset of Worked Hours: Staff.

---

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

---

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

---

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

---

**Emergency Department Expense Elements**

**Drug Expense**

Total department pharmaceutical expense.

This is a subset of Medical Supply Expense.
**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g., office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Emergency Department Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Treatment Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Walkouts
• Worked Hours: Physician Provider

• Worked Hours: Staff

**Emergency Department Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Emergency Department room cleaning between patients (e.g. replacing EKG pads, replacing paper on exam tables, etc.)

• Personnel performing the functions of the department's day to day managerial operations (Emergency Services)

• Patient Sitters who physically 'sit' in the patients' room (do not include staff who watches video monitors in lieu of physically sitting in the patient's room)

• Personnel performing the functions of the department's day to day managerial operations (Emergency Services)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach services, (Emergency Services)

• Ambulance service

• Audit of coding for patient charges/billing

• Case Management (manages patient care while the patient is undergoing treatment)

• Daily or terminal cleaning and wall washing for ancillary patient procedure areas

• Dispatch services associated with Ground Transport

• Emergency Room Registrations

• Helicopter service

• Medical records coding (e.g. the use of medical charts and documentation from health care professionals to generate billing codes to be invoiced to patients and insurance companies)

• Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Emergency Department)
- Patient billing - the processing of patient claims for reimbursement, submission of claims to payer. This does not include charge capture.

- Phlebotomy, e.g., the puncturing of a vein for collecting blood specimens which are sent to the laboratory for analysis and testing. Does not include line draws.

- Repair and Maintenance of Clinical Equipment/Rooms

- Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

- Security Functions, e.g., visitor control, non-patient escorts, education, investigations of workplace violence interventions. Do not move personnel functioning as a sitter or 1:1 observation; it stays in the department where the patient is located

- Social Workers

- Student nurses or externs (not providing direct patient care) assigned to the unit for clinical experience

- Transplant Program staff and activities (i.e. registry, accreditation/regulatory compliance, statistical reporting)

- Transport of patients not requiring clinical escort

- Trauma Program staff and activities (i.e. registry, accreditation/regulatory compliance, statistical reporting)

### 02020, Urgent Care Center Hospital Based

This department provides triage and treatment support for patients requiring urgent attention whose situation is not serious enough for treatment in the Emergency Department. Patients are rarely scheduled for visits; most patients arrive through the Emergency Department triage process. While typically located in the hospital, the Urgent Care Center occupies a distinct and separate space from the Emergency Department. Include fast track areas in this department only if they occupy a distinct and separate space and staff from the Emergency Department.

### Urgent Care Center Hospital Based Mapping Guidelines

If this department is not hospital-based or does not meet the criteria described in the department definition, this department may not be an appropriate choice. Another option might be the 02021, Urgent Care Center Non Hospital Based department.
Urgent Care Center Hospital Based Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Length of Stay: Urgent Care

The average time (in hours) from arrival in the Urgent Care Center (i.e., sign in) to the time the patient is transferred, discharged, or leaves the Urgent Care Center. Include all time from when the patient signs in to the time they depart from the department.

Days of Operation per Week

Total number of days the department is open for operation during the week.

The max number that can be reported is 7.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

Outpatient Observation Hours

The total time spent (in hours) in the department for observation patients cared for by department staff. Examples include patients presenting with kidney stone, acute diabetic symptoms, chest pain, or sickle cell event. Please use HCPCS code G0378 (Observation services, per hour) when determining what to include in this element. Do not include boarder patients (patients who are admitted but housed in the department and cared for by department staff while waiting for a bed on an inpatient unit) or observation hours once an observation patient is moved to a dedicated observation/CDU that is being reported separately.

Patient Admissions

Total patients initially seen in the department, who after being assessed, treated, and stabilized, were admitted as inpatients to the facility.
Patient Treatment Spaces

The total discrete spaces designed and equipped for patients in active treatment. These may be individual treatment rooms or partitioned areas in an open bay concept. Do not include waiting areas, hallways, and/or office space, even if patients are treated there in overflow situations.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or follow up visits for continuing treatment of the same malady or complaint, employee or occupational health, Workers' Compensation, and referred outpatient visits. A patient visit is counted when the patient is treated and admitted to the hospital, transferred to another facility, or discharged from this area. A patient visit should be counted for patients who leave against medical advice after beginning treatment but not for those “Walkouts” who leave without being seen (after registration/triage but before being evaluated or treated by a physician or nurse practitioner). If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Scheduled Visits

Total number of patients scheduled to be seen in advance of actual visit.

This is a subset of Patient Visits.

Total Procedures

The total number of procedures performed by a physician or mid level practitioner in the department. Count each CPT code charged through this department as one procedure.

Urgent Care Registrations

The total patient registrations resulting in a separate patient account number. Exclude normal newborns. This includes all inpatient and outpatient registrations during the reporting period. Each registration creates a separate patient account number or equivalent identifier ultimately used by patient accounting to produce patient bills. Outpatient registrations may be either for one time use or long term use (i.e., serial). Outpatient serial registrations count as one registration, regardless of the number of times the patient returns for subsequent treatments/visits. The facility may have the patient stop by on subsequent visits to update financial information or just to review registration data for accuracy, but this does not affect the count if a new registration is not created. “Walkouts” or patients who left without being seen (after registration/triage but before being evaluated or treated by a physician or nurse practitioner/physician's assistant) are included in the registration count. Include only registrations done by ED staff; this specifically excludes registrations by personnel who report through a centralized admission/registration department. Do not include registrations for lab specimens (where only the specimens come to the hospital and not the patient) in this count. Each pre-registration or each "quick registration" that creates a patient encounter should be counted as an individual registration.
Walk in Visits

Total number of patient walk in visits. These are patients that do not have an appointment scheduled in advance.

This is a subset of Patient Visits.

Walkouts

The total number of patients who leave the Urgent Care Center without being seen by a physician, physician assistant or nurse practitioner. Typically these patients are triaged and registered but leave before treatment begins. Do not include patients who leave AMA (Against Medical Advice).

Urgent Care Center Hospital Based Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Behavioral Health Specialist

Total hours worked by behavioral health specialist (associates, therapists) that assist with the assessment, management and treatment of patients with mental, emotional or psychosocial disorders.

This is a subset of Worked Hours: Staff.
**Worked Hours: Emergency Medical Technician**

Total hours worked by certified Emergency Medical Technicians (EMTs) in the Emergency Department separate and distinct from services provided by ED Technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: LPN, LVN**

Hours worked by LPN and or LVNs (Licensed Practical Nurses or Licensed Vocational Nurses) providing patient care services in the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health and or psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
**Worked Hours: Paramedics**

Total hours worked by certified Paramedics in the Emergency Department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Urgent Care Center Hospital Based Expense Elements**

**Drug Expense**

Total department pharmaceutical expense.

This is a subset of Medical Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g., office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.
This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Urgent Care Center Hospital Based Mandatory Elements**

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Treatment Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff
Urgent Care Center Hospital Based Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Personnel performing the functions of the department’s day to day managerial operations (Emergency Services)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach services, (Emergency Services)
- Ambulance service
- Audit of coding for patient charges/billing
- Case Management (manages patient care while the patient is undergoing treatment)
- Dispatch services associated with Ground Transport
- Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
- Patient billing - the processing of patient claims for reimbursement, submission of claims to payer. This does not include charge capture.
- Repair and Maintenance of Clinical Equipment/Rooms
- Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
- Security Functions, e.g., visitor control, non-patient escorts, education, investigations of workplace violence interventions. Do not move personnel functioning as a sitter or 1:1 observation; it stays in the department where the patient is located
- Social Workers
- Urgent Care Registrations- for hospital based Urgent Care departments

02021, Urgent Care Center Non Hospital Based

This department provides triage and treatment support for scheduled and walk-in patients requiring urgent attention. It is not located in the hospital.
Urgent Care Center Non Hospital Based Mapping Guidelines

If this department is hospital based or does not meet the criteria described in the department definition, this department may not be an appropriate choice. Another option might be the 02020, Urgent Care Center Hospital Based department.

Urgent Care Center Non Hospital Based Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Length of Stay: Urgent Care

The average time (in hours) from arrival in the Urgent Care Center (i.e., sign in) to the time the patient is transferred, discharged, or leaves the Urgent Care Center. Include all time from when the patient signs in to the time they depart from the department.

Days of Operation per Week

Total number of days the department is open for operation during the week.

The max number that can be reported is 7.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.
Patient Registrations

The total patient registrations resulting in a separate patient account number. Exclude normal newborns. This includes all inpatient and outpatient registrations during the reporting period. Each registration creates a separate patient account number or equivalent identifier ultimately used by patient accounting to produce patient bills. Outpatient registrations may be either for one time use or long term use (i.e., serial). Outpatient serial registrations count as one registration, regardless of the number of times the patient returns for subsequent treatments/visits. The facility may have the patient stop by on subsequent visits to update financial information or just to review registration data for accuracy, but this does not affect the count if a new registration is not created. “Walkouts” or patients who left without being seen (after registration/triage but before being evaluated or treated by a physician or nurse practitioner/physician's assistant) are included in the registration count. Include only registrations done by ED staff; this specifically excludes registrations by personnel who report through a centralized admission/registration department. Do not include registrations for lab specimens (where only the specimens come to the hospital and not the patient) in this count. Each pre-registration or each "quick registration" that creates a patient encounter should be counted as an individual registration.

Patient Treatment Spaces

The total discrete spaces designed and equipped for patients in active treatment. These may be individual treatment rooms or partitioned areas in an open bay concept. Do not include waiting areas, hallways, and/or office space, even if patients are treated there in overflow situations.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or follow up visits for continuing treatment of the same malady or complaint, employee or occupational health, Workers’ Compensation, and referred outpatient visits. A patient visit is counted when the patient is treated and admitted to the hospital, transferred to another facility, or discharged from this area. A patient visit should be counted for patients who leave against medical advice after beginning treatment but not for those “Walkouts” who leave without being seen (after registration/triage but before being evaluated or treated by a physician or nurse practitioner). If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Scheduled Visits

Total number of patients scheduled to be seen in advance of actual visit.

This is a subset of Patient Visits.

Total Procedures

The total number of procedures performed by a physician or mid level practitioner in the department. Count each CPT code charged through this department as one procedure.
Walk in Visits

Total number of patient walk in visits. These are patients that do not have an appointment scheduled in advance.

This is a subset of Patient Visits.

Walkouts

The total number of patients who leave the Urgent Care Center without being seen by a physician, physician assistant or nurse practitioner. Typically these patients are triaged and registered but leave before treatment begins. Do not include patients who leave AMA (Against Medical Advice).

Urgent Care Center Non Hospital Based Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Behavioral Health Specialist

Total hours worked by behavioral health specialist (associates, therapists) that assist with the assessment, management and treatment of patients with mental, emotional or psychosocial disorders.

This is a subset of Worked Hours: Staff.
**Worked Hours: Emergency Medical Technician**

Total hours worked by certified Emergency Medical Technicians (EMTs) in the Emergency Department separate and distinct from services provided by ED Technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: LPN, LVN**

Hours worked by LPN and or LVNs (Licensed Practical Nurses or Licensed Vocational Nurses) providing patient care services in the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e., Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g., nursing assistant, nursing technician, mental health and or psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non-physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
**Worked Hours: Paramedics**

Total hours worked by certified Paramedics in the Emergency Department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Urgent Care Center Non Hospital Based Expense Elements**

**Drug Expense**

Total department pharmaceutical expense.

This is a subset of Medical Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g., office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.
This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Urgent Care Center Non Hospital Based Mandatory Elements**

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Treatment Spaces
- Patient Visits
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff
Urgent Care Center Non Hospital Based Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Personnel performing the functions of the department's day to day managerial operations (Emergency Services)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach services, (Emergency Services)
- Ambulance service
- Audit of coding for patient charges/billing
- Case Management (manages patient care while the patient is undergoing treatment)
- Dispatch services associated with Ground Transport
- Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Emergency Department)
- Repair and Maintenance of Clinical Equipment/Rooms
- Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
- Security Functions, e.g., visitor control, non-patient escorts, education, investigations of workplace violence interventions. Do not move personnel functioning as a sitter or 1:1 observation; it stays in the department where the patient is located
- Social Workers

02030, Air Transport Service - Helicopter and Fixed Wing Aircraft

The Air Transport Service Helicopter and Fixed Wing Aircraft department provides in-transit care for trauma, critically ill, and injured patients via rotary wing aircraft (helicopters) and fixed wing aircraft.
Air Transport Service - Helicopter and Fixed Wing Aircraft Mapping Guidelines

If this is a contracted service and you are able to collect workload volumes, it is appropriate to map to this department. If this is a contracted service and you are not able to collect workload volumes or if your department does not meet the department definition, other mapping options might include the G2000, Other Emergency Care and Emergency Transport Services department, or the G6900, Other Services department.

Air Transport Service - Helicopter and Fixed Wing Aircraft Workload Volumes

Active Scene Transports

The total round trip flights taken to transport patients from the scene (in field location) of an accident or injury to a health care facility. Round trips are to be counted as 1 transport.

This is a component of Active Transports.

Active Transports

The total round trip flights to transport patients to a health care facility. Transport can be provided by the facility, commercial airlines, or the military. It may be local or long distance and can include transport for donated organs. Include flights made that were subsequently aborted, i.e., no patient was transported. Round trips are to be counted as 1 transport. Exclude training, testing, or other non-patient related flights.

Active Transports: Fixed Wing

The total round trip flights using a fixed wing aircraft to transport patients to a health care facility. Round trips are to be counted as 1 transport.

This is a subset of Active Transports.

Active Transports: Helicopter

The total round trip flights using a helicopter to transport patients to a health care facility. Round trips are to be counted as 1 transport.

This is a subset of Active Transports.

Flight Hours

The total hours of flight time logged in the flight manifest/record which supported active transports by the department.
**Flight Hours: Fixed Wing**

The total fixed wing flight hours in support of active transports logged in by the department in the flight record.

This is a subset of Flight Hours.

**Flight Hours: Helicopter**

The total helicopter flight hours in support of active transports logged in by the department in the flight record.

This is a subset of Flight Hours.

**Number of Aircraft Operated**

Total number of aircraft, fixed wing and rotary maintained and in operation.

**Number of Fixed Wing Aircraft**

Total number of fixed wing aircraft maintained and in operation.

This is a subset of Number of Aircraft Operated.

**Air Transport Service - Helicopter and Fixed Wing Aircraft Department Hour Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Physician Provider**

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.
Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Dispatcher

Total hours worked by Dispatchers for the reporting period.

Worked Hours: Emergency Medical Technician

Total hours worked by certified Emergency Medical Technicians (EMTs) in the Emergency Department separate and distinct from services provided by ED Technicians.

This is a subset of Worked Hours: Staff.

Worked Hours: Ground Crew

Total hours worked by flight ground crew personnel (mechanics, etc.).

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurse, licensed vocational nurses providing patient care services in the department.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Paramedics**

Total hours worked by certified Paramedics in the Emergency Department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: Pilot**

Total hours worked by pilots.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Air Transport Service - Helicopter and Fixed Wing Aircraft Expense Elements

Drug Expense
Total department pharmaceutical expense.

This is a subset of Medical Supply Expense.

Fixed Wing Contract Expense
Total expense for Fixed Wing services provided by outside contractors. Include all rental (lease) pilot, maintenance, supplies, parts, fuel, and miscellaneous expenses associated with the contract.

This is a subset of Helicopter And Fixed Wing Contract Expense.

Helicopter And Fixed Wing Contract Expense
The total expense for helicopter and fixed wing service contracts. Include all rental and lease costs for labor (pilot) and equipment, maintenance, supplies (i.e. fuel, parts), and miscellaneous expenses associated with the contracts.

This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.
Medical Supply Expense

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g., office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Air Transport Service - Helicopter and Fixed Wing Aircraft Mandatory Elements

The following data elements are mandatory for this department:

- Active Transports
- Labor Expense
- Labor Expense: Physician Provider
• Medical Supply Expense
• Non Medical Supply Expense
• Number of Aircraft Operated
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Air Transport Service - Helicopter and Fixed Wing Aircraft Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Helicopter and Fixed Wing Aircraft Dispatch Services
• Helicopter service
• Personnel performing the functions of the department’s day to day managerial operations (Emergency Services)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach services, (Emergency Services)
• Audit of coding for patient charges/billing
• Dispatch services associated with Ground Transport
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Emergency Department)
• Repair and Maintenance of Clinical Equipment/Rooms
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
• Transport of organs via air (fixed wing or helicopter) or ground ambulance

02040, Ground Ambulance Service

The Ground Ambulance Service department provides in-transit care and transport to and from the facility for acute patients via ground ambulance. This department may also include a communications center/dispatch service for 911 calls and intra-facility transports.

Ground Ambulance Service Mapping Guidelines

If this is a contracted service and you are able to collect workload volumes, it is appropriate to map to this department. If this is a contracted service and you are not able to collect workload volumes or if your department does not meet the department definition, other mapping options might include the G2000, Other Emergency Care and Emergency Transport Services department, or the G6900, Other Services department.

Ground Ambulance Service Workload Volumes

Canceled Trips

The total number of trips canceled during the reporting period.

This is a subset of Trips.

Emergency Scene Responses

The total number of emergency requests for ambulance response to a location/scene of an emergency. Include responses to another hospital or urgent care centers in this count.

Emergent/Urgent Responses

The total number of emergent/urgent responses to calls originating in a hospital, including your hospital, to bring a patient to another hospital for emergent/urgent care.

EMS Drop Offs

The total number of emergency medical service drop offs. This may include transporting a patient to another facility or residence.

Miles Logged

The total miles logged by department ambulances in support of specific requests. The miles may be obtained from vehicle trip or maintenance logs. If maintenance logs are used, be sure to prorate for beginning and end of year mileage readings.
Non-Emergency (Routine) Responses
The total number of non-emergency/routine responses to calls originating in a hospital, including your hospital, to bring a patient to another hospital for non-emergent/routine care.

Non-Emergency (Routine) Scene Responses
The total number of requests for ambulance response to a location/scene of a routine, non-emergency nature. For example, the response may be for dialysis patients or scheduled physician/office/hospital visits.

Non-Emergency, External Trips
The total number of non-emergency external trips made from one hospital, including your hospital, to any external location other than another hospital. This may include patients being discharged or transferred to a sub-acute setting, home, hospice or skilled nursing facility.

Number of Ambulances Operated
Total number of ambulances maintained and in operation.

Patient Transports Performed
The total number of one way patient transports performed by the ground ambulance staff. Transportation of a patient from one destination to another counts as a transport. For example, a patient is transported from one facility to a different facility. This counts as one transport. In another example, the ambulance leaves the base to transport a patient from the hospital to a long term care facility. From the long term care facility, the ambulance departs for an accident scene to pick up a victim, transporting them back to the hospital, and then returns to their base of operations. This counts as two transports.

Patients Transferred to Higher Level Facility
The total number of patients transferred out of the emergency department to another acute care facility to receive clinical care that is not available in your hospital. These may include patients who are transferred when resources that are usually available are not, such as when a CT or MRI are non operational. It may also include stroke, cardiac, trauma, OB, transplant patients, etc. for whom your facility does not have the services available to treat the patient.

Transport Requests Received
Total number of patient transport requests received, this is not limited to transports that have been completed by department staff.

Trips
The total two way trips (count both the departure and return to base of operations as one trip) made by department staff in response to specific requests. The trip may be to bring a victim to the hospital, to transfer a patient to another facility, or to take a victim to another facility.
Ground Ambulance Service Department Hour Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider
Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Dispatcher
Total hours worked by Dispatchers for the reporting period.

Worked Hours: Emergency Medical Technician
Total hours worked by certified Emergency Medical Technicians (EMTs) in the Emergency Department separate and distinct from services provided by ED Technicians.

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN
Hours worked by licensed practical nurse, licensed vocational nurses providing patient care services in the department.

Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.
This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Paramedics**

Total hours worked by certified Paramedics in the Emergency Department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.
Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Ground Ambulance Service Expense Elements

Contract Service Expense
Total expense for services (e.g., maintenance) provided by outside contractors.
This is a subset of Other Direct Operating Expense.

Drug Expense
Total department pharmaceutical expense.
This is a subset of Medical Supply Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).
This is a subset of Labor Expense.

Medical Supply Expense
Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.
This is a subset of Other Direct Operating Expense.
Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g., office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Ground Ambulance Service Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Non Medical Supply Expense
- Number of Ambulances Operated
- Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Patient Transports Performed
• Physician Provider Professional Fee Expense
• Trips
• Worked Hours: Physician Provider
• Worked Hours: Staff

Ground Ambulance Service Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Ambulance service
• Dispatch services associated with Ground Transport
• Personnel performing the functions of the department's day to day managerial operations (Emergency Services)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Audit of coding for patient charges/billing
• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach services, (Emergency Services)
• Helicopter and Fixed Wing Aircraft Dispatch Services
• Internal wheelchair or ambulatory patient transport
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Emergency Department)
• Repair and Maintenance of Clinical Equipment/Rooms
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
- Transport of organs via air (fixed wing or helicopter) or ground ambulance

02099, Emergency Services Administration

This department performs the overall administrative and general support tasks for the entire Emergency Services series departments. These tasks and functions include, but are not limited to: administrative and clerical support for the entire series; research and trauma program (responsible for regulatory compliance, performance improvement activities, clinical research, health professionals education, community hospital/EMS outreach, data collection and community injury prevention specific to trauma cases) and the associated management of these support activities.

Emergency Services Administration Mapping Guidelines

If your actual cost center(s) capture less than 80% of the administration and support activities and expenses for all of Emergency Services, this department may not be an appropriate choice. Other options might include the G2000, Other Emergency Care and Emergency Transport Services department.

Emergency Services Administration Workload Volumes

Education and Orientation Hours

Enter the total number of hours staff participated in education and orientation for the reporting period. The education and orientation hours captured here is separate from organizational orientation. Education and Orientation hours are for the purpose of continuing education and on the job training for staff only. This excludes contract labor.

Patient Visits Supported

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Emergency Services Administration Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
**Paid Hours: Physician Provider**

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

**Worked Hours: Behavioral Health Specialist**

Total hours worked by behavioral health specialist (associates, therapists) that assist with the assessment, management and treatment of patients with mental, emotional or psychosocial disorders.

This is a subset of Worked Hours: Staff.

**Worked Hours: Emergency Department Technician**

Total hours worked by Emergency Department Technicians providing patient care services in this department. ED Technicians provide services that may be alternately provided by RN and/or LPN, LVN staff. An ED Technician may be certified as an Emergency Medical Technician, but the services provided are distinctly different than those provided by an EMT.

This is a subset of Worked Hours: Staff.

**Worked Hours: Emergency Medical Technician**

Total hours worked by certified Emergency Medical Technicians (EMTs) in the Emergency Department separate and distinct from services provided by ED Technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: LPN, LVN**

Hours worked by licensed practical nurse, licensed vocational nurses providing patient care services in the department.

This is a subset of Worked Hours: Staff.
**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health and or psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Paramedics**

Total hours worked by certified Paramedics in the Emergency Department.

This is a subset of Worked Hours: Staff.
**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) Including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Trauma Coordinator**

Total hours worked by trauma program coordinator. Trauma Coordinators may be responsible for maintaining compliance with trauma system regulatory requirements, planning and implementing strategies for ongoing trauma program development and improvement and collaborating with all other health care professionals to provide clinical and system oversight for the care of trauma patients, ensuring the provision of efficient, quality, cost-effective care.

This is a subset of Worked Hours: Staff.

**Emergency Services Administration Expense Elements**

**Contract Service Expense**

Total expense for services (e.g. collections, transcription) provided by outside contractors.

This is a subset of Other Direct Operating Expense.

**Drug Expense**

Total department pharmaceutical expense.

This is a subset of Medical Supply Expense.
**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

This is a subset of Labor Expense.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non medical operating supplies, (e.g., equipment lubricants, office supplies, distribution supplies, and small non capitalized) equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.
Other Direct Operating Expense

Total other direct operating expense that includes professional fees, department supplies, equipment rental fees, operating leases for equipment, dues, travel and small (non-capitalized) equipment. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

Emergency Services Administration Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight Supported
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Patient Visits Supported
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

Emergency Services Administration Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach services, (Emergency Services)
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Emergency Department)
• Trauma Program staff and activities (i.e. registry, accreditation/regulatory compliance, statistical reporting)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Audit of coding for patient charges/billing
• Case Management (manages patient care while the patient is undergoing treatment)
• Personnel performing the functions of the department’s day to day managerial operations (Emergency Services)
• Repair and Maintenance of Clinical Equipment/Rooms
• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories
• Transplant Program staff and activities (i.e. registry, accreditation/regulatory compliance, statistical reporting)
• Transport of patients not requiring clinical escort

G2000, Other Emergency Care and Emergency Transport Services

This generic department includes all cost centers belonging to emergency care and emergency transport services that cannot be mapped to individual emergency care or transport services departments.
Other Emergency Care and Emergency Transport Services Workload Volumes

Active Transports

The total round trip flights to transport patients to a health care facility. Transport can be provided by the facility, commercial airlines, or the military. It may be local or long distance and can include transport for donated organs. Include flights made that were subsequently aborted, i.e., no patient was transported. Round trips are to be counted as 1 transport. Exclude training, testing, or other non-patient related flights.

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

ED Patient Registrations

Report the number of ED patient registrations during the reporting period. Walkouts or patients who left without being seen (after registration/triage but before being evaluated or treated by a physician or nurse practitioner/physician’s assistant) are included in the registration count. Include only registrations done by ED staff; this specifically excludes registrations by personnel who report through a centralized admission/registration department. Do not include registrations for lab specimens (where only the specimens come to the hospital and not the patient) in this count. Each preregistration or each quick registration that creates a patient encounter should be counted as an individual registration.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or follow up visits for continuing treatment of the same malady or complaint, employee or occupational health, Workers’ Compensation, and referred outpatient visits. A patient visit is counted when the patient is treated and admitted to the hospital, transferred to another facility, or discharged from this area. A patient visit should be counted for patients who leave against medical advice after beginning treatment but not for those “Walkouts” who leave without being seen (after registration/triage but before being evaluated or treated by a physician or nurse practitioner). If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Trips

The total two way trips (count both the departure and return to base of operations as one trip) made by department staff in response to specific requests. The trip may be to bring a victim to the hospital, to transfer a patient to another facility, or to take a victim to another facility.
Other Emergency Care and Emergency Transport Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Behavioral Health Specialist

Total hours worked by behavioral health specialist (associates, therapists) that assist with the assessment, management and treatment of patients with mental, emotional or psychosocial disorders.

This is a subset of Worked Hours: Staff.

Worked Hours: Dispatcher

Total hours worked by Dispatchers for the reporting period.

Worked Hours: Emergency Department Technician

Total hours worked by Emergency Department Technicians providing patient care services in this department. ED Technicians provide services that may be alternately provided by RN and/or LPN, LVN staff. An ED Technician may be certified as an Emergency Medical Technician, but the services provided are distinctly different than those provided by an EMT.

This is a subset of Worked Hours: Staff.
**Worked Hours: Emergency Medical Technician**

Total hours worked by certified Emergency Medical Technicians (EMTs) in the Emergency Department separate and distinct from services provided by ED Technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: Ground Crew**

Total hours worked by flight ground crew personnel (mechanics, etc.).

This is a subset of Worked Hours: Staff.

**Worked Hours: LPN, LVN**

Hours worked by LPN and or LVNs (Licensed Practical Nurses or Licensed Vocational Nurses) providing patient care services in the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health and or psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Paramedics**

Total hours worked by certified Paramedics in the Emergency Department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: Pilot**

Total hours worked by pilots.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) Including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Other Emergency Care and Emergency Transport Services Expense Elements

Drug Expense
Total department pharmaceutical expense.
This is a subset of Medical Supply Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

This is a subset of Labor Expense.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense
Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.
Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g., office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

Other Emergency Care and Emergency Transport Services Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Labor Expense
• Labor Expense: Physician Provider
• Medical Supply Expense
• Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

Other Emergency Care and Emergency Transport Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Personnel performing the functions of the department’s day to day managerial operations (Emergency Services)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, outreach services, (Emergency Services)
• Audit of coding for patient charges/billing
• Case Management (manages patient care while the patient is undergoing treatment)
• Daily or terminal cleaning and wall washing for ancillary patient procedure areas
• Emergency Room Registrations
• Financial assistance counseling, e.g., financial clearance processing, providing price estimates, completion of Medicaid, Charity and Disability applications
• Medical records coding (e.g. the use of medical charts and documentation from health care professionals to generate billing codes to be invoiced to patients and insurance companies)
• Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Emergency Department)

• Patient billing - the processing of patient claims for reimbursement, submission of claims to payer. This does not include charge capture.

• Phlebotomy, e.g., the puncturing of a vein for collecting blood specimens which are sent to the laboratory for analysis and testing. Does not include line draws.

• Repair and Maintenance of Clinical Equipment/Rooms

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

• Transplant Program staff and activities (i.e. registry, accreditation/regulatory compliance, statistical reporting)

• Transport of patients not requiring clinical escort

• Trauma Program staff and activities (i.e. registry, accreditation/regulatory compliance, statistical reporting)
Chapter 13. Environmental Services

This chapter includes the following sections:

- 05210, Environmental Services and Linen Distribution 581
- 05211, Environmental Services 586
- 05220, Laundry and Linen: In-House Reprocessing 592
- 05221, Laundry and Linen: Distribution Only 596
- G5200, Other Environmental and Linen Services 601

05210, Environmental Services and Linen Distribution

This department provides care and cleaning of the facility interior physical plant including floors, walls, ceilings, windows, furniture, furnishings, fixtures and equipment. It also provides laundry and linen distribution service to the facility, including weighing/sorting soiled goods for outside laundry processing, receiving/inspecting finished goods, and preparing/distributing finished goods.

Environmental Services and Linen Distribution Mapping Guidelines

If the cost center does not provide laundry and linen distribution functions, use the 05211, Environmental Services department.

Environmental Services and Linen Distribution Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
**Emergency Department and Procedural Treatment Area Cleanings Completed**

The total patient area cleanings performed in the Emergency Department or other patient clinical treatment spaces. This may include cleanings in treatment areas for Electrophysiology, Interventional Radiology, Endoscopy etc. This count may include inpatients or outpatients, but should exclude IP bed discharge or transfer cleanings.

This is a subset of Total Cleanings Completed.

**Inpatient Bed Discharge And Transfer Cleanings**

The total patient area cleanings performed as a result of an inpatient discharge or transfer.

This is a subset of Total Cleanings Completed.

**Net Square Feet Cleaned**

The total net square feet of interior floor area of the plant routinely cleaned and serviced by department staff. Routinely cleaned means that this department provides the normal cleaning function. Use the internal measurements of the hospital and free-standing buildings for calculation. Do not include areas not cleaned by the department, such as parking structures, maintenance work areas, boiler rooms, and electrical or plumbing areas. The kitchen may or may not be included depending on which department routinely has cleaning responsibility. If these figures are not maintained, contact the department that prepares the hospital cost reports. This is usually an individual in the accounting, budgeting, or reimbursement department. They may use net square footage statistics for certain cost allocations. If accurate figures cannot be obtained, deduct 20 percent from the facility gross exterior footage.

**Non-Hospital Net Square Feet Cleaned**

The total net square feet of non-hospital interior floor area routinely cleaned and serviced by department staff. Includes the portion in net square feet cleaned that is not part of the hospital. The hospital is defined as all departments included in the operating expenses for the General Facility department. As a rule, medical office buildings or buildings rented out are not part of the hospital. This is a subset of Net Square Feet Cleaned.

**Pounds of Clean Laundry Distributed**

The total pounds of clean laundry distributed throughout the facility by department staff. Includes all laundry distributed by the housekeeping and laundry distribution department. If the department processes the laundry, which includes cleaning and drying it, you may have an inappropriate department. If only dirty laundry weights are maintained instead, multiply the dirty laundry weight by .90 (90 percent).

**Total Cleanings Completed**

The total patient area cleanings performed as a result of patient discharge or transfer. As a reasonability check, compare this count to the total number of facility discharges. If the department has sole responsibility for this function, the discharge or transfer cleanings should be greater than the facility discharges. These counts may include cleaning for inpatient nursing units, observations beds or other areas where patient clinical treatment takes place that requires a discharge cleaning.
Environmental Services and Linen Distribution Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Custodial Worker

Total hours worked by custodial workers (housekeeping aides).

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Environmental Services and Linen Distribution Expense Elements

Cleaning Supply Expense
Total expense for stocked and non-stocked cleaning supplies.
This is a subset of Supply Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Laundry Service Contract Expense
Total expense for outside contractors to provide laundry service, if charged to this department.
This is a subset of Other Direct Operating Expense.

Management Contract Fees
Total expense for external management contract services.
This is a subset of Other Direct Operating Expense.

Operating Lease Expense
Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.
This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.
This is a subset of Labor Expense.
Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Environmental Services and Linen Distribution Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Net Square Feet Cleaned
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

Environmental Services and Linen Distribution Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Collection of waste throughout the hospital and delivery to a central collection point including preparation/decontamination for disposal
- Daily or terminal cleaning and wall washing for ancillary patient procedure areas
- Environmental services functions, e.g., cleaning services
- Moving and rearranging of furniture and office equipment (for the purposes of cleaning floors and carpets)
- Routine mopping, waxing/buffing floors, stripping/refinishing floors and wall/ceiling cleaning

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens
- Disposal costs of all waste materials
- Emergency Department room cleaning between patients (e.g. replacing EKG pads, replacing paper on exam tables, etc.)

- Endoscopy (GI) procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens

- Exterior cleanup, e.g., snow removal, leaf and debris cleanup from sidewalks, driveways, parking lots and structures

- Exterior trash pickup, e.g., sidewalks, driveways, parking lots and structures

- Grounds/Landscaping

- Interior painting

- Kitchen cleaning and daily cleaning of dining areas

- Operation of hospital incinerator

- Pest control (this may be a purchased service)

- Surgical Services procedure room cleaning between patients (e.g. pick up trash, disinfect surfaces, replace soiled linens)

- Waste removal/hauling from an onsite, centralized location, e.g., dumpster to an offsite location: landfill, waste management facility, incinerator

05211, Environmental Services

This department provides care and cleaning of the facility interior physical plant, including floors, walls, ceilings, windows, furniture, furnishings, fixtures, and equipment. It does not include laundry and linen distribution functions.

Environmental Services Mapping Guidelines

If the cost center also provides laundry and linen distribution functions, use the 05210, Environmental Services and Linen Distribution Services department.
Environmental Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Emergency Department and Procedural Treatment Area Cleanings Completed

The total patient area cleanings performed in the Emergency Department or other patient clinical treatment spaces. This may include cleanings in treatment areas for Electrophysiology, Interventional Radiology, Endoscopy etc. This count may include inpatients or outpatients, but should exclude IP bed discharge or transfer cleanings.

This is a subset of Total Cleanings Completed.

Hospital Net Square Feet Cleaned

The total net square feet of floor area (measured from wall to wall) routinely serviced by the environmental services staff in the hospital proper. Count the square footage of hospital areas only serviced by environmental services staff. If the square footage changes during the reporting period, report the average square footage serviced during the period.

This is a subset of Net Square Feet Cleaned.

Inpatient Bed Discharge And Transfer Cleanings

The total patient area cleanings performed as a result of an inpatient discharge or transfer.

This is a subset of Total Cleanings Completed.

Net Square Feet Cleaned

The total net square feet of interior floor area of the plant routinely cleaned and serviced by department staff. Routinely cleaned means that this department provides the normal cleaning function. Use the internal measurements of the hospital and free-standing buildings for calculation. Do not include areas not cleaned by the department, such as parking structures, maintenance work areas, boiler rooms, and electrical or plumbing areas. The kitchen may or may not be included depending on which department routinely has cleaning responsibility. If these figures are not maintained, contact the department that prepares the hospital cost reports. This is usually an individual in the accounting, budgeting, or reimbursement department. They may use net square footage statistics for certain cost allocations. If accurate figures cannot be obtained, deduct 20 percent from the facility gross exterior footage.
**Non Hospital Net Square Feet Cleaned**

The total net square feet of non-hospital interior floor area routinely cleaned and serviced by department staff. Includes the portion in net square feet cleaned that is not part of the hospital. The hospital is defined as all departments included in the operating expenses for the General Facility department. As a rule, medical office buildings or buildings rented out are not part of the hospital.

This is a subset of Net Square Feet Cleaned.

**Total Cleanings Completed**

The total patient area cleanings performed as a result of patient discharge or transfer. As a reasonability check, compare this count to the total number of facility discharges. If the department has sole responsibility for this function, the discharge or transfer cleanings should be greater than the facility discharges. These counts may include cleaning for inpatient nursing units, observations beds or other areas where patient clinical treatment takes place that requires a discharge cleaning.

**Environmental Services Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Custodial Worker**

Total hours worked by custodial workers (housekeeping aides).

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.
**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non-physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Environmental Services Expense Elements**

**Cleaning Supply Expense**

Total expense for stocked and non-stocked cleaning supplies.

This is a subset of Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Management Contract Fees**

Total expense for external management contract services.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.
Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Environmental Services Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Net Square Feet Cleaned
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

Environmental Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Collection of waste throughout the hospital and delivery to a central collection point including preparation/decontamination for disposal
- Daily or terminal cleaning and wall washing for ancillary patient procedure areas
- Environmental services functions, e.g., cleaning services
• Moving and rearranging of furniture and office equipment (for the purposes of cleaning floors and carpets)

• Routine mopping, waxing/buffing floors, stripping/refinishing floors and wall/ceiling cleaning

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Emergency Department room cleaning between patients (e.g. replacing EKG pads, replacing paper on exam tables, etc.)

• Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens

• Disposal costs of all waste materials

• Distribution of clean linen to user departments

• Endoscopy (GI) procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens

• Exterior cleanup, e.g., snow removal, leaf and debris cleanup from sidewalks, driveways, parking lots and structures

• Exterior trash pickup, e.g., sidewalks, driveways, parking lots and structures

• Grounds/Landscaping

• Interior painting

• Kitchen cleaning and daily cleaning of dining areas

• Operation of hospital incinerator

• Pest control (this may be a purchased service)

• Sorting of soiled linen, mending/patching linen, manufacturing items, and uniform processing (exclude if your laundry is processed externally)

• Surgical Services procedure room cleaning between patients (e.g. pick up trash, disinfect surfaces, replace soiled linens)

• Waste removal/hauling from an onsite, centralized location, e.g., dumpster to an offsite location: landfill, waste management facility, incinerator
05220, Laundry and Linen: In-House Reprocessing

The Laundry and Linen: In-House Reprocessing department provides laundry and linen cleaning services to the facility, including weighing, sorting, and cleaning of soiled goods and drying, ironing, repairing, inspecting and organizing for distribution of all finished goods.

Laundry and Linen: In-House Reprocessing Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Internal Pounds Processed

This represents the finished (clean) weight, of all linen processed for internal hospital use.

This is a subset of Laundry Pounds Processed.

Laundry Pounds Processed

The total weight of clean laundry processed. Includes all laundry cleaned, dried, and distributed by the in-house laundry department. If only soiled laundry is weighed, multiply the total by .90 (90 percent) to approximate clean weight. If this department staff does not process at least 80 percent or the hospital's laundry needs, this may be an inappropriate department.

Nursing Laundry Pounds Processed

The total weight of finished (clean) laundry processed for inpatient nursing units. Includes all laundry for patient use, including nursery. It does not include ambulatory surgery unit areas. Do not include laundry for staff.

This is a subset of Internal Pounds Processed.

Operating Room Laundry Pounds Processed

The total weight of finished (clean) laundry processed for the operating rooms. Includes all laundry for patient surgery use, including OR scrub suits. The laundry may go to central sterile services for actual distribution to the surgery department. Do not include laundry for staff uniforms.

This is a subset of Internal Pounds Processed.
Other Laundry Pounds Processed
Total weight of finished (clean) laundry processed for all other hospital areas not reported above.
This is a subset of Internal Pounds Processed.

Outside Laundry Pounds Processed
The total weight of finished (clean) laundry processed for other facilities. This includes laundry processed for contracted organizations or related hospitals that are part of the same corporation.
This is a subset of Laundry Pounds Processed.

Routine Unit Laundry Replenishments
The total laundry or linen carts or closets, in units, routinely replenished during the reporting period.

Staff Laundry Pounds Processed
Total weight of finished (clean) laundry (garments / uniforms) processed for hospital staff. Exclude OR scrub suits.
This is a subset of Internal Pounds Processed.

Laundry and Linen: In-House Reprocessing Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Laundry Worker
Total hours worked by laundry workers.
This is a subset of Worked Hours: Staff.
Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime
Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Laundry and Linen: In-House Reprocessing Expense Elements

Equipment Maintenance Contract Expense
Total expense for outside contractors to maintain capital equipment and non-capital devices. Includes both formal contracts and time-and-material for as-needed services. Excludes fully outsourced department costs.

This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
Linen Supply Expense

Total expense for linen supplies, including OR scrub suits.

This is a subset of Supply Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Washing Chemical Supply Expense

Total expense for stocked and non-stocked washing chemical supplies.

This is a subset of Supply Expense.
Laundry and Linen: In-House Reprocessing Mandatory Elements

The following data elements are mandatory for this department:

- Inpatient Nursing Laundry Pounds Processed
- Labor Expense
- Laundry Pounds Processed
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

Laundry and Linen: In-House Reprocessing Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Distribution of clean linen to user departments
- Sorting of soiled linen, mending/patching linen, manufacturing items, and uniform processing (exclude if your laundry is processed externally)

05221, Laundry and Linen: Distribution Only

This department provides laundry and linen distribution services to the facility, including weighing or sorting soiled goods for outside laundry processing, receiving or inspecting finished goods, and preparing and distributing finished goods.

Laundry and Linen: Distribution Only Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
Nursing Laundry Pounds Distributed

The total weight of finished (clean) laundry distributed to inpatient nursing units. This includes distribution to the inpatient nursing floors, not processing of the laundry. This also includes all laundry for inpatient use, including nursery. It does not include ambulatory surgery unit areas. Do not include laundry for staff.

This is a subset of Pounds Of Clean Laundry Distributed.

Operating Room Laundry Pounds Distributed

The total weight of clean laundry distributed to the operating rooms. This includes distribution to surgery units, whether inpatient or ambulatory. This includes all laundry for patient surgery use, including OR scrub suits. Laundry may go to central sterile services for actual distribution to the surgery department. Do not include laundry for staff uniforms.

This is a subset of Pounds Of Clean Laundry Distributed.

Other Laundry Pounds Distributed

Total weight of finished (clean) laundry distributed to all other areas not reported above.

This is a subset of Pounds Of Clean Laundry Distributed.

Pounds of Clean Laundry Distributed

The total pounds of clean laundry distributed throughout the facility by department staff. Includes all laundry distributed by the housekeeping and laundry distribution department. If the department processes the laundry, which includes cleaning and drying it, you may have an inappropriate department. If only dirty laundry weights are maintained instead, multiply the dirty laundry weight by .90 (90 percent).

Routine Unit Laundry Replenishments

The total laundry or linen carts or closets, in units, routinely replenished during the reporting period.

Staff Laundry Pounds Distributed

Total weight of finished (clean) laundry (garments / uniforms) distributed to hospital staff. Exclude OR scrub suits.

This is a subset of Pounds Of Clean Laundry Distributed.
Laundry and Linen: Distribution Only Department Hours Elements

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

**Worked Hours: Laundry Worker**

Total hours worked by laundry workers.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Laundry and Linen: Distribution Only Expense Elements

**Contract Service Expense**
Total expense for laundry processing services provided by an outside contractor.

This is a subset of Other Direct Operating Expense.

**Labor Expense**
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Linen Supply Expense**
Total expense for linen supplies, including OR scrub suits.

This is a subset of Supply Expense.

**Operating Lease Expense**
Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**
Total expense for department operating supplies.
This is a subset of Other Direct Operating Expense.

**Laundry and Linen: Distribution Only Mandatory Elements**

The following data elements are mandatory for this department:

- Inpatient Nursing Laundry Pounds Distributed
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Pounds of Clean Laundry Distributed
- Worked Hours: Staff

**Laundry and Linen: Distribution Only Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Distribution of clean linen to user departments

**G5200, Other Environmental and Linen Services**

This generic department includes all cost centers belonging to environmental services that cannot be mapped to individual environmental services departments.

**Other Environmental and Linen Services Workload Volumes**

**Adjusted Discharges Supported**

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
Other Environmental and Linen Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Custodial Worker

Total hours worked by custodial workers (housekeeping aides).

This is a subset of Worked Hours: Staff.

Worked Hours: Laundry Worker

Total hours worked by laundry workers.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).
This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Other Environmental and Linen Services Expense Elements**

**Equipment Maintenance Contract Expense**

Total expense for outside contractors to maintain capital equipment and non-capital devices. Includes both formal contracts and time-and-material for as-needed services. Excludes fully outsourced department costs.

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Laundry Service Contract Expense**

Total expense for outside contractors to provide laundry service, if charged to this department.

This is a subset of Other Direct Operating Expense.

**Management Contract Fees**

Total expense for external management contract services.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.
This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Other Environmental and Linen Services Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Other Environmental and Linen Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Collection of waste throughout the hospital and delivery to a central collection point including preparation/decontamination for disposal
- Daily or terminal cleaning and wall washing for ancillary patient procedure areas
- Environmental services functions, e.g., cleaning services
- Moving and rearranging of furniture and office equipment (for the purposes of cleaning floors and carpets)
- Routine mopping, waxing/buffing floors, stripping/refinishing floors and wall/ceiling cleaning

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Cardiology and Vascular Services procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens
- Disposal costs of all waste materials
- Endoscopy (GI) procedure room cleaning between patients, e.g., pick up trash, disinfect surfaces, replace soiled linens
- Exterior cleanup, e.g., snow removal, leaf and debris cleanup from sidewalks, driveways, parking lots and structures
- Exterior trash pickup, e.g., sidewalks, driveways, parking lots and structures
- Grounds/Landscaping
- Interior painting
- Kitchen cleaning and daily cleaning of dining areas
- Operation of hospital incinerator
- Pest control (this may be a purchased service)
- Surgical Services procedure room cleaning between patients (e.g. pick up trash, disinfect surfaces, replace soiled linens)
- Waste removal/hauling from an onsite, centralized location, e.g., dumpster to an offsite location: landfill, waste management facility, incinerator
Chapter 14. Facility Services

This chapter includes the following sections:

- 05001, Plant Operations/Plant Maintenance and Grounds 606
- 05010, Plant Maintenance and Grounds 612
- 05020, Plant Operations 618
- 05030, Facilities Improvement and Modification Services 623
- 05040, Biomedical Engineering 628
- 05099, Facility Services Administration 634
- F5000, Facility Operations and Maintenance Functional Rollup Department 638
- G5000, Other Facility Services 643
- I5000, Facilities Operations and Maintenance Intermediate Rollup 648

05001, Plant Operations/Plant Maintenance and Grounds

Plant Operations/Plant Maintenance and Grounds (PO/PM/G) provides functions related to the repair and preventative maintenance of power plant, major systems and related equipment (such as HVAC systems, plumbing, building automation, electrical systems, and medical gases), the physical plant, and grounds. Clinical Engineering or facility improvement and modification functions should NOT be included.

PO/PM/G Mapping Guidelines

If your organization has separate cost centers for plant operations and plant maintenance and grounds, use an alternate department. Options include the 05020, Plant Operations department and the 05010, Plant Maintenance and Grounds department.
PO/PM/G Workload Volumes

Acres of Grounds Maintained
The total acreage of grounds maintained by the department staff. (Department staff includes any hours reported in the Non-Payroll Paid Hours). Include the area that is maintained, cleaned, or landscaped by department staff. Include parking lots or parking structures (single or multi-level) if maintained by the department.

Adjusted Discharges Supported
Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Gross Square Feet Maintained
Report the total gross square feet of the plant routinely maintained by the department staff. Use the external measurements of the hospital and free-standing buildings in the calculation. Also include building roof areas if they contain equipment that is accessed and maintained by the department staff. Exclude parking lots, parking structures, and grounds in this count. A warehouse occupied by inventory staff and equipped with a heating and cooling system should be included in the count. Do not include unoccupied buildings if they are not routinely maintained during the data period. For example, a property maintained only upon request should not be included in the count.

Pieces of Equipment Maintained
The total pieces of equipment receiving preventative maintenance by the department staff. Include all capital or non-capital equipment that routinely receives preventative maintenance. Preventative maintenance does not apply to equipment that is serviced only for repair order requests. Equipment must receive maintenance at least once per year to qualify. A master control log that the facility uses for providing cyclical preventative maintenance may provide this value. If equipment is serviced in modular fashion (that is, several components receive preventative maintenance independently instead of the item being serviced as a whole) count each component.

Preventative Maintenance Work Orders
The total preventative maintenance work orders completed by division staff. This includes all equipment service calls completed on equipment that routinely receives preventative maintenance. Maintenance orders includes repairs of equipment and facility. If a repair overlaps reporting periods, count the repair during the first reporting period that it's at least 50 percent complete.
Service Calls Completed
Total user-requested and preventative maintenance work orders completed.

PO/PM/G Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Maintenance Worker
Total hours worked by maintenance workers.

This is a subset of Worked Hours: Staff.

Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime
Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Worked Hours: Stationary Engineer
Total hours worked by stationary engineers. A stationary engineer is an operator of boilers, steam turbines, auxiliary equipment (i.e. air compressors/pumps) or refrigeration machinery.

This is a subset of Worked Hours: Staff.

PO/PM/G Expense Elements

Building Automation And Fire Extinguishing System Expense
total building automation and fire extinguishing system expense.

This is a subset of Equipment Repair and Maintenance Expense.

Building Structure And Grounds Expense
Total building structure and grounds expense.

This is a subset of Equipment Maintenance Contract Expense.

Equipment Maintenance Contract Expense
Total expense for outside contractors to maintain major systems and equipment.

This is a subset of Other Direct Operating Expense.

HVAC And Plumbing System Expense
Total HVAC and plumbing system expense.

This is a subset of Equipment Maintenance Contract Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Maintenance Supply Expense
Total expense for stocked and non-stocked maintenance supplies.
This is a subset of Supply Expense.

**Normal And Emergency Electrical System Expense**

Total normal and emergency electrical systems expense.

This is a subset of Equipment Maintenance Contract Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Service Contracts Expense**

Total expense for all purchased service contracts used to perform department functions during the reporting period.

This is a subset of Other Direct Operating Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Utility Expense**

Total expense related to energy usage (e.g. electric, gas, water, sewer) for the reporting period for the entire organization supported.
This expense is not included in Other Direct Operating Expense.

**Waste Disposal System Expense**

Total waste disposal system expense.

This is a subset of Equipment Maintenance Contract Expense.

**PO/PM/G Mandatory Elements**

The following data elements are mandatory for this department:

- Gross Square Feet Maintained
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**PO/PM/G Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Disposal costs of all waste materials
- Exterior cleanup, e.g., snow removal, leaf and debris cleanup from sidewalks, driveways, parking lots and structures
- Exterior trash pickup, e.g., sidewalks, driveways, parking lots and structures
- Grounds/Landscaping
- Interior painting
- Operation of hospital incinerator
- Personnel performing the functions of the department’s day to day managerial operations (Facility)
- Pest control (this may be a purchased service)
• Waste removal/hauling from an onsite, centralized location, e.g., dumpster to an offsite location: landfill, waste management facility, incinerator

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, office coordination, scheduling. (Facility Services)

• Collection of waste throughout the hospital and delivery to a central collection point including preparation/decontamination for disposal

• Drivers of patient shuttles

• Moving and rearranging of furniture and office equipment (for the purposes of cleaning floors and carpets)

• Operation of hospital parking garage and valet parking program

• Personnel performing the functions of administrative and managerial operations oversight for the departments within the series (Facility)

• Routine mopping, waxing/buffing floors, stripping/refinishing floors and wall/ceiling cleaning

05010, Plant Maintenance and Grounds

The Plant Maintenance and Grounds department performs plant and grounds maintenance functions. It does not perform plant operations, power plant operations and major systems preventative maintenance, clinical engineering, or facility improvement and modification functions.

Plant Maintenance and Grounds Mapping Guidelines

If your cost center performs plant operations, power plant operations and major systems preventative maintenance, biomedical engineering, or facility improvement and modification functions, use an alternate department. If the plant operations function is included and cannot be separated as distinct cost centers, map to the 05001, Plant Operations/Plant Maintenance and Grounds department.

Plant Maintenance and Grounds Workload Volumes

Acres of Grounds Maintained

The total acreage of grounds maintained by the department staff. (Department staff includes any hours reported in the Non-Payroll Paid Hours). Include the area that is maintained, cleaned, or landscaped by department staff. Include parking lots or parking structures (single or multi-level) if maintained by the department.
Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Gross Square Feet Maintained

Report the total gross square feet of the plant routinely maintained by the department staff. Use the external measurements of the hospital and free-standing buildings in the calculation. Also include building roof areas if they contain equipment that is accessed and maintained by the department staff. Exclude parking lots, parking structures, and grounds in this count. A warehouse occupied by inventory staff and equipped with a heating and cooling system should be included in the count. Do not include unoccupied buildings if they are not routinely maintained during the data period. For example, a property maintained only upon request should not be included in the count.

Miscellaneous Requests (Non Routine)

Total user-requested and preventative unscheduled maintenance work orders completed during the reporting period.

This is a subset of Service Calls Completed.

Preventative Maintenance Work Orders

The total preventative maintenance work orders completed by division staff. This includes all equipment service calls completed on equipment that routinely receives preventative maintenance. Maintenance orders includes repairs of equipment and facility. If a repair overlaps reporting periods, count the repair during the first reporting period that it's at least 50 percent complete.

This is a subset of Routine Service Calls.

Project Requests (Non Routine)

Total number of non routine project request for the reporting period.

This is a subset of Service Calls Completed.

Routine Service Calls

The total preventative maintenance work orders completed by division staff. This includes all equipment service calls completed on equipment that routinely receives preventative maintenance. Include routine service calls and preventative maintenance work order Project requests.
This is a subset of Service Calls Completed.

**Service Calls Completed**

Total user-requested and preventative maintenance work orders completed.

**Plant Maintenance and Grounds Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Maintenance Worker**

Total hours worked by maintenance workers.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Plant Maintenance and Grounds Expense Elements

Building Automation And Fire Extinguishing System Expense

Total building automation and fire extinguishing system expense.

This is a subset of Equipment Repair and Maintenance Expense.

Building Structure And Grounds Expense

Total building structure and grounds expense.

This is a subset of Equipment Repair and Maintenance Expense.

Equipment Maintenance Contract Expense

Total expense for outside contractors to maintain major systems and equipment.

This is a subset of Other Direct Operating Expense.

HVAC And Plumbing System Expense

Total HVAC and plumbing system expense.

This is a subset of Equipment Repair and Maintenance Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Maintenance Supply Expense**

Total expense for stocked and non-stocked maintenance supplies.

This is a subset of Supply Expense.

**Normal and Emergency Electrical Systems Expense**

Total normal and emergency electrical systems expense.

This is a subset of Equipment Repair and Maintenance Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Service Contracts Expense**

Total expense for all purchased service contracts used to perform department functions during the reporting period.

This is a subset of Other Direct Operating Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.
Waste Disposal System Expense

Total waste disposal system expense.

This is a subset of Equipment Maintenance Contract Expense.

Plant Maintenance and Grounds Mandatory Elements

The following data elements are mandatory for this department:

- Gross Square Feet Maintained
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

Plant Maintenance and Grounds Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Exterior trash pickup, e.g., sidewalks, driveways, parking lots and structures
- Grounds/Landscaping
- Personnel performing the functions of administrative and managerial operations oversight for the departments within the series (Facility)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, office coordination, scheduling. (Facility Services)
- Collection of waste throughout the hospital and delivery to a central collection point including preparation/decontamination for disposal
- Personnel performing the functions of administrative and managerial oversight operations (Facility)
05020, Plant Operations

The Plant Operations department performs power plant operations and major systems preventative maintenance functions for systems such as HVAC systems, plumbing, building automation, electrical systems, and medical gases.

Plant Operations Mapping Guidelines

If your cost center performs plant maintenance (work requests), grounds, biomedical engineering, or facility improvement and modification, use an alternate department. If plant maintenance and grounds functions are included but cannot be separated as distinct cost centers, map to the 05001, Plant Operations/Plant Maintenance and Grounds department.

Plant Operations Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Gross Square Feet Maintained

Report the total gross square feet of the plant routinely maintained by the department staff. Use the external measurements of the hospital and free-standing buildings in the calculation. Also include building roof areas if they contain equipment that is accessed and maintained by the department staff. Exclude parking lots, parking structures, and grounds in this count. A warehouse occupied by inventory staff and equipped with a heating and cooling system should be included in the count. Do not include unoccupied buildings if they are not routinely maintained during the data period. For example, a property maintained only upon request should not be included in the count.

Pieces of Equipment Maintained

The total pieces of equipment receiving preventative maintenance by the department staff. Include all capital or non-capital equipment that routinely receives preventative maintenance. Preventative maintenance does not apply to equipment that is serviced only for repair order requests. Equipment must receive maintenance at least once per year to qualify. A master control log that the facility uses for providing cyclical preventative maintenance may provide this value. If equipment is serviced in modular fashion (that is, several components receive preventative maintenance independently instead of the item being serviced as a whole) count each component.
Preventative Maintenance Work Orders

The total preventative maintenance work orders completed by division staff. This includes all equipment service calls completed on equipment that routinely receives preventative maintenance. Maintenance orders includes repairs of equipment and facility. If a repair overlaps reporting periods, count the repair during the first reporting period that it's at least 50 percent complete.

Plant Operations Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Maintenance Worker

Total hours worked by maintenance workers.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Worked Hours: Stationary Engineer

Total hours worked by stationary engineers. A stationary engineer is an operator of boilers, steam turbines, auxiliary equipment (i.e. air compressors/pumps) or refrigeration machinery.

This is a subset of Worked Hours: Staff.

Plant Operations Expense Elements

Building Automation And Fire Extinguishing System Expense

Total building automation and fire extinguishing system expense.

This is a subset of Equipment Repair and Maintenance Expense.

Building Structure And Grounds Expense

Total building structure and grounds expense.

This is a subset of Equipment Maintenance Contract Expense.

Equipment Maintenance Contract Expense

Total expense for outside contractors to maintain major systems and equipment.

This is a subset of Other Direct Operating Expense.

HVAC And Plumbing System Expense

Total HVAC and plumbing system expense.
This is a subset of Equipment Maintenance Contract Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Maintenance Supply Expense**

Total expense for stocked and non-stocked maintenance supplies.

This is a subset of Supply Expense.

**Normal And Emergency Electrical System Expense**

Total normal and emergency electrical systems expense.

This is a subset of Equipment Maintenance Contract Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Service Contracts Expense**

Total expense for all purchased service contracts used to perform department functions during the reporting period.

This is a subset of Other Direct Operating Expense.
Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Utility Expense

Total expense related to energy usage (e.g. electric, gas, water, sewer) for the reporting period for the entire organization supported.

This expense is not included in Other Direct Operating Expense.

Waste Disposal System Expense

Total waste disposal system expense.

This is a subset of Equipment Repair and Maintenance Expense.

Plant Operations Mandatory Elements

The following data elements are mandatory for this department:

- Gross Square Feet Maintained
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

Plant Operations Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Disposal costs of all waste materials
- Exterior cleanup, e.g., snow removal, leaf and debris cleanup from sidewalks, driveways, parking lots and structures
- Interior painting
• Operation of hospital incinerator
• Personnel performing the functions of the department’s day to day managerial operations (Facility)
• Pest control (this may be a purchased service)
• Waste removal/hauling from an onsite, centralized location, e.g., dumpster to an offsite location: landfill, waste management facility, incinerator

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, office coordination, scheduling. (Facility Services)
• Collection of waste throughout the hospital and delivery to a central collection point including preparation/decontamination for disposal
• Drivers of patient shuttles
• Moving and rearranging of furniture and office equipment (for the purposes of cleaning floors and carpets)
• Operation of hospital parking garage and valet parking program
• Personnel performing the functions of administrative and managerial operations oversight for the departments within the series (Facility)
• Routine mopping, waxing/buffing floors, stripping/refinishing floors and wall/ceiling cleaning

05030, Facilities Improvement and Modification Services

The Facilities Improvement and Modification Services (FIMS) department performs or manages all planning, construction, and related services on capital projects for all structures affiliated with hospital operations, such as offices, clinics, and outpatient surgery centers. Include cost centers pertaining to building design, engineering, construction, or modification.

FIMS Mapping Guidelines

This department does not perform plant maintenance, work requests, grounds maintenance, plant operations, or clinical engineering. For grounds, use the 05010, Plant Maintenance and Grounds department; for plant operations, use the 05020, Plant Operations department; and for biomedical engineering, use the 05040, Biomedical Engineering department.
FIMS Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Fair Market Value of Projects

The total estimated cost of completed and in progress projects either constructed by or overseen by the Facilities Improvement and Modification Services department. Estimated value of the projects includes accepted bids for work performed by outside contractors, and outside contractor low bids (or internal estimates if no outside bids were obtained) for work performed by department staff. This would cover projects in progress during the reporting period.

Note: If a project straddles reporting periods, allocate the costs attributable to this reporting period based on progress reports.

Projects in Progress

The total capital projects in progress during the report period.

Projects in progress include active planning, architectural drawings, permits, and construction by the department during the report period. Include projects in progress from prior periods, as well as new projects started this period. Initiation starts from the time the department first becomes involved in architectural drawings, permits, or construction. Report the total number of projects under $5,000 in “Projects In Progress under $5,000”.

Projects in Progress Under $5,000

Total capital projects in progress during the Report Period with a Fair Market Value of less than $5,000. Projects in progress refers to active planning, architectural drawings, permits, and construction by the department during the Report Period.

This is a subset of Projects in Progress.

Projects Valued Under $5,000

The total estimated cost of completed projects either constructed by or overseen by the Facilities Improvement and Modification Services department. Estimated value of the projects includes accepted bids for work performed by outside contractors, and outside contractor low bids (or internal estimates if no outside bids were obtained) for work performed by department staff. This would cover projects in progress during the reporting period.
This is a subset of Fair Market Value of Projects.

Note: If a project straddles reporting periods, allocate the costs attributable to this reporting period based on progress reports.

FIMS Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Construction Worker
Total hours worked by construction workers engaged in facility improvement and modification projects.

This is a subset of Worked Hours: Staff.

Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**FIMS Expense Elements**

**Construction Materials Expenditure**

Total expenditure for construction materials.

This expenditure is not included in Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.
This is a subset of Labor Expense.

Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**FIMS Mandatory Elements**

The following data elements are mandatory for this department:

- Fair Market Value of Projects
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**FIMS Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Personnel performing the functions of the department’s day to day managerial operations (Facility)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, office coordination, scheduling. (Facility Services)
- Personnel performing the functions of administrative and managerial operations oversight for the departments within the series (Facility)
05040, Biomedical Engineering

This department, also known as clinical engineering, manages and maintains medical equipment. It is responsible for testing, repairing, and maintaining in proper and safe operating condition, the hospital’s and/or health system’s diagnostic and therapeutic equipment (excluding implants; single-use or single-patient-use medical devices; patient transportation devices (wheelchairs, stretchers, etc.); networks, computers, and other IT or communications hardware and software unless they are an integral part of a medical equipment). The department staff perform or contribute to the following on clinical equipment used within the hospital and/or health system, regardless of ownership, in compliance with regulatory agencies: Equipment Planning and Acquisition; Incoming Inspection; Installation and Acceptance; Scheduled and Unscheduled Maintenance; Recalls, Corrections and Updates; Incident Investigations; Replacement and Retirement; Special Request Service.

Biomedical Engineering Mapping Guidelines

If your cost center(s) includes plant operations, plant maintenance, grounds maintenance, IT, communications, and/or facility improvement services, this department is not an appropriate choice. Map your cost center(s) to the G5000, Other Facilities Operations and Maintenance Services department.

Biomedical Engineering Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Capital Equipment Maintained

The total number of capitalized medical equipment whose maintenance is the sole responsibility of this department, regardless of whether they received service from the department during the reporting period. This value is typically available from the department's inventory module within its computerized maintenance management system (CMMS). Multiple component systems, such as Imaging systems and equipment composed of modules, should be counted as a single piece. Accessories and disposable products should be excluded, as well as medical devices maintained by other departments, such as wheelchairs, stretchers, patient call systems, etc.

Note: Capitalization thresholds vary from facility to facility, therefore you will need to answer the four characteristic survey questions to define your organization's threshold amount.
This is a subset of Equipment and Devices Maintained.

**Corrective Maintenance Orders Completed**

The total number of repair work orders completed by department staff. Includes emergency and routine work on capital equipment and non-capital devices, regardless of ownership. Only count work orders completed and closed during the reporting period, not orders placed with the department but not yet complete. If a repair overlaps reporting periods, count the repair during the first reporting period in which it was at least 50 percent complete.

This is a subset of Service Orders Completed.

**Cost of Capital Equipment**

The total acquisition cost of capital devices counted in the data element Capital Equipment Maintained, including the purchase price, shipping, and installation costs. The cost of non-purchased equipment is to be included if they are maintained through scheduled service and/or repairs, but not for incoming inspection only.

**Note:** Capitalization thresholds vary from facility to facility, therefore you will need to answer the four characteristic survey questions to define your organization's threshold amount.

**Cost of Non Capital Devices**

The total acquisition cost of non-capital devices counted in the data element Non Capital Devices Maintained, including the purchase price, shipping, and installation costs. The cost of non-purchased devices is to be included if they are maintained through scheduled service and/or repairs, but not for incoming inspection only. Note: Capitalization thresholds vary from facility to facility, therefore you will need to answer the four characteristic survey questions to define your organization's threshold amount.

**Equipment and Devices Maintained**

The total number of capital equipment and non-capital medical devices whose maintenance is the sole responsibility of this department. These values are typically available from the department's inventory module within its computerized maintenance management system (CMMS). Multiple component systems, such as Imaging systems and equipment composed of modules, should be counted as a single piece. Accessories and disposable products should be excluded, as well as medical devices maintained by other departments, such as wheelchairs, stretchers, patient call systems, etc.
Non Capital Devices Maintained

The total number of non-capitalized medical devices whose maintenance is the sole responsibility of this department, regardless of whether they received service from the department during the reporting period. Examples of such devices include otoscopes, sphygmomanometers, and minor surgical instruments (forceps, scalpels, etc.). This value is typically available from the department's inventory module within its computerized maintenance management system (CMMS).

**Note:** Capitalization thresholds vary from facility to facility, therefore you will need to answer the four characteristic survey questions to define your organization’s threshold amount.

This is a subset of Equipment and Devices Maintained.

Other Work Orders Completed

The total number of all other service requests completed by department staff and not included in the other elements above. Examples include: incoming inspections, installations, recalls and upgrades, and incident investigations.

This is a subset of Service Orders Completed.

Scheduled Maintenance Orders Completed

The total number of scheduled maintenance work orders completed by department staff. Includes all preventive maintenance (PM) and safety and performance inspections (SPI) work on capital equipment and non-capital devices. Only count work orders completed and closed during the reporting period, not orders placed with the department but not yet complete. If a repair overlaps reporting periods, count the repair during the first reporting period in which it was at least 50 percent complete.

This is a subset of Service Orders Completed.

Service Orders Completed

The total number of service orders on capital equipment and non-capital devices completed by department staff. Includes all scheduled and unscheduled (repairs and others) work orders. Each service order counts as a single workload unit regardless of the number of items serviced. Only count service orders completed and closed during the reporting period, not service orders placed with the department but not yet complete.
Biomedical Engineering Department Hours Elements

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Clinical Engineers and Biomedical Equip Techs**

Total hours worked by clinical engineers and biomedical equipment technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Biomedical Engineering Expense Elements

Contract Management Fee Expense
Total expense for external management of the department. Includes only management fees, if segregated, but not contract labor expense and cost of supplies, parts and material provided by the external management company. Excludes technical equipment insurance expense.

This is a subset of Other Direct Operating Expense.

Equipment Maintenance Contract Expense
Total expense for outside contractors to maintain major systems and equipment.

This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Operating Lease Expense
Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense
Total other direct operating expense with the exception of labor. Includes professional fees, department supplies, parts and materials used for maintenance, test and measurement equipment calibration and repairs, education and training, membership dues, travel, subscriptions, etc. Exclude equipment rental fees, small (non-capitalized) equipment purchase, depreciation, building rent expense, utilities, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.
This is a subset of Labor Expense.

**Parts and Material Expense**

Total expense for parts and material for the maintenance of capital equipment and non-capital devices. Includes items purchased by all departments (Biomed and Users), regardless to where they are eventually charged. Parts and materials includes, but is not limited to: components, sub-assemblies, printed circuit boards, transducers, x-ray tubes, photo multipliers, and crystals. Excludes interdepartmental transfers of parts and materials expense, and supplies reported in Supply Expense.

This is a subset of Other Direct Operating Expense.

**Supply Expense**

Total expense for department operating supplies that have not been included in Parts and Material below. Includes basic hardware, chemicals, office supplies, etc. that are used for multiple devices and equipment.

This is a subset of Other Direct Operating Expense.

**Biomedical Engineering Mandatory Elements**

The following data elements are mandatory for this department:

- Capital Equipment Maintained
- Cost of Capital Equipment
- Equipment and Devices Maintained
- Hospital Beds Served
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Biomedical Engineering Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:
• Clinical Engineer and/or Biomedical Technician

• Personnel performing the functions of the department’s day to day managerial operations (Facility)

• Repair and Maintenance of Clinical Equipment/Rooms

• Repair and maintenance of patient beds and other clinical equipment

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, office coordination, scheduling. (Facility Services)

• Cleaning of ventilators

• Personnel performing the functions of administrative and managerial operations oversight for the departments within the series (Facility)

**05099, Facility Services Administration**

This department performs the overall administrative and general support tasks for the entire Facility Services series. These tasks and functions include, but are not limited to design, management, and control of functions, such as plant operations, plant maintenance, ground maintenance, biomedical engineering, and facilities improvement and modification.

**Facility Services Administration Workload Volumes**

**Adjusted Discharges Supported**

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

**Gross Square Feet Maintained**

Report the total gross square feet of the plant routinely maintained by the department staff. Use the external measurements of the hospital and free-standing buildings in the calculation. Also include building roof areas if they contain equipment that is accessed and maintained by the department staff. Exclude parking lots, parking structures, and grounds in this count. A warehouse occupied by inventory staff and equipped with a heating and cooling system should be included in the count. Do not include unoccupied buildings if they are not routinely maintained during the data period. For example, a property maintained only upon request should not be included in the count.
**Pieces of Equipment Maintained**

The total pieces of equipment receiving preventative maintenance by the department staff. Include all capital or non-capital equipment that routinely receives preventative maintenance. Preventative maintenance does not apply to equipment that is serviced only for repair order requests. Equipment must receive maintenance at least once per year to qualify. A master control log that the facility uses for providing cyclical preventative maintenance may provide this value. If equipment is serviced in modular fashion (that is, several components receive preventative maintenance independently instead of the item being serviced as a whole) count each component.

**Projects In Progress**

The total capital projects in progress during the report period. Projects in progress include active planning, architectural drawings, permits, and construction by the department during the report period. Include projects in progress from prior periods, as well as new projects started this period. Initiation starts from the time the department first becomes involved in architectural drawings, permits, or construction.

**Service Calls Supported**

The total user-requested and preventative maintenance work orders supported by department staff. This includes all equipment service calls completed on equipment that routinely receives preventative maintenance, plus all maintenance orders received from other user departments. Maintenance orders includes repairs of equipment and facility. If a repair overlaps reporting periods, count the repair during the reporting period that it is 100 percent complete. The following service calls are included: Routine service calls, preventative maintenance work orders, project requests (non-routine), miscellaneous requests (non-routine). For more information on devices maintained, refer to Pieces of Equipment Maintained.

**Facility Services Administration Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Facility Architect and Designer**

Total hours worked by architects, facility engineers, space planners and designers.

This is a subset of Worked Hours: Staff.
Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Facility Services Administration Expense Elements

Equipment Maintenance Contract Expense

Total expense for outside contractors to maintain major systems and equipment.

This is a subset of Other Direct Operating Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.
This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Facility Services Administration Mandatory Elements**

The following data elements are mandatory for this department:

- Gross Square Feet Maintained
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Facility Services Administration Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, office coordination, scheduling. (Facility Services)
Personnel performing the functions of administrative and managerial operations oversight for the departments within the series (Facility)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

Personnel performing the functions of the department’s day to day managerial operations (Facility)

**F5000, Facility Operations and Maintenance Functional Rollup Department**

This department includes all facilities administration, plant and grounds maintenance, plant operations/utilities, biomedical engineering, and facility improvement and modification functions regardless of reporting relationship.

**FOM Functional Rollup Workload Volumes**

**Acres of Grounds Maintained**

The total acreage of grounds maintained by the department staff. (Department staff includes any hours reported in the Non-Payroll Paid Hours). Include the area that is maintained, cleaned, or landscaped by department staff. Include parking lots or parking structures (single or multi-level) if maintained by the department.

**Adjusted Discharges Supported**

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

**Gross Square Feet Maintained**

Report the total gross square feet of the plant routinely maintained by the department staff. Use the external measurements of the hospital and free-standing buildings in the calculation. Also include building roof areas if they contain equipment that is accessed and maintained by the department staff. Exclude parking lots, parking structures, and grounds in this count. A warehouse occupied by inventory staff and equipped with a heating and cooling system should be included in the count. Do not include unoccupied buildings if they are not routinely maintained during the data period. For example, a property maintained only upon request should not be included in the count.
**Pieces of Equipment Maintained**

The total pieces of equipment receiving preventative maintenance by the department staff. Include all capital or non-capital equipment that routinely receives preventative maintenance. Preventative maintenance does not apply to equipment that is serviced only for repair order requests. Equipment must receive maintenance at least once per year to qualify. A master control log that the facility uses for providing cyclical preventative maintenance may provide this value. If equipment is serviced in modular fashion (that is, several components receive preventative maintenance independently instead of the item being serviced as a whole) count each component.

**Pieces of Equipment Maintained by Engineering Staff**

The total pieces of equipment requiring preventative maintenance maintained by engineering staff.

This is a subset of Pieces of Equipment Maintained.

**Service Calls Completed**

Total user-requested and preventative maintenance work orders completed.

**FOM Functional Rollup Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Clinical Engineers and Biomedical Equip Techs**

Total hours worked by clinical engineers and biomedical equipment technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: Construction Worker**

Total hours worked by construction workers engaged in facility improvement and modification projects.

This is a subset of Worked Hours: Staff.
**Worked Hours: Facility Architect and Designer**

Total hours worked by architects, facility engineers, space planners and designers.

This is a subset of Worked Hours: Staff.

**Worked Hours: Maintenance Worker**

Total hours worked by maintenance workers.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Stationary Engineer**

Total hours worked by stationary engineers. A stationary engineer is an operator of boilers, steam turbines, auxiliary equipment (i.e. air compressors/pumps) or refrigeration machinery.

This is a subset of Worked Hours: Staff.
FOM Functional Rollup Expense Elements

Building Automation And Fire Extinguishing System Expense
Total building automation and fire extinguishing system expense.

This is a subset of Equipment Repair and Maintenance Expense.

Building Structure And Grounds Expense
Total building structure and grounds expense.

This is a subset of Equipment Maintenance Contract Expense.

Equipment Maintenance Contract Expense
Total expense for outside contractors to maintain major systems and equipment.

This is a subset of Other Direct Operating Expense.

HVAC And Plumbing System Expense
Total HVAC and plumbing system expense.

This is a subset of Equipment Maintenance Contract Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Maintenance Supply Expense
Total expense for stocked and non-stocked maintenance supplies.

This is a subset of Supply Expense.

Normal And Emergency Electrical System Expense
Total normal and emergency electrical systems expense.

This is a subset of Equipment Maintenance Contract Expense.
Operating Lease Expense
Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Supply Expense
Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Utility Expense
Total expense related to energy usage (e.g. electric, gas, water, sewer) for the reporting period for the entire organization supported.

This expense is not included in Other Direct Operating Expense.

Waste Disposal System Expense
Total waste disposal system expense.

This is a subset of Equipment Repair and Maintenance Expense.

FOM Functional Rollup Department Mandatory Elements
The following data elements are mandatory for this department:

- Gross Square Feet Maintained
• Labor Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Staff
• Worked Hours: Staff

G5000, Other Facility Services

This generic department includes all cost centers belonging to Facilities Operations and Maintenance Services that cannot be mapped to a more specific operations and maintenance department.

Other Facility Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Other Facility Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Clinical Engineers and Biomedical Equip Techs

Total hours worked by clinical engineers and biomedical equipment technicians.
This is a subset of Worked Hours: Staff.

**Worked Hours: Construction Worker**
Total hours worked by construction workers engaged in facility improvement and modification projects.

This is a subset of Worked Hours: Staff.

**Worked Hours: Facility Architect and Designer**
Total hours worked by architects, facility engineers, space planners and designers.

This is a subset of Worked Hours: Staff.

**Worked Hours: Maintenance Worker**
Total hours worked by maintenance workers.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**
Represents the sum of non-physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Stationary Engineer**

Total hours worked by stationary engineers. A stationary engineer is an operator of boilers, steam turbines, auxiliary equipment (i.e. air compressors/pumps) or refrigeration machinery.

This is a subset of Worked Hours: Staff.

**Other Facility Services Expense Elements**

**Building Automation And Fire Extinguishing System Expense**

Total building automation and fire extinguishing system expense.

This is a subset of Equipment Repair and Maintenance Expense.

**Building Structure And Grounds Expense**

Total building structure and grounds expense.

This is a subset of Equipment Maintenance Contract Expense.

**Equipment Maintenance Contract Expense**

Total expense for outside contractors to maintain major systems and equipment.

This is a subset of Other Direct Operating Expense.

**HVAC And Plumbing System Expense**

Total HVAC and plumbing system expense.

This is a subset of Equipment Maintenance Contract Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor.

Include on call or standby expense. Exclude benefits such as FICA.

**Maintenance Supply Expense**

Total expense for stocked and non-stocked maintenance supplies.
This is a subset of Supply Expense.

Normal And Emergency Electrical System Expense
Total normal and emergency electrical systems expense.
This is a subset of Equipment Maintenance Contract Expense.

Operating Lease Expense
Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.
This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.
This is a subset of Labor Expense.

Supply Expense
Total expense for department operating supplies.
This is a subset of Other Direct Operating Expense.

Utility Expense
Total expense related to energy usage (e.g. electric, gas, water, sewer) for the entire organization supported for the reporting period. Report a zero here if your facility has either the 05001, Plant Operations / Plant Maintenance and Grounds department or the 05020, Plant Operations department.
This expense is not included in Other Direct Operating Expense.

Waste Disposal System Expense
Total waste disposal system expense.
This is a subset of Equipment Repair and Maintenance Expense.

**Other Facility Services Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Other Facility Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Clinical Engineer and/or Biomedical Technician
- Disposal costs of all waste materials
- Exterior cleanup, e.g., snow removal, leaf and debris cleanup from sidewalks, driveways, parking lots and structures
- Exterior trash pickup, e.g., sidewalks, driveways, parking lots and structures
- Grounds/Landscaping
- Interior painting
- Operation of hospital incinerator
- Personnel performing the functions of administrative and managerial operations oversight for the departments within the series (Facility)
- Pest control (this may be a purchased service)
- Repair and Maintenance of Clinical Equipment/Rooms
- Repair and maintenance of patient beds and other clinical equipment
- Waste removal/hauling from an onsite, centralized location, e.g., dumpster to an offsite location: landfill, waste management facility, incinerator
Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, office coordination, scheduling. (Facility Services)
- Collection of waste throughout the hospital and delivery to a central collection point including preparation/decontamination for disposal
- Drivers of patient shuttles
- Moving and rearranging of furniture and office equipment (for the purposes of cleaning floors and carpets)
- Operation of hospital parking garage and valet parking program
- Personnel performing the functions of administrative and managerial oversight operations (Facility)
- Routine mopping, waxing/buffing floors, stripping/refinishing floors and wall/ceiling cleaning

I5000, Facilities Operations and Maintenance Intermediate Rollup

This intermediate rollup is automatically created when a department instance is created for 05001, Plant Operations, Plant Maintenance and Grounds department; 05010, Plant Maintenance and Grounds department; and 05020, Plant Operations department; in order to provide appropriate sample sizes for comparative analysis based on defined compare groups. It includes all functions related to the repair and preventative maintenance of power plant, major systems and related equipment (such as HVAC systems, plumbing, building automation, electrical systems, and medical gases), the physical plant, and grounds. Clinical Engineering or facility improvement and modification functions are not included.

Facilities Operations and Maintenance Intermediate Rollup Workload Volumes

Acres of Grounds Maintained

The total acreage of grounds maintained by the department staff. (Department staff includes any hours reported in the Non-Payroll Paid Hours). Include the area that is maintained, cleaned, or landscaped by department staff. Include parking lots or parking structures (single or multi-level) if maintained by the department.
Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Gross Square Feet Maintained

Total gross area of plant routinely maintained.

Miscellaneous Requests (Non Routine)

Total user-requested and preventative unscheduled maintenance work orders completed during the reporting period.

This is a subset of Service Calls Completed.

Pieces of Equipment Maintained

The total pieces of equipment receiving preventative maintenance by the department staff. Include all capital or non-capital equipment that routinely receives preventative maintenance. Preventative maintenance does not apply to equipment that is serviced only for repair order requests. Equipment must receive maintenance at least once per year to qualify. A master control log that the facility uses for providing cyclical preventative maintenance may provide this value. If equipment is serviced in modular fashion (that is, several components receive preventative maintenance independently instead of the item being serviced as a whole) count each component.

Preventative Maintenance Work Orders

The total preventative maintenance work orders completed by division staff. This includes all equipment service calls completed on equipment that routinely receives preventative maintenance. Maintenance orders includes repairs of equipment and facility. If a repair overlaps reporting periods, count the repair during the first reporting period that it’s at least 50 percent complete.

This is a subset of Routine Service Calls.

Project Requests (Non Routine)

Total number of non routine project request for the reporting period.

This is a subset of Service Calls Completed.
Routine Service Calls

The total preventative maintenance work orders completed by division staff. This includes all equipment service calls completed on equipment that routinely receives preventative maintenance. Include routine service calls and preventative maintenance work order Project requests.

This is a subset of Service Calls Completed.

Service Calls Completed

Total user-requested and preventative maintenance work orders completed.

Facilities Operations and Maintenance Intermediate Rollup Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Maintenance Worker

Total hours worked by maintenance workers.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Stationary Engineer**

Total hours worked by stationary engineers. A stationary engineer is an operator of boilers, steam turbines, auxiliary equipment (i.e. air compressors/pumps) or refrigeration machinery.

This is a subset of Worked Hours: Staff.

**Facilities Operations and Maintenance Intermediate Rollup Expense Elements**

**Building Automation And Fire Extinguishing System Expense**

Total building automation and fire extinguishing systems expense.

This is a subset of Equipment Maintenance Contract Expense.

**Building Structure And Grounds Expense**

Total building structure and grounds expense.

This is a subset of Equipment Maintenance Contract Expense.

**Equipment Maintenance Contract Expense**

Total expense for outside contractors to maintain major systems and equipment.

This is a subset of Other Direct Operating Expense.

**HVAC And Plumbing System Expense**

Total HVAC and plumbing system expense.
This is a subset of Equipment Maintenance Contract Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Maintenance Supply Expense
Total expense for stocked and non-stocked maintenance supplies.

This is a subset of Supply Expense.

Normal And Emergency Electrical System Expense
Total normal and emergency electrical systems expense.

This is a subset of Equipment Maintenance Contract Expense.

Operating Lease Expense
Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense
Total other direct operating expense that includes professional fees, department supplies, equipment rental fees, operating leases for equipment, dues, travel and small (non-capitalized) equipment. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Service Contracts Expense
Total expense for all purchased service contracts used to perform department functions during the reporting period.

This is a subset of Other Direct Operating Expense.
Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Utility Expense

Total expense related to energy usage (e.g. electric, gas, water, sewer) for the entire organization supported for the reporting period. Report a zero here if your facility has either the 05001, Plant Operations / Plant Maintenance and Grounds department or the 05020, Plant Operations department.

This expense is not included in Other Direct Operating Expense.

Waste Disposal System Expense

Total waste disposal system expense.

This is a subset of Equipment Repair and Maintenance Expense.

Facilities Operations and Maintenance Intermediate Rollup Mandatory Elements

The following data elements are mandatory for this department:

- Gross Square Feet Maintained
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff
Chapter 15. Fiscal Services

For an annotated list of Characteristic Questions for this series, please see the ActionOI support page.

This chapter includes the following sections:

- 05410, Combined Fiscal Services 654
- 05411, Payroll Services 660
- 05412, Accounts Payable 665
- 05415, General Accounting Services 669
- 05420, Financial Decision Support and Planning 673
- F5400, Fiscal Services Functional Rollup 677
- G5400, Other Fiscal Services 683

05410, Combined Fiscal Services

This department performs all general accounting, financial planning and budgeting functions and financial decision support function. General Accounting may include general financial operations, accounts payable, payroll, preparation of periodic financial reports, posting journal entries, reconciling accounts, treasury and cash management, capital tracking and asset management, reimbursement analysis, cost reporting, and internal auditing. Financial Planning may include operating and capital budget preparation, variance analysis and reporting, financial and operational benchmarking, cost accounting, profitability analyses, financial long-range and strategic planning (not market research), productivity monitoring, financial decision support, and updates to financial information system tables and definitions.

Combined Fiscal Services Mapping Guidelines

If your organization has separate and distinct cost centers for general accounting, payroll, accounts payable and financial decision support & planning, map to the appropriate individual departments. If you use this department, do not create a primary instance of 05411, Payroll department; 05412, Accounts Payable department; 05415, General Accounting department; or 05420, Financial Decision Support and Planning department.
Combined Fiscal Services Workload Volumes

Accounts Payable Invoices Processed

Total invoices processed for payment of goods and services received. Count each presentation for payment received from vendors or others requesting payment. Typically, a facility will assign a voucher number to each invoice received. If they are numbered sequentially, have no gaps, and cover all items presented for payment, you may subtract the beginning number from the ending number for the reporting period. A statement from a vendor may be counted as an invoice if it does not duplicate previously vouchered invoices. Others requesting payment may include employee reimbursements, patient refunds, and others processed by accounts payable. The staff should do at least 80 percent of the invoice processing from point of receipt to production of actual check.

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Cost Centers Maintained

Number of active cost centers that the organization has for the reporting period. This number represents cost centers that require annual budgets, periodic variance analysis and reporting.

Cost Reports Prepared

The number of cost reports prepared for the reporting period. This includes cost reports required by Medicare, Medicaid, and other third party payers.

Gross Revenue Supported

Total dollar revenue receivable for inpatient, outpatient, non patient and external services and products supported by the department. Include revenue (non-operating) not directly related to patient care or generated in the day to day operations of the business units (donations, interest income from investments of unrestricted funds, gains on sale of property, grants, gifts and bonds, research funds, etc.).

Internal Audits Prepared

Number of internal audits performed during the reporting period. This may include performing specific audit procedures and preparing audit reports.
Payroll Check Runs

Number of regularly scheduled payroll check runs, excluding supplemental runs.

Payroll Checks/Direct Deposits Issued

Total regular and special payroll distributions issued. Count the number of checks resulting from this department's processing of payroll data. Include both regular cycle and special out-of-cycle checks. If the department only distributes the checks, report zero. The department has to perform at least 80 percent of the activities required from the point of hours accumulation processing (via time card or other means) to actual production of the payroll document (paper check or electronic direct deposit).

Sets of Accounting Records Maintained

Total discrete hospital and or organizational entities whose financial records are maintained by fiscal services staff. Count the sets of books that drive separate Statement of Revenue and Expenses (e.g., profit and loss). For example, a facility may have one corporate set of assets/liabilities and produce only one Statement of Financial Position. However, if it has three hospitals each with separate Statement of Revenue and Expenses, the count would be three sets of accounting records maintained.

Total Operating Expenses Supported

Represents the total labor expense, total supply expense, and total other operating expense for the organization.

Combined Fiscal Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
**Worked Hours: Accounts Payable Staff**

Total hours worked by accounts payable staff that support the processing of invoices, paying suppliers and other accounts payable functions.

This is a subset of Worked Hours: Staff.

**Worked Hours: Financial Analyst**

Total hours worked by financial analysis staff that track financial status by monitoring variances from budget, assemble and summarize data and prepare reports of findings, analyses, and recommendations.

This is a subset of Worked Hours: Staff.

**Worked Hours: Financial Control**

Total hours worked by financial management, financial planning, budget, reimbursement, internal audit, and management engineering staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: General Accounting Staff**

Total hours worked by general accounting staff that support general financial operations, preparation of periodic financial reports, reconciling of accounts and other general accounting functions.

This is a subset of Worked Hours: Staff.

**Worked Hours: Internal Auditor**

Total hours worked by internal auditing staff that support compliance with established internal control procedures by examining records, reports, operating practices, and documentation.

**Worked Hours: Management**

Total hours worked by management and supervisory staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
Worked Hours: Payroll Staff

Total hours worked by payroll staff that prepare payroll, distribute payroll funds and other payroll functions.

This is a subset of Worked Hours: Staff.

Worked Hours: Report Writer

Total hours worked by report writing staff with responsibility for developing customized reports from databases to extract and collect data according to customer needs. Building and repairing data reports and software applications are primary duties as well as proper testing of applications and analyzing statistics and other metrics.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Combined Fiscal Services Expense Elements

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Supply Expense

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.
This is a subset of Other Direct Operating Expense.

**Combined Fiscal Services Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Sets of Accounting Records Maintained
- Worked Hours: Staff

**Combined Fiscal Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Accounts Payable processing
- Budget Preparation (Operational, Capital, etc)
- Capital Tracking and Asset Management
- Financial Decision Support, e.g., variance analysis, benchmarking, cost accounting, profitability analysis (Pro Formas), productivity monitoring updates to financial information systems
- Internal Auditing
- Payroll processing and distribution
- Reimbursement Management, e.g., preparation of the annual Medicare and Medicaid cost reports, regular reimbursement related filings, preparation of monthly statistical summaries and special reimbursement projects
- Time and attendance system management
- Treasury and Cash Management

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Cashiering services, e.g., collection of payments for previously billed services
• Collection fees, e.g., fees paid to an outside party to collect outstanding bills owed

• Hospital chargemaster maintenance

• Legal fees incurred for collection of patient accounts

• Medical Plan Contracting - The contracting, tracking of contracts, and financial support for negotiations

• Patient billing - the processing of patient claims for reimbursement, submission of claims to payer. This does not include charge capture.

• Position Control

• Rate-Setting, e.g., develop and implement rates for the organization

05411, Payroll Services

This department performs the payroll function which may include payroll preparation, distribution of payroll funds, time and attendance system management, processing of wage garnishments, withholdings and other deductions, creation of PTO accruals and preparation of remittances for voluntary deductions. This department does not include position control functions, benefit administration or workers compensation administration.

Payroll Services Mapping Guidelines

If less than 80% of the cost center's activity relates to payroll services, use an alternate department. Options include the 05410, Combined Fiscal Services department or G5400, Other Fiscal Services department. If you use this department, do not create a primary instance of 05410, Combined Fiscal Services department.

Payroll Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
Average Paid Employees Supported

Average employee headcount that was supported by department staff during the reporting period.

Note: The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

Bargaining Unit Contracts Administered

Number of bargaining unit contracts that are administered by the department. A bargaining unit contract commonly represents an agreement with a trade union that may include wage rates, working hours, overtime, etc.

Payroll Check Runs

Number of regularly scheduled payroll check runs, excluding supplemental runs.

Payroll Checks/Direct Deposits Issued

Total regular and special payroll distributions issued. Count the number of checks resulting from this department's processing of payroll data. Include both regular cycle and special out-of-cycle checks. If the department only distributes the checks, report zero. The department has to perform at least 80 percent of the activities required from the point of hours accumulation processing (via time card or other means) to actual production of the payroll document (paper check or electronic direct deposit).

Payroll Corrections

Total corrections made to initial payroll documents resulting in multiple handling of a payroll account. Count the number of corrections required to correctly pay your employees. The error may result in issue of a special check or the corrected pay may be deferred to the next regular payroll cycle. The correction may be due to either payroll department error or a department submitting incorrect data to the payroll department.

Special/Manual Payroll Checks Issued

Total non-routine payroll checks distributed. Count the payroll checks processed outside of the regular payroll cycle. These may be for corrected pay, vacation advances, bonuses, and so on (paper check or electronic direct deposit).

This is a subset of Payroll Checks/Direct Deposits Issued.
Payroll Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Payroll Staff

Total hours worked by payroll staff that prepare payroll, distribute payroll funds and other payroll functions.

This is a subset of Worked Hours: Staff.
**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Payroll Services Expense Elements

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Supply Expense

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

Payroll Services Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Payroll Checks Issued
- Worked Hours: Staff
Payroll Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Payroll processing and distribution
- Time and attendance system management

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administration of Compensation and Benefits, e.g., job description preparation, analysis, and evaluation, conducting salary surveys, performing employee benefits management, employee enrollment, plan administration, and record keeping
- Position Control
- Workers Compensation Administration

05412, Accounts Payable

This department performs accounts payable services which may include the processing of invoices, paying the organization's suppliers, maintaining vendor contact information, payment terms and IRS W-9 information, processing internal reimbursements (i.e. expense reports) and creating periodic analysis reports.

Accounts Payable Mapping Guidelines

If less than 80% of the cost center's activity relates to accounts payable services, use an alternate department. Options include the 05410, Combined Fiscal Services department or G5400, Other Fiscal Services department. If you use this department, do not create a primary instance of 05410, Combined Fiscal Services department.

Accounts Payable Workload Volumes

Accounts Payable Distributions (Payouts)

Number of regularly scheduled accounts payable distributions performed during the period.
**Accounts Payable Invoices Processed**

Total invoices processed for payment of goods and services received. Count each presentation for payment received from vendors or others requesting payment. Typically, a facility will assign a voucher number to each invoice received. If they are numbered sequentially, have no gaps, and cover all items presented for payment, you may subtract the beginning number from the ending number for the reporting period. A statement from a vendor may be counted as an invoice if it does not duplicate previously vouchered invoices. Others requesting payment may include employee reimbursements, patient refunds, and others processed by accounts payable. The staff should do at least 80 percent of the invoice processing from point of receipt to production of actual check.

**Adjusted Discharges Supported**

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

**Gross Revenue Supported**

Total dollar revenue receivable for inpatient, outpatient, non patient and external services and products supported by the department. Include revenue (non-operating) not directly related to patient care or generated in the day to day operations of the business units (donations, interest income from investments of unrestricted funds, gains on sale of property, grants, gifts and bonds, research funds, etc.).

**Purchase Order Line Items Processed**

Number of purchase order line items processed during the reporting period.

**Total Operating Expenses Supported**

Represents the total labor expense, total supply expense, and total other operating expense for the organization.

**Vendors Supported**

Number of vendors supported during the reporting period. This may include vendors payments, vendor approval and setups, or vendor maintenance.

**Accounts Payable Department Hour Elements**
**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Accounts Payable Staff**

Total hours worked by accounts payable staff that support the processing of invoices, paying suppliers and other accounts payable functions.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non-physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Accounts Payable Expense Elements**
**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

**Accounts Payable Mandatory Elements**

The following elements are mandatory for this department.

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Accounts Payable Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Accounts Payable processing
05415, General Accounting Services

This department performs general accounting services that may include general financial operations, preparation of periodic financial reports, posting of journal entries, reconciling of accounts, treasury and cash management, capital tracking and asset management, cost reporting, internal auditing, and reimbursement analysis.

General Accounting Services Mapping Guidelines

If less than 80% of the cost center's activity relates to general accounting services, use an alternate department. Options include the 05410, Combined Fiscal Services department or G5400, Other Fiscal Services department. If you use this department, do not create a primary instance of 05410, Combined Fiscal Services department.

General Accounting Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Cost Centers Maintained

Number of active cost centers that the organization has for the reporting period. This number represents cost centers that require annual budgets, periodic variance analysis and reporting.

Cost Reports Prepared

The number of cost reports prepared for the reporting period. This includes cost reports required by Medicare, Medicaid, and other third party payers.

Gross Revenue Supported

Total dollar revenue receivable for inpatient, outpatient, non patient and external services and products supported by the department. Include revenue (non-operating) not directly related to patient care or generated in the day to day operations of the business units (donations, interest income from investments of unrestricted funds, gains on sale of property, grants, gifts and bonds, research funds, etc.).
**Internal Audits Prepared**

Number of internal audits performed during the reporting period. This may include performing specific audit procedures and preparing audit reports.

**Sets of Accounting Records Maintained**

Total discrete hospital and or organizational entities whose financial records are maintained by fiscal services staff. Count the sets of books that drive separate Statement of Revenue and Expenses (e.g., profit and loss). For example, a facility may have one corporate set of assets/liabilities and produce only one Statement of Financial Position. However, if it has three hospitals each with separate Statement of Revenue and Expenses, the count would be three sets of accounting records maintained.

**Total Operating Expenses Supported**

Represents the total labor expense, total supply expense, and total other operating expense for the organization.

**General Accounting Services Department Hour Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: General Accounting Staff**

Total hours worked by general accounting staff that support general financial operations, preparation of periodic financial reports, reconciling of accounts and other general accounting functions.

This is a subset of Worked Hours: Staff.

**Worked Hours: Internal Auditor**

Total hours worked by internal auditing staff that support compliance with established internal control procedures by examining records, reports, operating practices, and documentation.
Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

General Accounting Services Expense Elements

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

Supply Expense

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

General Accounting Services Mandatory Elements

The following elements are mandatory for this department.

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Sets of Accounting Records Maintained
- Worked Hours: Staff

General Accounting Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Capital Tracking and Asset Management
- Internal Auditing
- Reimbursement Management, e.g., preparation of the annual Medicare and Medicaid cost reports, regular reimbursement related filings, preparation of monthly statistical summaries and special reimbursement projects
- Treasury and Cash Management

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Accounts Payable processing
• Budget Preparation (Operational, Capital, etc)
• Cashiering services, e.g., collection of payments for previously billed services
• Financial Decision Support, e.g., variance analysis, benchmarking, cost accounting, profitability analysis (Pro Formas), productivity monitoring updates to financial information systems
• Hospital chargemaster maintenance
• Medical Plan Contracting - The contracting, tracking of contracts, and financial support for negotiations
• Payroll processing and distribution
• Rate-Setting, e.g., develop and implement rates for the organization

05420, Financial Decision Support and Planning

This department performs financial decision support and planning services which may include operating and capital budget preparation, variance analysis and reporting, financial and operational benchmarking, cost accounting, profitability analysis (Pro Formas), financial long-range and strategic planning (not market research), productivity monitoring, financial decision support and updates to financial information system tables and definitions.

Financial Decision Support and Planning Mapping Guidelines

If less than 80% of the cost center's activity relates to financial decision support and planning services, use an alternate department. Options include the 05410, Combined Fiscal Services department or G5400, Other Fiscal Services department. If you use this department, do not create a primary instance of 05410, Combined Fiscal Services department.

Financial Decision Support and Planning Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
Cost Centers Maintained

Number of active cost centers that the organization has for the reporting period. This number represents cost centers that require annual budgets, periodic variance analysis and reporting.

Financial Pro Forma Analyses Prepared

Total financial pro-forma analyses prepared in support of proposed business plans. Includes, at a minimum, a detailed projected profit/loss and cash flow analysis of the proposed business venture. Do not count the number of times an analysis needs rework due to changed assumptions, for example. Each business plan can have only one set of analyses.

Gross Revenue Supported

Total dollar revenue receivable for inpatient, outpatient, non patient and external services and products supported by the department. Include revenue (non-operating) not directly related to patient care or generated in the day to day operations of the business units (donations, interest income from investments of unrestricted funds, gains on sale of property, grants, gifts and bonds, research funds, etc.).

Sets of Accounting Records Maintained

Total discrete hospital and or organizational entities whose financial records are maintained by fiscal services staff. Count the sets of books that drive separate Statement of Revenue and Expenses (e.g., profit and loss). For example, a facility may have one corporate set of assets/liabilities and produce only one Statement of Financial Position. However, if it has three hospitals each with separate Statement of Revenue and Expenses, the count would be three sets of accounting records maintained.

Total Operating Expenses Supported

Represents the total labor expense, total supply expense, and total other operating expense for the organization.

Financial Decision Support and Planning Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.
**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Financial Analyst**

Total hours worked by financial analysis staff that track financial status by monitoring variances from budget, assemble and summarize data and prepare reports of findings, analyses, and recommendations.

This is a subset of Worked Hours: Staff.

**Worked Hours: Financial Control**

Total hours worked by financial management, financial planning, budget, reimbursement, and decision support staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Report Writer**

Total hours worked by report writing staff with responsibility for developing customized reports from databases to extract and collect data according to customer needs. Building and repairing data reports and software applications are primary duties as well as proper testing of applications and analyzing statistics and other metrics.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Financial Decision Support and Planning Expense Elements

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Supply Expense
Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

Financial Decision Support and Planning Mandatory Elements
The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Sets of Accounting Records Maintained
- Worked Hours: Staff
Financial Decision Support Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Budget Preparation (Operational, Capital, etc)
- Financial Decision Support, e.g., variance analysis, benchmarking, cost accounting, profitability analysis (Pro Formas), productivity monitoring updates to financial information systems

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Hospital chargemaster maintenance
- Medical Plan Contracting - The contracting, tracking of contracts, and financial support for negotiations
- Performance Improvement, e.g., time spent on creating, planning, implementing, researching and driving organizational operational changes
- Rate-Setting, e.g., develop and implement rates for the organization

F5400, Fiscal Services Functional Rollup

This rollup department includes all fiscal services administration, general accounting services, accounts payable, payroll, budget, reimbursement and financial decision support and planning regardless of reporting relationship.

Fiscal Services Functional Rollup Workload Volumes

Accounts Payable Distributions (Payouts)

Number of regularly scheduled accounts payable distributions performed during the period.

Accounts Payable Invoices Processed

Total invoices processed for payment of goods and services received. Count each presentation for payment received from vendors or others requesting payment. Typically, a facility will assign a voucher number to each invoice received. If they are numbered sequentially, have no gaps, and cover all items presented for payment, you may subtract the beginning number from the ending number for the reporting period. A statement from a vendor may be counted as an invoice if it does not duplicate previously vouchered invoices. Others requesting payment may include employee reimbursements, patient refunds, and others processed by accounts payable. The staff should do at least 80 percent of the invoice processing from point of receipt to production of actual check.
Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non-hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Average Paid Employees Supported

Average employee headcount that was supported by department staff during the reporting period.

Note: The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

Bargaining Unit Contracts Administered

Number of bargaining unit contracts that are administered by the department. A bargaining unit contract commonly represents and agreement with a trade union that may include wage rates, working hours, overtime, etc.

Cost Centers Maintained

Number of active cost centers that the organization has for the reporting period. This number represents cost centers that require annual budgets, periodic variance analysis and reporting.

Cost Reports Prepared

The number of cost reports prepared for the reporting period. This includes cost reports required by Medicare, Medicaid, and other third party payers.

Financial Pro Forma Analyses Prepared

Total financial pro-forma analyses prepared in support of proposed business plans. Includes, at a minimum, a detailed projected profit/loss and cash flow analysis of the proposed business venture. Do not count the number of times an analysis needs rework due to changed assumptions, for example. Each business plan can have only one set of analyses.

Gross Revenue Supported

Total dollar revenue receivable for inpatient, outpatient, non patient and external services and products supported by the department. Include revenue (non-operating) not directly related to patient care or generated in the day to day operations of the business units (donations, interest income from investments of unrestricted funds, gains on sale of property, grants, gifts and bonds, research funds, etc.).
**Internal Audits Prepared**
Number of internal audits performed during the reporting period. This may include performing specific audit procedures and preparing audit reports.

**Payroll Check Runs**
Number of regularly scheduled payroll check runs, excluding supplemental runs.

**Payroll Checks/Direct Deposits Issued**
Total regular and special payroll distributions issued. Count the number of checks resulting from this department's processing of payroll data. Include both regular cycle and special out-of-cycle checks. If the department only distributes the checks, report zero. The department has to perform at least 80 percent of the activities required from the point of hours accumulation processing (via time card or other means) to actual production of the payroll document (paper check or electronic direct deposit).

**Payroll Corrections**
Total corrections made to initial payroll documents resulting in multiple handling of a payroll account. Count the number of corrections required to correctly pay your employees. The error may result in issue of a special check or the corrected pay may be deferred to the next regular payroll cycle. The correction may be due to either payroll department error or a department submitting incorrect data to the payroll department.

**Purchase Order Line Items Processed**
Number of purchase order line items processed during the reporting period.

**Sets of Accounting Records Maintained**
Total discrete hospital and or organizational entities whose financial records are maintained by fiscal services staff. Count the sets of books that drive separate Statement of Revenue and Expenses (e.g., profit and loss). For example, a facility may have one corporate set of assets/liabilities and produce only one Statement of Financial Position. However, if it has three hospitals each with separate Statement of Revenue and Expenses, the count would be three sets of accounting records maintained.

**Special/Manual Payroll Checks Issued**
Total non-routine payroll checks distributed. Count the payroll checks processed outside of the regular payroll cycle. These may be for corrected pay, vacation advances, bonuses, and so on (paper check or electronic direct deposit).

This is a subset of Payroll Checks/Direct Deposits Issued.
Total Operating Expenses Supported

Represents the total labor expense, total supply expense, and total other operating expense for the organization.

Vendors Supported

Number of vendors supported during the reporting period. This may include vendors payments, vendor approval and setups, or vendor maintenance.

Fiscal Services Functional Rollup Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Accounts Payable Staff

Total hours worked by accounts payable staff that support the processing of invoices, paying suppliers and other accounts payable functions.

This is a subset of Worked Hours: Staff.

Worked Hours: Financial Analyst

Total hours worked by financial analysis staff that track financial status by monitoring variances from budget, assemble and summarize data and prepare reports of findings, analyses, and recommendations.

This is a subset of Worked Hours: Staff.
Worked Hours: Financial Control
Total hours worked by financial management, financial planning, budget, reimbursement, internal audit, and management engineering staff.

This is a subset of Worked Hours: Staff.

Worked Hours: General Accounting Staff
Total hours worked by general accounting staff that support general financial operations, preparation of periodic financial reports, reconciling of accounts and other general accounting functions.

This is a subset of Worked Hours: Staff.

Worked Hours: Internal Auditor
Total hours worked by internal auditing staff that support compliance with established internal control procedures by examining records, reports, operating practices, and documentation.

Worked Hours: Management
Total hours worked by management and supervisory staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Payroll Staff
Total hours worked by payroll staff that prepare payroll, distribute payroll funds and other payroll functions.

This is a subset of Worked Hours: Staff.

Worked Hours: Report Writer
Total hours worked by report writing staff with responsibility for developing customized reports from databases to extract and collect data according to customer needs. Building and repairing data reports and software applications are primary duties as well as proper testing of applications and analyzing statistics and other metrics.
This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Fiscal Services Functional Rollup Expense Elements**

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

**Fiscal Services Functional Rollup Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
• Paid Hours: Staff

• Sets of Accounting Records Maintained

• Worked Hours: Staff

G5400, Other Fiscal Services

If you have a cost center in this series that does not appropriately map to any of the individual departments, map to this department.

Other Fiscal Services Workload Volumes

Accounts Payable Distributions (Payouts)

Number of regularly scheduled accounts payable distributions performed during the period.

Accounts Payable Invoices Processed

Total invoices processed for payment of goods and services received. Count each presentation for payment received from vendors or others requesting payment. Typically, a facility will assign a voucher number to each invoice received. If they are numbered sequentially, have no gaps, and cover all items presented for payment, you may subtract the beginning number from the ending number for the reporting period. A statement from a vendor may be counted as an invoice if it does not duplicate previously vouchered invoices. Others requesting payment may include employee reimbursements, patient refunds, and others processed by accounts payable. The staff should do at least 80 percent of the invoice processing from point of receipt to production of actual check.

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Average Paid Employees Supported

Average employee headcount that was supported by department staff during the reporting period.

Note: The average number of pay checks generated may provide the means to associate the number of employees supported by the department.
Bargaining Unit Contracts Administered

Number of bargaining unit contracts that are administered by the department. A bargaining unit contract commonly represents and agreement with a trade union that may include wage rates, working hours, overtime, etc.

Cost Centers Maintained

Number of active cost centers that the organization has for the reporting period. This number represents cost centers that require annual budgets, periodic variance analysis and reporting.

Cost Reports Prepared

The number of cost reports prepared for the reporting period. This includes cost reports required by Medicare, Medicaid, and other third party payers.

Financial Pro Forma Analyses Prepared

Total financial pro-forma analyses prepared in support of proposed business plans. Includes, at a minimum, a detailed projected profit/loss and cash flow analysis of the proposed business venture. Do not count the number of times an analysis needs rework due to changed assumptions, for example. Each business plan can have only one set of analyses.

Gross Revenue Supported

Total dollar revenue receivable for inpatient, outpatient, non patient and external services and products supported by the department. Include revenue (non-operating) not directly related to patient care or generated in the day to day operations of the business units (donations, interest income from investments of unrestricted funds, gains on sale of property, grants, gifts and bonds, research funds, etc.).

Internal Audits Prepared

Number of internal audits performed during the reporting period. This may include performing specific audit procedures and preparing audit reports.

Payroll Check Runs

Number of regularly scheduled payroll check runs, excluding supplemental runs.

Payroll Checks/Direct Deposits Issued

Total regular and special payroll distributions issued. Count the number of checks resulting from this department's processing of payroll data. Include both regular cycle and special out-of-cycle checks. If the department only distributes the checks, report zero. The department has to perform at least 80 percent of the activities required from the point of hours accumulation processing (via time card or other means) to actual production of the payroll document (paper check or electronic direct deposit).
Payroll Corrections

Total corrections made to initial payroll documents resulting in multiple handling of a payroll account. Count the number of corrections required to correctly pay your employees. The error may result in issue of a special check or the corrected pay may be deferred to the next regular payroll cycle. The correction may be due to either payroll department error or a department submitting incorrect data to the payroll department.

Purchase Order Line Items Processed

Number of purchase order line items processed during the reporting period.

Sets of Accounting Records Maintained

Total discrete hospital and or organizational entities whose financial records are maintained by fiscal services staff. Count the sets of books that drive separate Statement of Revenue and Expenses (e.g., profit and loss). For example, a facility may have one corporate set of assets/liabilities and produce only one Statement of Financial Position. However, if it has three hospitals each with separate Statement of Revenue and Expenses, the count would be three sets of accounting records maintained.

Special/Manual Payroll Checks Issued

Total non-routine payroll checks distributed. Count the payroll checks processed outside of the regular payroll cycle. These may be for corrected pay, vacation advances, bonuses, and so on (paper check or electronic direct deposit).

This is a subset of Payroll Checks/Direct Deposits Issued.

Total Operating Expenses Supported

Represents the total labor expense, total supply expense, and total other operating expense for the organization.

Vendors Supported

Number of vendors supported during the reporting period. This may include vendors payments, vendor approval and setups, or vendor maintenance.

Other Fiscal Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Overtime**

Represents the sum of non-physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Accounts Payable Staff**

Total hours worked by accounts payable staff that support the processing of invoices, paying suppliers and other accounts payable functions.

This is a subset of Worked Hours: Staff.

**Worked Hours: Financial Analyst**

Total hours worked by financial analysis staff that track financial status by monitoring variances from budget, assemble and summarize data and prepare reports of findings, analyses, and recommendations.

This is a subset of Worked Hours: Staff.

**Worked Hours: Financial Control**

Total hours worked by financial management, financial planning, budget, reimbursement, internal audit, and management engineering staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: General Accounting Staff**

Total hours worked by general accounting staff that support general financial operations, preparation of periodic financial reports, reconciling of accounts and other general accounting functions.

This is a subset of Worked Hours: Staff.

**Worked Hours: Internal Auditor**

Total hours worked by internal auditing staff that support compliance with established internal control procedures by examining records, reports, operating practices, and documentation.
Worked Hours: Management

Total hours worked by management and supervisory staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Payroll Staff

Total hours worked by payroll staff that prepare payroll, distribute payroll funds and other payroll functions.

This is a subset of Worked Hours: Staff.

Worked Hours: Report Writer

Total hours worked by report writing staff with responsibility for developing customized reports from databases to extract and collect data according to customer needs. Building and repairing data reports and software applications are primary duties as well as proper testing of applications and analyzing statistics and other metrics.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Other Fiscal Services Expense Elements

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

**Other Fiscal Services Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Other Fiscal Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Accounts Payable processing
- Budget Preparation (Operational, Capital, etc)
- Capital Tracking and Asset Management
- Financial Decision Support, e.g., variance analysis, benchmarking, cost accounting, profitability analysis (Pro Formas), productivity monitoring updates to financial information systems
- Internal Auditing
- Payroll processing and distribution
• Reimbursement Management, e.g., preparation of the annual Medicare and Medicaid cost reports, regular reimbursement related filings, preparation of monthly statistical summaries and special reimbursement projects

• Treasury and Cash Management

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Cashiering services, e.g., collection of payments for previously billed services

• Collection fees, e.g., fees paid to a outside party to collect outstanding bills owed

• Hospital chargemaster maintenance

• Legal fees incurred for collection of patient accounts

• Medical Plan Contracting - The contracting, tracking of contracts, and financial support for negotiations

• Patient billing - the processing of patient claims for reimbursement, submission of claims to payer. This does not include charge capture.

• Rate-Setting, e.g., develop and implement rates for the organization
Chapter 16. Food and Nutrition Services

For an annotated list of Characteristic Questions for this series, please see the ActionOI support page.

This chapter includes the following sections:

- 05110, Patient Food Service 690
- 05111, Clinical Nutrition Services 697
- 05112, Patient and Nonpatient Food Service 702
- 05120, NonPatient Food Service 707
- F5100, Food and Nutrition Services Functional Rollup 712
- G5100, Other Food and Nutrition Services 718
- Food and Nutrition Services Worksheet 725

05110, Patient Food Service

This department is responsible for the management, preparation, and distribution of all patient food service for the organization. It may also include clinical nutrition services.

Patient Food Service Mapping Guidelines

If your actual cost center(s) represents only patient food service with clinical nutrition services, use the 05110, Patient Food Services department. Otherwise, another option would be the G5100, Other Food and Nutritional Services department. If you report this department, do not report 05110, Patient Food Services department or 05120, Non Patient Food Services department.
Patient Food Service Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

ART: Patient Meals

Total count of meal trays for inpatients and outpatients. Include observation patient meals, outpatient meals, ED meals and late trays. If you do not count patient trays, take Total Patient Days (excluding newborns) for the period and multiply by 3. Do not use Adjusted Patient Days.

ART: Total Number of Retail Transactions

Total number of retail transactions. Include free and or complimentary meals. Do not include discounts as separate transactions.

Days of Operation per Week

The total number of days per week that the department is open for routine business.

The maximum number that can be reported is 7.

Educational Training Units

Count the number of community/staff educational units performed for individuals or groups either inside or outside of the hospital setting. A 15 minute block of time is considered one unit. For example, a one hour nutritional training class performed for a group at a senior center would be counted as 4 units (regardless of how many people were in the class). This excludes any inpatient or outpatient education, consult time and billable services.

This is a subset of Total Department Activity.

Hours of Operation per Week

The average number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.
Interdisciplinary Team Round Units

The number of patient care rounds performed with other healthcare providers across the hospital counted in 15 minute blocks of time. For example, one hour spent performing rounds would result in a count of 4 units.

This is a subset of Patient Activity.

Patient Activity

Department patient activity, including total consults plus nutritional screenings plus interdisciplinary rounds. Exclude time spent in inservice education, classes provided to non patients, staff meetings, and program development time.

This is a subset of Total Department Activity.

Total Department Activity

Total department activity including total nutritional screenings, interdisciplinary rounds, and medical nutritional therapy patient activity plus education training units non-patient activity.

Total Dietary Consults

Total dietary consults provided by Food and Nutritional Services staff from this department. Include both initial and follow up consults. A dietary consult is defined as a 30 minute block of time allocated directly to the assessment, planning, or provision of patient nutritional care. Excluded is time spent in patient education, inservice education, classes provided to non patients, staff meetings, and program development time. Count each 30 minute block of time as a consult.

Total Medical Nutritional Therapy Interventions

Total medical nutrition therapy interventions provided by Food and Nutritional Services staff from this department. Include both initial and follow up consults. A Medical Nutrition Intervention is defined as a 15 minute block of time allocated directly to the assessment, planning, patient education or provision of patient nutrition care. Excluded is screening and time spent in inservice education, classes provided to non patients, staff meetings, and program development time. Count each 15 minute block of time as an intervention.

Total Nutritional Screenings

Screening may include but is not limited to reviewing charts, reports, interviewing patients and electronic screening. Do not include screenings done by nursing. Do not count time allocated as consult time. Count the number of screenings in 15 min blocks.

This is a subset of Patient Activity.

Patient Food Service Department Hours Elements
Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Dietetic Technician

Total hours worked by Dietetic Technicians. Include individuals who have the ability to support a clinical dietitian whose duties may include but are not limited to initial screening, education, calculating calorie counts and providing any direct patient care. Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours. **Note:** These hours are impacted by a normalization task. Please refer to the normalization survey to ensure proper reporting of these hours in the normalized data view.

This is a subset of Worked Hours: Staff.

Worked Hours: Food Service

Total hours worked by food service production and delivery staff (e.g., staff who are not management, clinical or clerical support staff). Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or standby hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Registered Dietitian

Total hours worked by Registered Dietitians. Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours. **Note:** These hours are impacted by a normalization task. Please refer to the normalization survey to ensure proper reporting of these hours in the normalized data view.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Patient Food Service Revenue Elements

**ART: Retail Revenue**

Total retail net revenue for the reporting period. Include all cash, debit, credit cards, payroll deductions, cafeteria receipts, etc. received. Do not include sales tax or foregone revenue.

This is a component of Department Revenue.

Department Revenue

Total cash and commissions revenue generated by the department for products and services provided to outpatients, facility staff, and the general public for the reporting period. Include revenue for outpatient dietetic counseling and food supplements, cafeteria and vending services, outside catering, and bulk food sales to other hospitals, schools, or other entities.

Patient Food Service Expense Elements

**Food Expense**

Total expense for food. Include perishables, non-perishables, and floor stock expense. Record any food expenses charged to other departments in this category.

This is a subset of Supply Expense.
**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Service Contracts Expense**

Total expense for all purchased service contracts used to perform department functions during the reporting period.

This is a subset of Other Direct Operating Expense.

**Supplemental Food Expense**

Using vendor invoices for this period, sum the total raw cost for nourishments (include between meal feedings, diabetic snacks, and between meal snack cart services), supplements, tube feedings, congregate meals, specialty infant feedings and floor stock. Do not include food items provided to departments for employee use.

This is a subset of Food Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.
Patient Food Service Mandatory Elements

The following data elements are mandatory for this department:

- ART: Patient Meals
- ART: Total Number of Retail Transactions
- Department Revenue
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Supplemental Food Expense
- Total Medical Nutritional Therapy Interventions
- Worked Hours: Staff

Patient Food Service Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Food Service Worker
- Kitchen cleaning and daily cleaning of dining areas
- Menu related activities, e.g., passing and picking up menus, correcting, tallying, modifying

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Clinical Dietitian
- Dietetic technician functions, e.g., initial screening, education, calculating calorie counts and providing any direct patient care
- Expenses associated with community service nutrition programs, e.g., Meals on Wheels
- Student interns/trainees
05111, Clinical Nutrition Services

This department is responsible for performing nutritional consultation and educational activities for inpatients and outpatients.

Clinical Nutrition Services Mapping Guidelines

If your actual cost center(s) includes patient food service with clinical nutrition services, use the 05110, Patient Food Services department. Otherwise, another option would be the G5100, Other Food and Nutritional Services department.

Clinical Nutrition Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Days of Operation per Week

The total number of days per week that the department is open for routine business.

The maximum number that can be reported is 7.

Educational Training Units

Count the number of community/staff educational units performed for individuals or groups either inside or outside of the hospital setting. A 15 minute block of time is considered one unit. For example, a one hour nutritional training class performed for a group at a senior center would be counted as 4 units (regardless of how many people were in the class). This excludes any inpatient or outpatient education, consult time and billable services.

This is a subset of Total Department Activity.

Hours of Operation per Week

The average number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.
Interdisciplinary Team Round Units

The number of patient care rounds performed with other healthcare providers across the hospital counted in 15 minute blocks of time. For example, one hour spent performing rounds would result in a count of 4 units.

This is a subset of Patient Activity.

Patient Activity

Department patient activity, including total nutritional screenings, interdisciplinary rounds, plus medical nutritional therapy interventions. Exclude time spent in inservice education, classes provided to non patients, staff meetings, and program development time.

This is a subset of Total Department Activity.

Total Department Activity

Total department activity including total nutritional screenings, interdisciplinary rounds, and medical nutritional therapy patient activity plus education training units non-patient activity.

Total Dietary Consults

Total dietary consults provided by Food and Nutritional Services staff from this department. Include both initial and follow up consults. A dietary consult is defined as a 30 minute block of time allocated directly to the assessment, planning, or provision of patient nutritional care. Excluded is time spent in patient education, inservice education, classes provided to non patients, staff meetings, and program development time. Count each 30 minute block of time as a consult.

Total Medical Nutritional Therapy Interventions

Total medical nutrition therapy interventions provided by Food and Nutritional Services staff from this department. Include both initial and follow up consults. A Medical Nutrition Intervention is defined as a 15 minute block of time allocated directly to the assessment, planning, patient education or provision of patient nutrition care. Excluded is screening and time spent in inservice education, classes provided to non patients, staff meetings, and program development time. Count each 15 minute block of time as an intervention.

Total Nutritional Screenings

Screening may include but is not limited to reviewing charts, reports, interviewing patients and electronic screening. Do not include screenings done by nursing. Do not count time allocated as consult time. Count the number of screenings in 15 min blocks.

This is a subset of Patient Activity.
Clinical Nutrition Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Dietetic Technician

Total hours worked by Dietetic Technicians. Include those individuals who have the ability to support a clinical dietitian whose duties may include but are not limited to initial screening, education, calculating calorie counts and providing any direct patient care. Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.
**Worked Hours: Registered Dietitian**

Total hours worked by Registered Dietitians. Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Clinical Nutrition Services Revenue**

**Department Revenue**

Total cash and commissions revenue generated by the department for products and services provided to outpatients, facility staff, and the general public for the reporting period. Include revenue for outpatient dietetic counseling and food supplements, cafeteria and vending services, outside catering, and bulk food sales to other hospitals, schools, or other entities.

**Clinical Nutrition Services Expense Elements**

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.
This is a subset of Labor Expense.

**Service Contracts Expense**

Total expense for all purchased service contracts used to perform department functions during the reporting period.

This is a subset of Other Direct Operating Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Clinical Nutrition Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Clinical Dietitian
- Diabetes education performed at the bedside, on the unit or one-one-one (must be billable)
- Dietetic technician functions, e.g., initial screening, education, calculating calorie counts and providing any direct patient care
- Nutritional education performed at the patient's bedside

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Diabetes education in a formal classroom setting
- Menu related activities, e.g., passing and picking up menus, correcting, tallying, modifying
- Student interns/trainees

**Clinical Nutrition Services Mandatory Elements**

The following data elements are mandatory for this department:

- Department Revenue
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Total Medical Nutritional Therapy Interventions
- Worked Hours: Staff

05112, Patient and Nonpatient Food Service

This department is responsible for the management, preparation, and distribution of all patient and nonpatient food services for the facility. This includes food prepared and served to facility staff, visitors, and the general public in a cafeteria setting. It may also include coffee shops and kiosks, catering, and vending. This department is responsible for the management, preparation, and distribution of all patient and nonpatient food services for the facility. This includes food prepared and served to facility staff, visitors, and the general public in a cafeteria setting. It may also include coffee shops and kiosks, catering, and vending.

Patient and Nonpatient Food Services Mapping Guidelines

If your actual cost center(s) represents only patient food service with clinical nutrition services, use the 05110, Patient Food Services department. Otherwise, another option would be the G5100, Other Food and Nutritional Services department. If you report this department, do not report 05110, Patient Food Services department or 05120, Non Patient Food Services department.

Patient and Nonpatient Food Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

ART: Patient Meals

Total count of meal trays for inpatients and outpatients. Include observation patient meals, outpatient meals, ED meals and late trays. If you do not count patient trays, take Total Patient Days (excluding newborns) for the period and multiply by 3. Do not use Adjusted Patient Days.
ART: Total Number of Retail Transactions
Total number of retail transactions. Include free and or complimentary meals. Do not include discounts as separate transactions.

Days of Operation per Week
The total number of days per week that the department is open for routine business.

The maximum number that can be reported is 7.

Hours of Operation per Week
The average number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

Patient and Nonpatient Food Services Department Hour Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Dietetic Technician
Total hours worked by Dietetic Technicians. Include individuals who have the ability to support a clinical dietitian whose duties may include but are not limited to initial screening, education, calculating calorie counts and providing any direct patient care. Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours. Note: These hours are impacted by a normalization task. Please refer to the normalization survey to ensure proper reporting of these hours in the normalized data view.

This is a subset of Worked Hours: Staff.

Worked Hours: Food Service
Total hours worked by food service production and delivery staff (e.g., staff who are not management, clinical or clerical support staff). Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.

This is a subset of Worked Hours: Staff.
**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Registered Dietitian**

Total hours worked by Registered Dietitians. Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours. **Note:** These hours are impacted by a normalization task. Please refer to the normalization survey to ensure proper reporting of these hours in the normalized data view.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Patient and Nonpatient Food Services Revenue Elements**

**ART: Non Patient Transfers and Credits including Foregone Revenue**

All transfers and credits for non-patient items (i.e., employee discounts, complimentary meals, free meals, internal and external catering, vending machine, and foregone revenue). Include only if you receive a transfer or credit for these items. Do not double count values reported here in ART: Other Non Patient Revenue.
ART: Other Non Patient Revenue

The total revenue received for vending contract services, meals for other facilities and programs, guest meals and catering revenue. Exclude any revenue received from nourishments, supplements, tube feedings, and floor stock. Do not include vendor rebates or sales tax. Do not double count values reported here in ART: Non Patient Transfers and Credits.

This is a component of Department Revenue.

ART: Retail Revenue

Total retail net revenue for the reporting period. Include all cash, debit, credit cards, payroll deductions, cafeteria receipts, etc. received. Do not include sales tax or foregone revenue.

This is a component of Department Revenue.

Department Revenue

Total cash and commissions revenue generated by the department for products and services provided to outpatients, facility staff, and the general public for the reporting period. Include revenue for outpatient dietetic counseling and food supplements, cafeteria and vending services, outside catering, and bulk food sales to other hospitals, schools, or other entities.

Patient and Nonpatient Food Services Expense Elements

Food Expense

Total expense for food. Include perishables, non-perishables, and floor stock expense. Record any food expenses charged to other departments in this category.

This is a subset of Supply Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.
Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

Service Contracts Expense

Total expense for all purchased service contracts used to perform department functions during the reporting period.

This is a subset of Other Direct Operating Expense.

Supplemental Food Expense

Using vendor invoices for this period, sum the total raw cost for nourishments (include between meal feedings, diabetic snacks, and between meal snack cart services), supplements, tube feedings, congregate meals, specialty infant feedings and floor stock. Do not include food items provided to departments for employee use.

This is a subset of Food Expense.

Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Patient and Nonpatient Food Services Mandatory Elements

The following data elements are mandatory for this department:

- ART: Non Patient Transfers and Credits incl Foregone Revenue
- ART: Other Non Patient Revenue
- ART: Patient Meals
- ART: Retail Revenue
• ART: Total Number of Retail Transactions

• Department Revenue

• Labor Expense

• Other Direct Operating Expense

• Paid Hours: Contract Labor

• Paid Hours: Staff

• Supplemental Food Expense

• Worked Hours: Staff

**Patient and Nonpatient Food Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Expenses associated with community service nutrition programs, e.g., Meals on Wheels

• Food Service Worker

• Kitchen cleaning and daily cleaning of dining areas

• Menu related activities, e.g., passing and picking up menus, correcting, tallying, modifying

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Clinical Dietitian

• Dietetic technician functions, e.g., initial screening, education, calculating calorie counts and providing any direct patient care

• Student interns/trainees

**05120, NonPatient Food Service**

This department is responsible for the preparation and distribution/serving of food services to facility staff, visitors, and the general public in a cafeteria setting. Include all nonpatient food services, such as coffee shop, kiosks, catering, and vending.
Nonpatient Food Services Mapping Guidelines

If your actual cost center(s) includes patient food services and/or clinical nutrition services, use the 05110, Patient Food Services department or the 05112, Patient and Nonpatient Food Services department. Otherwise, another option would be the G5100, Other Food and Nutrition Services department.

Nonpatient Food Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

ART: Total Number of Retail Transactions

Total number of retail transactions. Include free and or complimentary meals. Do not include discounts as separate transactions.

Days of Operation per Week

The total number of days per week that the department is open for routine business.

The maximum number that can be reported is 7.

Hours of Operation per Week

The average number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

Nonpatient Food Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services.
Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Food Service

Total hours worked by food service production and delivery staff (e.g., staff who are not management, clinical or clerical support staff). Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Nonpatient Food Services Revenue Elements
ART: Non Patient Transfers and Credits including Foregone Revenue

All transfers and credits for non-patient items (i.e., employee discounts, complimentary meals, free meals, internal and external catering, vending machine, and foregone revenue). Include only if you receive a transfer or credit for these items. Do not double count values reported here in ART: Other Non Patient Revenue.

ART: Other Non Patient Revenue

The total revenue received for vending contract services, meals for other facilities and programs, guest meals and catering revenue. Exclude any revenue received from nourishments, supplements, tube feedings, and floor stock. Do not include vendor rebates or sales tax. Do not double count values reported here in ART: Non Patient Transfers and Credits.

This is a component of Department Revenue.

ART: Retail Revenue

Total retail net revenue for the reporting period. Include all cash, debit, credit cards, payroll deductions, cafeteria receipts, etc. received. Do not include sales tax or foregone revenue.

This is a component of Department Revenue.

Department Revenue

Total cash and commissions revenue generated by the department for products and services provided to outpatients, facility staff, and the general public for the reporting period. Include revenue for outpatient dietetic counseling and food supplements, cafeteria and vending services, outside catering, and bulk food sales to other hospitals, schools, or other entities.

Nonpatient Food Services Expense Elements

Food Expense

Total expense for food. Include perishables, non-perishables, and floor stock expense. Record any food expenses charged to other departments in this category.

This is a subset of Supply Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

**Service Contracts Expense**

Total expense for all purchased service contracts used to perform department functions during the reporting period.

This is a subset of Other Direct Operating Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Nonpatient Food Services Mandatory Elements**

The following data elements are mandatory for this department:

- ART: Non Patient Transfers and Credits incl Foregone Revenue
- ART: Other Non Patient Revenue
- ART: Retail Revenue
- ART: Total Number of Retail Transactions
- Department Revenue
• Labor Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Staff
• Worked Hours: Staff

Nonpatient Food Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Expenses associated with community service nutrition programs, e.g., Meals on Wheels
• Kitchen cleaning and daily cleaning of dining areas

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Clinical Dietitian
• Dietetic technician functions, e.g., initial screening, education, calculating calorie counts and providing any direct patient care
• Menu related activities, e.g., passing and picking up menus, correcting, tallying, modifying
• Student interns/trainees

F5100, Food and Nutrition Services Functional Rollup

This department includes all food and nutrition services departments responsible for administration, food production, patient food distribution, clinical dietitian functions, and nonpatient food service functions mapped to the standard departments in this series.

Food and Nutrition Services Functional Rollup Workload Volumes
Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

ART: Patient Meals

Total count of meal trays for inpatients and outpatients. Include observation patient meals, outpatient meals, ED meals and late trays. If you do not count patient trays, take Total Patient Days (excluding newborns) for the period and multiply by 3. Do not use Adjusted Patient Days.

ART: Total Number of Retail Transactions

Total number of retail transactions. Include free and or complimentary meals. Do not include discounts as separate transactions.

Educational Training Units

Count the number of community/staff educational units performed for individuals or groups either inside or outside of the hospital setting. A 15 minute block of time is considered one unit. For example, a one hour nutritional training class performed for a group at a senior center would be counted as 4 units (regardless of how many people were in the class). This excludes any inpatient or outpatient education, consult time and billable services.

This is a subset of Total Department Activity.

Interdisciplinary Team Round Units

The number of patient care rounds performed with other healthcare providers across the hospital counted in 15 minute blocks of time. For example, one hour spent performing rounds would result in a count of 4 units.

This is a subset of Patient Activity.

Patient Activity

Department patient activity, including total nutritional screenings, interdisciplinary rounds, plus medical nutritional therapy interventions. Exclude time spent in inservice education, classes provided to non patients, staff meetings, and program development time.

This is a subset of Total Department Activity.
Total Department Activity

Total department activity including total nutritional screenings, interdisciplinary rounds, and medical nutritional therapy patient activity plus education training units non-patient activity.

Total Dietary Consults

Total dietary consults provided by Food and Nutritional Services staff from this department. Include both initial and follow up consults. A dietary consult is defined as a 30 minute block of time allocated directly to the assessment, planning, or provision of patient nutritional care. Excluded is time spent in patient education, inservice education, classes provided to non patients, staff meetings, and program development time. Count each 30 minute block of time as a consult.

Total Medical Nutritional Therapy Interventions

Total medical nutrition therapy interventions provided by Food and Nutritional Services staff from this department. Include both initial and follow up consults. A Medical Nutrition Intervention is defined as a 15 minute block of time allocated directly to the assessment, planning, patient education or provision of patient nutrition care. Excluded is screening and time spent in inservice education, classes provided to non patients, staff meetings, and program development time. Count each 15 minute block of time as an intervention.

Total Nutritional Screenings

Screenings may include but is not limited to reviewing charts, reports, interviewing patients and electronic screening. Do not include screenings done by nursing. Do not count time allocated as consult time. Count the number of screenings in 15 min blocks.

This is a subset of Patient Activity.

Food and Nutrition Services Functional Rollup Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Dietetic Technician

Total hours worked by Dietetic Technicians. Include those individuals who have the ability to support a clinical dietitian whose duties may include but are not limited to initial screening, education, calculating calorie counts and providing any direct patient care. Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.
This is a subset of Worked Hours: Staff.

**Worked Hours: Food Service**

Total hours worked by food service production and delivery staff (e.g., staff who are not management, clinical or clerical support staff). Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Registered Dietitian**

Total hours worked by Registered Dietitians. Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Food and Nutrition Services Functional Rollup Revenue Elements**
ART: Non Patient Transfers and Credits including Foregone Revenue

All transfers and credits for non-patient items (i.e., employee discounts, complimentary meals, free meals, internal and external catering, vending machine, and foregone revenue). Include only if you receive a transfer or credit for these items. Do not double count values reported here in ART: Other Non Patient Revenue.

ART: Other Non Patient Revenue

The total revenue received for vending contract services, meals for other facilities and programs, guest meals and catering revenue. Exclude any revenue received from nourishments, supplements, tube feedings, and floor stock. Do not include vendor rebates or sales tax. Do not double count values reported here in ART: Non Patient Transfers and Credits.

This is a component of Department Revenue.

ART: Retail Revenue

Total retail net revenue for the reporting period. Include all cash, debit, credit cards, payroll deductions, cafeteria receipts, etc. received. Do not include sales tax or foregone revenue.

This is a component of Department Revenue.

Department Revenue

Total cash and commissions revenue generated by the department for products and services provided to outpatients, facility staff, and the general public for the reporting period. Include revenue for outpatient dietetic counseling and food supplements, cafeteria and vending services, outside catering, and bulk food sales to other hospitals, schools, or other entities.

Food and Nutrition Services Functional Rollup Expense Elements

Food Expense

Total expense for food. Include perishables, non-perishables, and floor stock expense. Record any food expenses charged to other departments in this category.

This is a subset of Supply Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
Operating Lease Expense
Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Service Contracts Expense
Total expense for all purchased service contracts used to perform department functions during the reporting period.

This is a subset of Other Direct Operating Expense.

Supplemental Food Expense
Using vendor invoices for this period, sum the total raw cost for nourishments (include between meal feedings, diabetic snacks, and between meal snack cart services), supplements, tube feedings, congregate meals, specialty infant feedings and floor stock. Do not include food items provided to departments for employee use.

This is a subset of Food Expense.

Supply Expense
Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Food and Nutrition Services Functional Rollup Mandatory Elements
The following data elements are mandatory for this department:
• ART: Non Patient Transfers and Credits incl Foregone Revenue
• ART: Patient Meals
• ART: Retail Revenue
• ART: Total Number of Retail Transactions
• Department Revenue
• Labor Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Staff
• Supplemental Food Expense
• Total Medical Nutritional Therapy Interventions
• Worked Hours: Staff

G5100, Other Food and Nutrition Services

This generic department includes all cost centers reporting to Food and Nutrition Services which cannot be mapped to individual food and nutrition departments.

Other Food and Nutrition Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
ART: Patient Meals
Total count of meal trays for inpatients and outpatients. Include observation patient meals, outpatient meals, ED meals and late trays. If you do not count patient trays, take Total Patient Days (excluding newborns) for the period and multiply by 3. Do not use Adjusted Patient Days.

ART: Total Number of Retail Transactions
Total number of retail transactions. Include free and or complimentary meals. Do not include discounts as separate transactions.

Educational Training Units
Count the number of community/staff educational units performed for individuals or groups either inside or outside of the hospital setting. A 15 minute block of time is considered one unit. For example, a one hour nutritional training class performed for a group at a senior center would be counted as 4 units (regardless of how many people were in the class). This excludes any inpatient or outpatient education, consult time and billable services.

This is a subset of Total Department Activity.

Interdisciplinary Team Round Units
The number of patient care rounds performed with other healthcare providers across the hospital counted in 15 minute blocks of time. For example, one hour spent performing rounds would result in a count of 4 units.

This is a subset of Patient Activity.

Patient Activity
Department patient activity, including total nutritional screenings, interdisciplinary rounds, plus medical nutritional therapy interventions. Exclude time spent in inservice education, classes provided to non patients, staff meetings, and program development time.

This is a subset of Total Department Activity.

Total Department Activity
Total department activity including total nutritional screenings, interdisciplinary rounds, and medical nutritional therapy patient activity plus education training units non-patient activity.
Total Dietary Consults
Total dietary consults provided by Food and Nutritional Services staff from this department. Include both initial and follow up consults. A dietary consult is defined as a 30 minute block of time allocated directly to the assessment, planning, or provision of patient nutritional care. Excluded is time spent in patient education, inservice education, classes provided to non patients, staff meetings, and program development time. Count each 30 minute block of time as a consult.

Total Medical Nutritional Therapy Interventions
Total medical nutrition therapy interventions provided by Food and Nutritional Services staff from this department. Include both initial and follow up consults. A Medical Nutrition Intervention is defined as a 15 minute block of time allocated directly to the assessment, planning, patient education or provision of patient nutrition care. Excluded is screening and time spent in inservice education, classes provided to non patients, staff meetings, and program development time. Count each 15 minute block of time as an intervention.

Total Nutritional Screenings
Screening may include but is not limited to reviewing charts, reports, interviewing patients and electronic screening. Do not include screenings done by nursing. Do not count time allocated as consult time. Count the number of screenings in 15 min blocks.

This is a subset of Patient Activity.

Other Food and Nutrition Services Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Dietetic Technician
Total hours worked by Dietetic Technicians. Include those individuals who have the ability to support a clinical dietitian whose duties may include but are not limited to initial screening, education, calculating calorie counts and providing any direct patient care. Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.

This is a subset of Worked Hours: Staff.
**Worked Hours: Food Service**

Total hours worked by food service production and delivery staff (e.g., staff who are not management, clinical or clerical support staff). Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Registered Dietitian**

Total hours worked by Registered Dietitians. Include regular hours and actual premium and overtime hours worked. Exclude on call standby hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Other Food and Nutrition Services Revenue Elements

ART: Non Patient Transfers and Credits including Foregone Revenue

All transfers and credits for non-patient items (i.e., employee discounts, complimentary meals, free meals, internal and external catering, vending machine, and foregone revenue). Include only if you receive a transfer or credit for these items. Do not double count values reported here in ART: Other Non Patient Revenue.

ART: Other Non Patient Revenue

The total revenue received for vending contract services, meals for other facilities and programs, guest meals and catering revenue. Exclude any revenue received from nourishments, supplements, tube feedings, and floor stock. Do not include vendor rebates or sales tax. Do not double count values reported here in ART: Non Patient Transfers and Credits.

This is a component of Department Revenue.

ART: Retail Revenue

Total retail net revenue for the reporting period. Include all cash, debit, credit cards, payroll deductions, cafeteria receipts, etc. received. Do not include sales tax or foregone revenue.

This is a component of Department Revenue.

Department Revenue

Total cash and commissions revenue generated by the department for products and services provided to outpatients, facility staff, and the general public for the reporting period. Include revenue for outpatient dietetic counseling and food supplements, cafeteria and vending services, outside catering, and bulk food sales to other hospitals, schools, or other entities.

Other Food and Nutrition Services Expense Elements

Food Expense

Total expense for food. Include perishables, non-perishables, and floor stock expense. Record any food expenses charged to other departments in this category.

This is a subset of Supply Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

Service Contracts Expense

Total expense for all purchased service contracts used to perform department functions during the reporting period.

This is a subset of Other Direct Operating Expense.

Supplemental Food Expense

Using vendor invoices for this period, sum the total raw cost for nourishments (include between meal feedings, diabetic snacks, and between meal snack cart services), supplements, tube feedings, congregate meals, specialty infant feedings and floor stock. Do not include food items provided to departments for employee use.

This is a subset of Food Expense.

Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Other Food and Nutrition Services Mandatory Elements

The following data elements are mandatory for this department:

- ART: Non Patient Transfers and Credits incl Foregone Revenue
• ART: Other Non Patient Revenue
• ART: Patient Meals
• ART: Retail Revenue
• ART: Total Number of Retail Transactions
• Department Revenue
• Labor Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Staff
• Supplemental Food Expense
• Total Medical Nutritional Therapy Interventions
• Worked Hours: Staff

**Other Food and Nutrition Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Expenses associated with community service nutrition programs, e.g., Meals on Wheels
• Food Service Worker
• Kitchen cleaning and daily cleaning of dining areas

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Student interns/trainees
Food and Nutrition Services Worksheet

The Average Retail Transaction worksheet calculates several data elements, primarily meal equivalents workload data for the following Food and Nutritional Services departments: 05110, Patient Food Services; 05112, Patient and Nonpatient Food Services; 05120, Non Patient Food Services; and G5100, Other Food Services. The worksheet is a Microsoft Excel spreadsheet and contains all the necessary computations and instructions.
Chapter 17. Generic Facility

This chapter includes the following sections:

- F6900, Other Services Functional Rollup 726
- G6900, Other Services 729
- G6901, Unmappable Cost Centers 736

F6900, Other Services Functional Rollup

This functional rollup department automatically combines data for all mapped instances of the G6900, Other Services department within the Generic Facility Level series. This rollup excludes any data for departments mapped to the G6901, Unmappable Cost Centers department, as it is intended to represent a component of the 00100, General Facility Department.

Other Services Functional Rollup Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.
Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Other Services Functional Rollup Expense Elements

Drug Expense

Total department pharmaceutical expense.

This is a subset of Medical Supply Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and callback time; exclude expense for on call time.
This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

**Other Services Functional Rollup Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

**G6900, Other Services**

This generic department includes all cost centers that do not fit in any of the alternate departments offered in the product, including depreciation and interest expense cost centers and other cost centers having hours and expenses reflected in the 00100, General Facility department.
Other Services Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Overtime
Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider
Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Other Services Facility Expense Elements

Bad Debt Expense
Estimated write-offs for the entire facility for uncollected accounts receivable.

This is a subset of Other Direct Operating Expense.
**Depreciation Expense**

The portion of fixed asset costs for the entire facility used during the Report Period based on their estimated lives and salvage values.

This is a subset of Other Direct Operating Expense.

**Drug Expense**

Total department pharmaceutical expense.

This is a subset of Medical Supply Expense.

**Interest Expense**

The amount owed for the entire facility to bond holders and other creditors.

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.
Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and callback time; exclude expense for on call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Other Direct Operating Expense.

Total Related Party Allocation Expense

Total dollar value of services both received from and provided to related parties (e.g., Corporate Office, University, City, State) that is recorded to reflect the true cost of care.

This is a subset of Other Direct Operating Expense.

Other Services Mandatory Elements
The following data elements are mandatory for this department:

- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Total Related Party Allocation Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

Other Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Anesthesiology Training Program
- Bench teaching of students (non-department employees)
- Clinical Research Informatics (the use of informatics in the discovery and management of new knowledge relating to health and disease; the mgmt of info related to clinical trials and informatics related to secondary research use of clinical data)
- Costs for subscriptions and license fees to databases
- Grant or research funded services
- Hospital-based School of Medical Technology
- Information Desk
- Interpreters
- Legal Affairs (In-House Counsel) and Legal Fees
• Maintenance and monitoring of patient implanted devices after discharged, e.g., clinical follow-up, remote monitoring, programming assessments for these types of devices: ICDs, Pacemakers, Loop Recorders, VADs

• Management/Oversight of a school based curriculum/program for radiation therapy students

• Medical Library functions, e.g., Librarian

• Midwife

• Nurse call system operations and maintenance

• Operating a hospital based School of Nursing, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field

• Operating a hospital based School of Orthotics and Prosthetics, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field

• Operating a hospital based School of Respiratory Care, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field

• Operation of a hospital based School of Radiologic Technology, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field

• Operation of hospital parking garage and valet parking program

• Parking functions, e.g., tollbooth, valet services

• Patient Safety, e.g., utilize safety science methods to ensure the quality of the health care delivered, researches incidents, creates plans to minimizes future incidents

• Patient Satisfaction, including the survey process and analysis of the results

• Performance Improvement, e.g., time spent on creating, planning, implementing, researching and driving organizational operational changes

• Pharmaceutical research programs, e.g., investigational drug studies

• Physician billing, unless combined on same bill with hospital services, e.g., processing the claim for reimbursement by third party payer

• Physician Referral

• Physician services such as answering service, message service or dictation services

• Residency Program, e.g., administrative oversight of the program, costs to run learning laboratories

• Student interns/trainees
- Student nurses or externs (not providing direct patient care) assigned to the unit for clinical experience

- Transplant Coordinator

- Transplant Program staff and activities (i.e. registry, accreditation/regulatory compliance, statistical reporting)

- Transport of organs via air (fixed wing or helicopter) or ground ambulance

- Organ procurement or acquisition expenses

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Accounts Payable processing

- Bench teaching of department employees

- Budget Preparation (Operational, Capital, etc)

- Capital Tracking and Asset Management

- Conferences and/or Educational events (clinical or leadership)

- Corporate Compliance Officer - activities related to overseeing and managing regulatory compliance issues within the organization

- Courier Services, e.g., transporting of goods and supplies to and from facility and/or off-site locations. Do not include the lab courier function

- Financial Decision Support, e.g., variance analysis, benchmarking, cost accounting, profitability analysis (Pro Formas), productivity monitoring updates to financial information systems

- First Assistants (include RNFAs, Physician Assistants and other non-MDs functioning as First Assistants)

- Internal Auditing

- Inventory Control, e.g., checking the quality, quantity, and condition of incoming supplies and equipment, responsible for the storage and distribution of goods and materials

- Nurse scheduling coordination, allocation of nursing staff resources, and balancing the nursing staff to patient and unit needs

- Nursing Managers/Directors above the nursing unit management level

- Print Shop/Copy Center for the facility

- Purchasing, Receiving, Warehousing and Inventory Control (Pharmacy)
• Purchasing, Receiving, Warehousing and Inventory Control. This normalization is applicable if you utilize the Combined Procurement, Receiving and Warehousing department (Excludes food and pharmaceuticals)

• Senior Management, Executive Staff and clerical support staff, e.g., CEO, CFO, VPs, Assistant Administrators

• Shift supervision for the entire house

• Staff who perform new employee/new hire orientation specific to HR-related activities, e.g., institutional policies and procedures, W-2 forms, benefits

• Treasury and Cash Management

G6901, Unmappable Cost Centers

Unmappable Cost Centers

This generic department includes the cost centers that are not represented as part of the facility's General Ledger or Operating Statements. These cost centers should not rollup to the 00100, General Facility department. Examples include: Cost Centers from facilities within a system that have a different provider number (Tax ID), or have a separate Operating Statement and Statement of Financial Position.
Chapter 18. General Facility Level (GFAC)

This department covers organization level data regarding: (1) Operating and Financial Statistics, (2) Organization Type, Ownership, and Setting, (3) Organization and Operational Characteristics and (4) Organization Services. This is a department that is automatically created once department mapping is finalized.

This chapter includes the following sections:

- Operating and Financial Statistics 738
- Statement of Financial Position Items 753
- Statement of Revenue and Expense 760
- Non-Acute Data 777
- 00100, GFAC Mandatory Elements 780
- GFAC Worksheets 786
Operating and Financial Statistics

This chapter includes the following sections:

- Other Financial Data 738
- Capacity 739
- Patient Days 740
- Patient Discharges 743
- Case Mix and Area Wage Indices 746
- Worked Hours 746
- Paid Hours 748
- Other Statistical Data 749

Other Financial Data

Amounts reported in this section are also reported in the relevant balance and Statement of Revenue and Expense elements. The amounts reported in the other financial data elements represent an additional reporting of these amounts, not a duplication of these amounts. Or, in other words, the same dollar is being reported differently.

Capital Lease Payments

Payments to pay off or retire any capital lease liabilities. Report the amount appropriate to the period being reported.

Debt Service Payments

The total funds the organization must pay to service its debt each year. This amount includes both principal payments and interest expense. Do not include capital lease payments. Report the amount appropriate to the period being reported.

Net Facility Patient Revenue

Net facility patient revenue represents the sum of inpatient and outpatient net revenue generated through hospital services.
Net Provider Revenue

Net provider revenue represents the sum of inpatient and outpatient net revenue generated through employed physician and other provider professional fees.

Note: This data element is required to calculate indicators that exclude providers.

Total Capital Purchases

Capital outlays during the period being reported for land, buildings, fixed equipment and moveable equipment and any other asset that will have a useful life of more than a year.

Total Cash Collections^^

This amount represents the cash collected from patients at the time that the services has been rendered by the organization. This amount is the sum of deductibles, co pays, and self pay amounts that is collected in cash, check, or credit card transactions at time of service.

Total Philanthropy^^

The sum of unrestricted and restricted contributions, donated funds and grants which are not exchange contracts received by the organization during the reporting period. Interest earned on previously donated restricted funds is excluded.

Total Related Party Allocation Expense

Total dollar value of services both received from and provided to parent or affiliated parties (e.g., Corporate Office, University, City, State) that is recorded to reflect the true cost of care. Note that this is not a subset of Other Direct Operating Expense.

Total Related Party Support^^

The sum of expenses for services provided to a parent or affiliated party (e.g., Corporate Office, University, City, State) for which no payment is expected.

This is a component of Total Related Party Allocation Expense.

Total Tax Support Received

The sum of unrestricted and restricted funds provided by hospital districts, counties, and other governmental agencies with tax authority and not tied directly to services provided to specific individuals as payment for services.

Capacity
**Acute Care Bed Capacity**

Enter the total acute bed capacity that are licensed, physically set up and available for use on the unit during the reporting period. These are beds regularly maintained in the hospital for the use of patients (inpatient or observation), and which furnish accommodations with supporting services (such as food, laundry, and housekeeping). These beds may or may not be staffed but are physically available, thus beds in a partially closed area of the unit would be counted only if the hospital put the beds into use when they are needed. This is also known as Available Beds. Exclude newborn nursery bassinets.

This is a subset of Total Operating Beds.

**Non Acute Bed Capacity**

Enter the total non acute bed capacity that are licensed, physically set up and available for use on the unit during the reporting period. These are beds regularly maintained in the hospital for the use of patients (inpatient or observation), and which furnish accommodations with supporting services (such as food, laundry, and housekeeping). These beds may or may not be staffed but are physically available, thus beds in a partially closed area of the unit would be counted only if the hospital put the beds into use when they are needed. This is also known as Available Beds.

This is a subset of Total Operating Beds.

**Total Licensed Beds**

Total beds licensed for operation by state or local licensing agencies. Do not include bassinets.

**Total Operating Beds**

Enter the total number of beds that are licensed, physically set up and available for use on the unit during the reporting period. These are beds regularly maintained in the hospital for the use of patients (inpatient or observation), and which furnish accommodations with supporting services (such as food, laundry, and housekeeping). These beds may or may not be staffed but are physically available, thus beds in a partially closed area of the unit would be counted only if the hospital put the beds into use when they are needed. This is also known as Available Beds. Exclude newborn nursery bassinets.

**Patient Days**

**Behavioral Health Patient Days**

Total Behavioral Health Patient Days supported by the organization.

This is a subset of Total Acute Care Patient Days.

**Charity Care Patient Days**

Total patient days for inpatients with charity care identified as the primary designation. Patient days excludes ambulatory surgery, observation patients and normal newborns.
This is a subset of Total Patient Days.

Commercial Insurance Patient Days^^

Total patient days for inpatients with commercial insurance identified as the primary payer. This includes Blue Cross Blue Shield and other commercial insurance payers. Patient days excludes ambulatory surgery, observation patients and normal newborns.

This is a subset of Total Patient Days.

Critical Care Patient Days^^

Total critical care patient days supported by the organization. This includes critical care days from all critical care and intermediate nursing units, as well as level II, level III and level IV neonate patient days.

This is a subset of Total Acute Care Patient Days.

Other Acute Care Patient Days^^

Other acute care patient days includes all acute patient days not identified as critical care, behavior health inpatient or rehabilitation inpatient days supported by the organization. Exclude skilled nursing, long term care, ambulatory surgical or medical care observation patients, and normal newborn (MS DRG 795) nursery days.

This is a subset of Total Acute Care Patient Days.

Managed Care Patient Days

Total patient days for inpatients with managed care identified as the primary payer. This includes managed care patient days for Medicare, Medicaid, Blue Cross, and other managed care programs. Patient days excludes ambulatory surgery, observation patients and normal newborns.

This is a subset of Total Patient Days.

Medicaid Patient Days

Total patient days for inpatients with non managed care Medicaid identified as the primary payer. Patient days excludes ambulatory surgery, observation patients and normal newborns.

This is a subset of Total Patient Days.

Medicare Patient Days

Total patient days for inpatients with non-managed care Medicare identified as the primary payer. Patient days excludes ambulatory surgery, observation patients and normal newborns.
This is a subset of Total Patient Days.

**Nursing Observation Days**

Total nursing outpatient observation hours divided by 24 supported by the organization. Include true observation patient hours only (hours spent by patients on a nursing unit and cared for by department staff as outpatients under observation i.e. HCPCS code G0378 Observation services, per hour). If you are able to track the length of time an Outpatient spends on the unit regardless of billing as observation status, you may include the hours here. Do not include carry over patient hours, i.e. patients who are waiting for an inpatient bed.

This is a subset of Total Observation Days.

**Other Observation Days**

Total other outpatient observation hours divided by 24 supported by the organization. Include true observation patient hours only (hours spent by patients in a clinical department such as the Emergency Department and cared for by department staff as outpatients under observation i.e. HCPCS code G0378 Observation services, per hour). If you are able to track the length of time an Outpatient spends on the unit regardless of billing as observation status, you may include the hours here. Do not include carry over patient hours, i.e. patients who are waiting for an inpatient bed.

This is a subset of Total Observation Days.

**Other Patient Days**

Total patient days for inpatients covered by other payers or other sources not listed above. Patient days excludes ambulatory surgery, observation patients and normal newborns.

This is a subset of Total Patient Days.

**Outpatient Observation Days**

Total outpatient observation hours divided by 24. Include true observation patient hours only (hours spent by patients in the department and cared for by department staff as outpatients under observation i.e. HCPCS code G0378 Observation services, per hour). If you are able to track the length of time an Outpatient spends on the unit regardless of billing as observation status, you may include the hours here. Do not include carry over patient hours, i.e. patients who are waiting for an inpatient bed.

**Rehabilitation Patient Days**

Total Rehabilitation Patient Days supported by the organization.

This is a subset of Total Acute Care Patient Days.
Self Pay Patient Days
Total patient days for self pay inpatients. Patient days excludes ambulatory surgery, observation patients and normal newborns.
This is a subset of Total Patient Days.

Total Acute Care Patient Days
Total acute care patient days supported by the organization. Include acute psychiatric and rehabilitation patients. Exclude skilled nursing, long term care and normal newborn (MS DRG 795) patient days.
This is a subset of Total Patient Days.

Total Non Acute Care Patient Days
Total skilled nursing, swing bed, subacute, and or long term care patient days supported by the organization.
This is a subset of Total Patient Days.

Total Outpatient Observation Days
Total outpatient observation hours divided by 24 supported by the organization. Include true observation patient hours only (hours spent by patients in the department and cared for by department staff as outpatients under observation i.e. HCPCS code G0378 Observation services, per hour). If you are able to track the length of time an Outpatient spends on the unit regardless of billing as observation status, you may include the hours here. Do not include carry over patient hours, i.e. patients who are waiting for an inpatient bed.

Total Patient Days
Report the total number of inpatient days, including all acute and non acute patient days, supported by the organization during the reporting period. Patient days excludes ambulatory surgery, observation patients and normal newborns (MS DRG 795). Include neonatal intermediate and neonatal intensive care patient days. Total patient days should represent the sum of patient days by service level as well as the sum of patient days by payer designation.

Patient Discharges

Behavioral Health Patient Discharges^
Total Behavioral Health Patient Discharges supported by the organization.
This is a subset of Total Acute Care Patient Discharges.
Charity Care Patient Discharges

Total discharges related to charity care patients. Discharges excludes ambulatory surgery, observation patients and normal newborns.

This is a subset of Total Patient Discharges.

Commercial Insurance Patient Discharges^^

Total discharges for patients with commercial insurance identified as the primary payer. This includes Blue Cross Blue Shield and other commercial insurance payers. Patient days excludes ambulatory surgery, observation patients and normal newborns.

This is a subset of Total Patient Discharges.

Critical Care Patient Discharges^^

Total critical care patient discharges including deaths supported by the organization for the reporting period. This includes critical care discharges exclusively from all critical care and intermediate nursing units, as well as level 2, level 3 and level 4 discharges from an inpatient unit, such as a neonatal intensive care unit or the newborn nursery.

This is a subset of Total Acute Care Patient Discharges.

Other Acute Care Patient Discharges^^

Other acute care includes all acute patient discharges (including deaths) not identified as critical care, behavioral health inpatient or rehabilitation inpatient discharges supported by the organization for the reporting period. Discharges excludes ambulatory surgery, observation patients and normal newborns (MS DRG 795).

This is a subset of Total Acute Care Patient Discharges.

Managed Care Patient Discharges

Total discharges for patients with managed care identified as the primary payer. This includes managed care patient discharges for Medicare, Medicaid, Blue Cross, and other managed care programs. Patient days excludes ambulatory surgery, observation patients and normal newborns.

This is a subset of Total Patient Discharges.

Medicaid Patient Discharges^^

Total discharges related to non managed care Medicaid patients. Discharges excludes ambulatory surgery, observation patients and normal newborns.
This is a subset of Total Patient Discharges.

**Medicare Patient Discharges**

Total discharges related to non managed care Medicare patients. Discharges excludes ambulatory surgery, observation patients and normal newborns.

This is a subset of Total Patient Discharges.

**Other Patient Discharges**

Total discharges related to patients covered by other payers or other sources not listed above. Discharges excludes ambulatory surgery, observation patients and normal newborns.

This is a subset of Total Patient Discharges.

**Rehabilitation Patient Discharges**

Total Rehabilitation Patient Discharges supported by the organization.

This is a subset of Total Acute Care Patient Discharges.

**Self Pay Patient Discharges**

Total discharges related to self pay patient. Discharges excludes ambulatory surgery, observation patients and normal newborns.

This is a subset of Total Patient Discharges.

**Total Acute Care Patient Discharges**

Total acute care patients discharges, including deaths supported by the organization for the reporting period. Discharges excludes ambulatory surgery, observation patients and normal newborns (MS DRG 795).

This is a subset of Total Patient Discharges.

**Total Non Acute Care Patient Discharges**

Total skilled nursing, swing, sub acute, and or long term care discharges including deaths supported by the organization for the reporting period.

This is a subset of Total Patient Discharges.
Total Patient Discharges

Total number of inpatients discharged from the organization during the reporting period. Include all inpatients released from care through a formal notification process. In addition, deaths, transfers to a different health care institution, and those patients who leave the hospital against medical advice or without formal notification are included as discharges. Discharges excludes ambulatory surgery, observation patients and normal newborns (MS DRG 795). Total patient discharges should represent the sum of patient discharges by service level and patient discharges by payer designation.

Case Mix and Area Wage Indices

Area Wage Index

Report the organization's CMS assigned Area Wage Index which corresponds to the reporting period. For example, CMS publishes the new Wage Index files in August for the next fiscal year (beginning October 1st), so your organization's Area Wage Index value would be expected to change from the 3rd Quarter data period (July 1st to September 30th) to the 4th Quarter data period (October 1st to December 31st) in ActionOI. Be sure to check the CMS website and use the Final Rule Wage Index Tables. Also, you need to multiply the Wage Index by 100. For example, report a Wage Index of 1.4582 as 145.82. The Area Wage Index should not change mid CMS fiscal year.

Hospital Case Mix Index

The Hospital Case Mix Index, which includes all inpatients for the period under report, except MS DRG 795 (normal newborn delivery), regardless of payer source and according to Centers for Medicare and Medicaid Services (CMS) weights and methodology. Multiply the hospital case mix index by 100. For example, report a hospital CMI of .9684 as 96.84. If reporting more than one facility, use the Weighted Hospital Case Mix Index computation worksheet.

Medicare Case Mix Index

The Medicare Case Mix Index as determined by the Centers for Medicare and Medicaid Services CMS methodology for the period under report. Exclude MS DRG 795 normal newborn delivery. Multiply the actual Medicare Case Mix Index by 100. For example, report a Medicare CMI of 1.1991 as 119.91. If reporting more than one facility, use the Weighted Hospital Case Mix Index worksheet.

Worked Hours

Non Provider Worked Hours

Represents the sum of all productive and non productive worked hours for employed non provider employees excluding employed physician providers. Worked hours for staff include regular hours, overtime hours, hours worked by on call staff, educational hours on or off site, and orientation hours. Exclude non payroll contract labor hours, on call standby hours, and volunteer hours.

This is a subset of Total Employee Worked Hours.
Overtime Worked Hours

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a component of Non Physician Worked Hours.

Physician Provider Worked Hours

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a subset of Total Employee Worked Hours.

This is a subset of Total Employee Worked Hours.

Total Contract Worked Hours

Represents the sum of all agency or registry staff and contract staff labor utilized to supplement existing employee staff in the normal production activities of the organization. Exclude hours related to provider professional fee expense.

Note: Worked hours for non payroll employees should be equivalent to the number of paid hours for this category. If actual worked hours are not available, estimate the hours by dividing the total amounts paid by the average hourly rate.

This is a subset of Total Worked Hours.

Total Employee Worked Hours

Represents the sum of non provider worked hours and physician provider worked hours.

This is a subset of Total Worked Hours.

Total Worked Hours

Represents the sum of total employee worked hours and total contract worked hours. Include worked hours for employed physician providers, non provider employees and contract personnel (e.g. agency, contract or outsourced staff) worked hours. Worked hours include regular hours, overtime hours, hours worked by on call staff, educational hours on site or off site, orientation hours, and non payroll contract labor hours. Worked hours excludes On call standby hours and volunteer hours.
Paid Hours

Non Clinical Contract Labor Paid Hours^^

Represents the paid hours related to the non payroll expense for non clinical services provided through outsourcing or any other contracted services agreements.

This is a subset of Total Contract Paid Hours.

Non Provider Paid Hours

Represents the sum of hours paid, including regular, premium, and paid time off hours for non provider employees. Exclude on call or standby time.

This is a subset of Total Employee Paid Hours.

Other Clinical Contract Labor Paid Hours^^

Represents the hours related to the non payroll expense for nursing or other clinical staffing provided by registry, agency services, outsourcing or any other contracted services agreements.

This is a subset of Total Contract Paid Hours.

Physician in Training Paid Hours^^

Represents the sum of hours paid to medical students, interns, residents, and fellows through the organization’s payroll system.

This is a component of Physician Provider Paid Hours.

Physician Provider Paid Hours

Represents hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Total Employee Paid Hours.
Total Contract Paid Hours

Represents the sum of clinical and non clinical staff services or contract hours purchased by the organization. This is a subset of Total Paid Hours. Exclude hours related to Provider Professional Fee Expense. (NOTE: Paid hours for non payroll employees should be equivalent to the number of worked hours for this category. If actual paid hours are not available, estimate the hours by dividing the total amounts paid by the average hourly rate.)

Total Employee Paid Hours

Represents the sum of non provider paid hours and physician provider paid hours.

This is a subset of Total Paid Hours.

Total Paid Hours

Represents the sum of total employee paid hours and total contract paid hours. It should reflect all accrued worked hours and paid time off (i.e., sick leave, vacation, holiday, jury duty, bereavement, etc.) for all employees, including physicians, other providers, and non payroll employees (i.e. agency, contracted staff, and related party staff).

Other Statistical Data

Ambulatory Surgery Cases

The total ambulatory or outpatient surgery cases. Include patients seen through discrete visits. A case may involve more than one surgical procedure, but it still counts as one case if all procedures are performed during the operation.

This is a subset of Operating Room Cases.

Average Full Time Employee Headcount

Average number of individuals employed by the organization on a full time basis during the reporting period.

This is a component of Employee Headcount.

Average Unionized Employees

Average number of individuals employed by the organization who are represented by a collective bargaining unit.

This is a component of Employee Headcount.
Blood Intensity Score

The Blood Intensity Score is based on the number of discharges by MS-DRG multiplied by the intensity weight for each MS-DRG. The MS-DRG specific intensity weights were developed using discharge level data from over 1,000 hospitals and are used to calculate the overall supply intensity score for your organization. Sufficient discharge data is not available for newer MS-DRGs, however the average intensity weight of all weighted MS-DRGs will be used for all active, non-weighted MS-DRGs until specific weights can be calculated. If your organization does not capture discharges by MS-DRG, do not report a value for the Blood Intensity Score. Refer to the Intensity Score Workbook located on the Support Page for instructions on how to report this element. When entering a value that is less than 1.0, enter the leading zero before the decimal (ex: 0.97).

Refer to the Intensity Score Workbook located on the Support Page for instructions on how to report this element.

Employee Headcount

Report the average employee headcount during the period under report.

Note: The average number of pay checks generated or the total number of employees reported by the Human Resources department provides a means to report this element.

External Financial Interest

The total of all equity in related organizations throughout the health system.

HCAHPS Hospital Recommendation Percent

Based on the most recently published version of the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) Survey, enter the percent of respondents who reported YES, they would definitely recommend the hospital to friends and family (Question #22).

Note: Publicly reported HCAHPS results are based on four consecutive quarters of patient surveys. CMS publishes participating hospitals' HCAHPS results four times a year, with the oldest quarter of patient surveys rolling off as the most recent quarter rolls on.

Visit http://www.hospitalcompare.hhs.gov to obtain your organization's score.

HCAHPS Overall Hospital Rating Percent

Based on the most recently published version of the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS) Survey, enter the percent of respondents who rated the hospital either 9 or 10 (on the 10-point scale where 0 is the worst hospital possible and 10 is the best hospital possible) to Question #21.

Note: Publicly reported HCAHPS results are based on four consecutive quarters of patient surveys. CMS publishes participating hospitals' HCAHPS results four times a year, with the oldest quarter of patient surveys rolling off as the most recent quarter rolls on.
Visit http://www.hospitalcompare.hhs.gov to obtain your organization's score.

**Operating Room Cases**

The total number of Operating Room cases. There may be multiple surgical procedures performed during a single case. Include patients seen through discrete visits. A case may involve more than one surgical procedure, but it still counts as one case if all procedures are performed during the continuous visit to the operating room.

**Physicians on Active Medical Staff**

The total number of active physicians on the medical staff and supported by the Medical Staff Services department. To qualify as active, physicians must have admitted at least 20 inpatients during the last year. Count only those active physicians whose credentialing and recredentialing are handled by the Medical Staff Services department. In some instances, these professionals may not be employed by the organization. Exclude associate, consulting, in active, or emeritus status.

**Supply Excluding Organs and Blood Intensity Score**

The Supply less Organs and Blood Intensity Score is based on the number of discharges by MS-DRG multiplied by the intensity weight for each MS-DRG. The MS-DRG specific intensity weights were developed using discharge level data from over 1,000 hospitals and are used to calculate the overall supply intensity score for your organization. Sufficient discharge data is not available for newer MS-DRGs, however the average intensity weight of all weighted MS-DRGs will be used for all active, non-weighted MS-DRGs until specific weights can be calculated. If your organization does not capture discharges by MS-DRG, do not report a value for the Supply less Organs and Blood Intensity Score. Refer to the Intensity Score Workbook located on the Support Page for instructions on how to report this element. When entering a value that is less than 1.0, enter the leading zero before the decimal (ex: 0.97).

Refer to the Intensity Score Workbook located on the Support Page for instructions on how to report this element.

**Supply Excluding Organs Intensity Score**

The Supply less Organs Intensity Score is based on the number of discharges by MS-DRG multiplied by the intensity weight for each MS-DRG. The MS-DRG specific intensity weights were developed using discharge level data from over 1,000 hospitals and are used to calculate the overall supply intensity score for your organization. Sufficient discharge data is not available for newer MS-DRGs, however the average intensity weight of all weighted MS-DRGs will be used for all active, non-weighted MS-DRGs until specific weights can be calculated. If your organization does not capture discharges by MS-DRG, do not report a value for the Supply less Organs Intensity Score. Refer to the Intensity Score Workbook located on the Support Page for instructions on how to report this element. When entering a value that is less than 1.0, enter the leading zero before the decimal (ex: 0.97).

Refer to the Intensity Score Workbook located on the Support Page for instructions on how to report this element.
Supply Including Pharmaceuticals Intensity Score

The Supply Including Pharmaceuticals Intensity Score is based on the number of discharges by MS-DRG multiplied by the intensity weight for each MS-DRG. The MS-DRG specific intensity weights were developed using discharge level data from over 1,000 hospitals and are used to calculate the overall supply intensity score for your organization. Sufficient discharge data is not available for newer MS-DRGs, however the average intensity weight of all weighted MS-DRGs will be used for all active, non-weighted MS-DRGs until specific weights can be calculated. If your organization does not capture discharges by MS-DRG, do not report a value for the Supply Including Pharmaceuticals Intensity Score. When entering a value that is less than 1.0, enter the leading zero before the decimal (ex: 0.97).

Refer to the Intensity Score Workbook located on the Support Page for instructions on how to report this element.

Supply Intensity Score

The Supply Intensity Score is based on the number of discharges by MS-DRG multiplied by the intensity weight for each MS-DRG. The MS-DRG specific intensity weights were developed using discharge level data from over 1,000 hospitals and are used to calculate the overall supply intensity score for your organization. Sufficient discharge data is not available for newer MS-DRGs, however the average intensity weight of all weighted MS-DRGs will be used for all active, non-weighted MS-DRGs until specific weights can be calculated. If your organization does not capture discharges by MS-DRG, do not report a value for the Supply Intensity Score. When entering a value that is less than 1.0, enter the leading zero before the decimal (ex: 0.97).

Refer to the Intensity Score Workbook located on the Support Page for instructions on how to report this element.

Total Emergency Room Visits*

Include all registered ER patients who are triaged through the ER; patients who left the ER against medical advice; and all psychiatric and alcohol/substance abuse related visits. Do not include patients who are DOA (Dead on Arrival).
Statement of Financial Position Items

Statement of Financial Position Items provide a snapshot of the organization's assets and liabilities for a particular point in time.

This chapter includes the following sections:

- Assets 753
- Liabilities 756
- Fund Balance and Equity 758

Assets

Accumulated Depreciation on Property Plant and Equipment

The total portion of property, plant, and equipment costs used to date, based on their estimated lives and salvage value. Please note that land is not depreciable but other categories of property, plant, and equipment are depreciable. Report this value as a negative number.

This is a subset of Net Property Plant and Equipment.

Allowance for Uncollectibles

Amounts estimated for the difference between customary charges for services and the amount that will eventually be paid for those services. This includes contractual allowances and the estimated uncollectible portion of accounts receivable. Report the value as a negative number.

This is a subset of Net Patient Accounts Receivable.

AWUIL Board Designated Funded Depreciation

Funds set aside and designated by the board for a specific purpose, such as future equipment or building replacement. Report only the non current portion.

This is a subset of Total Assets Whose Use is Limited (AWUIL).

Assets Whose Use Is Limited (AWUIL) Trustee Held Funds

Funds required to be held by a trustee for a specific purpose, such as repayment of a bond issue or held to fund self insurance.
This is a subset of Total Assets Whose Use is Limited (AWUIL).

**Cash and Temporary Investments**

Money and instruments such as checks, money orders, or bank drafts that banks will accept for deposit and immediate credit to the depositor's account and investment vehicles held for less than one year that are readily convertible into cash. Current Assets whose Use is Limited should NOT be included.

This is a subset of Total Current Assets.

**Construction in Progress**

The cumulative dollar expenditure for building and or facility improvements currently under construction.

This is a subset of Net Property Plant and Equipment.

**Current Assets Whose Use Is Limited (AWUIL) Board Designated**

Current portion of total assets whose use is limited AWUIL funds set aside and designated by the board for a specific purpose, such as future equipment or building replacement. Report only the current portion. Non current amounts should be reported below in the appropriate non current assets whose use is limited category.

This is a subset of Total Current Assets.

**Current Assets Whose Use Is Limited (AWUIL) Trustee Held**

Current portion of funds required to be held by a trustee, such as for repayment of a bond issue. Report only the current portion.

This is a subset of Total Current Assets.

**Gross Patient Accounts Receivable**

Uncollected gross billings charges for services provided to patients, whether due from individual patients or their third party payers.

This is a subset of Net Patient Accounts Receivable.

**Inventories**

The total of all commodities in stock represents the sum of central supply, stores and pharmacy inventory and all other inventories.

This is a subset of Total Current Assets.
Net Patient Accounts Receivable

Represents the estimated net amount due from hospital payers after recognizing any allowance for uncollectibles. This amount equals gross patient accounts receivables less allowances for uncollectibles.

This is a subset of Total Current Assets.

Net Property Plant and Equipment

The value of property, plant, and equipment less accumulated depreciation.

This is a subset of Total Non Current Assets.

Other Assets Whose Use Is Limited (AWUIL)

All other assets not reported in the AWUIL categories above (e.g., donor restricted net assets).

This is a subset of Total Assets Whose Use is Limited.

Other AWUIL Board Designated Funds

All other board designated funds not included in assets whose use is limited AWUIL board designated funded depreciation.

This is a subset of Total Assets Whose Use is Limited (AWUIL).

Other Current Assets

All other current assets, such as prepaid expenses, that are not included in other current asset categories.

This is a subset of Total Current Assets.

Other Net Receivables

All other receivables, reported net of any allowance, which are not patient accounts receivables. This value includes anticipated revenues from third party payers, such as Medicare.

This is a subset of Total Current Assets.

Other Non Current Assets

Report all other non current assets not reported in the available categories.

This is a subset of Total Non Current Assets.
Property Plant and Equipment

Non current operating assets, such as buildings, machinery, equipment, with usable lives generally greater than three years.

This is a subset of Net Property Plant and Equipment.

Total Assets

The sum of total current assets cash and temporary investments, net patient accounts receivable, other net receivables, inventories, current AWUIL board designated, current AWUIL trustee held, and other current assets and total non current assets non current assets whose use is limited, AWUIL board designated funded depreciation, other AWUIL board designated funds, AWUIL trustee held funds, other AWUIL assets, net property plant and equipment, construction in progress, and other non current assets.

Total Assets Whose Use is Limited

Total non current assets whose use is limited or restricted as to use AWUIL. See the available AWUIL breakout elements for further detail.

This is a subset of Total Non Current Assets.

Total Cash Collections

This amount represents the cash collected from patients at the time that the services has been rendered by the organization. This amount is the sum of deductibles, co pays, and self pay amounts that is collected in cash, check, or credit card transactions at time of service.

Total Current Assets

The sum of cash, temporary investments, receivables net of allowances, and other current assets.

This is a subset of Total Assets.

Total Non Current Assets

Represents the entire complex of fixed tangible long lived assets used by an organization in its operations. This includes total assets whose use is limited AWUIL, net property plant and equipment, and other non current assets.

This is a subset of Total Assets.

Liabilities
Bonds Payable^^

Amount of unpaid principal related to all outstanding bonds.

This is a subset of Total Long Term Debt.

Capital Leases^^

Amount of unpaid principal related to lease obligations that transfers to the lessee most of the risks and benefits of ownership and is accounted for as both an asset and a liability.

This is a subset of Total Long Term Debt.

Current Debt

Current installment of long term debt payments, lines of credit and notes payable.

This is a subset of Total Current Liabilities.

Intercompany Loans^^

A debt obligation owed to a related organization.

This is a subset of Total Long Term Debt.

Mortgage Payable^^

Amount of unpaid principal related to all mortgages, specifically debt obligations pledge designated property as security for the loan.

This is a subset of Total Long Term Debt.

Other Current Liabilities

The short term claims that will mature within one year, examples include accounts payable and accrued payroll. Includes estimated settlements to third-party payers.

This is a subset of Total Current Liabilities.

Other Long Term Debt^^

Report all other long term debt not reported in the available categories.

This is a subset of Total Long Term Debt.
**Other Non Current Liabilities**

All other long term liabilities including self insurance, malpractice and pension liabilities. Also include external financial interest or minority interest.

This is a sub-set of Total Non Current Liabilities

**Total Current Liabilities**

The sum of Other Current Liabilities and Current Debt.

This is a subset of Total Liabilities.

**Total Liabilities**

The sum of Total Current Liabilities and Total Non Current Liabilities.

**Total Long Term Debt**

Debts whose maturity dates are more than one year after the Statement of Financial Position date. Examples are capital lease obligations and payables (e.g., mortgage, bond, etc.).

This is a subset of Total Non Current Liabilities.

**Total Non Current Liabilities**

The sum of total long term debt and other non current liabilities.

This is a subset of Total Liabilities.

**Fund Balance and Equity**

**Restricted Fund Balance and Equity**

The total of all donations received from external sources earmarked for specific purposes.

**Total Liabilities**

The sum of Total Current Liabilities and Total Non Current Liabilities.

**Total Liabilities and Fund Balance**

The sum of Total Liabilities and Total Fund Balance and Equity.
Total Fund Balance and Equity

The sum of Unrestricted Fund Balance and Equity and Restricted Fund Balance and Equity.

Unrestricted Fund Balance and Equity

The difference between Total Assets, and Total Liabilities, excluding Restricted Fund Balance and Equity.
Statement of Revenue and Expense

This chapter includes the following sections:

- Revenue Elements 760
- Expense Elements 766
- Financial Summary 775

Revenue Elements

The following expenses and revenues should tie to the facility's Statement of Revenue and Expense for the reporting period. Pay particular attention that net operating revenue less the total of all expense categories equals the facility's net profit / loss.

Gross Revenue

Gross revenue dollars for all patient services performed. Do not include fund raising or grant revenue.

Charity Care Gross Inpatient Revenue^^

Total gross revenue related to charity care inpatients.

This is a subset of Total Gross Inpatient Revenue.

Charity Care Gross Outpatient Revenue^^

Total gross revenue related to all charity care outpatients.

This is a subset of Total Gross Outpatient Revenue.

Commercial Insurance Gross Inpatient Revenue^^

Total gross revenue related to commercial insurance inpatients which includes Blue Cross Blue Shield insurance inpatients.

This is a subset of Total Gross Inpatient Revenue.
**Commercial Insurance Gross Outpatient Revenue^^**
Total gross revenue related to commercial insurance outpatients which includes Blue Cross Blue Shield insurance outpatients.

This is a subset of Total Gross Outpatient Revenue.

**Managed Care Gross Inpatient Revenue^^**
Total revenue related to managed care inpatients. This includes managed care revenue for Medicare, Medicaid, Blue Cross, and other managed care programs.

This is a subset of Total Gross Inpatient Revenue.

**Managed Care Gross Outpatient Revenue^^**
Total gross revenue related to all managed care outpatients.

This is a subset of Total Gross Outpatient Revenue.

**Medicaid Gross Inpatient Revenue^^**
Total gross revenue related to all non managed care Medicaid inpatients, including non prospective pay patients such as patients on excluded units.

This is a subset of Total Gross Inpatient Revenue.

**Medicaid Gross Outpatient Revenue^^**
Total gross revenue related to all non managed care Medicaid outpatients.

This is a subset of Total Gross Outpatient Revenue.

**Medicare Gross Inpatient Revenue^^**
Total gross revenue related to all non managed care Medicare inpatients, including non prospective pay patients such as patients on excluded units.

This is a subset of Total Gross Inpatient Revenue.

**Medicare Gross Outpatient Revenue^^**
Total gross revenue related to all non managed care Medicare outpatients.

This is a subset of Total Gross Outpatient Revenue.
Other Gross Inpatient Revenue

Total gross inpatient revenue for any payer categories not reported in other categories. Examples include funds provided by other national, state, or local governmental sources.

This is a subset of Total Gross Inpatient Revenue.

Other Gross Outpatient Revenue

Total gross outpatient revenue for any payer categories not reported in other categories. Examples may include funds provided by other national, state, or local governmental sources.

This is a subset of Gross Outpatient Revenue.

Self Pay Gross Inpatient Revenue

Total revenue related to self pay inpatients.

This is a subset of Total Gross Inpatient Revenue.

Self Pay Gross Outpatient Revenue

Total revenue related to self pay outpatients.

This is a subset of Total Gross Outpatient Revenue.

Total Gross Inpatient Revenue

Total dollar value, at the organization’s full established rates, of hospital and provider services delivered to all inpatients including acute, sub acute, and long term care inpatients and residents. Include non prospective pay patients (such as patients on excluded units).

This is a subset of Total Gross Patient Revenue.

Total Gross Outpatient Revenue

Total dollar value, at the organization’s full established rates, of hospital and provider services delivered to outpatients. Items such as revenues from an ambulatory surgery center or revenues for same day medical and surgical patients would be included. This may also include revenues generated from services provided to other organizations that are consistent with outpatient services but are technically provided to non patients (i.e., reference laboratory services provided to nursing homes and physician practices).

This is a subset of Total Gross Patient Revenue.

Total Gross Patient Revenue

Represents the sum of Total Gross Inpatient Revenue and Total Gross Outpatient Revenue.
Deductions from Revenue

Charity Care Allowances and Discounts^^

This value should equal gross patient revenue for charity care, unless adjustments are being made for understating or overstating charity care allowances and discounts in prior periods. Enter a positive number for this element even though your organization may list allowances and discounts (deductions) as a negative number.

This is a subset of Total Contractual Allowances and Discounts.

Commercial Contractual Allowances and Discounts^^

Estimated difference between actual charges for hospital and provider services and the revenue contractually agreed upon with commercial insurance which includes Blue Cross Blue Shield insurance. Enter a positive number for this element even though your organization may list contractual allowances and discounts (deductions) as a negative number.

This is a subset of Total Contractual Allowances and Discounts.

Managed Care Contractual Allowances and Discounts^^

Estimated difference between actual charges for hospital and provider services and the revenue contractually agreed upon with managed care programs. Enter a positive number for this element even though your organization may list contractual allowances and discounts (deductions) as a negative number.

This is a subset of Total Contractual Allowances and Discounts.

Medicaid Contractual Allowances and Discounts^^

Estimated difference between actual charges for hospital and provider services and the revenue contractually agreed upon with the Medicaid program. Enter a positive number for this element even though your organization may list contractual allowances and discounts (deductions) as a negative number.

This is a subset of Total Contractual Allowances and Discounts.

Medicare Contractual Allowances and Discounts^^

Estimated difference between actual charges for hospital services and the revenue contractually agreed upon with the Medicare program. Enter a positive number for this element even though your organization may list contractual allowances and discounts (deductions) as a negative number.

This is a subset of Total Contractual Allowances and Discounts.
Other Contractual Allowances and Discounts^^

Estimated difference between actual charges for hospital and provider services and the revenue contractually agreed upon with all other programs not included in the above categories. Enter a positive number for this element even though your organization may list contractual allowances and discounts (deductions) as a negative number.

Note: Do not include Provision for Bad Debts in this element.

This is a subset of Total Contractual Allowances and Discounts.

Self Pay Allowances and Discounts^^

Estimated difference between actual charges for hospital and provider services and the revenue agreed upon with self pay individuals. Enter a positive number for this element even though your organization may list allowances and discounts (deductions) as a negative number.

This is a subset of Total Contractual Allowances and Discounts.

Total Contractual Allowances and Discounts

Total contractual allowances and discounts (deductions) from revenues consisting of provisions for contractual agreements, discounts and charity care. Enter a positive number for this element even though your organization may list contractual allowances and discounts (deductions) as a negative number. Offset contractual allowance by any Disproportionate Share payments you received during the reporting period. In accordance with the GASB and FASB, the provision for bad debts related to patient service revenue should be reported as a deduction from revenue and should be reported in the element called Provision for Bad Debts.

Note: Report the provision for bad debts unrelated to patient service revenue as an operating expense.

Net Revenue

Inpatient Revenue (net of contractual allow and discounts)^

Total net revenue for services provided to all inpatients, including acute, subacute, and long term care inpatients and residents net of all contractual allowances, discounts and charity care.

This is a subset of Patient Service Revenue.

Net Operating Revenue From Ambulatory Surgery Centers*

Net operating revenue generated from ambulatory surgery centers owned by the health system.
Net Operating Revenue From Health Plan*

Net operating revenue generated from health plan owned by the health system.

Net Operating Revenue From Long Term Care Facilities*

The percent of net revenue generated from long term care facilities.

Net Other Operating Revenue

Report all revenue that is non patient related but is a by product of the organization's operations (i.e., revenues from cafeteria meals, vending machines, pay telephones, radiology silver recovery, etc.).

This is a subset of Total Net Operating Revenue.

Net Patient Service Revenue less Provision for Bad Debts

Net patient service revenue less provision for bad debts represents the sum of patient service revenue (net of contractual allowances and discounts) less provision for bad debts related to patient service revenue.

Outpatient Revenue (net of contractual allow and discounts)^

Total net revenue for services provided to outpatients net of all contractual allowances, discounts and charity care.

This is a subset of Patient Service Revenue.

Patient Service Revenue (net of contractual allowances and discounts)

Patient Service Revenue (net of contractual allowances and discounts) represents the sum of gross patient revenue less total contractual allowances and discounts. This is computed by subtracting all contractual allowances, discounts and charity care from gross patient revenue. Do not include Provision for Bad Debts as part of Total Contractual Allowances and Discounts when reporting this element. (This element was formally known as Total Net Patient Revenue.)

This is a subset of Total Net Operating Revenue.

Provision for Bad Debts

Estimated write offs for uncollected accounts receivable related to patient service revenues. Enter a positive number for this element even though your organization may list provision for bad debts as a negative number. Do not report provision for bad debts in Total Contractual Allowances and Discounts.

Note: Report the provision for bad debts unrelated to patient service revenue as an Other Operating Expense.
Total Net Operating Revenue

Total dollar revenue receivable for inpatient, outpatient, non patient and external services and products provided by the organization and it's employed providers. This is computed by subtracting from gross operating revenues, all contractual allowances and discounts, charity care, provision for bad debts related to patient service revenues, and other deductions as appropriate. This is the sum of net patient service revenue less provision for bad debts plus net other operating revenue.

Expense Elements

Labor Expense

Contract Purchase Service Expense

Report the expense for the period for contract purchase services, such as services delivered under a contractual agreement (e.g., Housekeeping services, Payroll Services). This is the remainder of total contract purchase services expense that you are not able to allocate to another expense category. Include expenses for outside or related party purchased services paid by the job and not by the hour. If the hours associated with this expense are available, then report this expense in Total Contract Labor Expense.

This is a subset of Total Other Operating Expense.

Health Insurance Benefit Expense

Total employer cost for the period for employee health insurance and supplementary programs, such as dental and vision, whether through premiums or self insured programs. Include health insurance costs for both employed providers and employed non providers. Do not include deductibles from your organization’s hospital revenues for covered employees.

This is a component of Total Benefits Expense.

Non Clinical Contract Labor Expense

Total non payroll expense for non clinical services provided through outsourcing or any other contracted services agreements where the staff are paid by the hours and hours can be provided.

This is a subset of Total Contract Labor Expense.

Non Provider Benefit Expense

Total employer cost for the period for providing employee fringe benefits, including non cash performance awards, health care benefits, survivor protection benefits, and retirement. Include only the benefits for non provider employees associated with the expense reported for non provider salary expense.

This is a subset of Total Benefit Expense.
Non Provider Salary Expense

Total gross salaries and wages paid to all non provider employees. Do not include salaries for employed physicians or advance practitioners wages or wages associated with any contract service.

This is a subset of Total Employee Salary Expense.

On Call Salary Expense^^

Total dollars paid to all non provider employees for on call coverage.

This is a component of Non Provider Salary Expense.

Other Clinical Contract Labor Expense^^

Total non payroll expense for nursing or other clinical staffing provided by registry, agency services, outsourcing or any other contracted services agreements where the staff are paid by the hour and hours can be provided.

This is a subset of Total Contract Labor Expense.

Overtime Salary Expense

Total dollars paid to all nonexempt, non provider employees for overtime hours worked. The value reported reflects payments of at least time-and-one-half of the regular rate for hours worked over the employee's normal work schedule (40 hour workweek, or 8-80 workweek). This value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a component of Non Provider Salary Expense.

Physician in Training Salary Expense^^

Total payroll expense corresponding to hours paid to medical students, interns, residents, and fellows through the organization's payroll system.

This is a component of Physician Provider Salary Expense.

Physician Provider Benefit Expense

Total employer cost for the period for providing employed non administrative physician providers, physician assistants, nurse practitioners, CRNAs, residents, interns, physicians in training with fringe benefits, including non cash performance awards, health care benefits, survivor protection benefits, and retirement.

Note: This data element is required to calculate indicators excluding physician provider expense and revenue.
This is a subset of Total Benefit Expense.

**Physician Provider Professional Fee Expense**

Total expense for the period for physicians, advanced practitioners and physician groups which provide professional services to the organization. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field.

This is a subset of Total Contract Labor Expense.

**Physician Provider Salary Expense**

Total gross salaries and wages paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advanced practitioners should be reported in the physician provider professional fee expense element.

This is a subset of Total Employee Salary Expense.

**Related Party Service Contract Expense**

Report the expense for the period for contract purchase services, such as services delivered under a contractual agreement (e.g., Housekeeping services, Payroll Services) provided by a Related Party such as a University or Corporate Office. This is the remainder of the related party contract expenses that you are not able to allocate to another expense category. Include expenses for related party purchased services paid by the job and not by the hour. If the hours associated with this expense are available, then report this expense in Total Contract Labor Expense.

This is a subset of Contract Purchase Service Expense.

**Retirement Plans Benefit Expense**

Total employer cost for the period for pensions, retirement, tax deferred annuities, and 401(k) payments for the organization.

This is a component of Total Benefits Expense.
Total Benefit Expense

Total expense for the period for employee benefits for both physician providers and non providers (i.e. retirement, health insurance, disability insurance, life insurance, FICA taxes, etc.).

This is a subset of Total Employee Labor Expense.

Total Contract Labor Expense

Total expense for agencies, registry staff, related party services, and provider services delivered under a contractual agreement (e.g., Emergency Department physician coverage) when hours are available. Exclude labor expense for external consultants or other purchased services paid by the job and not by the hour. If you are not able to report the hours associated with the cost of Total Contract Labor expense, then report this expense in Contract Purchase Services Expense.

This is a subset of Total Labor Expense.

Total Employee Labor Expense

The sum of total employee salary expense data element and total benefit expense data element.

This is a subset of Total Labor Expense.

Total Employee Salary Expense

Total gross salaries and wages paid to all non provider and physician provider employees. Salaries do not include the wages associated with any contract service.

This is a subset of Total Labor Expense.

Total Labor Expense

Total labor expense represents the sum of total employee labor expense data element (sum of total employee salary expense and total benefit expense) and total contract labor expense data element (total dollars payable to agencies, registry staff, related party services, and physician provider services delivered under a contractual agreement if hours worked and paid are provided).

This is a subset of Total Operating Expense.

Supply Expense

Blood and Blood Products Supply Expense

Report the expense for the period of total purchased blood and blood products, including fresh blood, bone marrow, plasma derived products, recombinant products, aphaeresis and autologous transfusions. Do not include hemophilia factor expense.
This is a subset of Total Medical Supply Expense.

**Drug Expense**

Report the expense for the period of total drug expense. Drug expense should include all categories of diagnostic and therapeutic pharmaceuticals, including hemophilia factor expense.

This is a subset of Total Medical Supply Expense.

**Implant and Prosthetic Supply Expense**

Report the expense for the period for total implant and prosthetic supply expense. Implant and prosthetic supply expense should include all costs for replacement, substitutes, or aids to body parts. Including but not limited to joint replacements, screws, plates, wires, mesh, pins, pacemakers, stents, ICDs, heart valves, other artificial substitutes or replacements of a part of the body such as a tooth, facial bone, the palate, a hip, a knee or another joint, the leg, an arm.

This is a subset of Total Medical Supply Expense.

**Implant Supply Expense**

Report the expense for the period of total implant expense. Implant expense should include all costs for replacement, substitutes or aids to body parts. Including but not limited to joint replacements, screws, plates, wires, mesh, pins, stents and heart valves. Implants may include pacemakers, ICDs or other devices used to regulate the heart.

This is a subset of Implant and Prosthetic Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Total Supply Expense.

**Non Medical Supply Expense**

Report the expense for the period of total stocked and non stocked operating supplies. This includes, but is not limited to, replacement linens, uniforms, food, replacement dietary items (i.e. glassware, silverware, etc.), cleaning products and general office and computer supplies. Include all non capitalized operating supplies.

This is a subset of Total Supply Expense.
Organ Procurement Supply Expense

Report the expense for the period of total costs for organ acquisitions paid to outside agencies (e.g., bones, skin tissue, other body parts). **Exclude blood products and bone marrow.**

This is a subset of Total Medical Supply Expense.

Other Medical Supply Expense

Report the expense for the period of total other medical supplies used in the provision of patient care services that have not been reported in the other available categories.

This is a subset of Total Medical Supply Expense.

Prosthetic Supply Expense

Report the expense for the period of total prosthetic supply expense. Prosthetic supply expense should include all costs for artificial substitute or replacement parts of the body such as a tooth, a facial bone, the palate, leg, arm, etc. A prosthesis is designed for functional or cosmetic reasons or both. Prosthetic implants can be parts of the joint such as a unilateral knee. A prosthesis may be removable, as in the case of most prosthetic legs or a prosthetic breast form used after mastectomy.

This is a subset of Implant and Prosthetic Expense.

Total Supply Expense

Total supply expense represents the net expense including freight and distribution fees less rebates for all patient chargeable and department consumable supplies for all cost centers. Supply items have an expected life of less than one year unless they are used for the repair and maintenance of equipment. This includes, but is not limited to, drugs, IV additives, radiology film, oxygen and medical gases, blood and blood products, organ procurement, reagents and solutions, replacement linens, uniforms, food, replacement dietary items (e.g. glassware, silverware, etc.), cleaning products and general office and computer supplies. Include the supply portion of capital lease or rent expense or agreements that combine supply expense with provision of services (i.e., service agreements). Total Supply Expense excludes minor equipment, repair parts, most instruments, computer software, equipment rental, books and utility expense.

This is a subset of Total Operating Expense.

Other Direct Operating Expense

Bad Debt Expense (non patient service related)

Report the estimated write offs for uncollected accounts receivable unrelated to patient service revenue.

This is a subset of Total Other Operating Expense.
Building and Liability Insurance Expense

Report the expense for the period of total building and liability insurance. Examples may include fire, flood, earthquake, theft, umbrella, auto and tornado insurance. Do not include premiums for health or life insurance for employees or malpractice insurance.

This is a subset of Total Other Operating Expense.

Corporate Allocated Expenses^

The portion of total expense that is defined by CMS (Form 287-05: Home Office Costs Chain Operations) and are defined as allowable costs that can be allocated to providers or other non medical enterprises.

This is a subset of Total Corporate Home Office Expense.

Corporate Overhead Expense^

The portion of total expense that is defined by CMS (Form 287-05: Home Office Costs Chain Operations) and are defined as non allowable costs and that cannot be allocated to providers or other non medical enterprises.

This is a subset of Total Corporate Home Office Expense

Depreciation and Amortization Expense

Report the expense for the period of fixed asset costs used during the reporting period based on their estimated lives and salvage value, include amortization.

This is a subset of Total Other Operating Expense.

Drug Expense associated with 340B Program

Report the expense for the period of total drug expense purchased under the 340B program. The federal 340B Drug Pricing Program provides access to reduced price prescription drugs to facilities certified by the U.S. Department of Health and Human Services (HHS). Drug expense for the 340B program should include all categories of diagnostic and therapeutic pharmaceuticals, including hemophilia factor expense.

This is a subset of Drug Expense.

Equipment Repair And Maintenance Expense

Report the expense for the period of total costs to maintain major systems equipment (elevators, boilers, etc.) as well as major medical equipment (radiography, laboratory, etc.) paid to outside contractors.

This is a subset of Total Other Operating Expense.
Health Provider Tax Expense

Report the expense for the period of total health provider tax expense for the organization. Include the amount of tax, assessment or fee paid to a state government, which uses the money as the state’s necessary matching funds to bring in additional federal Medicaid money according to the individual state’s match rate. The total funds are then distributed to health care providers.

This is a subset of Total Tax Expense.

Hospital Portion Malpractice Premium Expense^^

The portion of malpractice insurance premiums paid to cover provision of hospital services.

This is a subset of Total Malpractice Premium Expense.

Interest Expense

Report total interest expense including the amount owed to bond holders and other creditors for the reporting period. For ActionOI reporting purposes, interest expense is an operating expense.

This is a subset of Total Other Operating Expense.

Lease and Rent Expense

Report the expense for the period for the lease or rent of buildings and equipment. Include costs for all space rented by the organization. Do not include off setting fees paid by third parties for the lease of facility space. If applicable, report these fees in non operating revenue. Include interest paid in operating lease agreements.

This is a subset of Total Other Operating Expense.

Minor Equipment Expense

Report the expense for the period of total minor equipment expense. Minor equipment expenses are non-consumable implements, tools or devices which are non capitalized. Examples may include office desks, computers, wheelchairs, nebulizers and other minor equipment which costs fall below the organizations threshold for capitalizing expenses.

This is a subset of Total Other Operating Expense.

Miscellaneous Other Operating Expense

Report the expense for the period of all other operating expenses that have not been reported in the other available expense categories in order to accurately represent total other operating expense. Examples may include but are not limited to travel, dues, education, medical school expenses and other operating expenses incurred by the organization.

This is a subset of Total Other Operating Expense.
**Outside Vendor Service Contract Expense**

Report the expense for the period for contract purchase services, such as services delivered under a contractual agreement (e.g. Housekeeping services, Payroll Services) provided by an outside vendor. This is the remainder of the outside vendor contract expense that you are not able to allocated to another expense category. Include expenses for outside vendor purchased services paid by the job and not by the hour. If the hours associated with this expense are available, then report this expense in Total Contract Labor Expense.

This is a subset of Contract Purchase Service Expense.

**Professional Services Expense**

Report the expense for the period of total professional services, such as legal counsel and consulting firms. Include consulting fees for services in the following areas: marketing, planning, program operational reviews, improvement projects, development and strategic research. Do not include fees paid to outside firms for contract management of hospital services. Do not include costs associated with legal settlements other than legal fees.

This is a subset of Total Other Operating Expense.

**Provider Portion Malpractice Premium Expense**

The portion of malpractice insurance premiums paid to cover services delivered by employed providers.

This is a subset of Total Malpractice Premium Expense.

**Related Entity Subsidy Expense**

Report the expense for the period of the total fees paid to a related entity (e.g. Physician/Provider, Physician Practice) to guarantee profitability rather than a reimbursement for services provided.

This is a subset of Total Other Operating Expense.

**Total Corporate Home Office Expense**

Represents the sum of Corporate Overhead Expense which is comprised of the non allowable expenses for the Corporate Home Office and Corporate Allocated Expense which is comprised of the allowable expenses for the Corporate Home Office.

**Total Malpractice Premium Expense**

Report the expense for the period of total insurance coverage for liability claims arising from the treatment of patients. Include self insurance payment amounts.

This is a subset of Total Other Operating Expense.
**Total Other Operating Expense**

Total other direct operating expense represents the sum of all operating expenses for the period not reported in Total Labor Expense and Total Supply Expense categories.

This is a subset of Total Operating Expense.

**Total Tax Expense**

Report the expense for the period total tax expense for the organization. Include unrelated business income tax UBI incurred as a result of conducting unrelated business income activities as defined by the IRS and Health Provider taxes.

This is a subset of Total Other Operating Expense.

**Utility Expense**

Report the period total expenses for the organization related to energy (e.g. electric, gas, water), telecommunications (e.g. telephone and pager service, cable and T1 service), and waste disposal (e.g. sewer, garbage collection, and medical waste disposal services). This does not include fuel for vehicles.

This is a subset of Total Other Operating Expense.

**Financial Summary**

**Net Profit (Loss)**

Represents the sum of operating profit(loss) plus total non operating revenue minus total non operating expense.

**Operating Profit (Loss)**

Represents the sum of Total Net Operating Revenue minus Total Operating Expense.

**Total Non Operating Expense**

Represents expense not directly related to patient care or generated in the day to day operations of the entity such as costs associated with floating a bond or loss on the sale of equipment, costs associated with research or grant activities, etc.

**Total Non Operating Revenue**

Represents revenue not directly related to patient care or generated in the day to day operations of the entity (donations, interest income from investments of unrestricted funds, gains on sale of property, grants, gifts and bonds, research funds, etc.).
Total Operating Expense

Represents the sum of total labor expense, total supply expense, and total other operating expense.
Non-Acute Data

This chapter includes the following sections:

- Long Term Care Beds^^  777
- Long Term Care Contract Labor Expense^^  778
- Long Term Care Discharges^^  778
- Long Term Care Employee Labor Expense^^  778
- Long Term Care Net Operating Revenue^^  778
- Long Term Care Other Operating Expense^^  778
- Long Term Care Resident Days^^  778
- Long Term Care Total Paid Hours^^  779
- Long Term Care Total Supply Expense^^  779
- Subacute Care Beds^^  779
- Subacute Care Contract Labor Expense^^  779
- Subacute Care Discharges^^  779
- Subacute Care Employee Labor Expense^^  779
- Subacute Care Net Operating Revenue^^  779
- Subacute Care Other Operating Expense^^  780
- Subacute Care Patient Days^^  780
- Subacute Care Total Paid Hours^^  780
- Subacute Care Total Supply Expense^^  780

**Long Term Care Beds^^**

Total beds available to accommodate long term care resident occupancy.
This is a component of Non Acute Care Bed Capacity.

**Long Term Care Contract Labor Expense**

Total dollars payable to agencies, registry staff, and related party services delivered under a contractual agreement.

This is a component of Total Contract Labor Expense.

**Long Term Care Discharges**

Represents the sum of discharges including deaths for long term care patients and residents.

This is a component of Total Patient Discharges.

**Long Term Care Employee Labor Expense**

The sum of employee salary expense and benefit expense for staff working in long term care.

This is a component of Total Labor Expense.

**Long Term Care Net Operating Revenue**

Total net revenue for services provided to long term care patients and residents. This is computed by subtracting all contractual allowances, charity care, and other deductions from gross revenue for these services.

This is a component of Total Net Operating Revenue.

**Long Term Care Other Operating Expense**

Represents the sum of all operating expenses for long term care not reported in labor and supply categories.

This is a component of Total Other Operating Expense.

**Long Term Care Resident Days**

Represents the sum of inpatient days or resident days for long term care patients and residents.

This is a component of Total Patient Days.
**Long Term Care Total Paid Hours**

Represents the sum of total employee paid hours and total contract paid hours for long term care. It should reflect all accrued worked hours and paid time off (i.e., sick leave, vacation, holiday, jury duty, bereavement, etc.) for all employees and non payroll employees (agency, contracted staff, and related party staff).

This is a component of Total Paid Hours.

**Long Term Care Total Supply Expense**

Total supply expense represents the net expense cost including freight and distribution fees less rebates for all patient chargeable and department consumable supplies for long term care.

This is a component of Total Supply Expense.

**Subacute Care Beds**

Total beds available to accommodate skilled, subacute and swing patient occupancy.

This is a component of Non Acute Care Bed Capacity.

**Subacute Care Contract Labor Expense**

Total dollars payable to agencies, registry staff, and related party services delivered under a contractual agreement.

This is a component of Total Contract Labor Expense.

**Subacute Care Discharges**

Represents the sum of discharges including deaths for skilled, subacute, and swing bed patients.

This is a component of Total Patient Discharges.

**Subacute Care Employee Labor Expense**

The sum of employee salary expense and benefit expense for staff working in skilled and sub acute care.

This is a component of Total Labor Expense.

**Subacute Care Net Operating Revenue**

Total net revenue for services provided to skilled, subacute, SNF or swing bed status patients. This is computed by subtracting all contractual allowances, charity care, and other deductions from gross revenue for these services.
This is a component of Total Net Operating Revenue.

Subacute Care Other Operating Expense^^

Represents the sum of all operating expenses for skilled and subacute care not reported in labor and supply categories.

This is a component of Total Other Operating Expense.

Subacute Care Patient Days^^

Represents the sum of inpatient days for skilled, subacute, and swing bed patients.

This is a component of Total Patient Days.

Subacute Care Total Paid Hours^^

Represents the sum of total employee paid hours and total contract paid hours for skilled and subacute care. It should reflect all accrued worked hours and paid time off (i.e., sick leave, vacation, holiday, jury duty, bereavement, etc.) for all employees and non payroll employees (i.e. agency, contracted staff, and related party staff).

This is a component of Total Paid Hours.

Subacute Care Total Supply Expense^^

Total supply expense represents the net expense cost including freight and distribution fees less rebates for all patient chargeable and department consumable supplies for skilled and subacute care.

This is a component of Total Supply Expense.

00100, GFAC Mandatory Elements

The following data elements are mandatory for this department:

GFAC Worksheets

The worksheets are Microsoft Excel spreadsheets. The worksheets contain all necessary computational formulas. The following worksheets can be found on the Support tab of ActionOI.

- ActionOI Operating Net Profit (Loss) Reconciliation Worksheet
- Intensity Score workbook_Supply and Pharmacy
- Weighted Case Mix Index Computation Worksheets
- Weighted Regional Wage/Price Adjustment Factor Worksheet
Chapter 19. Home Care Services

For an annotated list of Characteristic Questions for this series, please see the ActionOI support page.

This chapter includes the following sections:

- 02310, Home Health 787
- 02320, Home Assistance (Private Duty) 795
- 02330, Home Hospice 800
- 02340, Home Infusion Pharmacy 807
- 02350, Home Medical Equipment 814
- F2300, Home Care Functional Rollup 822
- G2300, Other Home Care Services 829

02310, Home Health

This department provides skilled nursing, therapy, and support services to clients in the home setting. Healthcare services are administered or provided directly to ill, disabled, or infirmed persons in places of permanent or temporary (halfway house) residence. Home Health must provide nursing care to at least one home patient that may include infusion therapy, physical therapy, occupational therapy, respiratory therapy, speech therapy, personal care, nutritional guidance, or social service. Report Medicare Certified Agencies here.

Home Health Mapping Guidelines

If less than 80% of your patient population requires skilled nursing care, this may not be an appropriate department. Another option might be the 02320, Home Assistance (Private Duty) department.

Home Health Workload Volumes

Average Length of Service

Average Length of Service is counted from the date a patient is enrolled in the service until the date the patient is discharged from the service. Count only the patients that have been discharged from service during the reporting period.
Days of Operation per Week

Total number of days the department is open for operation during the week.

The maximum number that can be reported is 7.

Episodes (All Payers)

Total episodes for all patients, regardless of payer, cared for by the agency. Include both Medicare and non-Medicare episodes. An episode of home health care spans a 60 day period, starting with the first day a billable visit is provided to a Medicare patient. If a patient is still in treatment on the 60th day, a new episode begins on the 61st day even if the agency does not provide a visit on that day. Medicare pays fixed, predetermined rates for 60 day episodes of care. There is no limit on the number of medically necessary consecutive episodes of care that a beneficiary may receive and that Medicare will cover. Only count those episodes which are closed (have ended) in the period. Do not provide estimates for this element. If the agency does not keep records for episodes related to non-Medicare patients, leave the field blank.

Home Care Patient Visits

The total face to face patient encounters in the home setting by nurses or other care giving staff under employment or direct contract with this department. The visit may be for evaluation, consultation, education, or treatment. Exclude patient visits performed by an associated home health agency or only for the purpose of pharmaceutical delivery, visits made in the inpatient setting to assess patient qualifications or arrange for home care, and supervisory visits and visits performed by Volunteers. Count the number of billable home setting contacts and non-billable visits requiring a patient assessment, including visits for the purpose of Medicare Outcome and Assessment Information Set (OASIS), by department staff. Every patient visit counts once toward the total number of visits regardless of the number of department staff making the visit. For example, if a supervisor accompanies a caregiver to a visit and two staff members are involved, the visit would count only once. Unbilled assessments of patients not subsequently enrolled should not be included in the count.

Home Health Case Mix Index

The Medicare Adjusted Case Mix Index for agency patients with completed episodes of care in this reporting period. The Home Health Case Mix Index reflects the Home Health Resource Groups (HHRGs) that measure intensity and are assigned to each of the agency's patients covered by Medicare. For hospital owned agencies, note that the Home Health Case Mix Index will differ from the Medicare Case Mix Index measure for the agency's parent hospital. Multiply the home health case mix index by 100. For example, report a home health case mix index of 1.1968 as 119.68.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.
Low Utilization Payment Adjustment (LUPA) Episodes

Low utilization payment adjustment (LUPA) episodes are defined by Medicare as episodes with four or fewer visits in the 60 day episode. For each LUPA episode, an agency will receive a national standardized per visit rate instead of a usual episode based payment. These per visit rates, which are wage adjusted but not case mix weighted, vary by discipline (such as Home Health Aide, Medical Social Services). Include only LUPA episodes related to Medicare patients for reporting purposes. Only count those episodes which are closed (have ended) in the period.

This is a subset of Medicare Episodes.

Medicare Episodes

The total episodes for all Medicare patients cared for by the agency. An episode of home health care spans a 60 day period, starting with the first day a billable visit is provided to a Medicare patient. If a patient is still in treatment on the 60th day, a new episode begins on the 61st day even if the agency does not provide a visit on that day. Medicare pays fixed, predetermined rates for 60 day episodes of care. There is no limit on the number of medically necessary consecutive episodes of care that a beneficiary may receive and that Medicare will cover. Only count those episodes which are closed (have ended) in the period.

Miles Logged

The total miles logged by department staff in support of client visits. This number may be obtained from vehicle trip or maintenance logs. If maintenance logs are used, be sure to prorate for beginning and end of year mileage readings.

New Patients Enrolled

New patients enrolled includes the total number of patients enrolled to the home health service for each episode of care, which means they continuously use the service with the exception of a break in service by hospitalization. For patients who experience multiple episodes of home health service, count each episode as one enrollment. Do not count as separate enrollments patients whose home health service is interrupted by hospitalization and who immediately resume home health service within 24 hours after the conclusion of the hospital stay. Count the total number of distinct patient episodes of care. An episode is the period of care from admission to discharge. An individual patient who is enrolled on two separate occasions counts as two new patient enrollments, provided that the second enrollment does not immediately follow the first with only a period of hospitalization between them.

Private Duty Visits

The total number of private duty and personal care visits to patients during the reporting period.

This is a subset of Home Care Patient Visits.

Total Number of Patients Served

Total unduplicated number of patients served by the department for the time period reported. If the patient is receiving multiple therapies/services within the department, count the patient once.
Home Health Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider
Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Home Health Aide
Total hours worked by home health aides routinely providing home visits.

This is a subset of Worked Hours: Staff.

Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider
Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.
**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Home Health Revenue Elements**

**Gross Revenue**

Gross revenue dollars for all patient services performed. Do not include fund raising or grant revenue.
Medicare Net Revenue

Revenue dollars receivable from Medicare for this reporting period.

This is a subset of Net Revenue.

Net Revenue

Revenue dollars receivable after allowances and discounts are deducted from gross revenue.

Self Pay Net Revenue

Revenue dollars receivable from Self Pay patients for this reporting period.

This is a subset of Net Revenue.

Home Health Expense Elements

Contract Expense

Total expense for clinical services contracts for which hours paid are not tracked (for example, contracts reimbursed on a per visit basis).

This is a subset of Other Direct Operating Expense.

Indirect Expense

Total indirect expense such as depreciation, plant and property maintenance, facility rent, vehicle leases, vehicle depreciation, fringe benefits and insurance. This category includes all expenses not previously reported in Labor Expense and Other Direct Operating Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.
**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Home Health Mandatory Elements**

The following data elements are mandatory for this department:

- Home Care Patient Visits
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Medicare Episodes
- Net Revenue
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

**Home Health Normalizations**

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Hospital Discharge Planning Nurse
- Provision of home medical equipment, e.g., Durable Medical Equipment (DME)
02320, Home Assistance (Private Duty)

This department provides cleaning, cooking, shopping, personal attendant care (bathing, shaving), and other non-therapeutic, unskilled support services to clients in the home setting, related to assistance with activities of daily living.

Home Assistance (Private Duty) Mapping Guidelines

If your cost center's patient population is not 80% private duty, this may not be an appropriate department. Another option might be the 02310, Home Health department.

Home Assistance (Private Duty) Workload Volumes

Average Length of Service

Average Length of Service is counted from the date a patient is enrolled in the service until the date the patient is discharged from the service. Count only the patients that have been discharged from service during the reporting period.

Days of Operation per Week

Total number of days the department is open for operation during the week.

The maximum number that can be reported is 7.

Home Care Patient Visits

The total face to face patient encounters in the home setting by nurses or other care giving staff under employment or direct contract with this department. The visit may be for evaluation, consultation, education, or treatment. Exclude patient visits performed by an associated home health agency or only for the purpose of pharmaceutical delivery, visits made in the inpatient setting to assess patient qualifications or arrange for home care, and supervisory visits and visits performed by Volunteers. Count the number of billable home setting contacts and non-billable visits requiring a patient assessment, including visits for the purpose of Medicare Outcome and Assessment Information Set (OASIS), by department staff. Every patient visit counts once toward the total number of visits regardless of the number of department staff making the visit. For example, if a supervisor accompanies a caregiver to a visit and two staff members are involved, the visit would count only once. Unbilled assessments of patients not subsequently enrolled should not be included in the count.

**Hours Billed**

The total hours billed by staff members for Home Care Patient Visits. Count the number of hours spent providing homemaker services. This is the actual time spent performing services such as housekeeping, cooking, transporting clients, and shopping. Exclude any commuting time to reach the client’s residence, as well as other administrative time.

**Hours of Operation per Week**

Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

**Miles Logged**

The total miles logged by department staff in support of client visits. This number may be obtained from vehicle trip or maintenance logs. If maintenance logs are used, be sure to prorate for beginning and end of year mileage readings.

**Private Duty Discharges**

Total number of discharges from private duty care for the reporting period.

**Private Duty Visits**

The total number of private duty and personal care visits to patients during the reporting period.

This is a subset of Home Care Patient Visits.

**Total Number of Patients Served**

Total unduplicated number of patients served by the department for the time period reported. If the patient is receiving multiple therapies/services within the department, count the patient once.

**Home Assistance (Private Duty) Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.
**Worked Hours: Home Health Aide**

Total hours worked by home health aides routinely providing home visits.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Home Assistance (Private Duty) Revenue Elements

Gross Revenue
Gross revenue dollars for all patient services performed. Do not include fund raising or grant revenue.

Medicare Net Revenue
Revenue dollars receivable from Medicare for this reporting period.
This is a subset of Net Revenue.

Net Revenue
Revenue dollars receivable after allowances and discounts are deducted from gross revenue.

Self Pay Net Revenue
Revenue dollars receivable from Self Pay patients for this reporting period.
This is a subset of Net Revenue.

Home Assistance (Private Duty) Expense Elements

Contract Expense
Total expense for clinical services contracts for which hours paid are not tracked (for example, contracts reimbursed on a per visit basis).
This is a subset of Other Direct Operating Expense.

Indirect Expense
Total indirect expense such as depreciation, plant and property maintenance, facility rent, vehicle leases, vehicle depreciation, fringe benefits and insurance. This category includes all expenses not previously reported in Labor Expense and Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical, surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a component of Labor Expense.

**Home Assistance (Private Duty) Mandatory Elements**

The following data elements are mandatory for this department:

- Home Care Patient Visits
- Hours Billed
- Labor Expense
- Medical Supply Expense
- Net Revenue
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Home Assistance (Private Duty) Normalizations**

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Hospital Discharge Planning Nurse
- Provision of home medical equipment, e.g., Durable Medical Equipment (DME)

**02330, Home Hospice**

This department provides nursing, therapeutic, and support services to terminally ill clients in the home setting. Hospice team members may visit routinely to give care, answer questions, and/or teach new and important skills. This may include patients who go into an inpatient care setting for a short period of time, as hospice caregivers often still provide some form of care during that time.

**Home Hospice Mapping Guidelines**

If your cost center's patient population is not 80% terminally ill patients, this may not be an appropriate department. Another option might be the 02310, Home Health department.

**Home Hospice Workload Volumes**

**Average Length of Service**

Average Length of Service is counted from the date a patient is enrolled in the service until the date the patient is discharged from the service. Count only the patients that have been discharged from service during the reporting period.

**Days of Operation per Week**

Total number of days the department is open for operation during the week.

The maximum number that can be reported is 7.
**Home Care Patient Days**

The cumulative number of days that all clients were receiving home care during the report period. For home hospice clients, the number of days refers to the total length of time patients are on service, despite whether or not they received visits each day.

**Home Care Patient Visits**

The total face to face patient encounters in the home setting by nurses or other care giving staff under employment or direct contract with this department. The visit may be for evaluation, consultation, education, or treatment. Exclude patient visits performed by an associated home health agency or only for the purpose of pharmaceutical delivery, visits made in the inpatient setting to assess patient qualifications or arrange for home care, and supervisory visits and visits performed by Volunteers. Count the number of billable home setting contacts and non-billable visits requiring a patient assessment, including visits for the purpose of Medicare Outcome and Assessment Information Set (OASIS), by department staff. Every patient visit counts once toward the total number of visits regardless of the number of department staff making the visit. For example, if a supervisor accompanies a caregiver to a visit and two staff members are involved, the visit would count only once. Unbilled assessments of patients not subsequently enrolled should not be included in the count.

**Hours of Operation per Week**

Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

**Miles Logged**

The total miles logged by department staff in support of client visits. This number may be obtained from vehicle trip or maintenance logs. If maintenance logs are used, be sure to prorate for beginning and end of year mileage readings.

**Patients Enrolled**

The total number of patients enrolled in the hospice program during the period. For patients who experience multiple episodes of home hospice service, count each episode as one patient enrolled. Do not count as separate enrollments patients whose home hospice service is interrupted by hospitalization and who resume home hospice within 24 hours of the conclusion of the hospital stay. Count the number of long term and short term clients supported by the department. Short term patients leave the program within one month of enrollment. This includes newly enrolled patients and patients previously enrolled in prior reporting periods and supported in the current reporting period.

**Short Term Patients Enrolled**

Total patients who were enrolled in the hospice program, but who left the program (deceased, etc.) within one month of enrollment. Count only patients during the reporting period.
This is a subset of Patients Enrolled.

**Total Number of Patients Served**

Total unduplicated number of patients served by the department for the time period reported. If the patient is receiving multiple therapies/services within the department, count the patient once.

**Home Hospice Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Physician Provider**

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

This is a subset of **Worked Hours: Staff**.

**Worked Hours: Home Health Aide**

Total hours worked by home health aides routinely providing home visits.

This is a subset of **Worked Hours: Staff**.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of **Worked Hours: Staff**.
**Worked Hours: Other Patient Care Provider**
Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**
Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**
Total hours worked by physicians/providers on the department's payroll who provide clinical services. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who are billed by the facility on a CMS 1500 Form. Include only physicians/providers on the facility payroll who spend 80% or more of their time in clinical or patient care activities. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**
Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Home Hospice Revenue Elements**
Gross Revenue
Gross revenue dollars for all patient services performed. Do not include fund raising or grant revenue.

Medicare Net Revenue
Revenue dollars receivable from Medicare for this reporting period.
This is a subset of Net Revenue.

Net Revenue
Revenue dollars receivable after allowances and discounts are deducted from gross revenue.

Self Pay Net Revenue
Revenue dollars receivable from Self Pay patients for this reporting period.
This is a subset of Net Revenue.

Home Hospice Expense Elements

Contract Expense
Total expense for clinical services contracts for which hours paid are not tracked (for example, contracts reimbursed on a per visit basis).
This is a subset of Other Direct Operating Expense.

Indirect Expense
Total indirect expense such as depreciation, plant and property maintenance, facility rent, vehicle leases, vehicle depreciation, fringe benefits and insurance. This category includes all expenses not previously reported in Labor Expense and Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.
**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Home Hospice Mandatory Elements**

The following data elements are mandatory for this department:

- Home Care Patient Days
- Home Care Patient Visits
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Net Revenue
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

**Home Hospice Normalizations**

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Hospital Discharge Planning Nurse
- Provision of home medical equipment, e.g., Durable Medical Equipment (DME)
**02340, Home Infusion Pharmacy**

The Home Infusion Pharmacy has expertise in U.S.P. 797 compliant sterile drug compounding that provides care to patients with acute or chronic conditions generally pertaining to parenteral administration of drugs, biologicals and nutritional formulae administered through catheter and/or needles in home and alternate sites. Extensive professional pharmacy services, care coordination, infusion nursing services, supplies and equipment are provided to optimize efficacy and compliance.

**Home Infusion Pharmacy Mapping Guidelines**

If your cost center's patient population is not 80% infusion patients, this may not be an appropriate department. Another option might be the 02310, Home Health department.

**Home Infusion Pharmacy Workload Volumes**

**Average Length of Service**

Average Length of Service is counted from the date a patient is enrolled in the service until the date the patient is discharged from the service. Count only the patients that have been discharged from service during the reporting period.

**Days of Operation per Week**

Total number of days the department is open for operation during the week.

The maximum number that can be reported is 7.

**Home Care Patient Visits**

The total face to face patient encounters in the home setting by nurses or other care giving staff under employment or direct contract with this department. The visit may be for evaluation, consultation, education, or treatment. Exclude patient visits performed by an associated home health agency or only for the purpose of pharmaceutical delivery, visits made in the inpatient setting to assess patient qualifications or arrange for home care, and supervisory visits and visits performed by Volunteers. Count the number of billable home setting contacts and non-billable visits requiring a patient assessment, including visits for the purpose of Medicare Outcome and Assessment Information Set (OASIS), by department staff. Every patient visit counts once toward the total number of visits regardless of the number of department staff making the visit. For example, if a supervisor accompanies a caregiver to a visit and two staff members are involved, the visit would count only once. Unbilled assessments of patients not subsequently enrolled should not be included in the count.
**Hours of Operation per Week**

Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

**Miles Logged**

The total miles logged by department staff in support of client visits. This number may be obtained from vehicle trip or maintenance logs. If maintenance logs are used, be sure to prorate for beginning and end of year mileage readings.

**New Patients Enrolled**

New patients enrolled includes the total number of patients enrolled to the home health service for each episode of care, which means they continuously use the service with the exception of a break in service by hospitalization. For patients who experience multiple episodes of home health service, count each episode as one enrollment. Do not count as separate enrollments patients whose home health service is interrupted by hospitalization and who immediately resume home health service within 24 hours after the conclusion of the hospital stay. Count the total number of distinct patient episodes of care. An episode is the period of care from admission to discharge. An individual patient who is enrolled on two separate occasions counts as two new patient enrollments, provided that the second enrollment does not immediately follow the first with only a period of hospitalization between them.

**New Therapy Starts**

Total number of new therapy starts for all patients during the reporting period. For example, if a patient initiates TPN and anti-infective therapy this would equal two new therapy starts.

**Total Deliveries**

Total number of stops made by delivery staff at patients homes, other service sites, etc. in order to delivery goods and/or provide patient services (excludes nursing visits).

**Total Infusion Dose Days**

Total days on which patients receive pharmaceutical doses prepared by the department. Count only days on which patients receive doses. For example, a patient receiving three days of chemotherapy over one week would account for three days rather than seven.

**Total Infusion Therapy Days**

The total number of patient days for infusion therapy patients for the reporting period. Include all days whether or not doses were administered.
Total Number of Patients Served

Total unduplicated number of patients served by the department for the time period reported. If the patient is receiving multiple therapies/services within the department, count the patient once.

Home Infusion Pharmacy Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.
**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non-physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Pharmacist**

Total hours worked by registered pharmacists.

This is a subset of Worked Hours: Staff.

**Worked Hours: Pharmacy Technician**

Total hours worked by pharmacy technicians.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.
Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Home Infusion Pharmacy Revenue Elements

Gross Revenue
Gross revenue dollars for all patient services performed. Do not include fund raising or grant revenue.

Medicare Net Revenue
Revenue dollars receivable from Medicare for this reporting period.
This is a subset of Net Revenue.

Net Revenue
Revenue dollars receivable after allowances and discounts are deducted from gross revenue.

Self Pay Net Revenue
Revenue dollars receivable from Self Pay patients for this reporting period.
This is a subset of Net Revenue.

Home Infusion Pharmacy Expense Elements

Contract Expense
Total expense for clinical services contracts for which hours paid are not tracked (for example, contracts reimbursed on a per visit basis).
This is a subset of Other Direct Operating Expense.

Drug Expense
Total pharmaceutical expense for the department.
This is a subset of Medical Supply Expense.
Indirect Expense

Total indirect expense such as depreciation, plant and property maintenance, facility rent, vehicle leases, vehicle depreciation, fringe benefits and insurance. This category includes all expenses not previously reported in Labor Expense and Other Direct Operating Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a component of Labor Expense.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Home Infusion Pharmacy Mandatory Elements

The following data elements are mandatory for this department:

- Home Care Patient Visits
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Net Revenue
- New Patients Enrolled
- New Therapy Starts
- Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Total Infusion Dose Days
• Worked Hours: Physician Provider
• Worked Hours: RN
• Worked Hours: Staff

**Home Infusion Pharmacy Normalizations**

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Hospital Discharge Planning Nurse
• Provision of home medical equipment, e.g., Durable Medical Equipment (DME)

**02350, Home Medical Equipment**

This department provides home respiratory and or durable medical equipment, through sale, rental, or both, to clients in the home setting.

**Home Medical Equipment Mapping Guidelines**

If your cost center's patient population is not 80% patients utilizing home medical equipment this may not be an appropriate department. Another option might be the 02310, Home Health department or the G2300, Other Home Care Services department.

**Home Medical Equipment Workload Volumes**
Average Length of Service

Average Length of Service is counted from the date a patient is enrolled in the service until the date the patient is discharged from the service. Count only the patients that have been discharged from service during the reporting period.

Days of Operation per Week

Total number of days the department is open for operation during the week.

The maximum number that can be reported is 7.

Equipment Breakdown

Total number of occasions in which sale and or rental equipment (excluding medical supplies) broke down within 48 hours of initial delivery.

Home Care Patient Visits

The total face to face patient encounters in the home setting by nurses or other care giving staff under employment or direct contract with this department. The visit may be for evaluation, consultation, education, or treatment. Exclude patient visits performed by an associated home health agency or only for the purpose of pharmaceutical delivery, visits made in the inpatient setting to assess patient qualifications or arrange for home care, and supervisory visits and visits performed by Volunteers. Count the number of billable home setting contacts and non-billable visits requiring a patient assessment, including visits for the purpose of Medicare Outcome and Assessment Information Set (OASIS), by department staff. Every patient visit counts once toward the total number of visits regardless of the number of department staff making the visit. For example, if a supervisor accompanies a caregiver to a visit and two staff members are involved, the visit would count only once. Unbilled assessments of patients not subsequently enrolled should not be included in the count.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

Incorrect Deliveries

Total number of visits in which incorrect equipment (excluding medical supplies) for a sale or rental was delivered to a client.
Miles Logged

The total miles logged by department staff in support of client visits. This number may be obtained from vehicle trip or maintenance logs. If maintenance logs are used, be sure to prorate for beginning and end of year mileage readings.

New Equipment Contracts: Sale or Rental

The total number of sale or rental equipment starts (when clients initially received a piece of equipment) during the report period. Include IV pump and IV set new starts. Count each new start separately for patients receiving more than one piece of equipment. Count all new home medical equipment contracts during the report period. Exclude medical supplies sales and contracts carried over from a previous report period. Count each new contract for a given client separately. For example, if Mr. Jones begins renting a hospital bed in October of the report period and a wheelchair in November, Mr. Jones would count for two new equipment contracts.

Rental Days

The total number of days that all pieces of equipment were rented during the report period. For rental contracts begun in a prior year, count only rental days accrued during this report period. For example, if a hospital bed was rented for 90 days in the prior report period and for 180 days in this report period, count only 180 days. For patients with multiple pieces of equipment, count days for each piece of equipment separately. For example, in the case of a patient renting a ventilator for 180 days and a hospital bed for 180 days, the total rental days would be 360, not 180.

Respiratory Initial Visits

The total number of visits during which new pieces of equipment are introduced to respiratory patients. For example, a clinical respiratory patient receiving three pieces of respiratory equipment on three different occasions would generate a count of three initial visits (due to the fact that setup and equipment training in initial visits take a great deal of time).

This is a subset of Respiratory Visits.

Respiratory Visits

Total number of visits (including deliveries) performed in support of respiratory equipment, such as oxygen therapy equipment (e.g., oxygen concentrators and liquid oxygen), apnea monitors, nebulizers, and suction machines.

This is a subset of Home Care Patient Visits.

Total Number of Deliveries

Total number of deliveries for the reporting period.
**Total Number of Patients Served**

Total unduplicated number of patients served by the department for the time period reported. If the patient is receiving multiple therapies/services within the department, count the patient once.

**Total Number of Respiratory Patients**

Total Number of Clinical Respiratory patients on service during the reporting period.

**Total Pieces of Equipment Maintenance Completed**

Total pieces of equipment preventative maintenance was completed for the reporting period.

**Total Pieces of Equipment on Rent or Loan**

Total number of individual pieces of equipment on rent or loan for the reporting period.

**Ventilator Initial Visits**

Total number of visits in which ventilators are introduced to respiratory patients.

This is a subset of Respiratory Visits.

**Home Medical Equipment Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Physician Provider**

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.
**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Equipment Technician or Driver**

Total hours worked by equipment technicians/drivers.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Home Medical Equipment Revenue Elements

Gross Revenue

Gross revenue dollars for all patient services performed. Do not include fund raising or grant revenue.

Medicare Net Revenue

Revenue dollars receivable from Medicare for this reporting period.

This is a subset of Net Revenue.

Net Revenue

Revenue dollars receivable after allowances and discounts are deducted from gross revenue.

Revenue on Goods Sold

Total revenue dollars receivable from sales of equipment and supplies (exclude revenue from equipment rentals).

This is a subset of Net Revenue.

Self Pay Net Revenue

Revenue dollars receivable from Self Pay patients for this reporting period.

This is a subset of Net Revenue.
Home Medical Equipment Expense Elements

Contract Expense
Total expense for clinical services contracts for which hours paid are not tracked (for example, contracts reimbursed on a per visit basis).

This is a subset of Other Direct Operating Expense.

Indirect Expense
Total indirect expense such as depreciation, plant and property maintenance, facility rent, vehicle leases, vehicle depreciation, fringe benefits and insurance. This category includes all expenses not previously reported in Labor Expense and Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense
Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense
Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.
This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Home Medical Equipment Mandatory Elements**

The following data elements are mandatory for this department:

- Home Care Patient Visits
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Net Revenue
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Worked Hours: Physician Provider
• Worked Hours: Staff

Home Medical Equipment Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Provision of home medical equipment, e.g., Durable Medical Equipment (DME)

F2300, Home Care Functional Rollup

This rollup department includes all home health, home assistance, home hospice, home infusion, and home medical equipment functions providing nursing, therapeutic, and support services to clients in the home setting. It also includes administrative and support functions.

Home Care Functional Rollup Workload Volumes

Average Length of Service

Average Length of Service is counted from the date a patient is enrolled in the service until the date the patient is discharged from the service. Count only the patients that have been discharged from service during the reporting period.

Home Assistance Visits

The total separate home assistance visits.

This is a subset of Home Care Patient Visits.
Home Care Patient Visits

The total face to face patient encounters in the home setting by nurses or other care giving staff under employment or direct contract with this department. The visit may be for evaluation, consultation, education, or treatment. Exclude patient visits performed by an associated home health agency or only for the purpose of pharmaceutical delivery, visits made in the inpatient setting to assess patient qualifications or arrange for home care, and supervisory visits and visits performed by Volunteers. Count the number of billable home setting contacts and non-billable visits requiring a patient assessment, including visits for the purpose of Medicare Outcome and Assessment Information Set (OASIS), by department staff. Every patient visit counts once toward the total number of visits regardless of the number of department staff making the visit. For example, if a supervisor accompanies a caregiver to a visit and two staff members are involved, the visit would count only once. Unbilled assessments of patients not subsequently enrolled should not be included in the count.

Home Health Visits

The total separate home health visits.

Home Hospice Visits

Total separate home hospice visits.

This is a subset of Home Care Patient Visits.

Home Infusion Visits

Total separate home infusion visits performed by a home infusion agency. Infusion visits performed by a home health agency should be included in Home Health Visits.

This is a subset of Home Care Patient Visits.

Home Medical Equipment Visits

Total separate home medical equipment visits.

Miles Logged

The total miles logged by department staff in support of client visits. This number may be obtained from vehicle trip or maintenance logs. If maintenance logs are used, be sure to prorate for beginning and end of year mileage readings.

Total Number of Patients Served

Total unduplicated number of patients served by the department for the time period reported. If the patient is receiving multiple therapies/services within the department, count the patient once.
Home Care Functional Rollup Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Equipment Technician or Driver

Total hours worked by equipment technicians/drivers.

This is a subset of Worked Hours: Staff.

Worked Hours: Home Health Aide

Total hours worked by home health aides routinely providing home visits.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.
Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Pharmacist

Total hours worked by registered pharmacists.

This is a subset of Worked Hours: Staff.

Worked Hours: Pharmacy Technician

Total hours worked by pharmacy technicians.

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.

This is a subset of Worked Hours: Staff.
Worked Hours: RN
Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Home Care Functional Rollup Revenue Elements

Gross Revenue
Gross revenue dollars for all patient services performed. Do not include fund raising or grant revenue.

Home Assistance Net Revenue
Total home assistance revenues receivable after allowances and discounts.

This is a subset of Net Revenue.

Home Health Net Revenue
Total home health revenues receivable after allowances and discounts.

This is a subset of Net Revenue.

Home Hospice Net Revenue
Total home hospice revenues receivable after allowances and discounts.

This is a subset of Net Revenue.

Home Infusion Net Revenue
Total home infusion revenues receivable after allowances and discounts.

This is a subset of Net Revenue.

Home Medical Equipment Net Revenue
Total home medical equipment revenues receivable after allowances and discounts.
This is a subset of Net Revenue.

**Medicare Net Revenue**
Revenue dollars receivable from Medicare for this reporting period.

This is a subset of Net Revenue.

**Net Revenue**
Revenue dollars receivable after allowances and discounts are deducted from gross revenue.

**Self Pay Net Revenue**
Revenue dollars receivable from Self Pay patients for this reporting period.

This is a subset of Net Revenue.

**Home Care Functional Rollup Expense Elements**

**Contract Expense**
Total expense for clinical services contracts for which hours paid are not tracked (for example, contracts reimbursed on a per visit basis).

This is a subset of Other Direct Operating Expense.

**Indirect Expense**
Total indirect expense such as depreciation, plant and property maintenance, facility rent, vehicle leases, vehicle depreciation, fringe benefits and insurance. This category includes all expenses not previously reported in Labor Expense and Other Direct Operating Expense.

**Labor Expense**
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.
Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Home Care Functional Rollup Department Mandatory Elements

The following data elements are mandatory for this department:

- Home Care Patient Visits
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Net Revenue
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

G2300, Other Home Care Services

This generic department includes all cost centers belonging to Home Care that cannot be mapped to individual home care departments.

Other Home Care Services Revenue Elements
Gross Revenue
Gross revenue dollars for all patient services performed. Do not include fund raising or grant revenue.

Home Assistance Net Revenue
Total home assistance revenues receivable after allowances and discounts.
This is a subset of Net Revenue.

Home Health Net Revenue
Total home health revenues receivable after allowances and discounts.
This is a subset of Net Revenue.

Home Hospice Net Revenue
Total home hospice revenues receivable after allowances and discounts.
This is a subset of Net Revenue.

Home Infusion Net Revenue
Total home infusion revenues receivable after allowances and discounts.
This is a subset of Net Revenue.

Home Medical Equipment Net Revenue
Total home medical equipment revenues receivable after allowances and discounts.
This is a subset of Net Revenue.

Medicare Net Revenue
Revenue dollars receivable from Medicare for this reporting period.
This is a subset of Net Revenue.

Net Revenue
Revenue dollars receivable after allowances and discounts are deducted from gross revenue.
Self Pay Net Revenue

Revenue dollars receivable from Self Pay patients for this reporting period.

This is a subset of Net Revenue.

Other Home Care Services Workload Volumes

Average Length of Service

Average Length of Service is counted from the date a patient is enrolled in the service until the date the patient is discharged from the service. Count only the patients that have been discharged from service during the reporting period.

Home Assistance Visits

The total separate home assistance visits.

This is a subset of Home Care Patient Visits.

Home Care Patient Visits

The total face to face patient encounters in the home setting by nurses or other care giving staff under employment or direct contract with this department. The visit may be for evaluation, consultation, education, or treatment. Exclude patient visits performed by an associated home health agency or only for the purpose of pharmaceutical delivery, visits made in the inpatient setting to assess patient qualifications or arrange for home care, and supervisory visits and visits performed by Volunteers. Count the number of billable home setting contacts and non-billable visits requiring a patient assessment, including visits for the purpose of Medicare Outcome and Assessment Information Set (OASIS), by department staff. Every patient visit counts once toward the total number of visits regardless of the number of department staff making the visit. For example, if a supervisor accompanies a caregiver to a visit and two staff members are involved, the visit would count only once. Unbilled assessments of patients not subsequently enrolled should not be included in the count.

Home Health Visits

The total separate home health visits.

This is a subset of Home Care Patient Visits.

Home Hospice Visits

Total separate home hospice visits.

This is a subset of Home Care Patient Visits.

CPT is a registered trademark of the American Medical Association. All rights reserved.
Home Infusion Visits
Total separate home infusion visits performed by a home infusion agency. Infusion visits performed by a home health agency should be included in Home Health Visits.

This is a subset of Home Care Patient Visits.

Home Medical Equipment Visits
Total separate home medical equipment visits.

Miles Logged
The total miles logged by department staff in support of client visits. This number may be obtained from vehicle trip or maintenance logs. If maintenance logs are used, be sure to prorate for beginning and end of year mileage readings.

Total Number of Patients Served
Total unduplicated number of patients served by the department for the time period reported. If the patient is receiving multiple therapies/services within the department, count the patient once.

Other Home Care Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider
Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.
**Worked Hours: Equipment Technician or Driver**

Total hours worked by equipment technicians/drivers.

This is a subset of Worked Hours: Staff.

---

**Worked Hours: Home Health Aide**

Total hours worked by home health aides routinely providing home visits.

This is a subset of Worked Hours: Staff.

---

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e., Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

---

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g., nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

---

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

---

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

---

**Worked Hours: Pharmacist**

Total hours worked by registered pharmacists.
This is a subset of Worked Hours: Staff.

**Worked Hours: Pharmacy Technician**
Total hours worked by pharmacy technicians.
This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**
Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.
This is a subset of Worked Hours: Staff.

**Worked Hours: RN**
Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.
This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Other Home Care Services Expense Elements**

**Contract Expense**
Total expense for clinical services contracts for which hours paid are not tracked (for example, contracts reimbursed on a per visit basis).
This is a subset of Other Direct Operating Expense.

**Indirect Expense**
Total indirect expense such as depreciation, plant and property maintenance, facility rent, vehicle leases, vehicle depreciation, fringe benefits and insurance. This category includes all expenses not previously reported in Labor Expense and Other Direct Operating Expense.
Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.
**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Other Home Care Services Mandatory Elements**

The following data elements are mandatory for this department:

- Home Care Patient Visits
- Labor Expense
- Labor Expense: Physician Provider
- Medical Supply Expense
- Net Revenue
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

**Other Home Care Services Normalizations**

Exclude the hours, costs and volumes associated with the following functions:

- Hospital Discharge Planning Nurse
Chapter 20. Human Resources

This chapter includes the following sections:

- 06010, Personnel Services 837
- 06011, Employment and Recruitment Services 844
- 06012, Compensation Services 849
- 06013, Employee Benefits Administration 852
- 06015, Human Resources Information Services 857
- 06016, Employee and Labor Relations Services 861
- 06020, Employee Health Services 866
- F6000, Human Resource Services Functional Rollup 871
- G6000, Other Human Resource Services 878

06010, Personnel Services

This is a combined department that performs recruitment, retention support, compensation management, benefits management, and labor relations functions. It may also include employee health if employee health is not a separately mapped cost center.

Personnel Services Mapping Guidelines

If the organization has separate cost centers for recruitment, employee health or compensation functions, map to the appropriate individual departments (such as the 06011, Employment and Recruitment Services department; 06020, Employee Health Services department; and 06012, Compensation Services department.)
Personnel Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non-hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Applications Received

The total applications for employment (electronic, hard copy or via internet) received. Count the total number of solicited and unsolicited applications received and processed. Count all applications or resumes collected that are reviewed by staff and kept on file for a period of time determined by the facility for possible future contact.

Average Paid Employees Supported

The average employee headcount during the reporting period. Note: The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

Employee Grievances

The total formal employee grievances filed in accordance with union contract or facility protocol. Count formal grievances filed with and managed by Human Resources. Formal grievances require involvement of the department manager and may involve intervention by a grievance committee or bargaining unit agent.

Employee Health Service Visits

The total visits by prospective and current facility employees supported by the Personnel Services department. Count employees seeking either treatment or consultation through this department. This involves face to face contact with a health care clinical professional. Employees receiving immunizations and visits from volunteers would also be included. If this department does not support employee health visits, report a value of 0.

Employee Leaves Initiated

The total number of employee leaves initiated during the reporting period. Include Workers’ Compensation, Family Medical Leave Act (FMLA), Short-Term Disability, Long-Term Disability, Military Leaves, and other leaves governed state regulations that are more than 5 workdays.
Employee Separations

The total facility employee separations, both voluntary and involuntary, processed by department staff. Count all employees (permanent or temporary, full-time or part-time) permanently separated from employment for any reason (voluntary or involuntary death, layoff, or performance). This does not include employees temporarily suspended or on leave of absence.

Full Time And Part Time Hires

The total new employees hired during the reporting period for both full and part time positions. Do not include temporary hires. Count employees hired by the facility during the reporting period and who receive orientation or education from this department.

This is a subset of New Hires.

House Staff Hires

The total physician house staff personnel hired by the facility. Count interns and residents hired by the facility and who receive orientation or education from this department during the reporting period. Include any hospital based physicians that may have been hired or processed through the system during the reporting period. Include new staff hired on a temporary basis.

This is a subset of New Hires.

Labor Bargaining Units

The total labor bargaining units (unions) represented within the facility that are supported by this department.

New Hires

The total new employees hired by the facility. Count employees hired by the facility during the reporting period and who receive orientation or education from this department. Also include employees who transition from temporary to permanent hires during the reporting period.

Temporary Hires

The total positions filled for temporary work, including staff paid on a per diem basis. Count all employees except house staff physicians hired on a temporary basis during the reporting period, using the facility's definition of temporary.

This is a subset of New Hires.

Unionized Employees Supported

The average number of individuals supported by the department who are represented by a collective bargaining unit. This information can be obtained from the counts of employees paying dues. An average for the reporting period is acceptable.
Personnel Services Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Compensation Staff
Hours worked by technical and professional staff performing job description preparation, analysis, and evaluation, conducts salary surveys, and performs other activities of compensation management.

This is a subset of Worked Hours: Staff.

Worked Hours: Employee and Labor Relations Staff
Hours worked by technical and professional staff performing employee and labor relations services, including labor union negotiations, employee counseling training, employee grievance administration, and employee attitude monitoring.

This is a subset of Worked Hours: Staff.

Worked Hours: Employee Benefits Staff
Hours worked by technical and professional staff performing employee benefits management, including employee enrollment, plan administration, and record keeping.

This is a subset of Worked Hours: Staff.

Worked Hours: Employment and Recruitment Staff
Hours worked by technical and professional staff performing employment and recruitment responsibilities, including the solicitation, screening, and interviewing of candidates and the extension of employment offers to successful candidates.

This is a subset of Worked Hours: Staff.
Worked Hours: Human Resources Generalist

Hours worked by technical and professional staff performing employee enrollment, plan administration, record keeping, solicitation for job opening, screening and interviewing of candidates, extension of employment offers, evaluations, salary surveys and other human resource functions.

This is a subset of Worked Hours: Staff.

Worked Hours: Human Resources Information Services Staff

Hours worked by technical and professional staff responsible for Human Resources Information System for the purpose of gathering and maintaining all information regarding the hiring, training, compensation, disciplining, rewarding, termination, and demographics of facility employees.

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurse, licensed vocational nurses providing patient care services in the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Clinical

Hours worked by other clinical support staff including but not limited to hours worked by educators and aides.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN or Nurse Practitioner**

Hours worked by registered nurses or nurse practitioners.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Personnel Services Expense Elements**

**Corporate Allocation Expense**

Total allocated expense for employee health services provided by a related party.

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.
Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Personnel Services Mandatory Elements

The following data elements are mandatory for this department:

- Average Paid Employees Supported
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

Personnel Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Administration of Compensation and Benefits, e.g., job description preparation, analysis, and evaluation, conducting salary surveys, performing employee benefits management, employee enrollment, plan administration, and record keeping
- Employee Assistance (management and administration of the program)
- Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)
- Human Resources/Personnel
- Nursing Recruitment and Retention
- Outplacement Counseling
- Performance Management, e.g., evaluating current employee performance within a specific job, mid-year, or annual reviews
- Position Control
- Recruitment Costs, e.g., costs associated with the relocation of new employees (excluding physicians)

- Staff who perform new employee/ new hire orientation specific to HR-related activities, e.g., institutional policies and procedures, W-2 forms, benefits

- Union Negotiations

- Workers Compensation Administration

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Employee formal facility wide training programs, e.g., fire safety, CPR, hand washing

- Interpreters

- Lean Six Sigma program administration and support to be included in the 06235, Organization Development

- Organizational Development, e.g., coaching, culture development

- Payroll processing and distribution

- Talent management (the focus on an employee’s potential and future performance, if given the proper development of skills and increased responsibility, “career advancement”, “attract and retain”)

- Time and attendance system management

**06011, Employment and Recruitment Services**

This department performs employment and recruitment services, including the solicitation, screening, and interviewing of candidates and the extension of employment offers to successful candidates.

**Employment and Recruitment Services Mapping Guidelines**

If your cost center also performs compensation services, employee benefits administration or labor relations functions, this may not be an appropriate department. Another option might include the 06010, Personnel Services department.
Employment and Recruitment Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Applications Received

The total applications for employment (electronic, hard copy or via internet) received. Count the total number of solicited and unsolicited applications received and processed. Count all applications or resumes collected that are reviewed by staff and kept on file for a period of time determined by the facility for possible future contact.

Average Paid Employees Supported

The average employee headcount during the reporting period. Note: The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

Average Placement Time

The average number of days required to fill requested and approved positions. This is the average number of days from the day a position is approved to the day an offer is accepted. Count the number of days including the day that Human Resources is first contacted regarding the need for filling a position and the day a candidate accepts the position. This value may be determined using random samples and must be expressed as an integer (no decimals).

Average Vacant Positions

Average of employment positions vacant at the end of each month over the reporting period.

Full Time And Part Time Hires

The total new employees hired during the reporting period for both full and part time positions. Do not include temporary hires. Count employees hired by the facility during the reporting period and who receive orientation or education from this department.

This is a subset of New Hires.
Internal Applications Processed

The total applications for new employment positions received from individuals already employed by the facility. Count all current employees’ applications for different positions within the facility that were received during the reporting period.

This is a subset of Applications Received.

Job Postings Prepared

The total new or modified job postings prepared and released by the department. This includes all postings for available positions that were developed during the reporting period.

New Hires

The total new employees hired by the facility. Count employees hired by the facility during the reporting period and who receive orientation or education from this department. Also include employees who transition from temporary to permanent hires during the reporting period.

Temporary Hires

The total positions filled for temporary work, including staff paid on a per diem basis. Count all employees except house staff physicians hired on a temporary basis during the reporting period, using the facility's definition of temporary.

This is a subset of New Hires.

Employment and Recruitment Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: HR Technical Staff

Hours worked by technical staff with specific skills in human resource management or technical support (e.g., recruiter, benefits specialist, information systems staff).

This is a subset of Worked Hours: Staff.
Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime
Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Professional Staff
Total hours worked by professional staff with a college degree in personnel management or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Employment and Recruitment Services Expense Elements

Corporate Allocation Expense
Total allocated expense for employee health services provided by a related party.

This is a subset of Other Direct Operating Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Employment and Recruitment Services Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- New Hires
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Employment and Recruitment Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Recruitment Costs, e.g., costs associated with the relocation of new employees (excluding physicians)
06012, Compensation Services

This department performs job description preparation, analysis, and evaluation, conducts salary surveys, and performs other activities of compensation management.

Compensation Services Mapping Guidelines

If your cost center also performs employee recruitment, employee benefits administration or labor relations functions, this may not be an appropriate department. Another option might include the 06010, Personnel Services department.

Compensation Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Average Paid Employees Supported

The average employee headcount during the reporting period. Note: The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

Classification Request Turnaround Time

The total average lapse time, in days, from submission of job classification request until final evaluation is presented. This may be determined using random samples. Count the time from the point that Human Resources is first contacted regarding the need for reclassifying the status or pay scale of a position to the time the new standard is actually effective.

Job Classes Maintained

The total discrete job classes maintained in the facility personnel roster. Count the actual number of different position titles maintained by the facility, whether or not all are in active use.

Job Descriptions Created

The total job descriptions created. This represents job descriptions developed by the department during the reporting period.
This is a subset of Job Descriptions Handled.

**Job Descriptions Handled**

The total job descriptions created, analyzed, or evaluated. This represents all job descriptions, whether or not drafted by this department, that the department handled during the reporting period.

**Merit Increases Processed**

The total merit increases processed for payroll during the reporting period. Count increases processed based on merit, do not include increases based on cost of living adjustments.

**Pay Structures Maintained**

The total discrete pay structures maintained in the facility compensation program, including shift differentials, on-call, and call-back rates. Count the total different payroll schemes used to support the variety of staff. For example, each union may have different guidelines regarding what qualifies as a shift and what the associated premiums are. Each different scheme used for these unique agreements counts as one pay structure.

**Salary Surveys Conducted**

The total formal salary surveys conducted. Count total formal salary surveys completed during the reporting period.

**Compensation Services Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

**Worked Hours: HR Technical Staff**

Hours worked by technical staff with specific skills in human resource management or technical support (e.g., recruiter, benefits specialist, information systems staff).

This is a subset of Worked Hours: Staff.
Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Professional Staff

Total hours worked by professional staff with a college degree in personnel management or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Compensation Services Expense Elements

Corporate Allocation Expense

Total allocated expense for employee health services provided by a related party.

This is a subset of Other Direct Operating Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Compensation Services Mandatory Elements**

The following data elements are mandatory for this department:

- Average Paid Employees Supported
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**06013, Employee Benefits Administration**

This department performs employee benefits management, including employee enrollment, plan administration, and record keeping.
Employee Benefits Administration Mapping Guidelines

If your cost center also performs compensation services, employee recruitment or labor relations functions, this may not be an appropriate department. Another option might include the 06010, Personnel Services department.

Employee Benefits Administration Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Average Paid Employees Supported

The average employee headcount during the reporting period. Note: The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

Benefits Eligible Employees

The total facility employees eligible to participate in one or more benefit programs offered. Count full range of benefits, such as PTO, health insurance, and life insurance. Benefits prorated based on hours worked count as a benefit eligible employee.

Paid Holidays

Total paid holidays designated/recognized by the facility.

Employee Benefits Administration Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.
**Worked Hours: HR Technical Staff**

Hours worked by technical staff with specific skills in human resource management or technical support (e.g., recruiter, benefits specialist, information systems staff).

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Professional Staff**

Total hours worked by professional staff with a college degree in personnel management or credentials in education, organizational development, or related subjects.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Employee Benefits Administration Expense Elements**

**Corporate Allocation Expense**

Total allocated expense for employee health services provided by a related party.
This is a subset of Other Direct Operating Expense.

**Employee Health Insurance Expense**

Total expense for employee health care insurance (including dental) paid by both the employee and the facility.

**Fac Life, Accident, Death Insurance Benefit Contribution**

Total expense for employee life, accident, and/or death insurance benefit paid by the facility.

This is a subset of Facility Benefits Contribution.

**Facility Benefits Contribution**

Total expense for employee benefits paid by the facility.

**Facility Disability (STD And LTD) Benefit Contribution**

Total expense for employee short term and/or long term disability benefit paid by the facility.

This is a subset of Facility Benefits Contribution.

**Facility Health And Dental Care Benefit Contribution**

Total expense for employee health/dental care benefit paid by the facility.

This is a subset of Facility Benefits Contribution.

**Facility Matching Plans (401K) Benefit Contribution**

Total expense for 401K matching funds benefit paid by the facility.

This is a subset of Facility Benefits Contribution.

**Facility Retirement Benefit Contribution**

Total expense for employee retirement benefit paid by the facility.

This is a subset of Facility Benefits Contribution.

**Facility Tuition Reimbursement Benefit Contribution**

Total expense for employee tuition reimbursement benefit paid by the facility.
This is a subset of Facility Benefits Contribution.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

**Employee Benefits Administration Mandatory Elements**

The following elements are mandatory for this department.

- Average Paid Employees Supported
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff

**Employee Benefits Administration Normalizations**
Include the hours, costs and volumes (where applicable) associated with the following functions:

- Administration of Compensation and Benefits, e.g., job description preparation, analysis, and evaluation, conducting salary surveys, performing employee benefits management, employee enrollment, plan administration, and record keeping

### 06015, Human Resources Information Services

This department is responsible for gathering and maintaining all information regarding the hiring, training, compensation, disciplining, rewarding, termination, and demographics of facility employees.

### Human Resources Information Services Workload Volumes

#### Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

#### Average Paid Employees Supported

The average employee headcount during the reporting period. **Note:** The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

#### Compensation Changes

The total facility employee compensation changes owing to merit, promotion, demotion, transfer, or COLA processed by department staff. This is the total of any pay rate changes processed for employees. Other actions, such as demographic changes, may have taken place simultaneously, but should not be counted.

This is a subset of Personnel Transactions Processed.

#### Employee Demographic Changes

The total changes in employee demographics processed by department staff. This is the total of any demographic changes processed for employees. Other actions, such as pay rate change, may have taken place simultaneously, but should not be used to inflate the count. Multiple changes to an employee’s demographics processed at the same time with the same effective date count as one change.
Employee Separations

The total facility employee separations, both voluntary and involuntary, processed by department staff. Count all employees (permanent or temporary, full-time or part-time) permanently separated from employment for any reason (voluntary or involuntary death, layoff, or performance). This does not include employees temporarily suspended or on leave of absence.

This is a subset of Personnel Transactions Processed.

Major HR Software Programs

The total major software applications maintained. Major software programs include HRIS products for recruiting, workforce management and applicant tracking.

New Hires Processed

Total facility new employees processed for payroll.

This is a subset of Personnel Transactions Processed.

Personnel Transactions Processed

The total personnel actions processed. Personnel actions include employee hires, a change in employee demographics, job title, compensation, skills, area of employment, employee performance reviews, and terminations. This represents each transaction document prepared to support a personnel transaction. A document may reflect several employee changes, but counts as one transaction.

Human Resources Information Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Compensation Staff

Hours worked by technical and professional staff performing job description preparation, analysis, and evaluation, conducts salary surveys, and performs other activities of compensation management.
This is a subset of Worked Hours: Staff.

Worked Hours: Employee and Labor Relations Staff
Hours worked by technical and professional staff performing employee and labor relations services, including labor union negotiations, employee counseling training, employee grievance administration, and employee attitude monitoring.

This is a subset of Worked Hours: Staff.

Worked Hours: Employee Benefits Staff
Hours worked by technical and professional staff performing employee benefits management, including employee enrollment, plan administration, and record keeping.

This is a subset of Worked Hours: Staff.

Worked Hours: Employment and Recruitment Staff
Hours worked by technical and professional staff performing employment and recruitment responsibilities, including the solicitation, screening, and interviewing of candidates and the extension of employment offers to successful candidates.

This is a subset of Worked Hours: Staff.

Worked Hours: Human Resources Information Services Staff
Hours worked by technical and professional staff responsible for Human Resources Information System for the purpose of gathering and maintaining all information regarding the hiring, training, compensation, disciplining, rewarding, termination, and demographics of facility employees.

This is a subset of Worked Hours: Staff.

Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.
This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Human Resources Information Services Expense Elements**

**Corporate Allocation Expense**

Total allocated expense for employee health services provided by a related party.

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**

Total expense for department operating supplies.
This is a subset of Other Direct Operating Expense.

Human Resources Information Services Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Personnel Transactions Processed
- Worked Hours: Staff

06016, Employee and Labor Relations Services

This department performs employee and labor relations services, including labor union negotiations, employee counseling training, employee grievance administration, and employee attitude monitoring.

Employee and Labor Relations Services Mapping Guidelines

If your cost center also performs compensation services, employee recruitment or employee benefits functions, this may not be an appropriate department. Another option might include the 06010, Personnel Services department.

Employee and Labor Relations Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
Average Paid Employees Supported

The average employee headcount during the reporting period. **Note:** The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

Employee Grievances Reaching Arbitration

The total employee grievances resolved through third-party arbitration. This represents all formal grievances that do not get settled through the normal chain of command channels.

Employee Involuntary Separations

The total involuntary separations processed by the department. This includes separations due to layoff, termination for cause, or death.

Formal Union Employee Grievances

The total formal union employee grievances filed in accordance with contract protocol. This includes grievances of ONLY union represented employees filed during the reporting period.

Labor Bargaining Units

The total labor bargaining units represented within the facility. Count total number of labor unions (bargaining units) represented in the facility.

NLRB Recognized Labor Bargaining Units

The total NLRB-recognized labor bargaining units represented within the facility. Count all labor bargaining units (unions) recognized by the National Labor Relations Board.

This is a subset of Labor Bargaining Units.

Non Union Employee Grievances

The total non-union employee grievances filed in accordance with hospital policy. Count formal grievances filed according to hospital policy by employees who are not union members.

Unfair Labor Practice Complaints

The total unfair labor practice complaints issued or formally filed against the facility by an employee bargaining unit. Count total unfair labor practice complaints issued and/or filed against a facility by an employee who is a member of a bargaining unit.
Employee and Labor Relations Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Compensation Staff

Hours worked by technical and professional staff performing job description preparation, analysis, and evaluation, conducts salary surveys, and performs other activities of compensation management.

This is a subset of Worked Hours: Staff.

Worked Hours: Employee and Labor Relations Staff

Hours worked by technical and professional staff performing employee and labor relations services, including labor union negotiations, employee counseling training, employee grievance administration, and employee attitude monitoring.

This is a subset of Worked Hours: Staff.

Worked Hours: Employee Benefits Staff

Hours worked by technical and professional staff performing employee benefits management, including employee enrollment, plan administration, and record keeping.

This is a subset of Worked Hours: Staff.

Worked Hours: Employment and Recruitment Staff

Hours worked by technical and professional staff performing employment and recruitment responsibilities, including the solicitation, screening, and interviewing of candidates and the extension of employment offers to successful candidates.

This is a subset of Worked Hours: Staff.
Worked Hours: Human Resources Information Services Staff

Hours worked by technical and professional staff responsible for Human Resources Information System for the purpose of gathering and maintaining all information regarding the hiring, training, compensation, disciplining, rewarding, termination, and demographics of facility employees.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Employee and Labor Relations Services Revenue Elements

Unfair Labor Practice Charges

Total unfair labor practice charges formally filed with the NLRB against the facility by an employee bargaining unit.

This is a subset of Unfair Labor Practice Complaints.
Corporate Allocation Expense

Total allocated expense for employee health services provided by a related party.

This is a subset of Other Direct Operating Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Employee and Labor Relations Services Mandatory Elements

The following data elements are mandatory for this department:

- Average Paid Employees Supported
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff
06020, Employee Health Services

This department provides medical services to employees, such as pre-employment physicals.

Employee Health Services Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Average Paid Employees Supported

The average employee headcount during the reporting period. Note: The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

Employee Health Visits

The total visits by prospective and current facility employees supported by the Employee Health Services department. Count employees seeking either treatment or consultation through this department. This involves face to face contact with a health care clinical professional. Employees receiving immunizations and visits from volunteers would also be included.

This is a subset of Visits.

Non Employee Visits

The total visits by non-facility clientele in an occupational health delivery role supported by the Employee Health Services departments. Count non-employees (occupational health cases from outside firms) seeking either treatment or consultation. This involves face to face contact with a health care clinical professional.

This is a subset of Visits.
Visits

The total visits supported by the Employee Health Services department. Count employees and others covered individuals seeking either treatment or consultation through this department. This involves face to face contact with a health care clinical professional. It includes treatment or consultation visits by non-employees (occupational health cases from outside firms) served by the department. Employees receiving immunizations would also be included as a visit. It does not include a count of individuals merely stopping in to pick-up health information or dropping off of forms.

Employee Health Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurse, licensed vocational nurses providing patient care services in the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.
This is a subset of Worked Hours: Staff.

**Worked Hours: Other Clinical Staff**

Hours worked by other clinical support staff including but not limited to hours worked by educators and aides.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN or Nurse Practitioner**

Hours worked by registered nurses or nurse practitioners.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Employee Health Services Expense Elements

**Corporate Allocation Expense**

Total allocated expense for employee health services provided by a related party.

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Supply Expense**

Total expense for department operating supplies.
This is a subset of Other Direct Operating Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Employee Health Services Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Visits
- Worked Hours: Physician Provider
- Worked Hours: Staff

**Employee Health Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)
- Workers Compensation Administration

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Employee formal facility wide training programs, e.g., fire safety, CPR, hand washing

F6000, Human Resource Services Functional Rollup

The Human Resources (HR) Services department includes all human resources administration, personnel, employee health functions regardless of reporting relationship.

HR Services Functional Rollup Mapping Guidelines

This functional rollup department automatically rolls up to combine data for all departments within the Human Resource Services series.

HR Services Functional Rollup Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Applications Received

The total applications for employment (electronic, hard copy or via internet) received. Count the total number of solicited and unsolicited applications received and processed. Count all applications or resumes collected that are reviewed by staff and kept on file for a period of time determined by the facility for possible future contact.

Average Paid Employees Supported

The average employee headcount during the reporting period. Note: The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

Employee Contact Instructional Hours

The total hours of instruction received from education or training staff. This is the product of the number of class hours provided multiplied by the number of participants of each class. Count the cumulative hours of each employee educational event multiplied by the number of individuals present at each event. For example, an event lasting two hours attended by 10 individuals provides 20 contact hours.
Employee Grievances
The total formal employee grievances filed in accordance with union contract or facility protocol. Count formal grievances filed with and managed by Human Resources. Formal grievances require involvement of the department manager and may involve intervention by a grievance committee or bargaining unit agent.

Employee Grievances Reaching Arbitration
The total employee grievances resolved through third-party arbitration. This represents all formal grievances that do not get settled through the normal chain of command channels.

Employee Health Service Visits
The total visits by prospective and current facility employees supported by the Personnel Services department. Count employees seeking either treatment or consultation through this department. This involves face to face contact with a health care clinical professional. Employees receiving immunizations and visits from volunteers would also be included. If this department does not support employee health visits, report a value of 0.

Employee Instructional Hours
The total hours of general orientation, general and special skills, and TQM/CQI instruction provided by education staff. Count all instruction provided to employees by department educators or by outside sources coordinated by department educators. Add the cumulative total of hours provided, fractions included, for all instruction provided. This is a count of instruction hours and is not affected by the size of classes. For example, a one hour class to 20 employees and a on hour class to 10 employees each count as one hour towards the total Employee Instructional Hours.

Employee Leaves Initiated
The total number of employee leaves initiated during the reporting period. Include Workers’ Compensation, Family Medical Leave Act (FMLA), Short-Term Disability, Long-Term Disability, Military Leaves, and other leaves governed state regulations that are more than 5 workdays.

Employee Orientation Hours
The total hours of general orientation provided by the training department. Count general orientation to the hospital. For example, include discussions of time cards or sheets, clocking in, employee benefits, or hospital wide work rules.

This is a subset of Employee Instructional Hours.
Employee Separations

The total facility employee separations, both voluntary and involuntary, processed by department staff. Count all employees (permanent or temporary, full-time or part-time) permanently separated from employment for any reason (voluntary or involuntary death, layoff, or performance). This does not include employees temporarily suspended or on leave of absence.

Full Time And Part Time Hires

The total new employees hired during the reporting period for both full and part time positions. Do not include temporary hires. Count employees hired by the facility during the reporting period and who receive orientation or education from this department.

This is a subset of New Hires.

Instructional Hours Contracted

Total hours of instruction training taught by non-department and contracted staff.

This is a subset of Employee Instructional Hours.

Labor Bargaining Units

The total labor bargaining units (unions) represented within the facility that are supported by this department.

New Hires

The total new employees hired by the facility. Count employees hired by the facility during the reporting period and who receive orientation or education from departments within this series. Also include employees who transition from temporary to permanent hires during the reporting period.

Temporary And House Staff Hires

Total new employees hired for temporary positions and physician house staff.

This is a subset of New Hires.

HR Services Functional Rollup Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Compensation Staff

Hours worked by technical and professional staff performing job description preparation, analysis, and evaluation, conducts salary surveys, and performs other activities of compensation management.

This is a subset of Worked Hours: Staff.

Worked Hours: Employee and Labor Relations Staff

Hours worked by technical and professional staff performing employee and labor relations services, including labor union negotiations, employee counseling training, employee grievance administration, and employee attitude monitoring.

This is a subset of Worked Hours: Staff.

Worked Hours: Employee Benefits Staff

Hours worked by technical and professional staff performing employee benefits management, including employee enrollment, plan administration, and record keeping.

This is a subset of Worked Hours: Staff.

Worked Hours: Employment and Recruitment Staff

Hours worked by technical and professional staff performing employment and recruitment responsibilities, including the solicitation, screening, and interviewing of candidates and the extension of employment offers to successful candidates.

This is a subset of Worked Hours: Staff.
Worked Hours: Human Resources Generalist

Hours worked by technical and professional staff performing employee enrollment, plan administration, record keeping, solicitation for job opening, screening and interviewing of candidates, extension of employment offers, evaluations, salary surveys and other human resource functions.

This is a subset of Worked Hours: Staff.

Worked Hours: Human Resources Information Services Staff

Hours worked by technical and professional staff responsible for Human Resources Information System for the purpose of gathering and maintaining all information regarding the hiring, training, compensation, disciplining, rewarding, termination, and demographics of facility employees.

This is a subset of Worked Hours: Staff.

Worked Hours: LPN, LVN

Hours worked by licensed practical nurse, licensed vocational nurses providing patient care services in the department.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Clinical

Hours worked by other clinical support staff including but not limited to hours worked by educators and aides.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

---

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

---

**Worked Hours: RN or Nurse Practitioner**

Hours worked by registered nurses or nurse practitioners.

This is a subset of Worked Hours: Staff.

---

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

---

**HR Services Functional Rollup Expense Elements**

**Corporate Allocation Expense**

Total allocated expense for employee health services provided by a related party.

This is a subset of Other Direct Operating Expense.

---

**Employer Paid Tuition**

Total expense for tuition fees paid to employees.

This is a subset of Other Direct Operating Expense.
**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Supply Expense**

Total expense for department operating supplies.
This is a subset of Other Direct Operating Expense.

**HR Services Functional Rollup Mandatory Elements**

The following data elements are mandatory for this department:

- Average Paid Employees Supported
- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

**G6000, Other Human Resource Services**

If you have a cost center in this series that does not appropriately map to any of the individual departments, map to this department.

**Other Human Resource Services Workload Volumes**

**Adjusted Discharges Supported**

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.
Applications Received

The total applications for employment (electronic, hard copy or via internet) received. Count the total number of solicited and unsolicited applications received and processed. Count all applications or resumes collected that are reviewed by staff and kept on file for a period of time determined by the facility for possible future contact.

Average Paid Employees Supported

The average employee headcount during the reporting period. Note: The average number of pay checks generated may provide the means to associate the number of employees supported by the department.

Employee Contact Instructional Hours

The total hours of instruction received from education or training staff. This is the product of the number of class hours provided multiplied by the number of participants of each class. Count the cumulative hours of each employee educational event multiplied by the number of individuals present at each event. For example, an event lasting two hours attended by 10 individuals provides 20 contact hours.

Employee Grievances

The total formal employee grievances filed in accordance with union contract or facility protocol. Count formal grievances filed with and managed by Human Resources. Formal grievances require involvement of the department manager and may involve intervention by a grievance committee or bargaining unit agent.

Employee Grievances Reaching Arbitration

The total employee grievances resolved through third-party arbitration. This represents all formal grievances that do not get settled through the normal chain of command channels.

Employee Health Service Visits

The total visits by prospective and current facility employees supported by the Personnel Services department. Count employees seeking either treatment or consultation through this department. This involves face to face contact with a health care clinical professional. Employees receiving immunizations and visits from volunteers would also be included. If this department does not support employee health visits, report a value of 0.

Employee Instructional Hours

The total hours of general orientation, general and special skills, and TQM/CQI instruction provided by education staff. Count all instruction provided to employees by department educators or by outside sources coordinated by department educators. Add the cumulative total of hours provided, fractions included, for all instruction provided. This is a count of instruction hours and is not affected by the size of classes. For example, a one hour class to 20 employees and a one hour class to 10 employees each count as one hour towards the total Employee Instructional Hours.
Employee Leaves Initiated

The total number of employee leaves initiated during the reporting period. Include Workers’ Compensation, Family Medical Leave Act (FMLA), Short-Term Disability, Long-Term Disability, Military Leaves, and other leaves governed by state regulations that are more than 5 workdays.

Employee Orientation Hours

The total hours of general orientation provided by the training department. Count general orientation to the hospital. For example, include discussions of time cards or sheets, clocking in, employee benefits, or hospital wide work rules.

This is a subset of Employee Instructional Hours.

Employee Separations

The total facility employee separations, both voluntary and involuntary, processed by department staff. Count all employees (permanent or temporary, full-time or part-time) permanently separated from employment for any reason (voluntary or involuntary death, layoff, or performance). This does not include employees temporarily suspended or on leave of absence.

Full Time And Part Time Hires

The total new employees hired during the reporting period for both full and part time positions. Do not include temporary hires. Count employees hired by the facility during the reporting period and who receive orientation or education from this department.

This is a subset of New Hires.

Instructional Hours Contracted

Total hours of instruction training taught by non-department and contracted staff.

This is a subset of Employee Instructional Hours.

Labor Bargaining Units

The total labor bargaining units (unions) represented within the facility that are supported by this department.

New Hires

The total new employees hired by the facility. Count employees hired by the facility during the reporting period and who receive orientation or education from this department. Also include employees who transition from temporary to permanent hires during the reporting period.
Temporary And House Staff Hires

Total new employees hired for temporary positions and physician house staff.

This is a subset of New Hires.

Other Human Resource Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Compensation Staff

Hours worked by technical and professional staff performing job description preparation, analysis, and evaluation, conducts salary surveys, and performs other activities of compensation management.

This is a subset of Worked Hours: Staff.

Worked Hours: Employee and Labor Relations Staff

Hours worked by technical and professional staff performing employee and labor relations services, including labor union negotiations, employee counseling training, employee grievance administration, and employee attitude monitoring.

This is a subset of Worked Hours: Staff.
**Worked Hours: Employee Benefits Staff**

Hours worked by technical and professional staff performing employee benefits management, including employee enrollment, plan administration, and record keeping.

This is a subset of Worked Hours: Staff.

**Worked Hours: Employment and Recruitment Staff**

Hours worked by technical and professional staff performing employment and recruitment responsibilities, including the solicitation, screening, and interviewing of candidates and the extension of employment offers to successful candidates.

This is a subset of Worked Hours: Staff.

**Worked Hours: Human Resources Generalist**

Hours worked by technical and professional staff performing employee enrollment, plan administration, record keeping, solicitation for job opening, screening and interviewing of candidates, extension of employment offers, evaluations, salary surveys and other human resource functions.

This is a subset of Worked Hours: Staff.

**Worked Hours: Human Resources Information Services Staff**

Hours worked by technical and professional staff responsible for Human Resources Information System for the purpose of gathering and maintaining all information regarding the hiring, training, compensation, disciplining, rewarding, termination, and demographics of facility employees.

This is a subset of Worked Hours: Staff.

**Worked Hours: LPN, LVN**

Hours worked by licensed practical nurse, licensed vocational nurses providing patient care services in the department.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.
**Worked Hours: Other Clinical**

Hours worked by other clinical support staff including but not limited to hours worked by educators and aides.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN or Nurse Practitioner**

Hours worked by registered nurses or nurse practitioners.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Other Human Resource Services Expense Elements

Corporate Allocation Expense

Total allocated expense for employee health services provided by a related party.

This is a subset of Other Direct Operating Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non exempt employees paid at a premium rate. Include expense for incidental overtime and call back time; exclude expense for on call time.

This is a subset of Labor Expense.
Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Supply Expense

Total expense for department operating supplies.

This is a subset of Other Direct Operating Expense.

Other Human Resource Services Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Labor Expense: Physician Provider
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Worked Hours: Physician Provider
- Worked Hours: Staff

Other Human Resource Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Administration of Compensation and Benefits, e.g., job description preparation, analysis, and evaluation, conducting salary surveys, performing employee benefits management, employee enrollment, plan administration, and record keeping
• Employee Assistance (management and administration of the program)

• Non-emergent Employee Health functions and activities, such as employment physicals and health screenings (e.g., tuberculosis testing, flu shots)

• Human Resources/Personnel

• Nursing Recruitment and Retention

• Outplacement Counseling

• Performance Management, e.g., evaluating current employee performance within a specific job, mid-year, or annual reviews

• Position Control

• Recruitment Costs, e.g., costs associated with the relocation of new employees (excluding physicians)

• Staff who perform new employee/new hire orientation specific to HR-related activities, e.g., institutional policies and procedures, W-2 forms, benefits

• Union Negotiations

• Workers Compensation Administration

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Employee formal facility wide training programs, e.g., fire safety, CPR, hand washing

• Interpreters

• Lean Six Sigma program administration and support to be included in the 06235, Organization Development

• Organizational Development, e.g., coaching, culture development

• Payroll processing and distribution

• Talent management (the focus on an employee’s potential and future performance, if given the proper development of skills and increased responsibility, "career advancement", "attract and retain")

• Time and attendance system management
Chapter 21. Imaging Services

For an annotated list of Characteristic Questions for this series, please see the ActionOI support page.

This chapter includes the following sections:

- 03410, Diagnostic Radiology Including Interventional Procedures  
- 03411, Diagnostic Radiology Without Interventional Procedures  
- 03412, Interventional Radiology  
- 03420, Computerized Tomography  
- 03430, Magnetic Resonance Imaging  
- 03440, Mammography  
- 03450, Ultrasound  
- 03460, Nuclear Medicine  
- 03470, Outpatient Imaging  
- 03499, Imaging Services Administration  
- F3400, Imaging Services Functional Rollup  
- G3400, Other Imaging Services  
- Imaging Services Worksheets

03410, Diagnostic Radiology Including Interventional Procedures

This department performs general diagnostic radiology and interventional procedures. Procedures may include but are not limited to: X-rays, fluoroscopy, mammography (only if a separate 03440, Mammography department, is not being reported) and interventional/special procedures that typically involve invasive techniques and contrast media such as arteriograms, angiograms, venous sampling, tube placements, and vascular access devices. The department is also responsible for the pre-procedure and post-procedure care.
Diagnostic Radiology Including Interventional Procedures Mapping Guidelines

If less than 20% of procedures performed are special procedures this department may not be an appropriate choice. Special procedures involve invasive techniques and contrast media. Examples are angiograms, aortograms, and arteriograms. Another option might be the 03411, Diagnostic Radiology Without Interventional Procedures department.

Diagnostic Radiology Including Interventional Procedures Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Hourly Rate On Call

Average rate for staff to be available via beeper or telephone to be called into work. This does not include time / expense for actual worked hours after staff have been called in (i.e., call-back time).

Contrast Procedures

Total procedures performed using contrast media.

This is a component of Total Procedures.

Days of Operation per Week

The average number of days per week that the department is open for routine business.

Diagnostic Radiology APC Relative Weight

The Diagnostic Radiology APC Relative is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.
Diagnostic Radiology Procedures
Count routine contrast and non-contrast diagnostic radiology procedures performed by the department. These procedures refer to the medical imaging of the patient using external sources of radiation.

This is a subset of Total Procedures.

Emergency Procedures
Emergency Procedures represent procedures performed in the Emergency Services department or in the imaging area for Emergency Services department patients. If the patient is later admitted to the hospital, the procedure performed prior to admission should be reported as an ER Patient Procedure. Any procedure following admission is categorized as an Inpatient Procedure.

This is a component of Total Procedures.

Exam Suites
Exam Suites are individual treatment rooms or partitioned areas in an open bay concept designed and equipped to accommodate patient evaluation. Do not include waiting areas or office spaces. Report only rooms routinely used for examinations. Do not include a procedure room that is used for examinations only when no other space is available.

Hours of Operation per Week
The average number of hours per week that the department is open for routine business.

Inpatient Procedures
Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

Interventional Procedure APC Relative Weight
The Interventional Procedure APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.
Interventional Radiology Procedures

Count interventional procedures performed by the department. Procedures counted include, but are not limited to, diagnostic radiology procedures that use invasive techniques and contrast media, such as arteriograms, venous sampling, tube placements, vascular access devices, etc.

This is a subset of Total Procedures.

Mammography Procedures

Total routine and diagnostic mammography procedures performed by the department. This includes all routine and diagnostic mammographies, including biopsies and screenings.

This is a subset of Diagnostic Radiology Procedures.

Number of C-Arm Cases

Total number of C-ARM procedures performed in this reporting period. A C-ARM is a special image intensifier device used in medical imaging.

Number of C-Arms Supported

Total number of C-Arms (portable and fixed fluoroscopy) supported by the department. A C-Arm is a special image intensifier device used in medical imaging.

Number of Outpatient No Shows

Total Number of Outpatient No Shows for this reporting period.

Number of Outpatients Scheduled

Total Number of outpatients scheduled for this reporting period.

Number of Physical Locations Supported

Count all physical locations supported both inside and outside the hospital's main building.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.
Portable Procedures
Total procedures performed using portable equipment (i.e. outside the main department with portable equipment). These procedures may be performed at a patient's bedside, in the operating room with stationary or portable equipment or other area outside the department. This count is not mutually exclusive to other procedure categories. For example, an inpatient procedure performed at the patient bedside should be a count of one in inpatient procedure, a count of one in portable procedures, and a count of one in procedures.

This is a component of Total Procedures.

Recovery Minutes
The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

Surgical Procedures
Count any surgical procedures billed and performed by the department. Interventional/Invasive Imaging and Special Procedures each have two separately coded components, a surgical component and a radiological supervision component. Surgical Procedures counts the surgical codes that are reported together with a 70000 series code. The 70000 code represents the associated radiological supervision component of the procedure.

Do not include Surgical Procedures in the value reported in Total Procedures.

Total Procedures
Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Diagnostic Radiology Including Interventional Procedures Department Hour Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

This is a mandatory field.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).
Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Worked Hours: Technologist

Hours worked by Registered Radiology Technologists.

Diagnostic Radiology Including Interventional Procedures Expense Elements

Contrast Media Expense

Total contrast media expense for this department.

Drug Expense

Total expense for pharmaceuticals expensed to this department.
This is a subset of Medical Supply Expense.

**Equipment Repair And Maintenance Expense**

Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.

**Film Expense**

Total expense for film charged to this department.

This is a subset of Medical Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.
**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Diagnostic Radiology Including Interventional Procedures Mandatory Elements**

The following data elements are mandatory for this department:

- APC Relative Weight
- Inpatient Procedures
• Labor Expense
• Labor Expense: Physician Provider
• Non Medical Supply Expense
• Number of C-Arm Cases
• Number of C-Arms Supported
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Total Procedures
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Diagnostic Radiology Including Interventional Procedures Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Contrast Media Expense
• Personnel performing the functions of the department’s day to day managerial operations (Imaging)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, residency program (Imaging Services)
• Clinical Engineer and/or Biomedical Technician
• Cost of all medications, including IV solutions administered to inpatients. Do not include take home prescriptions and OTC drugs, radiology contrast media, volatile anesthetic gases, and hemophilia factors.
• Cost of all medications, including IV solutions administered to outpatients. Do not include take home and OTC drugs, contrast media, volatile anesthetic gases, and hemophilia factors

• Medical records transcription, e.g., lines produced internally or outsourced (Imaging)

• Operation of a hospital based School of Radiologic Technology, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field

• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Imaging)

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Imaging)

• Repair and Maintenance of Clinical Equipment/Rooms

• Results library (Imaging)

• Support activities for department Information System, e.g., clinical table updates, system administrators for RIS, PACS (Imaging)

• Transport of patients to/from the department

03411, Diagnostic Radiology Without Interventional Procedures

This department performs general diagnostic radiology procedures. Procedures may include but are not limited to: X-rays, fluoroscopy, and mammography (only if a separate 03440, Mammography department, is not being reported). The department is also responsible for the pre-procedure and post-procedure care.

Diagnostic Radiology Without Interventional Procedures

The following data elements are mandatory for this department:

• Inpatient Procedures

• Labor Expense

• Labor Expense: Physician Provider
Non Medical Supply Expense

Other Direct Operating Expense

Paid Hours: Contract Labor

Paid Hours: Physician Provider

Paid Hours: Staff

Physician Provider Professional Fee Expense

Total Procedures

Worked Hours: Physician Provider

Worked Hours: Staff

**Diagnostic Radiology Without Interventional Procedures Mapping Guidelines**

If less than 80% of the cost center's procedures performed are routine Diagnostic Radiology procedures, this department may not be an appropriate choice. Another option might be the 03410, Diagnostic Radiology Including Interventional Procedures department.

**Diagnostic Radiology Without Interventional Procedures Workload Volumes**

**APC Relative Weight**

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

**Average Hourly Rate On Call**

Average rate for staff to be available via beeper or telephone to be called into work. This does not include time / expense for actual worked hours after staff have been called in (i.e., call-back time).

**Contrast Procedures**

Total procedures performed using contrast media.

This is a component of Total Procedures.
Days of Operation per Week

The average number of days per week that the department is open for routine business.

Emergency Procedures

Emergency Procedures represent procedures performed in the Emergency Services department or in the imaging area for Emergency Services department patients. If the patient is later admitted to the hospital, the procedure performed prior to admission should be reported as an ER Patient Procedure. Any procedure following admission is categorized as an Inpatient Procedure.

This is a component of Total Procedures.

Exam Suites

Exam Suites are individual treatment rooms or partitioned areas in an open bay concept designed and equipped to accommodate patient evaluation. Do not include waiting areas or office spaces. Report only rooms routinely used for examinations. Do not include a procedure room that is used for examinations only when no other space is available.

Hours of Operation per Week

The average number of hours per week that the department is open for routine business.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

Mammography Procedures

Total routine and diagnostic mammography procedures performed by the department. This includes all routine and diagnostic mammographies, including biopsies and screenings.

This is a subset of Diagnostic Radiology Procedures.

Number of C-Arm Cases

Total number of C-ARM procedures performed in this reporting period. A C-ARM is a special image intensifier device used in medical imaging.
**Number of C-Arms Supported**

Total number of C-Arms (portable and fixed fluoroscopy) supported by the department. A C-Arm is a special image intensifier device used in medical imaging.

**Number of Outpatient No Shows**

Total Number of Outpatient No Shows for this reporting period.

**Number of Outpatients Scheduled**

Total Number of outpatients scheduled for this reporting period.

**Number of Physical Locations Supported**

Count all physical locations supported both inside and outside the hospital's main building.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**Portable Procedures**

Total procedures performed using portable equipment (i.e. outside the main department with portable equipment). These procedures may be performed at a patient's bedside, in the operating room with stationary or portable equipment or other area outside the department. This count is not mutually exclusive to other procedure categories. For example, an inpatient procedure performed at the patient bedside should be a count of one in inpatient procedure, a count of one in portable procedures, and a count of one in procedures.

This is a component of Total Procedures.

**Total Procedures**

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.
Diagnostic Radiology Without Interventional Procedures Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

This is a mandatory field.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.
**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.
Diagnostic Radiology Without Interventional Procedures Expense Elements

Contrast Media Expense
Total contrast media expense for this department.
This is a subset of Drug Expense.

Drug Expense
Total expense for pharmaceuticals expensed to this department.
This is a subset of Medical Supply Expense.

Equipment Repair And Maintenance Expense
Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.
This is a subset of Other Direct Operating Expense.

Film Expense
Total expense for film charged to this department.
This is a subset of Medical Supply Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).
This is a subset of Labor Expense.
Medical Supply Expense

Report the expense for the period for stocked and non-stocked patient medical supplies. Include all non-capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
Diagnostic Radiology Without Interventional Procedures Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Number of C-Arm Cases
- Number of C-Arms Supported
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Total Procedures
- Worked Hours: Physician Provider
- Worked Hours: Staff

Diagnostic Radiology Without Interventional Procedures Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Contrast Media Expense
- Personnel performing the functions of the department’s day to day managerial operations (Imaging)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:
• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, residency program (Imaging Services)

• Clinical Engineer and/or Biomedical Technician

• Cost of all medications, including IV solutions administered to inpatients. Do not include take home prescriptions and OTC drugs, radiology contrast media, volatile anesthetic gases, and hemophilia factors.

• Cost of all medications, including IV solutions administered to outpatients. Do not include take home and OTC drugs, contrast media, volatile anesthetic gases, and hemophilia factors.

• Medical records transcription, e.g., lines produced internally or outsources (Imaging)

• Operation of a hospital based School of Radiologic Technology, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field

• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Imaging)

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Imaging)

• Repair and Maintenance of Clinical Equipment/Rooms

• Results library (Imaging)

• Support activities for department Information System, e.g., clinical table updates, system administrators for RIS, PACS (Imaging)

• Transport of patients to/from the department

03412, Interventional Radiology

This department performs interventional radiology procedures with local and intravenous sedation. Procedures may include but are not limited to: arteriograms, venous sampling, tube placements, and vascular access devices. The department is also responsible for the pre-procedure and post-procedure care.

Interventional Radiology Mapping Guidelines

September 2019
If less than 80% of the procedures performed are special procedures this department might not be an appropriate choice. Another option might be the 03411, Diagnostic Radiology Without Interventional Procedures department. Examples of special procedures are angiograms, aortograms, and arteriograms.

Interventional Radiology Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Hourly Rate On Call

Average rate for staff to be available via beeper or telephone to be called into work. This does not include time / expense for actual worked hours after staff have been called in (i.e., call-back time).

Days of Operation per Week

The average number of days per week that the department is open for routine business.

Emergency Procedures

Emergency Procedures represent procedures performed in the Emergency Services department or in the imaging area for Emergency Services department patients. If the patient is later admitted to the hospital, the procedure performed prior to admission should be reported as an ER Patient Procedure. Any procedure following admission is categorized as an Inpatient Procedure.

This is a component of Total Procedures.

Exam Suites

Exam Suites are individual treatment rooms or partitioned areas in an open bay concept designed and equipped to accommodate patient evaluation. Do not include waiting areas or office spaces. Report only rooms routinely used for examinations. Do not include a procedure room that is used for examinations only when no other space is available.

Hours of Operation per Week

The average number of hours per week that the department is open for routine business.
**Inpatient Procedures**

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

**Number of Outpatient No Shows**

Total Number of Outpatient No Shows for this reporting period.

**Number of Outpatients Scheduled**

Total Number of outpatients scheduled for this reporting period.

**Number of Physical Locations Supported**

Count all physical locations supported both inside and outside the hospital's main building.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**Recovery Minutes**

The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

**Surgical Procedures**

Count any surgical procedures billed and performed by the department. Interventional/Invasive Imaging and Special Procedures each have two separately coded components, a surgical component and a radiological supervision component. Surgical Procedures counts the surgical codes that are reported together with a 70000 series code. The 70000 code represents the associated radiological supervision component of the procedure.

Do not include Surgical Procedures in the value reported in Total Procedures.
Total Procedures

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Interventional Radiology Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

This is a mandatory field.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.
**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.
Interventional Radiology Expense Elements

Contrast Media Expense
Total contrast media expense for this department.
This is a subset of Drug Expense.

Drug Expense
Total expense for pharmaceuticals expensed to this department.
This is a subset of Medical Supply Expense.

Equipment Repair And Maintenance Expense
Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.
This is a subset of Other Direct Operating Expense.

Film Expense
Total expense for film charged to this department.
This is a subset of Medical Supply Expense.

Labor Expense
Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider
Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).
This is a subset of Labor Expense.
Medical Supply Expense
Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense
Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense
Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense
Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense
Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Interventional Radiology Mandatory Elements
The following data elements are mandatory for this department:

- APC Relative Weight
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Total Procedures
- Worked Hours: Physician Provider
- Worked Hours: Staff

**Interventional Radiology Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Contrast Media Expense
- Personnel performing the functions of the department’s day to day managerial operations (Imaging)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, residency program (Imaging Services)
- Clinical Engineer and/or Biomedical Technician
- Cost of all medications, including IV solutions administered to inpatients. Do not include take home prescriptions and OTC drugs, radiology contrast media, volatile anesthetic gases, and hemophilia factors.
• Cost of all medications, including IV solutions administered to outpatients. Do not include take home and OTC drugs, contrast media, volatile anesthetic gases, and hemophilia factors

• Medical records transcription, e.g., lines produced internally or outsourced (Imaging)

• Operation of a hospital based School of Radiologic Technology, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field

• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Imaging)

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Imaging)

• Repair and Maintenance of Clinical Equipment/Rooms

• Results library (Imaging)

• Support activities for department Information System, e.g., clinical table updates, system administrators for RIS, PACS (Imaging)

• Transport of patients to/from the department

03420, Computerized Tomography

This department performs computerized tomography procedures with frequent use of contrast media. The department is also responsible for the pre-procedure and post-procedure care.

Computerized Tomography Mapping Guidelines

If less than 80% of the department's procedures are Computerized Tomography procedures, this department may not be an appropriate choice. Another option might be the G3400, Other Imaging Services department.
Computerized Tomography Workload Volumes

APC Relative Weight
The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Hourly Rate On Call
Average rate for staff to be available via beeper or telephone to be called into work. This does not include time / expense for actual worked hours after staff have been called in (i.e., call-back time).

Contrast Procedures
Total procedures performed using contrast media.

This is a component of Total Procedures.

Days of Operation per Week
The average number of days per week that the department is open for routine business.

Emergency Procedures
Emergency Procedures represent procedures performed in the Emergency Services department or in the imaging area for Emergency Services department patients. If the patient is later admitted to the hospital, the procedure performed prior to admission should be reported as an ER Patient Procedure. Any procedure following admission is categorized as an Inpatient Procedure.

This is a component of Total Procedures.

Exam Suites
Exam Suites are individual treatment rooms or partitioned areas in an open bay concept designed and equipped to accommodate patient evaluation. Do not include waiting areas or office spaces. Report only rooms routinely used for examinations. Do not include a procedure room that is used for examinations only when no other space is available.

Guided Procedures
Total number Guided Procedures performed in this reporting period.
This is a component of Total Procedures.

**Hours of Operation per Week**

The average number of hours per week that the department is open for routine business.

**Inpatient Procedures**

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

**Number of Outpatient No Shows**

Total Number of Outpatient No Shows for this reporting period.

**Number of Outpatients Scheduled**

Total Number of outpatients scheduled for this reporting period.

**Number of Physical Locations Supported**

Count all physical locations supported both inside and outside the hospital's main building.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**Recovery Minutes**

The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.
**Surgical Procedures**

Count any surgical procedures billed and performed by the department. Interventional/Invasive Imaging and Special Procedures each have two separately coded components, a surgical component and a radiological supervision component. Surgical Procedures counts the surgical codes that are reported together with a 70000 series code. The 70000 code represents the associated radiological supervision component of the procedure.

Do not include Surgical Procedures in the value reported in Total Procedures.

**Total Procedures**

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

**Computerized Tomography Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Physician Provider**

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

This is a mandatory field.
**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.
This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.

**Computerized Tomography Expense Elements**

**Contrast Media Expense**

Total contrast media expense for this department.

This is a subset of Drug Expense.

**Drug Expense**

Total expense for pharmaceuticals expensed to this department.

This is a subset of Medical Supply Expense.

**Equipment Repair And Maintenance Expense**

Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Computerized Tomography Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Total Procedures
- Worked Hours: Physician Provider
- Worked Hours: Staff
Computerized Tomography Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Contrast Media Expense
- Personnel performing the functions of the department's day to day managerial operations (Imaging)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, residency program (Imaging Services)
- Clinical Engineer and/or Biomedical Technician
- Cost of all medications, including IV solutions administered to inpatients. Do not include take home prescriptions and OTC drugs, radiology contrast media, volatile anesthetic gases, and hemophilia factors.
- Cost of all medications, including IV solutions administered to outpatients. Do not include take home and OTC drugs, contrast media, volatile anesthetic gases, and hemophilia factors.
- Medical records transcription, e.g., lines produced internally or outsourced (Imaging)
- Operation of a hospital based School of Radiologic Technology, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field
- Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)
- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Imaging)
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Imaging)
- Repair and Maintenance of Clinical Equipment/Rooms
- Results library (Imaging)
- Support activities for department Information System, e.g., clinical table updates, system administrators for RIS, PACS (Imaging)
- Transport of patients to/from the department
03430, Magnetic Resonance Imaging

This department performs magnetic resonance imaging procedures. The department is also responsible for the pre-procedure and post-procedure care.

Magnetic Resonance Imaging Mapping Guidelines

If less than 80% of the procedures performed are MRI procedures, this department may not be an appropriate choice. Another option might be the G3400, Other Imaging Services department.

Magnetic Resonance Imaging Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Hourly Rate On Call

Average rate for staff to be available via beeper or telephone to be called into work. This does not include time / expense for actual worked hours after staff have been called in (i.e., call-back time).

Contrast Procedures

Total procedures performed using contrast media.

This is a component of Total Procedures.

Days of Operation per Week

The average number of days per week that the department is open for routine business.

Emergency Procedures

Emergency Procedures represent procedures performed in the Emergency Services department or in the imaging area for Emergency Services department patients. If the patient is later admitted to the hospital, the procedure performed prior to admission should be reported as an ER Patient Procedure. Any procedure following admission is categorized as an Inpatient Procedure.
This is a component of Total Procedures.

**Exam Suites**

Exam Suites are individual treatment rooms or partitioned areas in an open bay concept designed and equipped to accommodate patient evaluation. Do not include waiting areas or office spaces. Report only rooms routinely used for examinations. Do not include a procedure room that is used for examinations only when no other space is available.

**Guided Procedures**

Total number Guided Procedures performed in this reporting period.

This is a component of Total Procedures.

**Hours of Operation per Week**

The average number of hours per week that the department is open for routine business.

**Inpatient Procedures**

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

**Number of Outpatient No Shows**

Total Number of Outpatient No Shows for this reporting period.

**Number of Outpatients Scheduled**

Total Number of outpatients scheduled for this reporting period.

**Number of Physical Locations Supported**

Count all physical locations supported both inside and outside the hospital's main building.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.
**Recovery Minutes**

The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

**Total Procedures**

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

**Magnetic Resonance Imaging Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Physician Provider**

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physician providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Worked Hours: Technologist

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.

Magnetic Resonance Imaging Expense Elements

Contrast Media Expense

Total contrast media expense for this department.

This is a subset of Drug Expense.

Drug Expense

Total expense for pharmaceuticals expensed to this department.

This is a subset of Medical Supply Expense.

Equipment Repair And Maintenance Expense

Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.
Medical Supply Expense

Report the expense for the period for stocked and non-stocked patient medical supplies. Include all non-capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.

**Mammography Expense Elements**

**Drug Expense**

Total expense for pharmaceuticals expensed to this department.

This is a subset of Medical Supply Expense.

**Equipment Repair And Maintenance Expense**

Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.

**Film Expense**

Total expense for film charged to this department.

This is a subset of Medical Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Mammography Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Total Procedures
- Worked Hours: Physician Provider
- Worked Hours: Staff
Mammography Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Personnel performing the functions of the department’s day to day managerial operations (Imaging)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, residency program (Imaging Services)
- Clinical Engineer and/or Biomedical Technician
- Cost of all medications, including IV solutions administered to inpatients. Do not include take home prescriptions and OTC drugs, radiology contrast media, volatile anesthetic gases, and hemophilia factors.
- Cost of all medications, including IV solutions administered to outpatients. Do not include take home and OTC drugs, contrast media, volatile anesthetic gases, and hemophilia factors
- Medical records transcription, e.g., lines produced internally or outsourced (Imaging)
- Operation of a hospital based School of Radiologic Technology, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field
- Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)
- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Imaging)
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Imaging)
- Repair and Maintenance of Clinical Equipment/Rooms
- Results library (Imaging)
- Support activities for department Information System, e.g., clinical table updates, system administrators for RIS, PACS (Imaging)
- Transport of patients to/from the department
03450, Ultrasound

This department performs diagnostic imaging procedures that utilize ultrasonic waves for diagnostic or therapeutic purposes, including echocardiography. The department is also responsible for the pre-procedure and post-procedure care.

Ultrasound Mapping Guidelines

If less than 80% of the procedures performed are ultrasound procedures, this department may not be an appropriate choice. Another option might be the G3400, Other Imaging Services department.

Ultrasound Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Hourly Rate On Call

Average rate for staff to be available via beeper or telephone to be called into work. This does not include time / expense for actual worked hours after staff have been called in (i.e., call-back time).

Days of Operation per Week

The average number of days per week that the department is open for routine business.

Echocardiography Procedures

Total number of Echocardiography procedures performed in this department. Echocardiography is a test that uses sound waves to create images of your heart, which provide information on the size, shape of the heart and how the heart’s chambers and valves are working.

This is a component of Total Procedures.

Emergency Procedures

Emergency Procedures represent procedures performed in the Emergency Services department or in the imaging area for Emergency Services department patients. If the patient is later admitted to the hospital, the procedure performed prior to admission should be reported as an ER Patient Procedure. Any procedure following admission is categorized as an Inpatient Procedure.
This is a component of Total Procedures.

Exam Suites

Exam Suites are individual treatment rooms or partitioned areas in an open bay concept designed and equipped to accommodate patient evaluation. Do not include waiting areas or office spaces. Report only rooms routinely used for examinations. Do not include a procedure room that is used for examinations only when no other space is available.

Hours of Operation per Week

The average number of hours per week that the department is open for routine business.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

Number of Outpatient No Shows

Total Number of Outpatient No Shows for this reporting period.

Number of Outpatients Scheduled

Total Number of outpatients scheduled for this reporting period.

Number of Physical Locations Supported

Count all physical locations supported both inside and outside the hospital's main building.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.
Total Procedures

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Ultrasound Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

This is a subset of Worked Hours: Staff.
**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.
Ultrasound Expense Elements

Drug Expense

Total expense for pharmaceuticals expensed to this department.

This is a subset of Medical Supply Expense.

Equipment Repair And Maintenance Expense

Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.

Film Expense

Total expense for film charged to this department.

This is a subset of Medical Supply Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.
This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Ultrasound Mandatory Elements**

The following data elements are mandatory for this department:

- APC Relative Weight
• Inpatient Procedures
• Labor Expense
• Labor Expense: Physician Provider
• Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Total Procedures
• Worked Hours: Overtime
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Ultrasound Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Personnel performing the functions of the department’s day to day managerial operations (Imaging)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, residency program (Imaging Services)

• Clinical Engineer and/or Biomedical Technician

• Cost of all medications, including IV solutions administered to inpatients. Do not include take home prescriptions and OTC drugs, radiology contrast media, volatile anesthetic gases, and hemophilia factors.

• Cost of all medications, including IV solutions administered to outpatients. Do not include take home and OTC drugs, contrast media, volatile anesthetic gases, and hemophilia factors
• Medical records transcription, e.g., lines produced internally or outsourced (Imaging)

• Operation of a hospital based School of Radiologic Technology, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field

• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Imaging)

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Imaging)

• Repair and Maintenance of Clinical Equipment/Rooms

• Results library (Imaging)

• Support activities for department Information System, e.g., clinical table updates, system administrators for RIS, PACS (Imaging)

• Transport of patients to/from the department

03460, Nuclear Medicine

This department performs procedures with the use of radioactive pharmaceuticals. Procedures may include, but are not limited to Positron Emission Tomography (PET) scans and Single-photon Emission Computed Tomography (SPECT) scans. The department is also responsible for the pre-procedure and post-procedure care.

Nuclear Medicine Mapping Guidelines

If less than 80% of the procedures performed are nuclear radiology procedures, this department may not be an appropriate choice. Another option might be G3400, Other Imaging Services department.
Nuclear Medicine Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Hourly Rate On Call

Average rate for staff to be available via beeper or telephone to be called into work. This does not include time / expense for actual worked hours after staff have been called in (i.e., call-back time).

Cardiovascular Procedures

Count all cardiovascular procedures performed by the department. Include CPT codes for total nuclear radiology procedures on the cardiovascular system.

This is a subset of Total Procedures.

Days of Operation per Week

Total number of days the department is open for operation during the week.

Emergency Procedures

Emergency Procedures represent procedures performed in the Emergency Services department or in the imaging area for Emergency Services department patients. If the patient is later admitted to the hospital, the procedure performed prior to admission should be reported as an ER Patient Procedure. Any procedure following admission is categorized as an Inpatient Procedure.

This is a component of Total Procedures.

Exam Suites

Exam Suites are individual treatment rooms or partitioned areas in an open bay concept designed and equipped to accommodate patient evaluation. Do not include waiting areas or office spaces. Report only rooms routinely used for examinations. Do not include a procedure room that is used for examinations only when no other space is available.

Hours of Operation per Week

Total number of hours the department is open for operation during the week.
**Inpatient Procedures**

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

**Number of Outpatient No Shows**

Total Number of Outpatient No Shows for this reporting period.

**Number of Outpatients Scheduled**

Total Number of outpatients scheduled for this reporting period.

**Number of Physical Locations Supported**

Count all physical locations supported both inside and outside the hospital's main building.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**PET Procedures**

Total number of PET procedures performed in this reporting period.

This is a component of Total Procedures.

**Recovery Minutes**

The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.
SPECT Procedures

Count the SPECT procedures performed by the department. Single-photon emission computed tomography (SPECT) is a special imaging technique used in nuclear medicine. This includes but is not limited to SPECT procedures for liver imaging, bone and/or joint imaging, myocardial perfusion imaging or radiopharmaceutical localization of tumor or distribution of a radiopharmaceutical agent. Procedures using the SPECT technique should not be counted twice. For example, do not include one count for the procedure and another count for the SPECT using this technique.

This is a component of Total Procedures.

Total Procedures

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Nuclear Medicine Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

This is a mandatory field.
Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.
This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.

**Nuclear Medicine Expense Elements**

**Contrast Media Expense**

Total contrast media expense for this department.

This is a subset of Drug Expense.

**Drug Expense**

Total expense for pharmaceuticals expensed to this department.

This is a subset of Medical Supply Expense.

**Equipment Repair And Maintenance Expense**

Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.

**Film Expense**

Total expense for film charged to this department.

This is a subset of Medical Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical / surgical supplies, pharmaceuticals, and radiopharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.
This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Nuclear Medicine Mandatory Elements**

The following data elements are mandatory for this department:

- APC Relative Weight
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Total Procedures
- Worked Hours: Overtime
- Worked Hours: Physician Provider
- Worked Hours: Staff
Nuclear Medicine Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Nuclear pharmacy services staff and drug expenses
- Personnel performing the functions of the department's day to day managerial operations (Imaging)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, residency program (Imaging Services)
- Anesthetic gases (e.g. nitrous oxide, sevoflurane, desflurane, isoflurane, and halothane)
- Clinical Engineer and/or Biomedical Technician
- Medical records transcription, e.g., lines produced internally or outsourced (Imaging)
- Cost of all medications, including IV solutions administered to outpatients. Do not include take home and OTC drugs, contrast media, volatile anesthetic gases, and hemophilia factors
- Operation of a hospital based School of Radiologic Technology, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field
- Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)
- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Imaging)
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Imaging)
- Repair and Maintenance of Clinical Equipment/Rooms
- Results library (Imaging)
- Support activities for department Information System, e.g., clinical table updates, system administrators for RIS, PACS (Imaging)
- Transport of patients to/from the department
03470, Outpatient Imaging

This department performs procedures with respect to all modalities of radiology within a single location: Diagnostic Radiology, Interventional Radiology, Computerized Tomography, Magnetic Resonance Imaging, Mammography, Ultrasound, and or Nuclear Medicine. The department is also responsible for the pre-procedure and post-procedure care.

Outpatient Imaging Mapping Guidelines

If less than 80% of the procedures performed are the total of diagnostic radiology, CT, mammography, MRI and ultrasound this department may not be an appropriate choice. Another option might be G3400, Other Imaging Services department.

Outpatient Imaging Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Computerized Tomographic CT Procedures

Count all computerized tomographic procedures performed by the service area for the reporting period. Computerized tomography is a non-invasive x-ray technique that produces a film representing a detailed cross section of tissue structure.

This is a subset of Total Procedures.

CT APC Relative Weight

The CT APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

Days of Operation per Week

The average number of days per week that the department is open for routine business.
Diagnostic Radiology APC Relative Weight

The Diagnostic Radiology APC Relative is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

Diagnostic Radiology Procedures

Count routine contrast and non-contrast diagnostic radiology procedures performed by the department. These procedures refer to the medical imaging of the patient using external sources of radiation.

This is a subset of Total Procedures.

Emergency Procedures

Emergency Procedures represent procedures performed in the Emergency Services department or in the imaging area for Emergency Services department patients. If the patient is later admitted to the hospital, the procedure performed prior to admission should be reported as an ER Patient Procedure. Any procedure following admission is categorized as an Inpatient Procedure.

This is a component of Total Procedures.

Exam Suites

Exam Suites are individual treatment rooms or partitioned areas in an open bay concept designed and equipped to accommodate patient evaluation. Do not include waiting areas or office spaces. Report only rooms routinely used for examinations. Do not include a procedure room that is used for examinations only when no other space is available.

Hours of Operation per Week

The average number of hours per week that the department is open for routine business.

Interventional Procedure APC Relative Weight

The Interventional Procedure APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.
Interventional Radiology Procedures

Count interventional procedures performed by the department. Procedures counted include, but are not limited to, diagnostic radiology procedures that use invasive techniques and contrast media, such as arteriograms, venous sampling, tube placements, vascular access devices, etc.

This is a subset of Total Procedures.

Magnetic Resonance Imaging MRI Procedures

Total magnetic resonance imaging procedures performed.

This is a subset of Total Procedures.

Mammography APC Relative Weight

The Mammography APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of Diagnostic Radiology APC Relative Weight.

Mammography Procedures

Total routine and diagnostic mammography procedures performed by the department. This includes all routine and diagnostic mammographies, including biopsies and screenings.

This is a subset of Diagnostic Radiology Procedures.

MRI APC Relative Weight

The MRI APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

Nuclear Medicine APC Relative Weight

The Nuclear Medicine APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.
This is a subset of APC Relative Weight.

**Nuclear Medicine Procedures**

Total nuclear radiology procedures performed by the department, including SPECT studies.

This is a subset of Total Procedures.

**Number of Outpatient No Shows**

Total Number of Outpatient No Shows for this reporting period.

**Number of Outpatients Scheduled**

Total Number of outpatients scheduled for this reporting period.

**Number of Physical Locations Supported**

Count all physical locations supported both inside and outside the hospital’s main building.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**Recovery Minutes**

The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

**Total Procedures**

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.
Ultrasound APC Relative Weight

The Ultrasound APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

Ultrasound Procedures

Count all ultrasound procedures performed by the department. For more information on guidelines and descriptions for counting methodology, refer to Procedure Counting here in the DRM.

This is a subset of Total Procedures.

Outpatient Imaging Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

This is a mandatory field.
Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Patient Care Provider

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.
This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.

**Outpatient Imaging Expense Elements**

**Contrast Media Expense**

Total contrast media expense for this department.

This is a subset of Drug Expense.

**Drug Expense**

Total expense for pharmaceuticals expensed to this department.

This is a subset of Medical Supply Expense.

**Equipment Repair And Maintenance Expense**

Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.

**Film Expense**

Total expense for film charged to this department.

This is a subset of Medical Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Outpatient Imaging Mandatory Elements

The following data elements are mandatory for this department.

- APC Relative Weight
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Total Procedures
- Worked Hours: Physician Provider
- Worked Hours: Staff
Outpatient Imaging Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Contrast Media Expense
- Personnel performing the functions of the department’s day to day managerial operations (Imaging)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, residency program (Imaging Services)
- Clinical Engineer and/or Biomedical Technician
- Cost of all medications, including IV solutions administered to outpatients. Do not include take home and OTC drugs, contrast media, volatile anesthetic gases, and hemophilia factors
- Medical records transcription, e.g., lines produced internally or outsourced (Imaging)
- Operation of a hospital based School of Radiologic Technology, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field
- Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)
- Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
- Patient reception, e.g., greeting, checking in of patients, answering phone calls (Imaging)
- Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Imaging)
- Repair and Maintenance of Clinical Equipment/Rooms
- Results library (Imaging)
- Support activities for department Information System, e.g., clinical table updates, system administrators for RIS, PACS (Imaging)
- Transport of patients to/from the department
03499, Imaging Services Administration

This department performs the overall administrative and general support tasks for the entire Imaging Services series. These tasks and functions include but are not limited to: billing, research, results library, transcription and the associated management of these support activities.

Imaging Services Administration Mapping Guidelines

If your cost center performs procedures or other direct patient care, another option might be G3400, Other Imaging Services department.

Imaging Services Administration Workload Volumes

APC Relative Weight Supported

The APC Relative Weight Supported is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures supported by the department. This value is unable to be populated using the Key Volume Element Population data file. Therefore, use the sum of the APC weights for the departments utilized within this series. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

Patient Visits

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

Procedures Supported

Count all procedures that are supported by the department for the reporting period. This value is unable to be populated using the Key Volume Element Population data file. Therefore, use the sum of the total procedures for the departments utilized within this series. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

Imaging Services Administration Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.
Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

This is a mandatory field.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.
Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Worked Hours: Technologist

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.

Worked Hours: Transcriptionist and Transcriptionist Editor

Total hours worked by medical transcriptionist staff.

This is a subset of Worked Hours: Staff.

Imaging Services Administration Expense Elements

Equipment Repair And Maintenance Expense

Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.
**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.
Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Imaging Services Administration Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight Supported
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Procedures Supported
- Worked Hours: Overtime
- Worked Hours: Physician Provider
- Worked Hours: Staff

Imaging Services Administration Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, residency program (Imaging Services)
• Medical records transcription, e.g., lines produced internally or outsourced (Imaging)

• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Imaging)

• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Imaging)

• Results library (Imaging)

• Support activities for department Information System, e.g., clinical table updates, system administrators for RIS, PACS (Imaging)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)

• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity

• Personnel performing the functions of the department’s day to day managerial operations (Imaging)

• Radiology /Imaging Informatics (focuses on optimally accessing and using images, knowledge, and data associated with images in clinical care while aiming to improve the efficiency, accuracy, usability and reliability of imaging services)

• Repair and Maintenance of Clinical Equipment/Rooms

F3400, Imaging Services Functional Rollup

This department includes all Diagnostic Radiology, Interventional Radiology, CT, MRI, Mammography, Ultrasound, and Nuclear Radiology functions, as well as related Imaging Services administration, regardless of reporting relationships.

Imaging Services Functional Rollup Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.
Computerized Tomographic CT Procedures

Count all computerized tomographic procedures performed by the service area for the reporting period. Computerized tomography is a non-invasive x-ray technique that produces a film representing a detailed cross section of tissue structure.

This is a subset of Total Procedures.

Contrast Procedures

Total procedures performed using contrast media.

This is a component of Total Procedures.

CT APC Relative Weight

The CT APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

Diagnostic Radiology APC Relative Weight

The Diagnostic Radiology APC Relative Weight based on the weights published by Medicare. Report weights for procedures where the majority of the cost is provided by the department. This value should automatically populate after the rollup and calc process has been completed and the standard departments within the series utilize the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value for each of the departments within the series, refer to the APC and Work RVU Workbook available on the Support Page and utilize the volumes for all departments within the series.

This is a subset of APC Relative Weight.

Diagnostic Radiology Procedures

Count routine contrast and non-contrast diagnostic radiology procedures performed by the department. These procedures refer to the medical imaging of the patient using external sources of radiation.

This is a subset of Total Procedures.
Emergency Procedures

Emergency Procedures represent procedures performed in the Emergency Services department or in the imaging area for Emergency Services department patients. If the patient is later admitted to the hospital, the procedure performed prior to admission should be reported as an ER Patient Procedure. Any procedure following admission is categorized as an Inpatient Procedure.

This is a component of Total Procedures.

Exam Suites

Exam Suites are individual treatment rooms or partitioned areas in an open bay concept designed and equipped to accommodate patient evaluation. Do not include waiting areas or office spaces. Report only rooms routinely used for examinations. Do not include a procedure room that is used for examinations only when no other space is available.

Inpatient Procedures

Count all procedures performed on inpatients by the department for the reporting period. This value should automatically populate after the rollup and calc process has been completed and the standard departments within the series utilize the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value for each of the departments within the series, refer to the APC and Work RVU Workbook available on the Support Page and utilize the volumes for all departments within the series.

This is a subset of Total Procedures.

Interventional Procedure APC Relative Weight

The Interventional Procedure APC Relative Weight based on the weights published by Medicare. Report weights for procedures where the majority of the cost is provided by the department. This value should automatically populate after the rollup and calc process has been completed and the standard departments within the series utilize the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value for each of the departments within the series, refer to the APC and Work RVU Workbook available on the Support Page and utilize the volumes for all departments within the series.

This is a subset of APC Relative Weight.

Interventional Radiology Procedures

Count interventional procedures performed by the department. Procedures counted include, but are not limited to, diagnostic radiology procedures that use invasive techniques and contrast media, such as arteriograms, venous sampling, tube placements, vascular access devices, etc.

This is a subset of Total Procedures.
Magnetic Resonance Imaging MRI Procedures
Total magnetic resonance imaging procedures performed.
This is a subset of Total Procedures.

Mammography APC Relative Weight
The Mammography APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.
This is a subset of Diagnostic Radiology APC Relative Weight.

Mammography Procedures
Total routine and diagnostic mammography procedures performed by the department. This includes all routine and diagnostic mammographies, including biopsies and screenings.
This is a subset of Diagnostic Radiology Procedures.

MRI APC Relative Weight
The MRI APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.
This is a subset of APC Relative Weight.

Nuclear Medicine APC Relative Weight
The Nuclear Medicine APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.
This is a subset of APC Relative Weight.

Nuclear Medicine Procedures
Total nuclear radiology procedures performed by the department, including SPECT studies.
This is a subset of Total Procedures.

**Number of Outpatient No Shows**
Total Number of Outpatient No Shows for this reporting period.

**Number of Outpatients Scheduled**
Total Number of outpatients scheduled for this reporting period.

**Number of Physical Locations Supported**
Count all physical locations supported both inside and outside the hospital's main building.

**Patient Visits**
Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**Portable Procedures**
Total procedures performed using portable equipment (i.e. outside the main imaging department with portable imaging equipment). These procedures may be performed at a patient's bedside, in the operating room with stationary or portable imaging equipment or other area outside the imaging department. This count is not mutually exclusive to other procedure categories. For example, an inpatient procedure performed at the patient bedside should be a count of one in "Inpatient Procedures," a count of one in "Portable Procedures," and a count of one in "Procedures."

This is a component of Total Procedures.

**Recovery Minutes**
The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

**Surgical Procedures**
Count any surgical procedures billed and performed by the department. Interventional/Invasive Imaging and Special Procedures each have two separately coded components, a surgical component and a radiological supervision component. Surgical Procedures counts the surgical codes that are reported together with a 70000 series code. The 70000 code represents the associated radiological supervision component of the procedure.

Do not include Surgical Procedures in the value reported in Total Procedures.
Total Procedures

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.

Ultrasound APC Relative Weight

The Ultrasound APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

Ultrasound Procedures

Count all ultrasound procedures performed by the department. For more information on guidelines and descriptions for counting methodology, refer to Procedure Counting here in the DRM.

This is a subset of Total Procedures.

Imaging Services Functional Rollup Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.
**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

This is a mandatory field.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.
**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.

**Imaging Services Functional Rollup Expense Elements**

**Contrast Media Expense**

Total contrast media expense for this department.

This is a subset of Drug Expense.

**Drug Expense**

Total expense for pharmaceuticals expensed to this department.

This is a subset of Medical Supply Expense.

**Equipment Repair And Maintenance Expense**

Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.

**Film Expense**

Total expense for film charged to this department.

This is a subset of Medical Supply Expense.
Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense
Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense
Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Imaging Services Functional Rollup Mandatory Elements
The following data elements are mandatory for this department:

- APC Relative Weight
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Total Procedures
- Worked Hours: Physician Provider
- Worked Hours: Staff
G3400, Other Imaging Services

This generic department includes all cost centers belonging to Imaging Services that cannot be mapped to individual Imaging Services departments.

Other Imaging Services Mapping Guidelines

Map a cost center here for example, if your cost center supports all imaging disciplines through the use of shared staff.

Other Imaging Services Workload Volumes

APC Relative Weight

The APC Relative Weight is based on weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page.

Average Hourly Rate On Call

Average rate for staff to be available via beeper or telephone to be called into work. This does not include time / expense for actual worked hours after staff have been called in (i.e., call-back time).

Computerized Tomographic CT Procedures

Count all computerized tomographic procedures performed by the service area for the reporting period. Computerized tomography is a non-invasive x-ray technique that produces a film representing a detailed cross section of tissue structure.

This is a subset of Total Procedures.

Contrast Procedures

Total procedures performed using contrast media.

This is a component of Total Procedures.
CT APC Relative Weight

The CT APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

Diagnostic Radiology APC Relative Weight

The Diagnostic Radiology APC Relative is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

Diagnostic Radiology Procedures

Count routine contrast and non-contrast diagnostic radiology procedures performed by the department. These procedures refer to the medical imaging of the patient using external sources of radiation.

This is a subset of Total Procedures.

Emergency Procedures

Emergency Procedures represent procedures performed in the Emergency Services department or in the imaging area for Emergency Services department patients. If the patient is later admitted to the hospital, the procedure performed prior to admission should be reported as an ER Patient Procedure. Any procedure following admission is categorized as an Inpatient Procedure.

This is a component of Total Procedures.

Exam Suites

Exam Suites are individual treatment rooms or partitioned areas in an open bay concept designed and equipped to accommodate patient evaluation. Do not include waiting areas or office spaces. Report only rooms routinely used for examinations. Do not include a procedure room that is used for examinations only when no other space is available.
**Inpatient Procedures**

Count all procedures performed on inpatients by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, as well as Procedure Counting for more information.

This is a subset of Total Procedures.

**Interventional Procedure APC Relative Weight**

The Interventional Procedure APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

**Interventional Radiology Procedures**

Count interventional procedures performed by the department. Procedures counted include, but are not limited to, diagnostic radiology procedures that use invasive techniques and contrast media, such as arteriograms, venous sampling, tube placements, vascular access devices, etc.

This is a subset of Total Procedures.

**Magnetic Resonance Imaging MRI Procedures**

Total magnetic resonance imaging procedures performed.

This is a subset of Total Procedures.

**Mammography APC Relative Weight**

The Mammography APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of Diagnostic Radiology APC Relative Weight.

**Mammography Procedures**

Total routine and diagnostic mammography procedures performed by the department. This includes all routine and diagnostic mammographies, including biopsies and screenings.
This is a subset of Diagnostic Radiology Procedures.

**MRI APC Relative Weight**

The MRI APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

**Nuclear Medicine APC Relative Weight**

The Nuclear Medicine APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

**Nuclear Medicine Procedures**

Total nuclear radiology procedures performed by the department, including SPECT studies.

This is a subset of Total Procedures.

**Number of C-Arm Cases**

Total number of C-ARM procedures performed in this reporting period. A C-ARM is a special image intensifier device used in medical imaging.

**Number of C-Arms Supported**

Total number of C-Arms (portable and fixed fluoroscopy) supported by the department. A C-Arm is a special image intensifier device used in medical imaging.

**Number of Outpatient No Shows**

Total Number of Outpatient No Shows for this reporting period.

**Number of Outpatients Scheduled**

Total Number of outpatients scheduled for this reporting period.
**Number of Physical Locations Supported**

Count all physical locations supported both inside and outside the hospital’s main building.

**Patient Visits**

Total separate patient encounters supported by department staff. Such encounters might include initial examination, treatment or educational sessions, and follow-up visits for continuing treatment of the same malady or complaint. If the patient is seen by multiple providers (e.g., physician, dietitian, social worker) during the same visit the count should be recorded as one visit.

**Portable Procedures**

Total procedures performed using portable equipment (i.e. outside the main imaging department with portable imaging equipment). These procedures may be performed at a patient's bedside, in the operating room with stationary or portable imaging equipment or other area outside the imaging department. This count is not mutually exclusive to other procedure categories. For example, an inpatient procedure performed at the patient bedside should be a count of one in "Inpatient Procedures," a count of one in "Portable Procedures," and a count of one in "Procedures."

This is a subset of Total Procedures.

**Recovery Minutes**

The total number of minutes that patients spent in recovery, including phase 1 and phase 2. Include only the recovery time for patients who recover on this unit or for patients whose recovery is the responsibility of the staff in this department.

**Surgical Procedures**

Count any surgical procedures billed and performed by the department. Interventional/Invasive Imaging and Special Procedures each have two separately coded components, a surgical component and a radiological supervision component. Surgical Procedures counts the surgical codes that are reported together with a 70000 series code. The 70000 code represents the associated radiological supervision component of the procedure.

Do not include Surgical Procedures in the value reported in Total Procedures.

**Total Procedures**

Count all procedures performed by the department for the reporting period. This value should be populated using the Key Volume Element Population data file. If you are unable to use the Key Volume Element Population data file to upload this value, refer to the APC and Work RVU Workbook available on the Support Page, and Procedure Counting here in the DRM for more information.
Ultrasound APC Relative Weight

The Ultrasound APC Relative Weight is based on the weights published by The Centers for Medicare and Medicaid Services (CMS). Report relative weights for procedures where the majority of the cost is provided by the department. This value is unable to be populated using the Key Volume Element Population data file. For additional assistance refer to the APC and Work RVU Workbook available on the Support Page.

This is a subset of APC Relative Weight.

Ultrasound Procedures

Count all ultrasound procedures performed by the department. For more information on guidelines and descriptions for counting methodology, refer to Procedure Counting here in the DRM.

This is a subset of Total Procedures.

Other Imaging Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time-off hours. Exclude on-call or standby time.

This is a mandatory field.
**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Patient Care Provider**

Total hours worked by other patient care providers (e.g. nursing assistant, nursing technician, mental health/psychiatric aide, etc.) who provide basic care under the direct supervision of patient care personnel.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee’s normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.
This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.

**Other Imaging Services Expense Elements**

**Contrast Media Expense**

Total contrast media expense for this department.

This is a subset of Drug Expense.

**Drug Expense**

Total expense for pharmaceuticals expensed to this department.

This is a subset of Medical Supply Expense.

**Equipment Repair And Maintenance Expense**

Total expense to repair and maintain technical devices. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.

**Film Expense**

Total expense for film charged to this department.

This is a subset of Medical Supply Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
Labor Expense: Physician Provider

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

Medical Supply Expense

Report the expense for the period for stocked and non stocked patient medical supplies. Include all non capitalized medical and surgical supplies, pharmaceuticals, and other materials used in the diagnosis and treatment of patients.

This is a subset of Other Direct Operating Expense.

Non Medical Supply Expense

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

Operating Lease Expense

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians, advanced practitioners and physician groups which provide professional services to the department. Include licensed physicians, interns, residents, nurse practitioners, CRNAs who work as advanced practitioners, and other advanced practitioners. Include physicians and advanced practitioners who are NOT paid through your payroll system and spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications, ordering and interpreting tests. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Other Imaging Services Mandatory Elements

The following data elements are mandatory for this department:

- APC Relative Weight
- Inpatient Procedures
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Physician Provider
- Paid Hours: Staff
- Physician Provider Professional Fee Expense
- Total Procedures
- Worked Hours: Overtime
- Worked Hours: Physician Provider
• Worked Hours: Staff

Other Imaging Services Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

• Contrast Media Expense
• Medical records transcription, e.g., lines produced internally or outsources (Imaging)
• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Imaging)
• Personnel performing the functions of the department’s day to day managerial operations (Imaging)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, residency program (Imaging Services)
• Clinical Engineer and/or Biomedical Technician
• Cost of all medications, including IV solutions administered to inpatients. Do not include take home prescriptions and OTC drugs, radiology contrast media, volatile anesthetic gases, and hemophilia factors.
• Cost of all medications, including IV solutions administered to outpatients. Do not include take home and OTC drugs, contrast media, volatile anesthetic gases, and hemophilia factors
• Operation of a hospital based School of Radiologic Technology, e.g., administration and or teaching of students in a formal classroom setting to achieve a degree in a specialized field
• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)
• Patient Scheduling includes management of inbound and outbound calls, faxes, and or electronic communications to ensure an appointment is generated for the patient-related activity
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Imaging)
• Medical records transcription, e.g., lines produced internally or outsourced (Imaging)
• Results library (Imaging)
• Repair and Maintenance of Clinical Equipment/Rooms
• Transport of patients to/from the department
Imaging Services Worksheets

Use the following worksheets for this department. The worksheets can be found on the Support tab of ActionOI.

- APC and Work RVU Worksheet
- Imaging Services Procedure Subset Worksheet
Chapter 22. Information Technology

This chapter includes the following sections:

- 05510, Enterprise Information Services 991
- 05520, Voice and Data Network 1002
- 05530, Call Center / Switchboard 1009
- 05540, Telecom Switchboard Combined 1013
- 05550, Informatics 1018
- 05560, Help Desk and Desktop Support 1025
- F5500, Information Technology and Telecommunications Functional Rollup 1030
- G5500, Other Information Technology Services 1042
- Information Technology Worksheet 1051

05510, Enterprise Information Services

This department provides the application of information processing involving both computer hardware and software that deals with the storage, retrieval, sharing, and use of health care information, data, and knowledge for communication and decision making. This department provides the information technology network infrastructure and tools (hardware and applications), processes, and services required to support business and clinical processes and end-users, and to enable process improvements through more efficient workflows and improved analytics. This department utilizes standards (ITIL, ISO, et al) and methods (system life cycle, project management, et al) to ensure reliable and secure acquisition, retrieval, integration, manipulation, transmission, storage, management, and use of an organization's data and information assets. Functions within this department include, but are not limited to, the analysis, design, development, testing, installation or activation, interfacing or integration, support, maintenance, monitoring, and optimization of technologies such as ERP and EHR/EMR enterprise systems, departmental management systems, reporting systems, and the technical infrastructure to support maximal data and information management, and system availability. End user training for these technologies and systems is included in this department.
Enterprise Information Services Department Mapping Guidelines

Do not include Clinical Informatics or Help Desk functions. If the cost center(s) mapped here performs help desk and desktop support functions, they will need to be reported under the 05560, Help Desk and Desktop Support department in the normalized view. If the cost center(s) mapped here performs Clinical Informatics functions, they will need to be reported under the 05550, Informatics department in the normalized view.

Enterprise Information Services Workload Volumes

Active Projects

Total number of formally managed projects undertaken by department staff during the reporting period. A formally managed project involves time spent by the department staff in initiating, planning, executing, controlling and monitoring of projects during the reporting period.

Actual Users IT

Total number of actual authorized individual users that signed on to the network within the reporting period. Each user is counted once during the reporting period regardless of the number of sign-ons during the period. Individuals with multiple user IDs and who may have signed on to the network using one or more of authorized user IDs should be counted once.

This is a subset of Total Users IT.

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Application Capital Expenditure

Total capital expenditure for applications and development related to information technology and supported by this department for the current reporting period.

This is a subset of IT Capital Expenditures.
Devices integrated into EMR/EHR

Total number of devices integrated into the electronic medical record/electronic health record system supported by the department. Device integration typically refers to the integration of medical devices with hospital information systems, which can facilitate a multitude of functions, including automated clinical documentation, alarm management and notification, remote surveillance, and data aggregation for retrospective review and analysis. Examples include, but are not limited to, infusion pumps, heart monitors, etc.

This is a subset of Devices Supported.

Devices Supported

Total number of devices (e.g., workstations, printers, handheld devices, laptops, medical devices integrated with EHR) supported by the department. Exclude cell phones, personal digital assistants (PDAs), Blackberries, and other handheld mobile devices from this count.

End User Computing Devices

Total number of personal computers supported by the department during the reporting period. This would include, but is not limited to, personal computers/desktops, laptops, notebooks, tablets/iPads, and thin clients.

This is a subset of Devices Supported.

External Sites Supported by Department

Total number of separate and discrete sites that are not located on the hospital campus (e.g., Ambulatory Care Centers, Outpatient Clinics, Physician Practices/Medical Group Offices, etc.) but which are supported by the department during the reporting period. For a site to qualify, the department should perform at least 80% of the relevant workload required by the site.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Hardware Capital Expenditure

Total capital expenditure for hardware related to information technology and supported by this department for the current reporting period.

This is a subset of IT Capital Expenditures.
Help Desk Requests Received
The total number of requests received for IT support received by this department during the reporting period. Method of contact may include calls, voicemails, email, etc. The length of time to process/complete each request is irrelevant.

HIMSS Analytics Ambulatory EMR Adoption Model Score
Enter your organization's Analytics Ambulatory Electronic Medical Record Adoption Model (Amb EMRAM) score provided by HIMSS for the reporting period. HIMSS Analytics EMRAM incorporates methodology and algorithms to automatically score hospitals in the HIMSS Analytics database relative to their EMR capabilities. Ranging from limited ancillary department systems through a paperless EMR environment, EMRAM scores provide peer comparisons for hospital organizations as they strategize their path to implementing a complete EMR and participation in an electronic health record (EHR). Scores range from 0 through 7.

HIMSS Analytics EMR Adoption Model Score
Enter your organization's Analytics Electronic Medical Record Adoption Model (EMRAM) score provided by HIMSS for the reporting period. HIMSS Analytics EMRAM incorporates methodology and algorithms to automatically score hospitals in the HIMSS Analytics database relative to their EMR capabilities. Ranging from limited ancillary department systems through a paperless EMR environment, EMRAM scores provide peer comparisons for hospital organizations as they strategize their path to implementing a complete EMR and participation in an electronic health record (EHR). Scores range from 0 through 7.

Hospitals Supported by Department
Total number of hospitals supported by the department. To qualify as a separate entity, the organization must have a separate Medicare ID number.

This is a subset of Facilities Supported by Department.

Hosted Applications
The total number of hosted applications maintained and supported by the department. A hosted application is an Open Web App that has all of its resources (HTML, CSS, JavaScript, app manifest and so on) stored on a Web server, allowing users to receive a similar application functionality experience through their Web browsers as they would with desktop applications.

This is a component of Total Applications.

Interfaces
Total number of interfaces maintained by the department. Count each interface between two applications as one interface. Count bi-directional interfaces as two for each interface. A bi-directional interface transfers data in both directions between two applications.
**IT Budgeted Capital Expenditure Current Fiscal Year**

Total capital expenditure for assets related to information technology and supported by this department budgeted in the current fiscal year.

**IT Capital Expenditure**

Total capital expenditure related to information technology and supported by this department during the reporting period.

This is a subset of Total Facility Capital Expenditure.

**Major Applications**

Total major applications for which the department has responsibility. Major applications are mission-critical applications for the entire facility or key departments. They typically are used by a large number of users within the facility. For additional assistance in collecting this information refer to the Information Technology Workload Worksheet located on the Support Page of ActionOI.

This is a subset of Total Applications.

**Major Projects**

Total number of formally managed major or large projects undertaken by department staff during the reporting period. A major project would be one requiring more than 140 effort hours in the period.

This is a subset of Active Projects.

**Midsize Projects**

Total number of formally managed midsize projects undertaken by department staff during the reporting period. A midsize project would be one requiring more than 40 effort hours but less than 140 effort hours in the period.

This is a subset of Active Projects.

**Miles Logged**

Total miles logged or traveled during the reporting period by department staff in support of external sites and remote locations supported.

**Network Infrastructure Objects**

Total pieces of network equipment (objects) maintained by the department during the reporting period. This includes but is not limited to: bridges, routers, switches, hubs, firewalls, ports, wireless access points and load balancers.
Platforms

Total number of operating system platforms maintained by the department. (i.e. IBM Unix, HP Unix E, and Microsoft XP would each count as one platform.)

Servers

Total number of servers defined as computers providing functions for other computers on the network, maintained by the department.

Size of Medical Staff Supported

Total number of individual physicians, mid level providers and allied health professionals supported by the department for the reporting period.

Size of Primary Care Medical Staff Supported

Total number of individual Primary Care physicians, mid level providers and allied health professionals supported by the department for the reporting period.

This is a subset of Size of Medical Staff Supported.

Small Projects

Total number of formally managed small or operational projects undertaken by department staff during the reporting period. A small project would be one requiring less than 40 effort hours in the period.

This is a subset of Active Projects.

Total Applications

Total existing applications for which the department has responsibility either directly or through vendor contracts. Count all applications that the department or vendors managed by the department is installing and maintaining and or supporting.

Total Facility Capital Expenditure

Total capital expenditure for all assets for the current reporting period.

Total IT Capital Expenditure Prior Fiscal Year

Total capital expenditure for assets related to information technology and supported by this department for the prior fiscal year.
**Total Users IT**

Total number of individuals for which the department directly, or through management of vendor contracts, provides application support, installation, enhancement and development; networking services; help desk functions; computer operations; hardware maintenance; and or training. A user is defined as an individual employee, employee of an affiliate, physician/provider, student, contracted agents, or volunteer who has authorized access to supported applications and can sign on to the network.

**Unscheduled Network Downtime**

Total number of hours that the network was down or unavailable, excluding scheduled downtime required for maintenance and/or upgrades. Report a portion of an hour as a decimal, for example 12 hours 15 minutes shall be reported as 12.25.

**Worked Hours: Trainer**

Total hours worked by staff who provide applications and or hardware training to the Information Technology department staff and or users in other areas of the organization.

This is a subset of Worked Hours: Staff.

**Enterprise Information Services Department Hours Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Application Software Support**

Total hours worked by technical systems analyst and computer programming staff. The personnel do not support clinical applications.

This is a subset of Worked Hours: Staff.

**Worked Hours: Clinical Application Analyst**

Total hours worked by technical system staff who are dedicated to the management and support of the clinical applications for the organization. Some examples of clinical applications may be electronic health records (EHR), Emergency Department systems, Surgical Services systems, or Radiology systems.
This is a subset of Worked Hours: Staff.

**Worked Hours: Computer Operator**
Total hours worked by computer operation and report production staff.
This is a subset of Worked Hours: Staff.

**Worked Hours: Database Administrator**
Total hours worked by technical system staff who are dedicated to the management and support of various in-house maintained databases. Database Administrators identify data relationships and develop structures to support the database infrastructure.
This is a subset of Worked Hours: Staff.

**Worked Hours: Desktop Support Staff**
Total hours worked by technical system staff who are dedicated to supporting end-users with technical desktop issues. The Desktop Support Staff may resolve desktop PC issues, may provide in-person support, or track support issues through a monitored support tracking system for faculty and staff.
This is a subset of Worked Hours: Staff.

**Worked Hours: Hardware Support**
Total hours worked by hardware and PC support staff.
This is a subset of Worked Hours: Staff.

**Worked Hours: Help Desk Staff**
Total hours worked by help desk staff.
This is a subset of Worked Hours: Staff.

**Worked Hours: Interface Related Staff**
Total hours of staff purely dedicated to interface engine-related work.
This is a subset of Worked Hours: Staff.
Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Network Support
Total hours worked by network support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Operating System and Software Support
Total hours worked by operating system and software support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime
Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs. Also report overtime hours worked in the appropriate skill mix categories.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

Enterprise Information Services Expense Elements

Application Software License Maintenance Expense
Total expense for software license and maintenance fees for applications software. This includes, but is not limited to: clinical or operational comparative database license fees, patient satisfaction.
This is a subset of Other Direct Operating Expense.

**Contract Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Contract Labor.

This is a subset of Labor Expense.

**Environmental Software License Maintenance Expense**

License maintenance expense related to environmental software. This is software for environmental management, compliance, investigation, remediation, and the design, operation and maintenance of pollution control equipment.

This is a subset of Other Direct Operating Expense.

**Equipment Lease and Maintenance Expense**

Total expense for equipment leases and maintenance contracts.

This is a subset of Other Direct Operating Expense.

**Hardware Maintenance Expense**

Total expense for maintenance of hardware by outside contractors.

This is a subset of Equipment Lease and Maintenance Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.
**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

---

**Training Expense**

Total expense for training for department staff. Do not report the cost of training of general staff outside of department.

This is a subset of Other Direct Operating Expense.

---

**Enterprise Information Services Mandatory Elements**

The following data elements are mandatory for this department:

- Actual Users IT
- Devices Supported
- HIMSS Analytics EMR Adoption Model Score
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Total Applications
- Total Users IT
- Worked Hours: Staff

---

**Enterprise Information Services Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Costs for subscriptions and license fees to databases
- Software training for department-specific computer software applications and/or systems, e.g., RIS for Imaging, OR management system for the Operating Room

- Software training for enterprise-wide computer software and applications, e.g., EMR, financial/budgeting tool

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- CIO (Chief Information Officer), Vice Presidents, Assistant Administrators and their support staff

- CMIO (Chief Medical Information Officer)

- Desktop Support, e.g., fixing second level issues unresolved by helpdesk, installing equipment, performing general maintenance and repair

- Help desk functions, e.g., responding to issues related to application and hardware support, the coordination of moves, user requests for equipment and network drops, replacement of end user devices

- Privacy Officer - activities related to the development, implementation, maintenance of, and adherence to policies and procedures covering the privacy of, and access to, patient health information in compliance with federal and state laws

- Software training for off-the-shelf products and applications, e.g., Microsoft Office

- Telecommunication/Voice and Data Network functions, operations and maintenance activities and expenses, including VOIP expenses

**05520, Voice and Data Network**

This department designs, deploys, and supports the hardware and software required to enable transmission and exchange of data and information between computers and systems throughout and from the facility or facilities supported. Data includes voice, images, video, text files, physiologic values from medical devices, and other data types. Network and the management and implementation of the cabling infrastructure would be included here (i.e. network engineers and network equipment). Functions would include, but are not limited to, computer and telephone networks, the Internet, VOIP (Voice over IP), Wireless Networks, Bluetooth technology, Wide Area Network (WAN), Local Area Network (LAN), Metropolitan Area Network (MAN), Email and Instant Messaging, Cellular Services, and Teleconferencing Services. Do not include "tele-medicine" program, staff and or expenses.

**Voice and Data Network Department Mapping Guidelines**

Do not include Call Center / Switchboard functions. If the cost center(s) mapped here performs Call center or switchboard functions, they will need to be reported under the 05530, Call Center / Switchboard department in the normalized view.
Voice and Data Network Workload Volumes

Active Network Ports (Lines)
Enter the total number of active network ports/lines maintained by the department during the reporting period. An active network port (or "network interface") may be a modem, Ethernet, AirPort / WiFi card, or other device used to connect to the network.

This is a subset of Network Ports (Lines) Maintained.

Adjusted Discharges Supported
Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Bring-Your-Own Devices Supported
Enter the total number of 'bring-your-own' supported by the department during the reporting period. Bring-your-own devices are personally owned mobile devices (i.e. laptops, notebooks, tablets, and smart phones) brought to the workplace to use those devices to access privileged company information and applications. Do not include smartphones in this element as they should be counted under Wireless Communication Devices.

This is a subset of Telecommunication Devices.

External Sites Supported by Department
Total number of separate and discrete sites that are not located on the hospital campus (e.g., Ambulatory Care Centers, Outpatient Clinics, Physician Practices/Medical Group Offices, etc.) but which are supported by the department during the reporting period. For a site to qualify, the department should perform at least 80% of the relevant workload required by the site.

Facilities Supported by Department
Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Hospitals Supported by Department
Total number of hospitals supported by the department. To qualify as a separate entity, the organization must have a separate Medicare ID number.
This is a subset of Facilities Supported by Department.

**Network Ports (Lines) Maintained**

Total number of network ports/lines maintained by the department during the reporting period. The number of lines is generally available from your PBX (or similar system) reporting module.

**Size of Medical Staff Supported**

Total number of individual physicians, mid level providers and allied health professionals supported by the department for the reporting period.

**Telecommunication Devices**

Total number of telecom devices maintained by the facility. A count of telephone extensions, cell phones, wireless phones, smart phones, tablets, fax machines, and other voice carrying devices are to be included. Count devices as of the last day of the reporting quarter. Exclude pagers.

**Traditional Beepers/Pagers**

Total number of beepers, including alpha enabled, maintained by the department. Do not include cellphones/smartphones or tablets being used in place of the traditional beeper/pager.

**Traditional Hardwired Phones**

Enter the total number of hard-wired telephones maintained by the department for the reporting period. A traditional hard-wired phone (a.k.a. plain ordinary telephone service, or POTS) relies on terrestrial-based cables running to specific locations through the telecommunications networks in place to connect the call from its source phone to its endpoint. Traditional hard-wired landline phone services utilize twisted copper wires as the core of the cables that transmit the voice information, though newer, higher quality conduits such as coaxial and fiber-optic cable are also used in certain areas with certain providers.

This is a subset of Telecommunication Devices.

**Voice Over Internet Protocol (VOIP) Phones**

Enter the total number of voice over internet protocol (VOIP) phones in use during the reporting period. A VoIP phone or IP Phone uses Voice over IP (Voice over Internet Protocol - VoIP) technologies for placing and transmitting telephone calls over an IP network, such as the Internet, instead of the traditional public switched telephone network (PSTN).

This is a subset of Telecommunication Devices.
Wireless Communication Devices

Enter the total number of wireless communication devices supported by the department during the reporting period. A wireless communication device is a device that can make and receive telephone calls over a radio link while moving around a wide geographic area by connecting to a cellular network provided by a mobile phone operator, allowing access to the public telephone network. This includes, but is not limited to, cellphones, mobile phones, smartphones, and handsfree badges.

This is a subset of Telecommunication Devices.

Voice and Data Network Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs. Also report overtime hours worked in the appropriate skill mix categories.

This is a subset of Worked Hours: Staff.
**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Switchboard Operator**

Total hours worked by switchboard operator staff.

This is a subset of Worked Hours: Staff.

**Worked Hours - Telecommunications Analyst**

Total hours worked by telecommunications analyst staff.

This is a subset of Worked Hours: Staff.

**Worked Hours - Telecommunications Technician**

Total hours worked by telecommunications technician staff.

This is a subset of Worked Hours: Staff.

**Voice and Data Network Expense Elements**

**Contract Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Contract Labor.

This is a subset of Labor Expense.

**Equipment Lease and Maintenance Expense**

Total expense for equipment leases and maintenance contracts.

This is a subset of Other Direct Operating Expense.
Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Supply Expense

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

Telecommunication Device Expense

Total expense of telecommunication devices maintained by the facility including but not limited to the cost of telephone extensions, cell phones, wireless phones, fax machines, and other voice carrying devices. Exclude pagers.

This is a subset of Other Direct Operating Expense.

Telecommunication Utility Expense

Total expense for telecommunications usage charges paid to an outside vendor, including voice over internet protocol (VOIP) charges.

This is a subset of Other Direct Operating Expense.

Training Expense

Total expense for training for department staff. Do not report the cost of training of general staff outside of department.
This is a subset of Other Direct Operating Expense.

**Voice and Data Networks Mandatory Elements**

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Telecommunication Devices
- Worked Hours: Staff

**Voice and Data Network Normalizations**

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Telecommunication/Voice and Data Network functions, operations and maintenance activities and expenses, including VOIP expenses

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Dispatch services associated with Ground Transport
- Helicopter and Fixed Wing Aircraft Dispatch Services
- Information Desk
- Nurse call system operations and maintenance
- Physician services such as answering service, message service or dictation services
05530, Call Center / Switchboard

This department is responsible for the call center and switchboard operations. Functions include, but are not limited to: answering incoming calls, facilitating internal/external calls and transfers, overhead paging, providing general information (i.e. providing phone numbers, giving directions to the hospital and hospital-related events, relaying information about meetings), monitoring alarms, maintaining call schedules, calling and documenting all codes. Staff in this department (i.e. Operators) provide a customer service function.

Call Center / Switchboard Mapping Guidelines

If your cost center performs telecommunications or voice and data network functions, this may not be an appropriate choice. Another option might be the 05520, Voice and Data Network department.

Call Center / Switchboard Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Codes Facilitated

Report the total number of codes facilitated by the department during the reporting period.

External Sites Supported by Department

Total number of separate and discrete sites that are not located on the hospital campus (e.g., Ambulatory Care Centers, Outpatient Clinics, Physician Practices/Medical Group Offices, etc.) but which are supported by the department during the reporting period. For a site to qualify, the department should perform at least 80% of the relevant workload required by the site.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.
Hospitals Supported by Department

Total number of hospitals supported by the department. To qualify as a separate entity, the organization must have a separate Medicare ID number.

This is a subset of Facilities Supported by Department.

Incoming Calls Received

The total incoming telephone calls received for the reporting period. Do not include calls processed through automatic routing that does not require department staff assistance. Use an actual count if maintained. Otherwise, you may project the total for the reporting period based on studies taken on several representative days. Be sure studies allow for variations of call activity by shift and weekday/weekend.

Internal Calls Facilitated

Report the total number of internal calls facilitated by the department during the reporting period.

Switchboard Stations

The total switchboard console stations assigned to department staff. The switchboard consoles service the telecommunications needs of the facility (i.e. receiving, routing and directing internal and external calls). Typically, a console will provide access.

Traditional Beepers/Pagers

Total number of beepers, including alpha enabled, maintained by the department. Do not include cellphones/smartphones or tablets being used in place of the traditional beeper/pager.

Call Center / Switchboard Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.
**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs. Also report overtime hours worked in the appropriate skill mix categories.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Switchboard Operator**

Total hours worked by switchboard operator staff.

This is a subset of Worked Hours: Staff.

**Call Center / Switchboard Expense Elements**

**Contract Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Contract Labor.

This is a subset of Labor Expense.

**Equipment Lease and Maintenance Expense**

Total expense for equipment leases and maintenance contracts.
This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

**Telecommunication Utility Expense**

Total expense for telecommunications usage charges paid to an outside vendor, including voice over internet protocol (VOIP) charges.

This is a subset of Other Direct Operating Expense.

**Call Center / Switchboard Mandatory Elements**

The following data elements are mandatory for this department:

- Contract Labor Expense
- Incoming Calls Received
- Labor Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Staff
• Supply Expense
• Worked Hours: Staff

**Call Center / Switchboard Normalizations**

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Dispatch services associated with Ground Transport
• Helicopter and Fixed Wing Aircraft Dispatch Services
• Help desk functions (i.e. responding to issues related to application and hardware support, the coordination of moves, user requests for equipment and network drops, replacement of end user devices, etc.)
• Information Desk
• Mail Room
• Patient reception, e.g., greeting, checking in of patients, answering phone calls
• Registration Desk

**05540, Telecom Switchboard Combined**

This department operates systems for receiving and transmitting voice and video throughout and from the facility or facilities supported along with the responsibility for the switchboard operations including but not limited to answering all incoming hospital calls and directing them to their desired locations.

**Telecom Switchboard Combined Department Mapping Guidelines**

Attention: This department will become obsolete as part of Phase 2 of the Comprehensive Content Review (CCR) project for Information Technology. If you currently map to this department, please review the updates to the other departments within this series and remap your cost center(s) accordingly.
Telecom Switchboard Combined Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Hospitals Supported by Department

Total number of hospitals supported by the department. To qualify as a separate entity, the organization must have a separate Medicare ID number.

This is a subset of Facilities Supported by Department.

Incoming Calls Received

The total incoming telephone calls received for the reporting period. Do not include calls processed through automatic routing that does not require department staff assistance. Use an actual count if maintained. Otherwise, you may project the total for the reporting period based on studies taken on several representative days. Be sure studies allow for variations of call activity by shift and weekday/weekend.

Network Ports (Lines) Maintained

Total number of network ports/lines maintained by the department during the reporting period. The number of lines is generally available from your PBX (or similar system) reporting module.

Switchboard Stations

Total switchboard console stations assigned to department staff.

Telecommunication Devices

Total number of telecom devices maintained by the facility. A count of telephone extensions, cell phones, wireless phones, fax machines, and other voice carrying devices are to be included. Count devices as of the last day of the reporting quarter. Exclude pagers.
Traditional Beepers/Pagers
Total number of beepers, including alpha enabled, maintained by the department. Do not include cellphones/smartphones or tablets being used in place of the traditional beeper/pager.

Telecom Switchboard Combined Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Management
Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff
Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime
Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs. Also report overtime hours worked in the appropriate skill mix categories.

This is a subset of Worked Hours: Staff.

Worked Hours: Staff
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
Worked Hours: Switchboard Operator

Total hours worked by switchboard operator staff.

This is a subset of Worked Hours: Staff.

Worked Hours - Telecommunications Analyst

Total hours worked by telecommunications analyst staff.

This is a subset of Worked Hours: Staff.

Worked Hours - Telecommunications Technician

Total hours worked by telecommunications technician staff.

This is a subset of Worked Hours: Staff.

Telecom Switchboard Combined Expense Elements

Contract Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Contract Labor.

This is a subset of Labor Expense.

Equipment Lease and Maintenance Expense

Total expense for equipment leases and maintenance contracts.

This is a subset of Other Direct Operating Expense.

Labor Expense

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

Other Direct Operating Expense

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Supply Expense

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

Telecommunication Device Expense

Total expense of telecommunication devices maintained by the facility including but not limited to the cost of telephone extensions, cell phones, wireless phones, fax machines, and other voice carrying devices. Exclude pagers.

This is a subset of Other Direct Operating Expense.

Telecommunication Utility Expense

Total expense for telecommunications usage charges paid to an outside vendor, including voice over internet protocol (VOIP) charges.

This is a subset of Other Direct Operating Expense.

Training Expense

Total expense for training for department staff. Do not report the cost of training of general staff outside of department.

This is a subset of Other Direct Operating Expense.

Telecom Switchboard Combined Mandatory Elements

The following data elements are mandatory for this department:

- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Telecommunication Devices
- Telecommunication Devices Expense
- Worked Hours: Staff

**Telecom Switchboard Combined Normalizations**

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- Dispatch services associated with Ground Transport
- Helicopter and Fixed Wing Aircraft Dispatch Services
- Information Desk
- Mail Room
- Nurse call system operations and maintenance
- Patient reception, e.g., greeting, checking in of patients, answering phone calls
- Physician services such as answering service, message service or dictation services
- Registration Desk

**05550, Informatics**

This department provides liaison services between information technology and clinical end-users, including needs assessment and translation to functional requirements, human change management, usability evaluation, and workflow-driven design of systems, through employment of the expert knowledge, methods, and tools to bridge technology-clinical gaps and to ensure optimal clinical user adoption of safe, effective, efficient information technologies that support and improve the care outcomes of patients and health of populations. Also responsible for identifying and coordinating integration of clinical and financial data across the enterprise for direct care, teaching, and research uses. It consists of nurses (Nurse Champions), medical technologists, and other clinically trained disciplines who work with health information system end users to integrate information technology with clinical workflow. Performs assessment and analysis regarding system evaluation, acquisition, implementation, upgrades and change. It includes ‘decentralized’ IT functions including Lab IT, Pharmacy IT and Radiology IT.
Informatics Department Workload Volumes

Active Projects

Total number of formally managed projects undertaken by department staff during the reporting period. A formally managed project involves time spent by the department staff in initiating, planning, executing, controlling and monitoring of projects during the reporting period.

Actual Users IT

Total number of actual authorized individual users that signed on to the network within the reporting period. Each user is counted once during the reporting period regardless of the number of sign-ons during the period. Individuals with multiple user IDs and who may have signed on to the network using one or more of authorized user IDs should be counted once.

This is a subset of Total Users IT.

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

External Sites Supported by Department

Total number of separate and discrete sites that are not located on the hospital campus (e.g., Ambulatory Care Centers, Outpatient Clinics, Physician Practices/Medical Group Offices, etc.) but which are supported by the department during the reporting period. For a site to qualify, the department should perform at least 80% of the relevant workload required by the site.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.
HIMSS Analytics Ambulatory EMR Adoption Model Score

Enter your organization's Analytics Ambulatory Electronic Medical Record Adoption Model (Amb EMRAM) score provided by HIMSS for the reporting period. HIMSS Analytics EMRAM incorporates methodology and algorithms to automatically score hospitals in the HIMSS Analytics database relative to their EMR capabilities. Ranging from limited ancillary department systems through a paperless EMR environment, EMRAM scores provide peer comparisons for hospital organizations as they strategize their path to implementing a complete EMR and participation in an electronic health record (EHR). Scores range from 0 through 7.

HIMSS Analytics EMR Adoption Model Score

Enter your organization's Analytics Electronic Medical Record Adoption Model (EMRAM) score provided by HIMSS for the reporting period. HIMSS Analytics EMRAM incorporates methodology and algorithms to automatically score hospitals in the HIMSS Analytics database relative to their EMR capabilities. Ranging from limited ancillary department systems through a paperless EMR environment, EMRAM scores provide peer comparisons for hospital organizations as they strategize their path to implementing a complete EMR and participation in an electronic health record (EHR). Scores range from 0 through 7.

Hospitals Supported by Department

Total number of hospitals supported by the department. To qualify as a separate entity, the organization must have a separate Medicare ID number.

This is a subset of Facilities Supported by Department.

Major Projects

Total number of formally managed major or large projects undertaken by department staff during the reporting period. A major project would be one requiring more than 140 effort hours in the period.

This is a subset of Active Projects.

Midsize Projects

Total number of formally managed midsize projects undertaken by department staff during the reporting period. A midsize project would be one requiring more than 40 effort hours but less than 140 effort hours in the period.

This is a subset of Active Projects.

Miles Logged

Total miles logged or traveled during the reporting period by department staff in support of external sites and remote locations supported.
Size of Medical Staff Supported

Total number of individual physicians, mid level providers and allied health professionals supported by the department for the reporting period.

Size of Primary Care Medical Staff Supported

Total number of individual Primary Care physicians, mid level providers and allied health professionals supported by the department for the reporting period.

This is a subset of Size of Medical Staff Supported.

Small Projects

Total number of formally managed small or operational projects undertaken by department staff during the reporting period. A small project would be one requiring less than 40 effort hours in the period.

This is a subset of Active Projects.

Total Users IT

Total number of individuals for which the department directly, or through management of vendor contracts, provides application support, installation, enhancement and development; networking services; help desk functions; computer operations; hardware maintenance; and or training. A user is defined as an individual employee, employee of an affiliate, physician/provider, student, contracted agents, or volunteer who has authorized access to supported applications and can sign on to the network.

Informatics Department Hour Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Clinical Application Analyst

Total hours worked by technical system staff who are dedicated to the management and support of the clinical applications for the organization. Some examples of clinical applications may be electronic health records (EHR), Emergency Department systems, Surgical Services systems, or Radiology systems.

This is a subset of Worked Hours: Staff.
Worked Hours: Database Administrator

Total hours worked by technical system staff who are dedicated to the management and support of various in-house maintained databases. Database Administrators identify data relationships and develop structures to support the database infrastructure.

This is a subset of Worked Hours: Staff.

Worked Hours: Interface Related Staff

Total hours of staff purely dedicated to interface engine-related work.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs. Also report overtime hours worked in the appropriate skill mix categories.

This is a subset of Worked Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.
**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Switchboard Operator**

Total hours worked by switchboard operator staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.

This is a subset of Worked Hours: Staff.

**Worked Hours: Trainer**

Total hours worked by staff who provide applications and or hardware training to the Information Technology department staff and or users in other areas of the organization.

This is a subset of Worked Hours: Staff.

**Informatics Expense Elements**

**Contract Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Contract Labor.

This is a subset of Labor Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Supply Expense

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

Training Expense

Total expense for training for department staff. Do not report the cost of training of general staff outside of department.

This is a subset of Other Direct Operating Expense.

Informatics Mandatory Elements

The following data elements are mandatory for this department:

- Actual Users IT
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Total Users IT
- Worked Hours: Staff

Informatics Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:
• Lab Informatics (focusing on the application of information through a platform of instruments, software, and data mgmt tools that allow scientific data to be captured, migrated, processed, and interpreted for immediate use)

• Nursing Informatics (integration of nursing science, computer science and information science to manage and communicate data/information and knowledge/wisdom in nursing and informatics essential to the delivery of high quality, cost-effective care)

• Pharmacy Informatics (focusing on medication-related data and knowledge in the delivery of optimal medication-related patient care and health outcomes; including its acquisition, storage, analysis, use and dissemination)

• Radiology /Imaging Informatics (focuses on optimally accessing and using images, knowledge, and data associated with images in clinical care while aiming to improve the efficiency, accuracy, usability and reliability of imaging services)

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

• Clinical Research Informatics (the use of informatics in the discovery and management of new knowledge relating to health and disease; the mgmt of info related to clinical trials and informatics related to secondary research use of clinical data)

05560, Help Desk and Desktop Support

This department is responsible for managing the enterprise-wide technical help desk and provides end user desktop support and maintenance. Help desk functions include, but are not limited to, responding to issues related to application and hardware support, the coordination of moves, user requests for equipment and network drops, and replacement of end user devices. Desktop support functions include, but are not limited to, fixing second level issues unresolved by helpdesk, installing equipment, performing general maintenance and repair.

Help Desk and Desktop Support Workload Volumes

This department is responsible for managing the enterprise-wide technical help desk and provides end user desktop support and maintenance. Help desk functions include, but are not limited to, responding to issues related to application and hardware support, the coordination of moves, user requests for equipment and network drops, and replacement of end user devices. Desktop support functions include, but are not limited to, fixing second level issues unresolved by helpdesk, installing equipment, performing general maintenance and repair.
Adjusted Discharges Supported
Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Average Call Waiting Time
Enter the average time a customer waited before speaking to a customer service representative for the reporting period. This is also known as 'average speed of answer' and includes delay time, queue time, and ring time. To calculate, take the sum of the time that all incoming calls waited before being answered divided by the sum of all incoming calls. Enter the resulting average call waiting time in minutes.

Average Time to Close
Enter the average time to close the requests received during the reporting period. This is also known as 'handle time' and is the time spent from the call being answered by the agent to the time the agent completed after-call work time for the call. This includes any hold time, talk time, and work time associated with the call/request. To calculate, take the sum of handle time for all incoming calls divided by the sum of all incoming calls. Enter the resulting average time to close in minutes.

External Sites Supported by Department
Total number of separate and discrete sites that are not located on the hospital campus (e.g., Ambulatory Care Centers, Outpatient Clinics, Physician Practices/Medical Group Offices, etc.) but which are supported by the department during the reporting period. For a site to qualify, the department should perform at least 80% of the relevant workload required by the site.

Facilities Supported by Department
Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Help Desk Requests Received
The total number of requests received for IT support received by this department during the reporting period. Method of contact may include calls, voicemails, email, etc. The length of time to process/complete each request is irrelevant.

Help Desk Requests Resolved
The total number of help desk requests resolved by staff in this department during the reporting period. The length of time to resolve each request is irrelevant.
**Hospitals Supported by Department**

Total number of hospitals supported by the department. To qualify as a separate entity, the organization must have a separate Medicare ID number.

This is a subset of Facilities Supported by Department.

**Size of Medical Staff Supported**

Total number of individual physicians, mid level providers and allied health professionals supported by the department for the reporting period.

**Size of Primary Care Medical Staff Supported**

Total number of individual Primary Care physicians, mid level providers and allied health professionals supported by the department for the reporting period.

This is a subset of Size of Medical Staff Supported.

**System Change Requests**

The total number of system change requests received by this department during the reporting period. Method of contact may include calls, voicemails, email, etc. The length of time to process/complete each request is irrelevant.

**Help Desk and Desktop Support Department Hour Elements**

**Paid Hours: Contract Labor**

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Paid Hours: Staff**

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

**Worked Hours: Desktop Support Staff**

Total hours worked by technical system staff who are dedicated to supporting end-users with technical desktop issues. The Desktop Support Staff may resolve desktop PC issues, may provide in-person support, or track support issues through a monitored support tracking system for faculty and staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Help Desk Staff**

Total hours worked by help desk staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs. Also report overtime hours worked in the appropriate skill mix categories.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Help Desk and Desktop Support Expense Elements**

**Contract Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Contract Labor.

This is a subset of Labor Expense.

**Equipment Lease and Maintenance Expense**

Total expense for equipment leases and maintenance contracts.
This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

**Help Desk and Desktop Support Mandatory Elements**

The following data elements are mandatory for this department:

- Help Desk Requests Received
- Labor Expense
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Worked Hours: Staff
Help Desk and Desktop Support Normalizations

Include the hours, costs and volumes (where applicable) associated with the following functions:

- Desktop Support, e.g., fixing second level issues unresolved by helpdesk, installing equipment, performing general maintenance and repair

- Help desk functions (i.e. responding to issues related to application and hardware support, the coordination of moves, user requests for equipment and network drops, replacement of end user devices, etc.)

F5500, Information Technology and Telecommunications Functional Rollup

This rollup department includes all cost centers that are mapped to the following profiles: Enterprise Information Services, Voice and Data Network, Informatics, Help Desk and Desktop Support, and the Generic Other IT Services. Call center/Switchboard is no longer included in this rollup department.

IT and Telecommunications Functional Rollup Mapping Guidelines

Call center/Switchboard is no longer included in this rollup department.

IT and Telecommunications Functional Rollup Workload Volumes

Active Network Ports (Lines)

Enter the total number of active network ports/lines maintained by the department during the reporting period. An active network port (or “network interface”) may be a modem, Ethernet, AirPort/WiFi card, or other device used to connect to the network.

This is a subset of Network Ports (Lines) Maintained.

Active Projects

Total number of formally managed projects undertaken by department staff during the reporting period. A formally managed project involves time spent by the department staff in initiating, planning, executing, controlling and monitoring of projects during the reporting period.
**Actual Users IT**

Total number of actual authorized individual users that signed on to the network within the reporting period. Each user is counted once during the reporting period regardless of the number of sign-ons during the period. Individuals with multiple user IDs and who may have signed on to the network using one or more of authorized user IDs should be counted once.

This is a subset of Total Users IT.

**Adjusted Discharges Supported**

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

**Application Capital Expenditure**

Total capital expenditure for applications and development related to information technology and supported by this department for the current reporting period.

This is a subset of IT Capital Expenditures.

**Bring-Your-Own Devices Supported**

Enter the total number of 'bring-your-own' supported by the department during the reporting period. Bring-your-own devices are personally owned mobile devices (i.e. laptops, notebooks, tablets, and smart phones) brought to the workplace to use those devices to access privileged company information and applications. Do not include smartphones in this element as they should be counted under Wireless Communication Devices.

This is a subset of Telecommunication Devices.

**Devices integrated into EMR/EHR**

Total number of devices integrated into the electronic medical record/electronic health record system supported by the department. Device integration typically refers to the integration of medical devices with hospital information systems, which can facilitate a multitude of functions, including automated clinical documentation, alarm management and notification, remote surveillance, and data aggregation for retrospective review and analysis. Examples include, but are not limited to, infusion pumps, heart monitors, etc.

This is a subset of Devices Supported.
Devices Supported

Total number of devices (e.g., workstations, printers, handheld devices, laptops, medical devices integrated with EHR) supported by the department. Exclude cell phones, personal digital assistants (PDAs), Blackberries, and other handheld mobile devices from this count.

End User Computing Devices

Total number of personal computers supported by the department during the reporting period. This would include, but is not limited to, personal computers/desktops, laptops, notebooks, tablets/iPads, and thin clients.

This is a subset of Devices Supported.

External Sites Supported by Department

Total number of separate and discrete sites that are not located on the hospital campus (e.g., Ambulatory Care Centers, Outpatient Clinics, Physician Practices/Medical Group Offices, etc.) but which are supported by the department during the reporting period. For a site to qualify, the department should perform at least 80% of the relevant workload required by the site.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Hardware Capital Expenditure

Total capital expenditure for hardware related to information technology and supported by this department for the current reporting period.

This is a subset of IT Capital Expenditures.

Help Desk Requests Received

The total number of requests received for IT support received by this department during the reporting period. Method of contact may include calls, voicemails, email, etc. The length of time to process/complete each request is irrelevant.

Help Desk Requests Resolved

The total number of help desk requests resolved by staff in this department during the reporting period. The length of time to resolve each request is irrelevant.
**HIMSS Analytics Ambulatory EMR Adoption Model Score**

Enter your organization’s Analytics Ambulatory Electronic Medical Record Adoption Model (Amb EMRAM) score provided by HIMSS for the reporting period. HIMSS Analytics EMRAM incorporates methodology and algorithms to automatically score hospitals in the HIMSS Analytics database relative to their EMR capabilities. Ranging from limited ancillary department systems through a paperless EMR environment, EMRAM scores provide peer comparisons for hospital organizations as they strategize their path to implementing a complete EMR and participation in an electronic health record (EHR). Scores range from 0 through 7.

**HIMSS Analytics EMR Adoption Model Score**

Enter your organization’s Analytics Electronic Medical Record Adoption Model (EMRAM) score provided by HIMSS for the reporting period. HIMSS Analytics EMRAM incorporates methodology and algorithms to automatically score hospitals in the HIMSS Analytics database relative to their EMR capabilities. Ranging from limited ancillary department systems through a paperless EMR environment, EMRAM scores provide peer comparisons for hospital organizations as they strategize their path to implementing a complete EMR and participation in an electronic health record (EHR). Scores range from 0 through 7.

**Hospitals Supported by Department**

Total number of hospitals supported by the department. To qualify as a separate entity, the organization must have a separate Medicare ID number.

This is a subset of Facilities Supported by Department.

**Hosted Applications**

The total number of hosted applications maintained and supported by the department. A hosted application is an Open Web App that has all of its resources (HTML, CSS, JavaScript, app manifest and so on) stored on a Web server, allowing users to receive a similar application functionality experience through their Web browsers as they would with desktop applications.

This is a component of Total Applications.

**Interfaces**

Total number of interfaces maintained by the department. Count each interface between two applications as one interface. Count bi directional interfaces as two for each interface. A bi directional interface transfers data in both directions between two applications.

**IT Budgeted Capital Expenditure Current Fiscal Year**

Total capital expenditure for assets related to information technology and supported by this department budgeted in the current fiscal year.
IT Capital Expenditure

Total capital expenditure related to information technology and supported by this department during the reporting period.

This is a subset of Total Facility Capital Expenditure.

Major Applications

Total major applications for which the department has responsibility. Major applications are mission-critical applications for the entire facility or key departments. They typically are used by a large number of users within the facility. For additional assistance in collecting this information refer to the Information Technology Workload Worksheet located on the Support Page of ActionOI.

This is a subset of Total Applications.

Major Projects

Total number of formally managed major or large projects undertaken by department staff during the reporting period. A major project would be one requiring more than 140 effort hours in the period.

This is a subset of Active Projects.

Midsize Projects

Total number of formally managed midsize projects undertaken by department staff during the reporting period. A midsize project would be one requiring more than 40 effort hours but less than 140 effort hours in the period.

This is a subset of Active Projects.

Network Infrastructure Objects

Total pieces of network equipment (objects) maintained by the department during the reporting period. This includes but is not limited to: bridges, routers, switches, hubs, firewalls, ports, wireless access points and load balancers.

Network Ports (Lines) Maintained

Total number of network ports/lines maintained by the department during the reporting period. The number of lines is generally available from your PBX (or similar system) reporting module.

Platforms

Total number of operating system platforms maintained by the department. (i.e. IBM Unix, HP Unix E, and Microsoft XP would each count as one platform.)
**Servers**

Total number of servers defined as computers providing functions for other computers on the network, maintained by the department.

**Size of Medical Staff Supported**

Total number of individual physicians, mid level providers and allied health professionals supported by the department for the reporting period.

**Size of Primary Care Medical Staff Supported**

Total number of individual Primary Care physicians, mid level providers and allied health professionals supported by the department for the reporting period.

This is a subset of Size of Medical Staff Supported.

**Small Projects**

Total number of formally managed small or operational projects undertaken by department staff during the reporting period. A small project would be one requiring less than 40 effort hours in the period.

This is a subset of Active Projects.

**System Change Requests**

The total number of system change requests received by this department during the reporting period. Method of contact may include calls, voicemails, email, etc. The length of time to process/complete each request is irrelevant.

**Telecommunication Devices**

Total number of telecom devices maintained by the facility. A count of telephone extensions, cell phones, wireless phones, smart phones, tablets, fax machines, and other voice carrying devices are to be included. Count devices as of the last day of the reporting quarter. Exclude pagers.

**Total Applications**

Total existing applications for which the department has responsibility either directly or through vendor contracts. Count all applications that the department or vendors managed by the department is installing and maintaining and or supporting.

**Total Facility Capital Expenditure**

Total capital expenditure for all assets for the current reporting period.
Total IT Capital Expenditure Prior Fiscal Year

Total capital expenditure for assets related to information technology and supported by this department for the prior fiscal year.

Total Users IT

Total number of individuals for which the department directly, or through management of vendor contracts, provides application support, installation, enhancement and development; networking services; help desk functions; computer operations; hardware maintenance; and or training. A user is defined as an individual employee, employee of an affiliate, physician/provider, student, contracted agents, or volunteer who has authorized access to supported applications and can sign on to the network.

Traditional Beepers/Pagers

Total number of beepers, including alpha enabled, maintained by the department. Do not include cellphones/smartphones or tablets being used in place of the traditional beeper/pager.

Traditional Hardwired Phones

Enter the total number of hard-wired telephones maintained by the department for the reporting period. A traditional hard-wired phone (a.k.a. plain ordinary telephone service, or POTS) relies on terrestrial-based cables running to specific locations through the telecommunications networks in place to connect the call from its source phone to its endpoint. Traditional hard-wired landline phone services utilize twisted copper wires as the core of the cables that transmit the voice information, though newer, higher quality conduits such as coaxial and fiber-optic cable are also used in certain areas with certain providers.

This is a subset of Telecommunication Devices.

Unscheduled Network Downtime

Total number of hours that the network was down or unavailable, excluding scheduled downtime required for maintenance and/or upgrades. Report a portion of an hour as a decimal, for example 12 hours 15 minutes shall be reported as 12.25.

Voice Over Internet Protocol (VOIP) Phones

Enter the total number of voice over internet protocol (VOIP) phones in use during the reporting period. A VoIP phone or IP Phone uses Voice over IP (Voice over Internet Protocol - VoIP) technologies for placing and transmitting telephone calls over an IP network, such as the Internet, instead of the traditional public switched telephone network (PSTN).

This is a subset of Telecommunication Devices.
Wireless Communication Devices

Enter the total number of wireless communication devices supported by the department during the reporting period. A wireless communication device is a device that can make and receive telephone calls over a radio link while moving around a wide geographic area by connecting to a cellular network provided by a mobile phone operator, allowing access to the public telephone network. This includes, but is not limited to, cellphones, mobile phones, smartphones, and handsfree badges.

This is a subset of Telecommunication Devices.

IT and Telecommunications Functional Rollup Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Application Software Support

Total hours worked by technical systems analyst and computer programming staff. The personnel do not support clinical applications.

This is a subset of Worked Hours: Staff.

Worked Hours: Clinical Application Analyst

Total hours worked by technical system staff who are dedicated to the management and support of the clinical applications for the organization. Some examples of clinical applications may be electronic health records (EHR), Emergency Department systems, Surgical Services systems, or Radiology systems.

This is a subset of Worked Hours: Staff.

Worked Hours: Computer Operator

Total hours worked by computer operation and report production staff.

This is a subset of Worked Hours: Staff.
Worked Hours: Database Administrator

Total hours worked by technical system staff who are dedicated to the management and support of various in-house maintained databases. Database Administrators identify data relationships and develop structures to support the database infrastructure.

This is a subset of Worked Hours: Staff.

Worked Hours: Desktop Support Staff

Total hours worked by technical system staff who are dedicated to supporting end-users with technical desktop issues. The Desktop Support Staff may resolve desktop PC issues, may provide in-person support, or track support issues through a monitored support tracking system for faculty and staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Hardware Support

Total hours worked by hardware and PC support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Help Desk Staff

Total hours worked by help desk staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Interface Related Staff

Total hours of staff purely dedicated to interface engine-related work.

This is a subset of Worked Hours: Staff.

Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Network Support

Total hours worked by network support staff.
This is a subset of Worked Hours: Staff.

**Worked Hours: Operating System and Software Support**

Total hours worked by operating system and software support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs. Also report overtime hours worked in the appropriate skill mix categories.

This is a subset of overtime hours worked in the appropriate skill mix categories.

This is a subset of Worked Hours: Staff.

**Worked Hours: RN**

Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Switchboard Operator**

Total hours worked by switchboard operator staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Technologist**

Hours worked by Registered Radiology Technologists.
This is a subset of Worked Hours: Staff.

**Worked Hours - Telecommunications Analyst**

Total hours worked by telecommunications analyst staff.

This is a subset of Worked Hours: Staff.

**Worked Hours - Telecommunications Technician**

Total hours worked by telecommunications technician staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Trainer**

Total hours worked by staff who provide applications and or hardware training to the Information Technology department staff and or users in other areas of the organization.

This is a subset of Worked Hours: Staff.

**IT and Telecommunications Functional Rollup Expense Elements**

**Application Software License Maintenance Expense**

Total expense for software license and maintenance fees for applications software. This includes, but is not limited to: clinical or operational comparative database license fees, patient satisfaction.

This is a subset of Other Direct Operating Expense.

**Contract Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Contract Labor.

This is a subset of Labor Expense.

**Environmental Software License Maintenance Expense**

License maintenance expense related to environmental software. This is software for environmental management, compliance, investigation, remediation, and the design, operation and maintenance of pollution control equipment.

This is a subset of Other Direct Operating Expense.
**Equipment Lease and Maintenance Expense**

Total expense for equipment leases and maintenance contracts.

This is a subset of Other Direct Operating Expense.

**Hardware Maintenance Expense**

Total expense for maintenance of hardware by outside contractors.

This is a subset of Equipment Lease and Maintenance Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

**Telecommunication Devices Expense**

Total expense of telecommunication devices maintained by the facility including but not limited to the cost of telephone extensions, cell phones, wireless phones, fax machines, and other voice carrying devices. Exclude pagers.
Telecommunication Utility Expense

Total expense for telecommunications usage charges paid to an outside vendor, including voice over internet protocol (VOIP) charges.

This is a subset of Other Direct Operating Expense.

Training Expense

Total expense for training for department staff. Do not report the cost of training of general staff outside of department.

This is a subset of Other Direct Operating Expense.

IT and Telecommunications Functional Rollup Mandatory Elements

The following data elements are mandatory for this department:

- Actual Users IT
- Devices Supported
- Labor Expense
- Major Applications
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Telecommunication Devices
- Total Applications
- Total Users IT
- Worked Hours: Staff

G5500, Other Information Technology Services

This generic department includes all cost centers belonging to Information Technology that cannot be mapped to individual information technology or telecommunications departments.
Other Information Technology Services Workload Volumes

Actual Users IT

Total number of actual authorized individual users that signed on to the network within the reporting period. Each user is counted once during the reporting period regardless of the number of sign-ons during the period. Individuals with multiple user IDs and who may have signed on to the network using one or more of authorized user IDs should be counted once.

This is a subset of Total Users IT.

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review Adjusted Discharges Supported in the Guiding Principles section.

Devices Supported

Total number of devices (e.g., workstations, printers, handheld devices, laptops, medical devices integrated with EHR) supported by the department. Exclude cell phones, personal digital assistants (PDAs), Blackberries, and other handheld mobile devices from this count.

End User Computing Devices

Total number of personal computers supported by the department during the reporting period. This would include, but is not limited to, personal computers/desktops, laptops, notebooks, tablets/iPads, and thin clients.

This is a subset of Devices Supported.

Facilities Supported by Department

Total discrete physical facilities (e.g., hospitals, home health agencies, physician practice offices, rehab facilities) supported by the department. For a facility to qualify, the department should perform at least 80% of the relevant workload required by the facility.

Help Desk Requests Received

The total number of requests received for IT support received by this department during the reporting period. Method of contact may include calls, voicemails, email, etc. The length of time to process/complete each request is irrelevant.
**Hospitals Supported by Department**

Total number of hospitals supported by the department. To qualify as a separate entity, the organization must have a separate Medicare ID number.

This is a subset of Facilities Supported by Department.

**Interfaces**

Total number of interfaces maintained by the department. Count each interface between two applications as one interface. Count bi-directional interfaces as two for each interface. A bi-directional interface transfers data in both directions between two applications.

**Major Applications**

Total major applications for which the department has responsibility. Major applications are mission-critical applications for the entire facility or key departments. They typically are used by a large number of users within the facility. For additional assistance in collecting this information refer to the Information Technology Workload Worksheet located on the Support Page of ActionOI.

This is a subset of Total Applications.

**Network Infrastructure Objects**

Total pieces of network equipment (objects) maintained by the department during the reporting period. This includes but is not limited to: bridges, routers, switches, hubs, firewalls, ports, wireless access points and load balancers.

**Network Ports (Lines) Maintained**

Total number of network ports/lines maintained by the department during the reporting period. The number of lines is generally available from your PBX (or similar system) reporting module.

**Platforms**

Total number of operating system platforms maintained by the department. (i.e. IBM Unix, HP Unix E, and Microsoft XP would each count as one platform.)

**Servers**

Total number of servers defined as computers providing functions for other computers on the network, maintained by the department.
Telecommunication Devices

Total number of telecom devices maintained by the facility. A count of telephone extensions, cell phones, wireless phones, smart phones, tablets, fax machines, and other voice carrying devices are to be included. Count devices as of the last day of the reporting quarter. Exclude pagers.

Total Applications

Total existing applications for which the department has responsibility either directly or through vendor contracts. Count all applications that the department or vendors managed by the department is installing and maintaining and or supporting.

Total Users IT

Total number of individuals for which the department directly, or through management of vendor contracts, provides application support, installation, enhancement and development; networking services; help desk functions; computer operations; hardware maintenance; and or training. A user is defined as an individual employee, employee of an affiliate, physician/provider, student, contracted agents, or volunteer who has authorized access to supported applications and can sign on to the network.

Traditional Beepers/Pagers

Total number of beepers, including alpha enabled, maintained by the department. Do not include cellphones/smartphones or tablets being used in place of the traditional beeper/pager.

Unscheduled Network Downtime

Total number of hours that the network was down or unavailable, excluding scheduled downtime required for maintenance and/or upgrades. Report a portion of an hour as a decimal, for example 12 hours 15 minutes shall be reported as 12.25.

Other Information Technology Services Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.

Worked Hours: Application Software Support

Total hours worked by technical systems analyst and computer programming staff. The personnel do not support clinical applications.
This is a subset of Worked Hours: Staff.

**Worked Hours: Clinical Application Analyst**

Total hours worked by technical system staff who are dedicated to the management and support of the clinical applications for the organization. Some examples of clinical applications may be electronic health records (EHR), Emergency Department systems, Surgical Services systems, or Radiology systems.

This is a subset of Worked Hours: Staff.

**Worked Hours: Computer Operator**

Total hours worked by computer operation and report production staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Database Administrator**

Total hours worked by technical system staff who are dedicated to the management and support of various in-house maintained databases. Database Administrators identify data relationships and develop structures to support the database infrastructure.

This is a subset of Worked Hours: Staff.

**Worked Hours: Desktop Support Staff**

Total hours worked by technical system staff who are dedicated to supporting end-users with technical desktop issues. The Desktop Support Staff may resolve desktop PC issues, may provide in-person support, or track support issues through a monitored support tracking system for faculty and staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Hardware Support**

Total hours worked by hardware and PC support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Help Desk Staff**

Total hours worked by help desk staff.

This is a subset of Worked Hours: Staff.
**Worked Hours: Interface Related Staff**

Total hours of staff purely dedicated to interface engine-related work.

This is a subset of Worked Hours: Staff.

**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Network Support**

Total hours worked by network support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Operating System and Software Support**

Total hours worked by operating system and software support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Overtime is the total worked hours paid for overtime. Include hours worked on an overtime basis during orientation or for educational purposes. Exclude premium hours, non-worked hours, or callback hours for which an employee is reimbursed at a regular pay rate based on shift differential or scheduling needs. Also report overtime hours worked in the appropriate skill mix categories.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.
**Worked Hours: Switchboard Operator**

Total hours worked by switchboard operator staff.

This is a subset of Worked Hours: Staff.

**Worked Hours - Telecommunications Analyst**

Total hours worked by telecommunications analyst staff.

This is a subset of Worked Hours: Staff.

**Worked Hours - Telecommunications Technician**

Total hours worked by telecommunications technician staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Trainer**

Total hours worked by staff who provide applications and or hardware training to the Information Technology department staff and or users in other areas of the organization.

This is a subset of Worked Hours: Staff.

**Other Information Technology Services Expense Elements**

**Application Software License Maintenance Expense**

Total expense for software license and maintenance fees for applications software. This includes, but is not limited to: clinical or operational comparative database license fees, patient satisfaction.

This is a subset of Other Direct Operating Expense.

**Contract Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Contract Labor.

This is a subset of Labor Expense.

**Environmental Software License Maintenance Expense**

License maintenance expense related to environmental software. This is software for environmental management, compliance, investigation, remediation, and the design, operation and maintenance of pollution control equipment.
This is a subset of Other Direct Operating Expense.

**Equipment Lease and Maintenance Expense**

Total expense for equipment leases and maintenance contracts.

This is a subset of Other Direct Operating Expense.

**Hardware Maintenance Expense**

Total expense for maintenance of hardware by outside contractors.

This is a subset of Equipment Lease and Maintenance Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

**Supply Expense**

Total net expense (including freight and distribution fees less rebates) for all patient chargeable (if applicable) and department consumable supplies for the department. Supply items typically have an expected life of less than one year.

This is a subset of Other Direct Operating Expense.

**Telecommunication Devices Expense**

Total expense of telecommunication devices maintained by the facility including but not limited to the cost of telephone extensions, cell phones, wireless phones, fax machines, and other voice carrying devices. Exclude pagers.
Telecommunication Utility Expense

Total expense for telecommunications usage charges paid to an outside vendor, including voice over internet protocol (VOIP) charges.

This is a subset of Other Direct Operating Expense.

Training Expense

Total expense for training for department staff. Do not report the cost of training of general staff outside of department.

This is a subset of Other Direct Operating Expense.

Other Information Technology Services Mandatory Elements

The following data elements are mandatory for this department:

- Actual Users IT
- Devices Supported
- Labor Expense
- Major Applications
- Other Direct Operating Expense
- Paid Hours: Contract Labor
- Paid Hours: Staff
- Telecommunication Devices
- Total Applications
- Total Users IT
- Worked Hours: Staff

Other Information Technology Services Normalizations

Exclude the hours, costs and volumes (where applicable) associated with the following functions:

- CIO (Chief Information Officer), Vice Presidents, Assistant Administrators and their support staff
• CMIO (Chief Medical Information Officer)

• Dispatch services associated with Ground Transport

• Helicopter and Fixed Wing Aircraft Dispatch Services

• Information Desk

• Nurse call system operations and maintenance

• Physician services such as answering service, message service or dictation services

Information Technology Worksheet

Use the following worksheet for this department. The worksheets can be found on the Support tab of ActionOI.

• Information Technology Workload Computation Worksheet
Chapter 23. Laboratory Services

For an annotated list of Characteristic Questions for this series, please see the ActionOI support page.

This chapter includes the following sections:

- 03350, Laboratory Services: Clinical Operations and Blood Bank Combined 1052
- 03370, Laboratory Services: Clinical Operations Combined 1064
- 03371, Laboratory Services: Clinical Operations Core Lab Only 1075
- 03372, Laboratory Services: Clinical Operations - Specialty Labs Only 1085
- 03380, Laboratory Services: Anatomic Pathology 1095
- 03390, Laboratory Services: Blood Bank 1104
- 03399, Laboratory Services Administration 1114
- F3300, Laboratory Services Functional Rollup Department 1122
- G3300, Other Laboratory Services 1134

03350, Laboratory Services: Clinical Operations and Blood Bank Combined

This department includes all clinical laboratory functions, including Chemistry, Hematology, Urinalysis, Coagulation, Immunology, Microbiology, and Reproductive Medicine, as well as blood bank functions. It also includes phlebotomy and processing. Do not include administration and support functions supporting the laboratory and/or anatomic pathology.

Laboratory Services: Clinical Operations and Blood Bank Combined Mapping Guidelines

If your cost center does not include Blood Bank, another option might be the 03370, Lab Services: Clinical Operations Combined department.
Laboratory Services: Clinical Operations and Blood Bank Combined Workload Volumes

Adjusted Discharges Supported

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review the Guiding Principles section in the DRM for more information.

This is a component of Total Billed Tests.

Billed Tests Sent to Reference Lab

Total billed tests sent out to another lab (reference lab) for processing. According to CMS, the definition of a reference lab is a Medicare-enrolled laboratory that receives a specimen from another, referring laboratory for testing and that actually performs the test.

This is a component of Total Billed Tests.

Blood Draws Performed by Lab

Total number of blood draws performed by Lab for this reporting period.

This is a subset of Blood Draws Performed.

Chemistry Billed Tests Performed

Total billed tests performed under the chemistry classification. Chemistry tests are typically billed under the CPT code range 80047-80439 and 82000-84999. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

Complete Blood Count (CBC) Tests Performed

Total billed tests performed for Complete Blood Count (CBC) tests, including automated only (CPT Code 85027) and automated differential WBC count (CPT code 85025) only. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a subset of Hematology Billed Tests.
Days of Operation per Week
Total number of days the department is open for operation during the week.

The max number that can be reported is 7.

Flow Cytometry Tests Performed
Total billed tests performed for Flow Cytometry tests, typically billed under CPT codes 88182-88189. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

Hematology Billed Tests Performed
Total billed tests performed under the hematology classification. Hematology tests are typically billed under the CPT code range 85000-85999. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

Hematopoietic Cells (HPC) Collected
Total number of Hematopoietic Cells (blood-forming stem cells) collected for this reporting period.

HLA Tests Performed
Total billed tests performed for Human leukocyte antigen (HLA) testing, typically billed under the CPT code range 81370-81383. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

Hours of Operation per Week
Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

Immunology Billed Tests Performed
Total billed tests performed under the immunology classification. Immunology tests are typically billed under the CPT code range 86000-86849. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.
This is a component of Total Billed Tests.

**Inpatient Billed Tests Performed**

Total billed tests performed in support of facility inpatients. This includes only inpatient (i.e., patients who occupied or are expected to occupy a bed overnight) billed tests. Refer to the Laboratory Services Subset Worksheet found on the Support Page for assistance in reporting this value.

This is a subset of Total Billed Tests.

**Inpatient Blood Draws Performed by Lab**

Total number of blood draws performed on inpatients by Lab staff during the reporting period.

This is a subset of Blood Draws Performed by Lab

**Lab Analyzers**

Total number of Lab Analysis Machines this department has in operation. A Lab Analysis Machine is a lab machine/instrument that provides automated lab results.

**Microbiology Billed Tests**

Total billed tests performed in a microbiology setting. Microbiology tests are tests used to identify microorganisms and typically are billed under the CPT code range 87000-87899. Refer to the Laboratory Services Subset Worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

**Non Hospital Patient Billed Tests**

Total billed tests performed on non-hospital patient specimens. According to CMS, a "non-patient" is defined as a person that is neither an inpatient nor an outpatient of a hospital, but that has a specimen that is submitted for analysis to a hospital and the person is not physically present at the hospital. (All hospitals bill non-patient lab tests on TOB 14X)

**Number of Remote Testing Laboratories**

Total discrete satellite testing laboratories located away from the main laboratory, open eight or more hours per day, and staffed with department personnel. This includes any satellite testing laboratory within or outside the facility (more than 100 yards from the main laboratory) staffed by division personnel and open eight or more hours per day.
Point of Care Billed Tests

Total CPT codes billed by the patient billing system(s) for Point of Care Billed tests. Point of Care testing (POCT) defined as testing performed at the patients side. The testing site is usually close to the patient such as at the bedside, ambulatory clinic, nursing unit, emergency room, operating room, or wherever medical care may be necessary. A physician, nurse, or other health care professional attending the patient obtains the specimen, performs the analysis, and records the test result. Refer to the Laboratory Services Subset Worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

Point of Care Billed Tests Not Performed by Lab Staff

Total CPT codes billed by the patient billing system(s) for Point of Care Billed tests performed by staff in another department. Point of Care testing (POCT) is defined as testing performed at the patient's side. The testing site is usually close to the patient such as at the bedside, ambulatory clinic, nursing unit, emergency room, operating room or wherever medical care may be necessary. A physician, nurse, or other health care professional attending the patient obtains the specimen, performs the analysis, and records the test result. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a subset of Point of Care Billed Tests.

Point of Care Testing Analyzers Supported

Total number of Point of Care Testing analyzers supported by the department. Point of Care Testing analyzers allows the analysis of samples or specimens to be performed close to the patient such as at the bedside, ambulatory clinic, nursing unit, emergency room, operating room, or wherever medical care may be necessary.

Point of Care Testing Sites Supported

Total number of Point of Care Testing sites supported by the department. Point of Care testing (POCT) is defined as testing performed at the patients side. The testing site is usually close to the patient such as at the bedside, ambulatory clinic, nursing unit, emergency room, operating room, or wherever medical care may be necessary.

Specimen Draw Stations Staffed by Lab

Total discrete specimen draw stations, open eight or more hours per day, and staffed with department personnel. This includes any draw station within or outside the facility (more than 100 yards from the main laboratory) staffed by division personnel.

Tissue Products Dispensed

Total number of Tissue Products dispensed for this reporting period.

This is a subset of Tissue Products Received.
**Tissue Products Received**

Total number of Tissue Products received in this reporting period. Tissue Products contain tissue that is human and non-human in origin and includes but is not limited to tissue used for transplants.

**Tissue Products Transplanted**

Total number of Tissue Products human in origin transplanted for this reporting period.

This is a subset of Tissue Products Dispensed.

**Total Billed Tests**

Total CPT codes billed by the patient billing system(s) for tests, including billed tests performed on units of blood and billed tests sent to reference labs. Exclude STAT fees, phlebotomy charges, and blood/blood product handling fees. Automated multichannel test panels should be given a count of 1. Refer to the Laboratory Services Subset Worksheet found on the Support Page for assistance in reporting this value.

**Total Blood Draws Performed**

Total number of blood draws performed by both Lab and Non Lab staff for the reporting period.

**Total Donor Units Drawn**

Total number of donor units of blood drawn by Lab staff during the reporting period.

**Unbundled Tests**

Total count of tests as reflected on the laboratory's revenue/usage report. Count each CPT code separately, i.e., the tests listed within each panel should be counted separately.

**Units of blood or blood products purchased**

Total number of blood units or blood product units purchased by this department for the reporting period.

**Units of Blood or Blood Products Received**

Total number of blood units or blood product units received. Count all blood units or blood product received by this department for the reporting period.

**Units of Dispensed Blood or Blood Products**

Total number of blood units or blood product units dispensed in this reporting period. Count all blood units or blood product issued or distributed.

This is a subset of Units of Blood or Blood Products Received.
Units of Transfused Blood or Blood Products

Total number of blood units or blood product units transfused in this reporting period. A transfusion is the act of transferring blood or blood products to an individual.

This is a subset of Units of Dispensed Blood or Blood Products.

Laboratory Services: Clinical Operations and Blood Bank Combined Department Hours Elements

Paid Hours: Contract Labor

Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider

Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Worked Hours: RN

Total hours worked by RN (Registered Nurse) Including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

Worked Hours: Transcriptionist

Total hours worked by medical transcriptionist staff.

This is a subset of Worked Hours: Staff.

Paid Hours: Staff

Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.
**Worked Hours: Management**

Total hours worked by management and supervisory staff with responsibility for operations and departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Support Staff**

Total hours worked by personnel not included in other skill mix categories. This includes clerical and administrative support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Other Technical**

Total worked hours by lab technicians or lab assistants involved in the analytic phase of testing only. Do not include hours for technologists, lab scientists, phlebotomists or support staff.

This is a subset of Worked Hours: Staff.

**Worked Hours: Overtime**

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked over the employee's normal work schedule). Hours worked on an overtime basis while attending training or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

**Worked Hours: Phlebotomist**

Total hours worked by Phlebotomists.

This is a subset of Worked Hours: Staff.

**Worked Hours: Physician Provider**

Represents hours worked by physicians and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advanced practitioners, and other advanced practitioners. Include only physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medication, ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line.
This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**

Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**

Total hours worked by Registered Medical Technologists or equivalent. Exclude management / supervisors.

This is a subset of Worked Hours: Staff.

**Laboratory Services: Clinical Operations and Blood Bank Combined Expense Elements**

**Blood and Immune System Modifiers Expense**

Total Darbepotin, Epoetin, Filgrastim, Pegfilgrastim, Sargramostim, Adalimumab, Alafacept, Aldesleukine, Omalizumab, Interferons all variations, Anticoagulants, Thrombolytic, Hemophilia and Hemophilia factor expense.

This is a subset of Medical Supply Expense.

**Equipment Repair And Maintenance Expense**

Total expense to repair and maintain major equipment charged to this department. Include fee-for-service labor and parts expense, service contract costs, and other related costs.

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.
**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical and or surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Contract Service Expense**

Total expense for services (e.g. collections, transcription) provided by outside contractors.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.

**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.
Overtime Salary Expense

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

Physician Provider Professional Fee Expense

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Purchased Blood and Blood Products Expense

Report the sum of purchased blood and blood products, including aphaeresis and autologous transfusions. Do not include hemophilia factor expense.

This is a subset of Medical Supply Expense.

Referral Testing Service Expense

Total expense for outside laboratories for testing services not performed on site.

This is a subset of Other Direct Operating Expense.

Wastage Expense

Wastage expense includes blood products that are thawed, pooled, prepared and then not used, as well as products that outdate due to over stocked inventory.

This is a component of Other Direct Operating Expense.

Laboratory Services: Clinical Operations and Blood Bank Combined Mandatory Elements

The following data elements are mandatory for this department:

- Inpatient Billed Tests Performed
- Labor Expense
- Labor Expense: Physician Provider
• Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Total Billed Tests
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Laboratory Services: Clinical Operations and Blood Bank Combined Normalizations**

Include the hours, costs and volumes (where applicable) associated with the

• Bench teaching of department employees
• Blood and blood product costs
• Blood Bank and Donor Center services
• Personnel performing the functions of the department’s day to day managerial operations (Laboratory)
• Phlebotomy, e.g., the puncturing of a vein for collecting blood specimens which are sent to the laboratory for analysis and testing. Does not include line draws.

Exclude the hours costs and volumes (where applicable) associated with the

• Administrative support and clerical staff supporting the departments within the series, e.g., inventory management, charge capture documentation verification, office coordination, scheduling, residency program. (Laboratory Services)
• Autopsies
• Albumin, plasma protein fraction, Rh Immune Globulin, Anti Thrombin, Varicella Zoster Immune Globulin, and other specialty plasma products
• Bench teaching of students (non-department employees)
• Clinical Engineer and/or Biomedical Technician
• Cost of hemophilia factors
• Hospital-based School of Medical Technology
• Lab Courier Service (Courier services specific to lab specimens only e.g. in house runners, external - remote pickup)
• Medical records transcription, e.g., lines produced internally or outsources (Laboratory). This includes transcription from dictation capture to document distribution and storage, including associate transcription.
• Outpatient Registrations for any ancillary services (e.g. cardiology, endoscopy, imaging, infusion, laboratory, pulmonary, radiation, rehabilitation, respiratory, surgical, vascular services)
• Patient reception, e.g., greeting, checking in of patients, answering phone calls (Laboratory)
• Personnel performing the functions of administration and managerial operations oversight for the departments within the series (Laboratory)
• Repair and Maintenance of Clinical Equipment/Rooms
• Stem Cell Bank, Tissue Lab, Apheresis and Hemapheresis
• Support activities for department Information System, e.g., clinical table updates (Laboratory)
• Tumor Registry - the activities involved in capturing history, diagnosis, treatment and health status for tumor patients
• Administration and Support activites for a Laboratory Residency Program
• Didactic Teaching for phlebotomy (Providing Collection Manager (PDA's and Printers and training) for nursing services doing arterial line draws)
• Lab Specimen Registration

03370, Laboratory Services: Clinical Operations Combined

This department includes all clinical laboratory functions, including Chemistry, Hematology, Urinalysis, Coagulation, Immunology, Microbiology, and Reproductive Medicine. It also includes phlebotomy, processing and reference lab sendouts. Do not include administration and support functions supporting the laboratory, anatomic pathology and/or blood bank functions.

Laboratory Services: Clinical Operations Mapping Guidelines

September 2019
If your cost center includes Blood Bank, another option might be the 03350, Laboratory Services: Clinical Operations and Blood Bank Combined department. If you have separate and distinct cost centers for specific classification of tests, map them to the more detailed departments in the series such as 03371 Laboratory Services: Clinical Ops Core Lab Only or the 03372 Laboratory Services: Clinical Ops Specialty Labs Only department.

**Laboratory Services: Clinical Operations Workload Volumes**

**Adjusted Discharges Supported**

Total number of Adjusted Discharges Supported by the department for the reporting period. This element is intended for a department which provides services and support to more than one business unit (hospital and non hospital). This value should be derived by taking the sum of the Total Gross Patient Revenue (for all the business units) divided by Total Gross Inpatient Revenue (for all business units) multiplied by the Total Discharges (for all business units). This value might be different than the Adjusted Discharge value calculated in the 00100, General Facility. Please review the Guiding Principles section in the DRM for more information.

This is a component of Total Billed Tests.

**Billed Tests Sent to Reference Lab**

Total billed tests sent out to another lab (reference lab) for processing. According to CMS, the definition of a reference lab is a Medicare-enrolled laboratory that receives a specimen from another, referring laboratory for testing and that actually performs the test.

This is a component of Total Billed Tests.

**Blood Draws Performed by Lab**

Total number of blood draws performed by Lab for this reporting period.

This is a subset of Blood Draws Performed.

**Chemistry Billed Tests Performed**

Total billed tests performed under the chemistry classification. Chemistry tests are typically billed under the CPT code range 80047-80439 and 82000-84999. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

**Complete Blood Count (CBC) Tests Performed**

Total billed tests performed for Complete Blood Count (CBC) tests, including automated only (CPT Code 85027) and automated differential WBC count (CPT code 85025) only. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.
This is a subset of Hematology Billed Tests.

**Days of Operation per Week**

Total number of days the department is open for operation during the week.

The max number that can be reported is 7.

**Flow Cytometry Tests Performed**

Total billed tests performed for Flow Cytometry tests, typically billed under CPT codes 88182-88189. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

**Hematology Billed Tests Performed**

Total billed tests performed under the hematology classification. Hematology tests are typically billed under the CPT code range 85000-85999. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

**HLA Tests Performed**

Total billed tests performed for Human leukocyte antigen (HLA) testing, typically billed under the CPT code range 81370-81383. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

**Hours of Operation per Week**

Total number of hours the department is open for operation during the week.

The maximum number that can be reported is 168.

**Immunology Billed Tests Performed**

Total billed tests performed under the immunology classification. Immunology tests are typically billed under the CPT code range 86000-86849. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.
Inpatient Billed Tests Performed

Total billed tests performed in support of facility inpatients. This includes only inpatient (i.e., patients who occupied or are expected to occupy a bed overnight) billed tests. Refer to the Laboratory Services Subset Worksheet found on the Support Page for assistance in reporting this value.

This is a subset of Total Billed Tests.

Inpatient Blood Draws Performed by Lab

Total number of blood draws performed on inpatients by Lab staff during the reporting period.

This is a subset of Blood Draws Performed by Lab

Lab Analyzers

Total number of Lab Analysis Machines this department has in operation. A Lab Analysis Machine is a lab machine/instrument that provides automated lab results.

Microbiology Billed Tests

Total billed tests performed in a microbiology setting. Microbiology tests are tests used to identify microorganisms and typically are billed under the CPT code range 87000-87899. Refer to the Laboratory Services Subset Worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

Non Hospital Patient Billed Tests

Total billed tests performed on non-hospital patient specimens. According to CMS, a "non-patient" is defined as a person that is neither an inpatient nor an outpatient of a hospital, but that has a specimen that is submitted for analysis to a hospital and the person is not physically present at the hospital. (All hospitals bill non-patient lab tests on TOB 14X)

Number of Remote Testing Laboratories

Total discrete satellite testing laboratories located away from the main laboratory, open eight or more hours per day, and staffed with department personnel. This includes any satellite testing laboratory within or outside the facility (more than 100 yards from the main laboratory) staffed by division personnel and open eight or more hours per day.
**Point of Care Billed Tests**

Total CPT codes billed by the patient billing system(s) for Point of Care Billed tests. Point of Care testing (POCT) defined as testing performed at the patient's side. The testing site is usually close to the patient such as at the bedside, ambulatory clinic, nursing unit, emergency room, operating room, or wherever medical care may be necessary. A physician, nurse, or other health care professional attending the patient obtains the specimen, performs the analysis, and records the test result. Refer to the Laboratory Services Subset Worksheet found on the Support Page for assistance with reporting this value.

This is a component of Total Billed Tests.

**Point of Care Billed Tests Not Performed by Lab Staff**

Total CPT codes billed by the patient billing system(s) for Point of Care Billed tests performed by staff in another department. Point of Care testing (POCT) is defined as testing performed at the patient's side. The testing site is usually close to the patient such as at the bedside, ambulatory clinic, nursing unit, emergency room, operating room or wherever medical care may be necessary. A physician, nurse, or other health care professional attending the patient obtains the specimen, performs the analysis, and records the test result. Refer to the department workload worksheet found on the Support Page for assistance with reporting this value.

This is a subset of Point of Care Billed Tests.

**Point of Care Testing Analyzers Supported**

Total number of Point of Care Testing analyzers supported by the department. Point of Care Testing analyzers allows the analysis of samples or specimens to be performed close to the patient such as at the bedside, ambulatory clinic, nursing unit, emergency room, operating room, or wherever medical care may be necessary.

**Point of Care Testing Sites Supported**

Total number of Point of Care Testing sites supported by the department. Point of Care testing (POCT) is defined as testing performed at the patient's side. The testing site is usually close to the patient such as at the bedside, ambulatory clinic, nursing unit, emergency room, operating room, or wherever medical care may be necessary.

**Specimen Draw Stations Staffed by Lab**

Total discrete specimen draw stations, open eight or more hours per day, and staffed with department personnel. This includes any draw station within or outside the facility (more than 100 yards from the main laboratory) staffed by division personnel.

**Total Billed Tests**

Total CPT codes billed by the patient billing system(s) for tests, including billed tests performed on units of blood and billed tests sent to reference labs. Exclude STAT fees, phlebotomy charges, and blood/blood product handling fees. Automated multichannel test panels should be given a count of 1. Refer to the Laboratory Services Subset Worksheet found on the Support Page for assistance in reporting this value.
Total Blood Draws Performed
Total number of blood draws performed by both Lab and Non Lab staff for the reporting period.

Total Donor Units Drawn
Total number of donor units of blood drawn by Lab staff during the reporting period.

Unbundled Tests
Total count of tests as reflected on the laboratory's revenue/usage report. Count each CPT code separately, i.e., the tests listed within each panel should be counted separately.

Units of blood or blood products purchased
Total number of blood units or blood product units purchased by this department for the reporting period.

Laboratory Services: Clinical Operations Department Hours Elements

Paid Hours: Contract Labor
Total contract and registry staff hours paid by the department. Exclude contract hours for physicians providing clinical services, if applicable. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

Paid Hours: Physician Provider
Total hours paid to physician providers and other advanced practitioners on the payroll who provide clinical services. Include licensed physicians, nurse practitioners and CRNAs who work as advanced practitioners, other advanced practitioners or professionals and physicians in training. Include only physicians providers, advanced practitioners and physicians in training on the facility payroll who spend 80% their time in clinical or patient care activities such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient or outpatient medications ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

This is a subset of Paid Hours: Staff.

Paid Hours: Staff
Total hours paid. Include regular, premium, and paid time off hours. Exclude on call or standby time.
Worked Hours: Management

Total hours worked by management and supervisory staff with responsibility for operations and
departmental budgets (i.e. Senior Executives, Directors, Managers, and Supervisors). Include regular
hours and actual premium and overtime hours worked. Exclude on call or stand by hours.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Support Staff

Total hours worked by personnel not included in other skill mix categories. This includes clerical and
administrative support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Other Technical

Total worked hours by lab technicians or lab assistants involved in the analytic phase of testing only. Do
not include hours for technologists, lab scientists, phlebotomists or support staff.

This is a subset of Worked Hours: Staff.

Worked Hours: Overtime

Represents the sum of non physician worked hours that are paid on an overtime basis (hours worked
over the employee’s normal work schedule). Hours worked on an overtime basis while attending training
or seminars would be included. Exclude premium hours (i.e., work 36 hours but get paid for 40 hours) or
premiums for holiday pay or other shifts. The value should match what is reported to the U.S. Department
of Labor under the Fair Labor Standards Act (FLSA) Section 3(s)(1)(B).

This is a subset of Worked Hours: Staff.

Worked Hours: Phlebotomist

Total hours worked by Phlebotomists.

This is a subset of Worked Hours: Staff.

Worked Hours: Physician Provider

Represents hours worked by physicians and other advanced practitioners on the payroll who provide
clinical services. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work
as advanced practitioners, and other advanced practitioners. Include only physicians and advanced
practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities
such as but not limited to ADT orders, ordering and performing referrals or consults, prescribing inpatient
or outpatient medication, ordering and interpreting tests. Also include medical directors that provide
clinical expertise and guidance for a unit or service line.
This is a subset of Worked Hours: Staff.

**Worked Hours: RN**
Total hours worked by RN (Registered Nurse) including but not limited to time spent providing patient care services.

This is a subset of Worked Hours: Staff.

**Worked Hours: Staff**
Total hours worked, include regular and overtime hours. Exclude on call stand by hours.

**Worked Hours: Technologist**
Total hours worked by Registered Medical Technologists or equivalent. Exclude management / supervisors.

This is a subset of Worked Hours: Staff.

**Worked Hours: Transcriptionist**
Total hours worked by medical transcriptionist staff.

This is a subset of Worked Hours: Staff.

**Laboratory Services: Clinical Operations Expense Elements**

**Blood and Immune System Modifiers Expense**
Total Darbepotin, Epoetin, Filgrastim, Pegfilgrastim, Sargramostim, Adalimumab, Alfacept, Aldesleukine, Omalizumab, Interferons all variations, Anticoagulants, Thrombolytic, Hemophilia and Hemophilia factor expense.

This is a subset of Medical Supply Expense.

**Contract Service Expense**
Total expense for services (e.g. collections, transcription) provided by outside contractors.

**Equipment Repair And Maintenance Expense**
Total expense to repair and maintain major equipment charged to this department. Include fee-for-service labor and parts expense, service contract costs, and other related costs.
Laboratory Services

This is a subset of Other Direct Operating Expense.

**Labor Expense**

Total expense for labor resources that corresponds to Paid Hours: Staff and Paid Hours: Contract Labor. Include on call or standby expense. Exclude benefits such as FICA.

**Labor Expense: Physician Provider**

Total payroll expense corresponding to hours paid paid for physicians and advanced practitioners. Include licensed physicians, interns, residents, nurse practitioners and CRNAs who work as advance practitioners and other advanced practitioners. Include physicians and advanced practitioners on the facility payroll who spend 80% or more of their time in clinical or patient care activities such as but not limited to: ADT orders, ordering and performing referrals or consultations, prescribing inpatient or outpatient medications and ordering and interpreting tests. Also include medical directors that provide clinical expertise and guidance for a unit or service line. Do not include physicians who are paid on a contractual basis for providing professional services. Contract expense for physician and advance practitioners should be reported in the physician provider professional fee expense element. This is a mandatory data element. If you have reported physician provider hours on this department, you must report the corresponding labor expense here, otherwise enter zero (0).

This is a subset of Labor Expense.

**Medical Supply Expense**

Total expense for stocked and non-stocked medical supplies. Include all non-capitalized medical and or surgical supplies and pharmaceuticals.

This is a subset of Other Direct Operating Expense.

**Non Medical Supply Expense**

Total expense for the department non-medical operating supplies, e.g. office supplies and non-capitalized equipment.

This is a subset of Other Direct Operating Expense.

**Operating Lease Expense**

Total expense for operating leases charged to this department. This includes non-capitalized lease expense for equipment rentals.

This is a subset of Other Direct Operating Expense.
**Other Direct Operating Expense**

Total other direct operating expense for professional fees, department supplies, equipment rental fees and operating lease expenses, dues, travel, small (non-capitalized) equipment, etc. Exclude depreciation, building rent expense, capitalized lease costs.

**Overtime Salary Expense**

Total expense for overtime hours accrued by department staff. Include expense for all overtime hours for non-exempt employees paid at a premium rate. Include expense for incidental overtime and call-back time; exclude expense for on-call time.

This is a subset of Labor Expense.

**Physician Provider Professional Fee Expense**

Total contract expense for physicians/providers and physician groups which provide professional services to the department. Include licensed physicians, interns and residents, nurse practitioners who work as physician extenders, and other physician extenders or professionals who bill on a CMS 1500 Form. This is a mandatory field. You must enter a value of zero (0) or greater for report processing.

**Purchased Blood and Blood Products Expense**

Report the sum of purchased blood and blood products, including aphaeresis and autologous transfusions. Do not include hemophilia factor expense.

This is a subset of Medical Supply Expense.

**Referral Testing Service Expense**

Total expense for outside laboratories for testing services not performed on site.

This is a subset of Other Direct Operating Expense.

**Laboratory Services: Clinical Operations Mandatory Elements**

The following data elements are mandatory for this department:

- Inpatient Billed Tests Performed
- Labor Expense
- Labor Expense: Physician Provider
- Non Medical Supply Expense
• Other Direct Operating Expense
• Paid Hours: Contract Labor
• Paid Hours: Physician Provider
• Paid Hours: Staff
• Physician Provider Professional Fee Expense
• Total Billed Tests
• Worked Hours: Physician Provider
• Worked Hours: Staff

**Laboratory Services: Clinical Operations Normalizations**

Include the hours, costs and volumes (where applicable) associated with the

• Bench teaching of department employees
• Personnel performing the functions of the department’s day to day managerial operations (Laboratory)
